Science of Music Display in SEL

Come check out the Science of Music Display on the third floor of SEL. There are books to check out and you can also learn about the media on which music has been recorded over the years. Information about the display and links to ebooks and web pages are available [online](#).

Library Spotlight: [John A. Prior Health Sciences Library](#)

Need assistance with information related to the health sciences? Are you working on an interdisciplinary topic with aspects related to medicine? There is a place for you to get assistance with topics in or relevant to the health sciences!

The [John A. Prior Health Sciences Library](#) provides health information for the needs of educators, clinicians, researchers, staff, and students of The Ohio State University and its affiliates.

More information about the library is [available online](#).

Resources Spotlight

[ProQuest Dissertations and Theses](#)

Search for dissertations from U.S. & select foreign institutions. All dissertations after 1997 have full-text PDF access.

[Scirus](#)

A comprehensive scientific research tool indexing over 450 million scientific items in journals, scientists' homepages, courseware, pre-print server material, patents and institutional repository and website information.

Did You Know?

net.TUTOR

[net.TUTOR](#) is an online resource with tutorials on using different types of online tools as well as research techniques and tips on such topics as searching the web, evaluating web sites, using specialized databases, searching the catalog, and more.

A selection of short movies are also available on various topics so you can see things in action

Instructors can assign tutorials and receive reports of student quiz scores. Feel free to take a look at the resources available in [net.TUTOR](#).

RefWorks allows you to:

- **Create a personal database online** – Store an unlimited number of records accessible from any computer linked to the Internet. No downloading software or installation required.
- **Import references automatically from multiple databases, library catalogs and the web** - Search results from a wide variety of databases can be automatically exported into RefWorks with the click of a button.
- **Organize references** - Sort and file references quickly and easily using folders, duplicate search and author, keyword and periodical indexes.
- **Format bibliographies and manuscripts in seconds** - Save hours of typing time and decreasing number of errors in creating tedious bibliographies. Easily make changes to your paper and reformat in seconds.

Who uses RefWorks?

- **Faculty** - RefWorks not only provides research tools for faculty, it also allows them to provide read-only access for class-related bibliographies.
- **Researchers** - RefWorks is the perfect tool for storing a personal database of research, sharing research with colleagues, and downloading bibliographies in multiple formats based on the needs of specific journals.
- **Students** - RefWorks provides folders to store information by class. AccuCite helps make sure that you have all the information you need to generate an accurate, concise bibliography. RefWorks is ideal for dissertations and theses.

RefWorks is as easy as 1, 2, 3...

1. Build your database with wide-ranging compatibility

- **Import references** directly from online databases, library catalogs, web pages or saved text files
- **Import records** from other bibliographic management programs
- **Add references** manually

2. Manage your references

- **Organize references** with RefWorks' easy-to-use folder system
- **Easily sort and edit**
- **Search and browse** references for quick data retrieval

3. Generate bibliographies and footnotes

- **WriteNCite** - while writing your paper, find your RefWorks citations in Word and integrate them into your bibliography
- **Choose from over 1600 output styles** - switch output styles at the click of a button, or create your own
- **AccuCite** provides an online guide to style formatting instantly as you enter the data

Accessing RefWorks

<http://www.refworks.com/refworks>

- If you are new to RefWorks, click the link "Sign up for an Individual Account"
- We recommend using your OSU name.# for your login name (easy to remember!)
- Don't forget to choose your user type and area of focus from the pull-down menus at the bottom of the form before you click "Register."
