

## ***Did you know?***

The **Accounting Hall of Fame** community includes a collection of the Institute on Accounting's Conference Proceedings. The Proceedings of the Twenty-Fifth Annual Institute on Accounting has been viewed more than 965 times since it was archived on June 29, 2007.

The **College of Pharmacy community** includes the History of Pharmacy collection. One item from that collection, *The Pharmacopoeia of the United States of America, 1820*, was viewed more than 1803 times since it was archived on September 5, 2007.

The **Critical Index of Uruguayan Theater** collects the archive produced between 1976 and 1980 by Graciela Míguez (1949-2000) and Abril Trigo. It consists of three interconnected parts: an inventory of 613 authors and playwrights, an index of 2941 theatrical plays attributed to them, and 858 critical-analytical reviews plays. The index will be archived as a searchable website in the KB. The KB item for the website will contain 2893 files "behind the scenes". This represents the largest number of files (bitstreams) to date that will be added to an item in the KB.

The **Digital Stories community** features short multi-media presentations created by faculty and staff campus-wide. The digital stories by library faculty, Karen Diaz (Digital Storytelling: Stories from Text to Video) and Anne Fields (The Oxford English Dictionary) archived on July 20, 2007 have been viewed more than 1723 times.

The **East Asian Online Books collections** in the East Asian Studies Center serve students, faculty, and the public through free online publication of out-of-print materials that have played a significant role in the development of the field or that can significantly contribute to East Asian Studies education. Volumes 1 and 2 of the series, *History of later Chinese painting, 1279-1950*, have been viewed more than 4964 times since they were archived on October 11, 2006.

The **Edward F. Hayes Graduate Research Forum** collections archive the winning papers and posters from the annual forums. Brooke McMichael's paper, *Tropomyosin 4 Regulates Osteoclast Function through Actin Adhesion Structures*, has been viewed more than 726 times since it was archived on October 18, 2007.

**Empirical Musicology Review** is an international journal published four times per year by the Ohio State University Library and is distributed by the OSU Knowledge Bank. Some of the original research articles submitted to the KB also include music files that are cited within the paper they are submitted with. The journal also includes commentaries, editorials, book reviews, interviews, letters and data sets. One of the commentaries, *Commentary on William Thomson's "Pitch Frames as Melodic Archetypes"* by David Temperley, has been viewed more than 9745 times since it was archived on September 14, 2006.

The **Honors Theses community** currently includes 722 undergraduate OSU Honors Theses. Ahmed Fasih's 2006 thesis submission, *Modeling and Fault Diagnosis of Automotive Lead-Acid Batteries*, archived June 5, 2006, was viewed more than 48,256 times in the last two years.

The **John Glenn Institute for Public Service** and Public Policy and the School of Public Policy and Management community includes a collection for e-books. One of the books archived July 21, 2005, *E-government and Planning: Key Citizen Participation Issues and Applications*, edited by Jennifer Evans-Cowley and Maria Manta Conroy, has been viewed more than 2339 times in the last two years.

John H. Herrick compiled building documentation for every known structure at The Ohio State University from the inception of the University in the 1870s through 1988. The **John H. Herrick Archives collection** in the KB contains his documents. One document, Starling Loving Hall, has been viewed more than 920 times since it was archived on February 27, 2007.

A very early collection for the KB, one of the items archived July 11, 2003 in the **Learning Objects Research Collection**, Project Management of your learning community by Catherine Gyn, was viewed more than 3047 times in the last two years.

The **Mershon Center** is archiving their events, publications, and Web site material from the last 6 years. The Mershon Center hosts about 50 speakers and 10 conferences a year. One Conference, 2007's What is War?, has been viewed more than 4886 times since it was archived in the KB on December 22, 2007. One particular video session from the Conference, The Discussion with Ethicists, has been viewed at least 2132 times.

The **National Symposium on Doctoral Research in Social Work** showcases dissertation research of recent PhD and DSW graduates from across the United States and Canada. The community archives the papers presented on dissertation research. Mary Ann Clute's paper, A Grounded Theory Study of the Bereavement Experience for Adults with Developmental Disabilities Following the Death of a Parent or Loved One: Perceptions of Bereavement Counselors, has been viewed more than 1218 times since it was archived on July 31, 2007.

The **Ohio Journal of Science** is the KB's largest journal with all past issues dating from Volume 1, Issue 1 (November, 1900) archived. The heavily used OJS collections currently contain 6504 items. One article from the first issue in 1900, Dragonflies Taken in a Week by Raymond C. Osburn and James S. Hine, has been viewed more than 76,349 times since it was archived on September 9, 2005.

The **Ohio State University Press Publications** collection includes titles published by the Press since its inception and currently not in a traditional paper edition. One of the titles, Legend of Romeo and Juliet by Olin H. Moore, has been viewed more than 1731 times since it was archived on May 29, 2007.

The **Olentangy River Wetland Research Park** was one of the KB's first communities. One of their submissions archived June 7, 2005, Pre-restoration studies of the Upper Big Darby Watershed: Preliminary results (1st year - 2000), has been viewed more than 733 times in the last two years.

The **OSU International Symposium on Molecular Spectroscopy** is KB's largest community with 17,272 records for abstracts dating from the first Symposium in 1946. The chemical formulas and spectroscopic symbols appearing in titles and abstracts are encoded with TeX to facilitate searching. In recent years the items include complete presentations from authors who have so authorized. One PowerPoint from the 2005 Symposium, Application of Cascaded Frequency Multiplication to Molecular Spectroscopy by Brian Drouin, Frank W. Maiwald, and John C. Pearson was viewed more than 2746 times in the last year.

The **Outreach and Engagement community** shares the work of scholars and practitioners who involve university and community partners in outreach and engagement work and has archived conferences and lectures. One James F. Patterson Land-Grant University Lecture text, Redefining the Land-Grant Mission: Semantics or Substance? by Art Dunning has been viewed more than 4948 times since it was archived on October 10, 2007.

The **School of Earth Sciences community** includes publications, reports, poster presentations, and senior theses. One publication, Geometric Reference Systems in Geodesy by Christopher Jekeli, has been viewed more than 4932 times since it was archived on December 22, 2006.

The **University Archives community** includes a collection for The Ohio State University Oral History Project. The purpose of the collection is to document the history of The Ohio State University by interviewing important faculty members and administrators. One of the transcripts in the collection, [the] Interview [with Raymond S. Bugno], has been viewed more than 4225 times since it was archived on October 23, 2006.
