

Student Senate Prexy Candidates Give Platforms

By Kay Wagner

I believe that Senate must be more than a compilation of student complaints. Instead, it should lead student opinion and direct it through proper channels.

It should represent the student view when there is a conflict between administrative and student ideas. A current example would be the ROTC issue. If Senate favors the abolition of compulsory ROTC, the Senate president should carry this through to Council on Student Affairs and to higher offices if necessary.

At present there are many errors in the structure of student government. For instance, Senators should be elected on a geographical basis to give more adequate representation.

I believe that Senate's goals must be educationally oriented so that student government will promote intellectual achievement as well as develop leadership. Senate must strive to increase student awareness on the international and national level as well as in the campus community.

If elected, I will try to achieve these goals.

By Bill Snyder

My immediate objectives are to get more top students working in the Student Senate and to organize it so that it can function more effectively.

My experience with campus elections on the Representation Committee, my training in my major, Personnel Management, and my work on the Administration Committee of the Senate Constitutional Convention, qualify me for office.

The Senate should present a mature opinion on all issues and projects.

Problems to work on this year are: the increasing of the educational opportunities and standards at Ohio State; the bettering of student attitude towards education; and the development of better communications with the administration.

Compulsory ROTC is an issue right now. In Advanced AFROTC, I have heard both sides. There are many factors which should be approached objectively. This is being done in the Senate now.

The Senate's mission is to better themselves and their educational institution. Such will be my goals as its leader.

Well Known Educator Dies; Brown Services Wednesday

Funeral services will be held Wednesday at 10:30 a.m. in the St. John's Episcopal Church, Worthington, for Professor Aubrey I. Brown.

Prof. Brown, 70, of 169 Richards Rd., professor emeritus of mechanical engineering at Ohio State, died Sunday in Mt. Carmel Hospital.

A 1912 GRADUATE of Ohio State, he joined the teaching staff in 1913 and was appointed chairman of the department of mechanical engineering in 1946.

He was a specialist in research and development of heating, air conditioning equipment.

Prof. Brown was the co-author of a textbook, "Introduction to Heat Transfer," which has been adopted by many colleges in this country and abroad.

PROF. BROWN was born in 1888 at Wolfville, Nova Scotia, and attended Acadia University there before coming to Ohio State.

He is survived by his wife, Sybil; his daughter, Mrs. J. P. Conques; two sisters, Mrs. George C. Cutten, and Mrs. Richard S. Esten, and three grandchildren.

Brown

Opera Billed For Two Runs

Peroglesi's "Music Master" is slated for two showings in the Ohio State Union's Conference Theater, tomorrow and Friday, Feb. 27, at 8 p.m.

Music director is Theron McClure, assistant prof. of music, and John Morrison of WOSU-TV is stage director.

Singing the leading roles are Anita Hitchcock, Ed-1, soprano, John Cobes, Ed-1, tenor, and Frank Sinicola, WOSU-TV baritone.

The opera is in the process of being kineoscoped at WOSU-TV. It will be run on the Education Network and used in music opera classes here and on other campuses.

Wednesday and Friday's programs are sponsored jointly by the Union Activities and the School of Music.

Moderation Sought for Integration

BILOXI, Miss., — (UPI) — The chairman of the National Governors Conference proposed today that original jurisdiction in school desegregation cases be taken from the courts and given to federal commissions.

Gov. Leroy Collins of Florida said his "moderate" approach to the race problem would carry out desegregation in accordance with the Supreme Court ruling but would safeguard against "use of force" in speeding integration.

He drew up the plan in answer to requests that he be specific and come up with a concrete proposal in his plea for Federal and state cooperation in race relations.

Collins made the announcement at a meeting of the executive committee of the Governors' Conference.

Solon Attacks Capital Punishment

A State House Representative speaking to the Phi Kappa fraternity said last night that capital punishment serves only one purpose — as an outlet for the public's emotions.

Charles Kurfess (R. Wood), a 1957 graduate of Ohio State's Law School, told fraternity members that Ohio's penal system is presently aimed at criminal rehabilitation, and killing a man does not rehabilitate him.

There will be several bills introduced to the house this session to abolish capital punishment, and Kurfess feels that one will pass.

"SINCE I DON'T believe either I or 8 million Ohioans have the

Week's Activities Illustrate Fraternity Ideas and Ideals

The first of the events for the 1959 Greek Week at Ohio State began last night with the eliminations for the Pledge Princess Contest. The following girls are on the court:

Lois Bright, A-1, Nancy Rupp, Ed-1, Rita Di Paolo, H Ec-1, Janice Gray, A-2, Merry Maidlow, Ed-1.

One of these girls will be named* as Pledge Princess at the Pledge Princess Prom, on March 2.

Theme for the week is "Fraternity Ideas and Ideals."

Preliminary eliminations for the inter-fraternity sing will be held at Mershon Auditorium on Wednesday at 7 p.m. The inter-fraternity Sing finals will be held at Mershon Sunday at 2:30 p.m.

THE FINALISTS for the King and Queen contest will be chosen at 7:30 Thursday night at the Union Conference Theater. The reigning king and queen will be announced at the Jazz Show at Mershon Friday night.

Highlighting the Jazz Show will

be Dave Brubeck's Quartet and the Billy Williams Quartet. The show starts at 8:00 Friday evening at Mershon and tickets are available at the Mershon ticket office.

SATURDAY'S EVENTS include a luncheon for the national and local officers of the fraternities and sororities at the Ohio Union and workshops immediately following the luncheons.

Faculty exchange dinners will be held at all the sorority and fraternity houses Monday evening, with fireside chats afterwards.

THE FINAL EVENT of the 1959 Greek Week will be the Pledge Princess Prom Monday evening at 7:30.

Cousins Will Lecture Here

World-famous author, lecturer and editor of the Saturday Review of Literature, Norman Cousins will be the guest speaker in tonight's Celebrity Series lecture at Mershon Auditorium at 8 p.m.

Cousins was to lecture on the "Coming Showdown in Europe and Asia," but recent word from Robert Horton, director of the Mershon Auditorium, disclosed that the subject would now be "World Report — 1959."

Activity Joiners Gain Individual Recognition

"Name Withheld by Request" in today's letters column has aimed what he terms, valid criticisms, at joiners of fraternities, Student Senate, college councils and Council on Student Affairs.

He says that the fraternity joiners are insecure individuals who are afraid they lack the potentialities and force of personality to gain recognition except as part of a group. He has not explained how many fraternity and sorority members, through their individual force of personality, are able to bring recognition to the group, instead of the group bringing recognition to them.

Being associated with a top fraternity may readily guarantee a "sharp girl" for a Saturday night party. But it will not guarantee the member a certain point hour, presidency or chairmanship of a top campus activity. These achievements the person must win on his own merits.

It cannot be denied that some persons join a fraternity because they feel it is the thing to do. But these people are not always "active" members. They can be classed in the "hangers on" group.

Many of the top campus leaders today are members of a fraternity, yet many are independent. Both types are capable of leadership and successful in achieving it. It is true that fraternities stress activities, and many members join committees and organizations just because it is their fraternity's desire. Sometimes these people are not the best committee workers, but neither are some "independent" members. Still, it is too broad a generalization to say that all fraternity members are insecure people who join groups for the recognition it will give them.

The selected members of college councils and CSA belong, not because of the fraternity with which they are associated, but because of their point hours, individual leadership potentiality and active interest in the group. These people are not respected because they belong to these groups; they are respected for their leadership attributes.

Naturally, it is true that a "Big Man on Campus" will have his picture in the Makio several times. But it is almost certain that he has not joined groups just so he can brag about the innumerable times he has his picture in the Makio. To a degree, the number of times your picture appears in the Makio is a measure of individual success, but only the person concerned can accurately determine how much success these pictures account for.

The individual who participates in activities, whether as a fraternity member, or as an independent, can achieve individual recognition if this is his desire. It's a decision that only the individual concerned can make.

Editor's Mail Bag . . .

Fraternities Get Criticism

Reader Attacks Campus Activity Life . . .

To the Editor:

It is surprising to me that since the idea of conformity has been kicked around so often in the LANTERN, that no one has supplied this concept to our fraternities. Surely the fraternities are often maligned by independents as masses of people, stripped of personality and concerned only with the "group" and its "functions." Is this a valid criticism and if so what type of people could be so inculcated?

IN GENERAL, it is a valid criticism and the "joiners" are insecure individuals who are afraid they lack the potentialities and force of personality to gain recognition except as part of the group.

The fraternity can demand enough of the member's time to indoctrinate him with its set of values and anyone who doubts that it achieves this goal need only to observe two fraternity brothers in no matter how large a group of independents and it will soon be apparent that they cannot talk more than 10 minutes on any subject without becoming distressed and withdrawing to themselves to discuss the latest developments at the "house."

THE FRATERNITY joiner has come to college with the preconceived notion that he will be "looked down upon" if he doesn't get in a good fraternity. Now surely no persons could feel this

way who had sufficient confidence in his own potentialities. He is afraid that he won't be able to date "sharp" girls without the aid of his fraternity brothers, that he won't be able to have a good time except at a fraternity sponsored "function."

This is not the only group. The individual soon becomes aware that people who are on the Student Senate, College Council, CSA, etc., are looked up to by some, no doubt lesser, people and immediately want to join these groups that they too may be "looked up to."

THIS IS again a manifestation of the basic insecurity of these individuals. It is worth noting that fraternities urge members to join such groups and are quite proud of the number of such positions they hold.

I personally would feel degraded indeed if it were demonstrated to me that the only way I could gain the respect of my contemporaries would be to join such groups.

THESE SAME joiners will also join anything on the campus that will get their picture in the Makio one more time (as if by any conceivable stretch of even the most stupid, misguided imagination this is a measure of one's success in college); I am forced to wonder why people behave this way.

Is it because they are inordinately fond of gazing upon them-

selves in all their group glory? Or is it really because they think of the thousands of students who will see them many times (a fallacy) and therefore conclude that here is a "big man on campus," a guy that is worthwhile knowing?

Achievement is the only measure of anything worthwhile, and personal achievement is obviously better than any vicarious satisfaction one can derive from belonging to a group that has achieved something—so—for the truly secure, competent person, personal achievement will become the goal, and criteria, and joining will be avoided, except in those rare instances where only through the group can he accomplish the desired goal.

Name Withheld on Request.

Peanuts . . .

To the Editor:

It seems strange that a newspaper such as the LANTERN, which is supposed to reflect the students' tastes, should print such an unhumorous cartoon series as "Peanuts."

AT FIRST I assumed that "Peanuts" was being published by popular demand, but after talking to all my friends, and what I consider to be a fair sampling of other students from various colleges, I find that the majority, like myself, do not enjoy the cartoon.

It seems to me that the people who say they like "Peanuts" are of the pseudo-intellectual type, i.e., persons who do not have the intelligence to differ from the norm but attempt to do so, just to make others believe they have a mind of their own.

MAYBE THESE people like to identify themselves with the seemingly intellectual characters in the strip to show that they are free from authority, self-sufficient, and possess cute little attributes which set them apart from the rest of humanity.

"Peanuts" is definitely an off-beat strip which accounts for its minority acceptance. As for the strip itself, I find the bland attempt at humor dull and meaningless, and the way the cartoonist runs the material in the ground is ridiculous. I believe a survey of some type should be taken to show what the readers in the LANTERN really want in the way of humor.

Name Withheld on Request.

Indiana University Leads Category in Alumni Gifts

WASHINGTON — (UPI)—U. S. colleges and universities received a record \$129,442,980 in gifts from their alumni during the 1957-58 fiscal year, the American Alumni Council has reported.

The Council said alumni giving, on which higher education is increasingly dependent for financial support, was up 29 per cent over the previous year.

BEQUESTS, capital gifts and major endowments were included in the grand total. The Council called particular attention to the \$38,799,845 portion of the total which represented contributions made in response to annual alumni fund solicitations.

The number of contributors to these funds grew from 1,016,484 in the previous year to 1,211,395. The latter figure represented 22.5 per cent of the alumni who were solicited. The average gift was \$32.03.

HARVARD LED all other institutions in total gifts to its alumni fund—\$2,010,247. Yale placed second with \$1,793,872 and Princeton was third with \$1,162,196.

Dollar a Pound

BERLIN, Conn.—(UPI)—Mrs. Delores R. Harrison, whose appearance in court on a traffic charge was delayed by the arrival of her baby, was asked by the judge how much the child weighed. Seven pounds, said Mrs. Harrison proudly. "I fine you \$7," said the judge.

Vassar led women's colleges with \$835,963, while Indiana University led the tax-supported universities with \$351,346.

Mount Holyoke College won top honors for "effectiveness" of solicitation. It received gifts from 74.2 per cent of the alumnae contacted in its annual appeal. Princeton was next with 71.8 per cent, followed by Dartmouth, 68.4 per cent.

Texas A.&M. College, which led tax-supported schools with a 48.9 per cent response from its alumni, was selected to receive the Council's first annual grand award for "Distinguished Achievement in Development of Alumni Support." The award carries a check for \$10,000, donated by U. S. Steel Corp.

OSU Educator Says Idea Men Are Most Important

Creative ideas, rather than weapons, will win out in world competition, according to Dr. Harold F. Harding of Ohio State.

He told a Creative Education Conference at Webber College, Babson Park, Fla.

"THE REAL RACE in this world of nuclear weapons is not the arms race or the missile race or the race for control of outer space. It is the brains race."

Dr. Harding is a brigadier general in the U. S. Army Reserve, a member of Ohio State's speech faculty, and acting director of the University's National Security Policy Seminar.

Dr. Harding declared that "in the war that hangs over our heads, the best ideas on weapons systems, on political bargaining, on economic aid, on the grand strategy—the best ideas on all these and many more crucial problems will ultimately win."

HE ADDED: "We must make sure that we can first match and then out-produce all others in the creation of the best ideas. Ideas are weapons."

Our competitor, he said, is the educational hierarchy of the Union of Soviet Socialist Republics.

"The Soviets seem to be striding forward; we are drifting along."

THE OHIO STATE educator said that academic people at present are dealing with the subject of creativity in a hit-or-miss fashion.

"To be very blunt," he said, "we are all in desperate need of using our heads to far better advantage."

"We must outstrip the Soviets in discovering, in nurturing, and then educating the talented young men and women—those with the best minds and those who show the best promise of being productive scholars and scientists."

IN DR. HARDING'S opinion, "all this makes clear that we must continually revise upward our acceptance, our appreciation, our recognition by rank, salary, and other rewards the genuinely talented and creative members of our society."

"We may even have to knock off their pedestals such heroes and heroines as professional football players, TV cowboys, rock 'n roll crooners, and bosomy movie queens."

College and university presidents, deans and administrators are the persons, he said, who need be more aware of America's need for a creative trend in education.

"UNFORTUNATELY in many colleges today the demands for a high degree of literacy and of educational statesmanship among administrators are simply not being met," Dr. Harding declared.

Although military and national security problems are paramount today, the educator said, "the problem of providing better education with emphasis on creative problem solving for all who can absorb it is far more important on creative problem solving for all who can absorb it is far more important."

Detroit Man Lectures on Architecture

By Bud Dawson

Harley Melzian, vice-president of W. B. Ford Associates of Detroit, explored the new relationship between architect and designer at a lecture in the Ohio Conference Theater.

Speaking before a group of architectural students, faculty members, and associates of the American Institute of Design, Melzian discussed the growing need for designers, an outgrowth of public demand for "an attractively designed product which will always outsell the homely, unattractive item."

THE MANUFACTURER'S consent to this demand has crystalized the designer's art in products, he added.

Melzian, co-founder of the W. B. Ford Design Corp., has worked closely with architects on such buildings as the Ford Central Staff Office Building, Dearborn, Mich., The National Bank of Detroit, and the new State Department Building in Washington, D. C.

THOUGH DEFINITELY not a new field, design, in the last generation has found its place in the "custom designed" products for today's market, Melzian pointed out. "The specialized fields of architecture and design can collaborate to create an end-result which will be a real contribution to our society."

Melzian, working closely with Harry Phillian, professor of architecture at Ohio State, has assisted in the development of "A Community Activities Center," a project currently being designed by fourth-year architectural students at Ohio State.

ZEN WHAT?

TOKYO—(UPI)—A 21-year-old factory worker ran down and killed two persons, seriously injured a third, smashed through two railway gates and plowed into a shop before police arrested him in a stolen truck.

When police questioned him he ignored them and chanted Buddhist sutras.

LOW-COST STUDENT TOURS TO EUROPE BY JET CLIPPER

As low as \$774 from New York . . . 40 days

Now Pan Am is offering a fabulous series of *special student tours* that feature the new Boeing 707 Jet Clippers*—world's fastest airliners—between New York and Europe. No extra fare for the extra speed and comfort.

Of all the areas of the world, Europe is most suited to the type of unusual, adventurous travel you want. There are literally *dozens* of tours for you to choose from, many offering academic credits. And what's more, there's plenty of free time left for you to roam about on your own.

From Midwest and West Coast Cities, other direct Pan Am services are available on radar-equipped, Douglas-built "Super-7" Clippers.

Call your Travel Agent, Pan American, or send in the coupon below for full information. *Trade-Mark, Reg. U. S. Pat. Off.

Send to:
George Gardner, Educational Director
Pan American, Box 1908, N. Y. 17, N. Y.
Please send free *Pan Am Holiday #405* booklet on Special Student Tours to Europe.

HUSBANDS, ANYONE?

It has been alleged that coeds go to college for the sole purpose of finding husbands. This is, of course, an infamous canard, and I give fair warning that, small and spongy as I am, anybody who says such a dastardly thing when I am around had better be prepared for a sound thrashing!

Girls go to college for precisely the same reasons as men do: to broaden their horizons, to lengthen their vistas, to drink at the fount of wisdom. But if, by pure chance, while a girl is engaged in these meritorious pursuits, a likely looking husband should pop into view, why, what's wrong with that? Eh? What's wrong with that?

The question now arises, what should a girl look for in a husband? A great deal has been written on this subject. Some say character is most important, some say background, some say appearance, some say education. All are wrong.

The most important thing—bar none—in a husband is health. Though he be handsome as Apollo and rich as Croesus, what good is he if he just lies around all day accumulating bedsores?

The very first thing to do upon meeting a man is to make sure he is sound of wind and limb. Before he has a chance to sweet-talk you, slap a thermometer in his mouth, roll back his eyelids, yank out his tongue, rap his patella, palpate his thorax, ask him to straighten out a horseshoe with his teeth. If he fails these simple tests, phone for an ambulance and go on to the next prospect.

If, however, he turns out to be physically fit, proceed to the second most important requirement in a husband. I refer to a sense of humor.

A man who can't take a joke is a man to be avoided. There are several simple tests to find out whether your prospect can take a joke or not. You can, for example, slash his tires. Or burn his "Mad" comics. Or steal his switchblade. Or turn loose his pet raccoon. Or shave his head.

After each of these good-natured pranks, laugh gaily and shout "April Fool!" If he replies, "But this is February nineteenth," or something equally churlish, cross him off your list and give thanks you found out in time.

But if he laughs silverly and calls you "Little minx!" put him to the next test. Find out whether he is kindly.

The quickest way to ascertain his kindness is, of course, to look at the cigarette he smokes. Is it mild? Is it clement? Is it humane? Does it minister tenderly to the psyche? Does it coddle the synapses? Is it a good companion? Is it genial? Is it bright and friendly and full of dulcet pleasure from cockcrow till the heart of darkness?

Is it, in short, Philip Morris?

If Philip Morris it be, then clasp the man to your bosom with hoops of steel, for you may be sure that he is kindly as a summer breeze, kindly as a mother's kiss, kindly to his very marrow.

And now, having found a man who is kindly and healthy and blessed with a sense of humor, the only thing that remains is to make sure he will always earn a handsome living. That, fortunately, is easy. Just enroll him in engineering. © 1959, Max Shulman

For filter smokers the Philip Morris Company makes Marlboro, the cigarette with better "makin's." New improved filter and good rich flavor. Soft pack or flip-top box. A lot to like!

Buckeyes Upset Indiana 92-83

Sports Whirl . . .

N.I.T. Adds 7th Team; Thomas Signs

The seventh team has been selected for the National Invitational college basketball tournament to be played in New York next month.

The latest NIT entry is Providence College, a basketball power in New England with a 16-3 record. This is the first time Providence College has been invited to such a tournament.

THERE ARE five teams yet to be selected to fill out the tournament contenders. Other teams that have been selected are: Villanova, St. Bonaventure, NYU, St. John's (Brooklyn), Fordham and Oklahoma City.

POWER HITTER Frank Thomas has signed his 1959 contract with his new club, the Cincinnati Redlegs. The third baseman was a key man in a six player trade between

Cincinnati and Pittsburgh last month.

Thomas will begin workouts today at the Reds' camp in Tampa, Fla. The terms of the contract were not disclosed.

NOT TOO long ago pitcher Don Newcombe had to be hypnotized before he'd get into a plane so great was his fear of flying.

However today the situation has changed quite a bit. The Cincinnati hurler is now taking flying lessons and hopes some day to become a licensed pilot.

"JUST BETWEEN us," Newcombe confided, "I'm not hysterical about flying but I've got to be practical. The planes are here to stay and the ball clubs are going in for flying more and more. So I figured if I'm going to fly, why not know

more about it?"

GEORGE SISLER, batting coach for the Pittsburgh Pirates, claims the Pirate pitchers need instruction—in hitting. Sisler told his hurlers they might do well to follow the example of Milwaukee pitcher Warren Spahn.

According to Sisler, Spahn wins at least three games extra each year because of his hitting. He also pointed out that Spahn made 36 hits last year, one less than the entire output of the Pittsburgh staff.

FIREMEN, ALERTED by a new alarm system connected directly to the firehouse, rushed to Central Grammar School in Effingham, Ill. recently. They found a hot-shot basketball player had missed the backboard and set off the alarm.

By Sherry Dinan

A revenge driven Ohio State basketball team, still smarting from a 122-92 defeat at the hands of Indiana earlier in the season, jumped off to an early lead and held on to take a 92-83 upset win over the Hoosiers last night at Bloomington.

The Buckeyes rolled to a 34-26 halftime lead as they

hit 34 per cent of their first half field goal attempts. But, in the second period, the Hoosiers fought back and on several occasions pulled to within a single point of the Bucks.

OHIO STATE led by only 71-69 with about five minutes remaining, but at this point the Buckeye attack started moving again and Indiana dropped out of contention.

Larry Huston, the Buckeye co-captain, set the scoring pace as he dropped in a total of 26 points. Larry Siegfried added 20 counters on three field goals and 14 free throw conversions. Joe Roberts contributed 19, Jim Niehaus chipped in with 15, and Dick Furry tallied 10 as all five Ohio State starters hit in the double figures.

Walt Bellamy led the Hoosier scorers with 25 counters and Herb Lee added 16 to the Indiana total.

Ohio State's victory margin came at the free throw line as the Buckeyes converted 30 out of 36 attempts while Indiana garnered only 13 of 17. The Hoosiers outscored the Ohioans from the field as they flipped in 35 field goals as compared with Ohio State's 31.

LAST NIGHT'S victory gave Coach Fred Taylor's Buckeye quintet a record of nine wins against 10 losses on the season and a 5-6 mark in Big Ten play.

The loss dropped the Hoosiers out of a four-way tie for second

place in the Western Conference race and left Branch McCracken's squad with a 6-6 record in the Big Ten and 10-10 for the season.

THE HOOSIERS, last night, were anything but the record smashing crew that appeared in St. John Arena three weeks ago and

LARRY HUSTON
Ohio State Center

set a field goal accuracy record of 63.2 per cent.

The Buckeyes will return to action Saturday when they meet the Michigan Wolverines at St. John Arena. The Wolves will be out to duplicate an early season win over the Buckeyes.

Undefeated Hockey Team Downs Fenn

The Ohio State hockey team kept pace with the undefeated track and swimming squads Saturday winning their fifth straight game, 5-2.

The Buckeye pucksters retained their top position in the Ohio Intercollegiate Hockey Association with their victory over the Fenn Foxes at the Cleveland Arena.

John Kos came up with the hat trick, scoring three of the Bucks' five goals. Bob Simond and Bob Brown scored one goal apiece to round out the Buckeye scoring.

In losing Fenn missed a big opportunity to gain ground on the Buckeye squad.

this man is flying an airplane?*

Sure, he is!

Oh, not literally, of course. Actually, he's an expert in aircraft fire control and missile guidance systems. He's part of the research and engineering team of the U. S. Naval Avionics Facility at Indianapolis, Indiana.

His job offers him a new opportunity every day, and he likes it. He enjoys working in diversified programs that challenge his ingenuity. He is given assignments with significant responsibility. He appreciates discussing his problems with colleagues who are recognized authorities in their fields. He knows that he is gaining valuable tech-

nical experience with industry's finest professional tools at his disposal.

The Facility has immediate openings for engineers, electronic scientists, physicists and mathematicians. Personnel enjoy competitive salaries, unequalled opportunity for recognition and advancement, professional freedom, liberal vacations, accumulative sick leave, attractive retirement benefits, and advanced educational programs.

The Facility has major responsibility for the Navy's research and development programs in such areas as: airborne electro-mechanical and electronic systems, inertial components, radar components and computers, electronic counter-measures, heat transfer studies, and anti-submarine warfare systems.

Accomplishment of the impossible is tradition at NAFL. If you are a young man or woman with initiative and imagination who has talent to contribute to a dynamic Navy, consider Naval Avionics Facility Indianapolis as an outlet for your professional expression.

All positions will be filled in accordance with applicable Civil Service procedures.

We're Going To Be Green in '59' ... Woody

By Frank Evans, Sports Editor
Coach Woody Hayes kicked off the 1959 football season last night at an informal gathering at the Jai Lai Restaurant with members of this year's squad and said, "We're going to have a green team."

Hayes, who will begin his ninth year at Ohio State this spring, stated that positions are all open except for All-American Jim Houston's. But he added—"I would bench the captain too if I thought he wasn't doing the job."

MOST OF the 1958 gridiron members who compiled a 5-2-1 record were on hand for the dinner as were members of the freshman squad.

Hayes spent most of his 45 minute speech commenting on the coming spring practice and the Buckeye study table.

"We'll have four practices a week

for five weeks, starting April 6," Hayes said. "Our annual spring game will be May 9, but this year we plan to have two spring games."

ENCOURAGING words for the sophomores came next.

"We want to get these two game scrimmages in before the season opener against Duke. I plan to play more green youngsters in this year's schedule than we've ever played before. The scrimmages will give us a chance to look for our top youngsters. We'll test our Red No. 1 against Red No. 2 and then we'll know our starting eleven."

"Remember," Hayes said, "that we were considered green in 1955 and 1957 and both years we captured the title."

Another point evident in Hayes' speech was the emphasis on studying. "You have three weeks before examinations to get ready for your tests" he told the eager grid-ders. "Your main purpose at Ohio State is to get an education,"

Hayes warned.

"You are well aware the University is getting tougher, so try hard in your work."

ON HAND for the affair were the coaches of the squad as well as Clive Rush, recently back from Oklahoma, and outgoing Gene Fekete, who resigned last week to enter the insurance business.

Hayes awarded ties to players from the varsity and the freshman squad who had compiled the highest point hour ratio during the fall quarter.

DUANE WARNER, with a 3.83, led the varsity, while Gene Watkins was tops for the freshmen with a 3.3 average.

There are 42 days before the

In 1847 the first Ohio chapter of Phi Beta Kappa was established at Western Reserve Academy, Hudson, O. Its chapter was the first in the United States to designate scholarship as a basis for Phi Beta Kappa membership.

Buck's open practice. Hayes made it clear that "conditioning will be an important factor this year."

"It was evident last year after looking at the films, that our tackling was good but we were weak in lateral movement, so let's watch that weight," he explained.

HAYES ALSO pointed out that another coach would be hired presently, but did not mention who it might be.

The spring clinic this year will be on May 2 with coach Darrel Royal of the University of Texas as head speaker. Royal is a former quarterback for Oklahoma and last year coached Texas to a surprising win over the Sooners.

"The crop is green."

Mirror Of The Campus

Six senior members of the department of psychology will speak at a meeting of Psi Chi, national honorary psychology fraternity, tonight at 7:45 in the Conference Theater of the Ohio Union.

H. E. Burt, department chairman; H. B. English, S. L. Pressey, Samuel Renshaw and H. A. Toops will speak on "Future Trends in Psychology." The public is invited.

The School of Music will present Nancy Stillson, mezzo-contralto, and Shirley Jo Evans, soprano, in a graduation recital at 1 p.m. today in Hughes Hall Auditorium.

Petitions for member-at-large of the Ohio Union Board of Overseers are now available in Room 314, Ohio Union Activities Office. To be eligible, a student must have a 2.0 and be of sophomore standing.

Eli Sternberg, professor of mechanics at Brown University, will lecture at 4 p.m. Wednesday in the Ohio Union Conference Theater. His subject will be "Three-Dimensional Stress Concentration in the Theory of Elasticity."

At 8:30 p.m. tomorrow the Pittsburgh Symphony Orchestra will present a concert at Veterans Memorial. The well-known piano team of Luboshutz and Nemenoff will be heard in the Bohuslov Martinu piano concerto with orchestra.

Cincinnati is still a great meat distributing point; but during the Civil War era it was the largest pork packing center in the world, and was called "Porkopolis."

Greek Week Set To Start Friday

The kick-off event for the 1959 Greek Week will be the sorority open houses on Friday, Feb. 27 from 4 to 6 p.m. National officers have been invited to attend, not only to survey their individual affiliations, but to observe the entire Greek system at Ohio State.

Faculty are invited to attend so that they may become better acquainted with the fraternity system and its members.

The Greeks particularly welcome the attendance of independents at these open houses. Refreshments will be served.

THINKLISH

English: DRIVE-IN MOVIE ON A RAINY NIGHT

Thinklish translation: This drive-in's main feature: pictures matched to the weather. In January, it's *Snow White*; in July, *Hot Spell*. When it pours, of course, the program is all wet: *Singing in the Rain*, *Hatful of Rain* and *Rain-tree County*. On such nights, the only (Thinklish) word for this place is *damphitheater*! Better turn on your windshield wipers, light up a Lucky, and enjoy the honest taste of fine tobacco. Then *It's Always Fair Weather*!

TODAY ON CAMPUS

OHIO STATE OFFICIAL BULLETIN

This Bulletin will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for meetings. In the interest of efficiency and to avoid conflicts, the following announcement is made: No meetings or functions of any sort will be permitted or provided for either on the campus or in the University buildings unless authorized and announced in the Daily Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the office of the Executive Dean, Special Services, not later than three days, excluding Saturday and Sunday, before the date of publication. Notices of Monday's Bulletin must be received Wednesday morning.

VOL. XXXVIII No. 97
TUESDAY, FEB. 24, 1959

Tuesday, February 24:

Fraternity and Sorority Treasurers Class, 102 Derby Hall, 7 to 9 p.m.
University Theatre Rehearsal, University Hall Chapel, 7 to 10:30 p.m.

Final Examination Schedule

Winter Quarter, 1959

March 16, 17, 18, 19, 20

Classes	Time of Examination
All classes reciting Mon. or Wed. at 8...Wed.	March 18, 8 to 10
All classes reciting Mon. at 9.....Thurs.	March 19, 8 to 10
All classes reciting Mon. at 10.....Mon.	March 16, 8 to 10
All classes reciting Mon. at 11.....Tues.	March 17, 8 to 10
All classes reciting Mon. at 12.....Tues.	March 17, 1 to 3
All classes reciting Mon. at 1.....Mon.	March 16, 1 to 3
All classes reciting Mon. at 2.....Wed.	March 18, 1 to 3
All classes reciting Mon. or Wed. at 3...Thurs.	March 19, 3 to 5
All classes reciting Mon. at 4.....Tues.	March 17, 3 to 5
All classes reciting Tues. at 8.....Wed.	March 18, 10 to 12
All classes reciting Tues. or Thurs. at 9...Thurs.	March 19, 10 to 12
All classes reciting Tues. at 10.....Mon.	March 16, 10 to 12
All classes reciting Tues. at 11.....Tues.	March 17, 10 to 12
All classes reciting Tues. at 1.....Mon.	March 16, 3 to 5
All classes reciting Tues. or Thurs. at 2...Fri.	March 20, 8 to 10
All classes reciting Tues. at 3.....Thurs.	March 19, 1 to 3
All classes reciting Tues. at 4.....Wed.	March 18, 3 to 5
All classes not otherwise scheduled....Fri.	March 20, 10 to 12, 1 to 3, 3 to 5,

or any other time within Examination Week that can be arranged by the instructor.

All examinations are assigned according to the hour of the first meeting of the class each week; in courses of wholly laboratory work the examination must be held on the first laboratory hour in examination week. Conflicts should be reported at once to the Registrar.

Please notify the Registrar the dates chosen for examinations not otherwise scheduled in order that there shall be no conflicts in rooms.

Final examinations in Twilight School courses and other courses scheduled at 5:00 p.m. or at any time thereafter may be given at regularly scheduled class meetings during the period of March 16 through March 20. In the case of classes meeting two or three times during this period, the time of the examination shall be determined by the instructor and announced to the class in advance.

All grade cards are due in the Office of the Registrar at 12 noon, Saturday, March 21, 1959. Cards for Graduating Students are due at 12 noon, Wednesday, March 11.

There must be no final examinations outside the scheduled examination week except in the case of individual students who are graduating on March 19, 1959. Report cards for graduating seniors will be sent to the department offices by the Registrar's Office in February. Final examinations for all other students must be held within Examination Week. This is in accordance with Rules and Regulations of the University Faculty. ALL GRADE CARDS, OTHER THAN THOSE FOR STUDENTS GRADUATING, ARE DUE IN THE OFFICE OF THE REGISTRAR BEFORE 12 NOON, SATURDAY, MARCH 21, 1959.

Wednesday, February 25:

University Theatre Rehearsal, University Hall Chapel, 6:30 to 12 midnight.
University Grange, 206 Horticulture and Forestry Building, 7:30 to 10 p.m.
American Society of Agricultural Engineers, Agricultural Administration Building Auditorium, 5 to 10:30 p.m.
Dance Classes, third floor of Student Services Building, 6 to 10 p.m.
University School Boys' Club, 100 University School, 6:30 to 9:30 p.m.
University Farm Bureau Youth Council, 109 Horticulture and Forestry Building, 7 to 10:30 p.m.
Air Force Drill Team, Plumb Hall Arena, 5 to 6 p.m.
Physiological Chemistry Seminar, 214-D Hamilton Hall, 7:30 to 9:30 p.m.
American Institute of Electrical Engineers and Institute of Radio Engineers, 110 Caldwell Laboratory, 7 to 9 p.m.
WSGA, 101 Page Hall, 5:30 to 10 p.m.
German Department, Campbell Hall Auditorium, 7:30 to 10 p.m.
Tissue Culture Seminar, Faculty Lounge, Sisson Hall, 8 to 10 p.m.
Dentistry Lecture, 161 Dentistry Building, 7 to 10 p.m.

"Glass Menageries" Rehearsal, 229 Derby Hall, 7:15 to 10:30 p.m.

Christian Medical Society, Student Lounge, Hamilton Hall, 5 to 6 p.m.

University Dames Rehearsal, 218 Hughes Hall, 8 to 10 p.m.

Civil Engineering Short Course, 329-AB, Ohio Union, 9 a.m. to 4 p.m.

Engineering College Graduate Lecture Series, "Theory of Elasticity," Prof. E.

Legal Age Presents Large Local Problem

By Charles Harp

Beer bistros in the University area have one thing in common besides brew—namely the problem of students with no identification or being under the legal age to buy beer.

Students going to the popular "oasis" along High St. with nothing to prove that they are old enough to buy even "low" beer are running the risk of being steered out the door by an irate bartender or bouncer.

BARTENDERS all agreed that girls are the worst offenders in the University. Few of them carry ID cards and many do not understand or have even heard of state liquor laws.

H. Brewster Elledge, bouncer at Larry's, said: "Many girls express complete surprise that such laws exist. By the type of excuses that we hear every night, one is forced to the conclusion that the Ohio State coed is the most ignorant girl in the United States."

"Most couples are turned away because the girl has no ID card with her," said John Marshall, bartender at the North "Berg," "and to save headaches when going out on a date, she should take her wallet and identification card along."

GIRLS ARE NOT the only ones that cause trouble. Males, especially if barely old enough to buy

brew, become resentful when asked their age. If not watched, they will try to buy beer for their under-aged companions.

Worse still are those people that forge or falsify their ID cards. This makes it doubly hard on the waiter and the penalties imposed are just as harsh as if it were known that alcoholic beverage was being given to a minor.

According to Dan Ferensen at the South "Berg": "We will not serve a customer if there is any question about age. There is no such thing as taking a person's word." He also said, "I like the guy I work for and I like to eat." If he were caught selling to a minor, even unwittingly, the bar might be closed and he would lose his weekly pay check.

When asked for identification, the "beer bandit's" excuses range from the old classic—"I lost or forgot my wallet"—to "the place where I work takes your draft card away from you."

SOME OF THE things that are used for ID cards are driver's licenses, draft cards, birth certificates, baptismal certificates, fee cards, and other exotic printed matter. None of these are fool-proof because none describe the bearer and they may be borrowed from a friend.

The State Liquor Board is very strict with all people involved in the illegal sale of alcoholic beverage. Penalties include suspending the bar's license which closes the bar for 30 days or more and represents a loss to all concerned.

A falsified driver's license or birth certificate may net the responsible culprit \$500 in fines and/or six months in custody. This penalty can also be assessed against the minor's parent.

FERENSEN OF the South "Berg" made a suggestion to save students embarrassment when in a bar. "If you have no means of identification, you can go to a notary public and get a document attesting your age."

Denison and Ohio Wesleyan Universities were cited as having a good system of identification for their students. The holder's ages are printed on a plastic-encased fee card.

Pharmacists Open Seminar

The Fourth Ohio Pharmaceutical Seminar opened yesterday in Pomerene Hall, with some 60 of the state's pharmacists enrolled.

The four-day program is sponsored by the College of Pharmacy and the Ohio State Pharmaceutical Association.

Dr. W. Paul Briggs, Washington, D. C., executive director and secretary of the American Foundation for Pharmaceutical Education, will be the principal speaker at a dinner scheduled for 6:30 p.m. tomorrow at the Ohio Union. His subject will be "Survival Insurance." Meeting with the seminar for the dinner will be the Central Ohio Academy of Pharmacy.

In addition to Ohio State faculty members, other speakers during the seminar will include Dr. Eugene E. Jennings, associate professor in the Department of Personnel and Production Administration, Michigan State University; Dr. Nevis Cook, Washington, D. C., assistant to the director of the Bureau of Enforcement, Food and Drug Administration; and C. R. Beall, New York, vice-president of McKesson and Robbins.

Certificates will be awarded at the closing seminar session Thursday morning.

FOREIGN AID

TOLEDO — (UPI)—Edgar T. Harris, an export parts packager in an automobile plant here, searched his home and the factory, then gave up hope of ever finding the wallet he had lost.

Six months later, a package postmarked Chittagong, East Pakistan, arrived for Harris. It contained the missing wallet.

The billfold had fallen from his pocket into a box of parts destined for shipment overseas.

OSU Experts Will Speak on World War II

Ohio State will be represented by two speakers at the forthcoming conference on civil-military relations in World War II—Profs. Harold Zink and Andreas Dorpalen.

This conference, sponsored by the Defense Studies Committee and the Department of History of Ohio State, will be held on Feb. 27-28 at the Ohio Union.

DORPALEN, WHO came to Ohio State in the fall of 1958, will read a paper entitled, "Hitler: The Nazi Party and the Armed Forces in World War II." Zink will discuss the American Occupation of Germany.

Born in Germany and raised in Berlin, Professor Dorpalen attended the Universities of Freiburg, Munich and Bonn. He came to the United States in 1936 and has been a member of the faculty of Kenyon College and St. Lawrence University.

His recent book, "Heinrich von Treitschke," received a citation from the American Historical Association. Professor Dorpalen was granted a Guggenheim Fellowship to write the book.

"**HEINRICH** von Treitschke" is a 19th century German history of the Bismarck era. Professor Dorpalen has used von Treitschke and the story of his life to discuss the social conditions and the historical and political influence in Germany in the 19th century.

A one-time member of the staff of the Columbia Encyclopedia, Professor Dorpalen has contributed articles to the American Historical Review, the Journal of Modern History and the Review of Politics.

Studies on Energy Underway

The fight against heart disease can progress only by research and experiment. The Heart Fund Research Project at Ohio State is playing an important part.

"The purpose of our project is to discover how much energy is expended in certain activities, and use it to help all physically handicapped women, particularly cardiac homemakers, to budget their strength," said Mrs. Elaine Weaver, professor of home economics.

THE FIRST PHASE of this project deals with studies made in the homes of 100 cardiac and non-cardiac homemakers. The adjustment problems and changes in the home living of those affected were studied and compiled.

The second phase deals with the

energy expended in ascending and descending stairways. This is done in a special laboratory in Townshend Hall. Each subject is equipped with a respirometer which catches her breath and records the amount of oxygen in it.

The report, when completed on June 30, 1959, will furnish needed information to doctors when advising their cardiac patients on the amount of activity they are allowed.

The Heart Fund Research Project is conducted by Mrs. Weaver and her assistants in cooperation with the Ohio Agricultural Experiment Station, the United States Department of Agriculture, and the Central Ohio Heart Association.
