No Alteration Foreseen in Frosh Policy

President Novice G. Fawcett plans no immediate exercise of his authorization "to admit entering freshmen students to such quarter of the academic year as he may designate."

The Board of Trustees granted President Fawcett this authority last Friday during its meeting. The Board resolution indicated that one reason for the action was the increasing enrollment, and "existing facilities taxed by reasons of such increase, particularly dormitory facilities."

Another reason was the increasing cost of public higher education in Ohio, and thus the need "to make all practicable economies in the operation" of the University.

The Board did not set details of any future admission schedule for freshmen. "In planning for the future," President Fawcett commented, "the Board simply constructed a rule to clear the way for us if we feel such action is necessary."

President Fawcett also pointed out that the University is concerned with the needs for special service to high school graduates of apparent ability.

"This plan is really a reaffirmation of our desire to give the greatest amount of service to the greatest number of students," President Fawcett said.

"Now, we can proceed with careful planning to admit certain students when the University will be of best service." The President said this would also help to level off enrollment and provide better use of physical facilities.

Mexican Cops Grab Sprenz

MEXICO CITY—(UPI)—Frank Lawrence Sprenz, the flying bank robber listed by the FBI as one of the ten most wanted criminals in the United States, has been arrested in Cozumel, Quintana Roo territory, the Interior Ministry said Tuesday.

The ministry said arrest was made as Sprenz returned to Cozumel Island from a fishing trip.

Sprenz, an Ohio bank robber, apparently fled from the United States in a light plane which was found near Veracruz last Friday.

New Overseers

NEW OFFICERS—The Ohio Union Board of Overseers elected new officers last night. They are, left to right, Katy Kaeser, H Ec-3, president; Sanford Yosowitz, Com-2, secretary; and Bud Bell, A-2, vice president.

Wednesday Morning's Headlines . . .

Chou Says Dalai Lama Is Captive Outside Tibet

Communist Chinese Premier Chou En-lai and the Communist hand-picked Panchen Lama of Tibet claimed that the Dalai Lama was being "held in duress" by Tibetan anti-Communists.

Neither Chou nor the Panchen Lama, Tibet's puppet ruler, mentioned that the Dalai Lama was in India. Chou merely said the Dalai is "outside our country."

Prime Minister Harold McMillan and French Premier Michel Debre narrowed down their differences over Berlin and Germany and pledged to work closely together at forthcoming negotiations with the Soviets.

It appeared that the Macmillan-Debre talks which began Monday, revolved mainly around policy aims rather than specific proposals to make to the Russians. Details of Western strategy were being left to a U.S., Britain, French and West German working committee now meeting in London.

A 100-ton Atlas intercontinental ballistics missile, designed to be the first of an operational series, blew up shortly after takeoff, showering debris over the Cape Canaveral launching area.

Mau Mau leader Jomo Kenyatta and four top lieutenants of the anti-white terrorist movement which spread death across Kenya for years were released from prison in Nairobi.

Stocks on the New York Exchange rose for the third straight session, buoyed by the success of the polar satellite and a host of favorable earnings statements.

Premier Fidel Castro will depart for Washington today on the first lap of an unofficial tour of the United States and Canada expected to last two weeks.

Despite the imminence of his departure, there still was no official information as to his travel plans.

Dulles Has Checkup; New Cancer Feared

WASHINGTON—(UPI)—Secretary of State John Foster Dulles, already suffering from cancer of the abdomen, may also have cancer of the lower neck, the State Department announced Tuesday.

The 71-year-old cabinet member received the first of a series of medium voltage radiation treatments for the suspected new ailment at the Walter Reed Army Medical Center today.

IN ANNOUNCING this, State Department spokesman Lincoln White told reporters that Dulles' abdominal cancer, for which he already has undergone massive radiation therapy, appears to have been arrested.

The suspected new cancer was reported shortly after the department announced that Acting Secretary of State Christian A. Herter would substitute for Dulles at an April 29 meeting of Western foreign ministers in Paris to chart Allied policy on Berlin.

Administration sources pictured President Eisenhower as being resigned to the fact that Dulles likely would never be able to return to his post. The President was said to have grave doubts that Dulles could serve even in an advisory capacity on foreign policy matters.

THE LATEST medical report on Dulles' condition said the secretary has had "increasing discomfort in the lower neck."

"X-ray studies suggest the possibility that his discomfort may be attributable to the presence of malignant tumor in the lower cervical vertebrae," it continued.

White said no operation was contemplated at this time on Dulles.

HE SAID treatment will consist of a series of medium voltage radiation doses. These exposures will not be as powerful as those Dulles received in February and March for his abdominal cancer.

Dulles returned to Walter Reed Sunday after unexpectedly cutting short a Florida vacation in which he was recuperating from his earlier radiation treatments.

White said Dulles interrupted his Florida trip as a result of the increasing discomfort in his neck and his physicians' concern over the new ailment.

GRAD TOPS BAR EXAM

John M. Kistler, Ohio State graduate from the College of Law in December of 1958, was named the state's top young attorney elect today.

Kistler scored the top grade in the March examinations for the Ohio Bar, receiving 351 points out of a possible 400.

He has been serving as assistant to the Ohio attorney general since April of this year.

OHIO UNION PETITION

Petitions for committee chairmanships in Ohio Union Activities are available in Room 314 of the Ohio Union. Any interested student who received a 2.0 last quarter, has a 2.3 acum., and is carrying at least 15 hours this quarter may petition. Deadline for petitions is April 20.

House Okays Raise of Tax On Gasoline

(AP)—Ohio's Democrat-controlled House voted yesterday to increase the state gasoline tax two cents a gallon to raise an extra 58 million dollars a year for highways.

The vote was 77-55, sending the measure to a favorably inclined Senate. Enactment would boost the state tax to seven cents. With the three-cent federal tax, the combined levies would total 10 cents a gallon.

Gov. Michael V. DiSalle, who called for the tax increase, said it would enable Ohio to maintain a 300-million-dollar a year construction program on a pay-as-you-go basis and pay off the half-billion dollar highway bond issue voted in 1953.

The House also passed and sent to the Senate a proposal to place the extra revenues in a special highway fund for immediate use.

Across the Statehouse, the Senate passed a House-approved emergency bill for use of \$112,000 in federal funds to complete Bureau of Unemployment Compensation office buildings in Dayton and Youngstown.

Sale of Mershon Series Tickets Continues

Today is the last day students can take advantage of the priority sale on season ticket purchases for the Great Artist and Celebrity Series for the 1959-60 school year. The Mershon ticket office will be open from 8:30 a.m. until 4:30 p.m.

A convenient plan for installment purchase of season tickets has been announced. This will allow students to reserve tickets now with a small down payment. The remainder of the account can be paid on Aug. 1 and Sept. 1.

The attractions of the Great

Artist Series will include: the Takarazuka Dance Theatre of Japan; Richard Tucker, Metropolitan Opera tenor; the New York City Opera Company; the Robert Shaw Chorale and Orchestra; the Minneapolis Symphony Orchestra; Rosalyn Tureck, pianist; and Rosalind Elias, mezzo-soprano and leading singer of the "Met."

Celebrity Series events include appearances by the Shakespeare Festival Players, with Arnold Moss as actor, director and producer; Mrs. Eleanor Roosevelt, speaker;

Julian Bream, English classic guitarist; Irving R. Levine, NBC Moscow correspondent, speaker; and Raymond Massey, an actor currently starring in the Broadway hit "J. B.", in readings from plays in which he has starred. Karl Richter, organist of St. Mark's Lutheran Church, Munich, Germany, will conclude the series with a recital on the Mershon Auditorium pipe organ.

Sale of tickets to faculty, staff and alumni will begin on Thursday morning, April 16.

Mrs. Roosevelt

On Top of Old Smoky

There is something about high places (also called summits) that makes people want to get up there. Even statesmen are not immune from the urge, but they have a habit of going about it in a much more disorganized fashion than professional mountain climbers.

It is dangerous to start out on these climbing expeditions without first having a good idea of what you are going up there for—fun, glory or real profit. The view from up there may be magnificent—but is it worth the risk? (Especially if one serious mis-step may result in a grievous fall for a whole civilization?)

When the only real incentive for the trip is a will-o'-the-wisp flickering on the summit, one should think things over extra carefully before starting on the long way up.

Calling international good-will and understanding a will-o'-the-wisp may be cynical as all heck, but there is no better name for it. When there are two sides whose differences are as irreconcilable as those between West and East, any hope for a quick, easy solution is as irrational as chasing the will-o'-the-wisp.

Supposing the miracle did happen, and Khrushchev saw the light according to our point of view.

The Western press would call him all sorts of nice names and say that mankind's prospects for the future were now rosy again. But what would happen to Khrushchev when he left Geneva and got back to the Kremlin? How long would he last? And how long would the nice agreement last after he was gone?

How would we feel if President Eisenhower agreed to most of the Russian proposals?

A cry of "sell-out" would ring across the country within a week. And it would be justified. Congress and public opinion would be all for a lynching bee before the President got back from Geneva.

According to the diplomats, the purpose of the coming summit meeting is to do something about Berlin. Other things on the proposed agenda include the "two Germanies problem" and the general situation in Eastern Europe.

Judging from past history of negotiations with the Russians, none of these problems need a summit conference in order to be settled. When things got too hot, Russia has always given way without insisting on ceremony.

The first Berlin crisis (the one involving the 1948-49 airlift) was settled by a secret exchange of notes. According to Dean Acheson, who was Secretary of State at the time, the original contact for the exchange of notes was made between aides of the American and Russian UN delegations. The basis for the approach was a newspaper dispatch from Moscow.

It brought about the end of the crisis because both sides then really wanted to get it all over with.

If both sides really wanted to settle the problems which the summit meeting is supposed to decide, they could do that any time by the same means.

It looks as if Russia isn't interested in this. So (barring the unlikely possibility that secret negotiations are now going on) the coming summit conference seems to be another gambit in the Propaganda War. We should regard it as just another stunt.

You Can Still Buy Antique Cars

By Patricia McCormack

NEW YORK — (UPI) — If you're hankerin' for one of those cars they used to make in "the good old days," you can still get one.

TO BE EXACT, you can get three—the Rollsmobile, the Surrey and the Merry Olds. Authentic reproduction of these antique cars are chugging off production lines in two states.

The Rollsmobile, selling for \$1,195, is made by the Starts Manufacturing Co. in Fort Lauderdale, Fla. The buggy guarantees owners a wind-blown look. It doesn't have a top or doors.

TOP CRUISING speed in a Rollsmobile is 35 miles per hour. One gallon of gas is supposed to last 100 miles. The three horses in the engine take it easy.

The driver can take it easy, too, for the Rollsmobile has a modern innovation — automatic transmission.

For \$1,295, you can buy a Surrey, made by the E. W. Bliss Co., of Canton, O. The wheels have wooden spokes. The engine, a souped-up eight horsepower job, assertedly gets 65 miles to a gallon, lurching along at a top speed of 35 miles per hour.

THE SURREY'S surrey has fringe on top. The body is made of steel. For do-it-yourselfers with a mechanical bent, the "antique reproduction" is available, too, in knock-down or kit shape.

Of the three "backward look" cars, the classiest is the Merry Olds, selling for \$1,495 and made by American Air Products Co. in Fort Lauderdale. The old "Olds" has four horses in its air-cooled engine, ambles along at 35 miles per hour and lays claim to 65 miles per gallon.

Victims Can Confuse Cancer With Indigestion

By Dr. Eugene P. Pendergrass
 President of the

American Cancer Society
 (By United Press International)

It may not be indigestion. Keep this thought in mind, and you will go far toward guarding yourself and your family against the cancers of the digestive tract which account for more than 35 per cent of all deaths from cancer.

THE UBIQUITOUS words "indigestion" covers a multitude of minor complaints. It can also cover a malignant tumor somewhere in the pathway of food through the body.

"Oh, it's nothing, just indigestion . . ." or "dyspepsia" or "heartburn" or "gas" or "constipation."

There you have the greatest collective excuse for procrastination in seeing the doctor. And procrastination is the greatest single factor in tragic waste of 75,000 lives yearly.

HERE IS A dramatic story in figures: Of all patients who get stomach cancer not more than five or six per cent are living and free of the disease five years later. Yet, treated when the tumor is quite small and before it has spread to the lymph nodes, five-year cures can be expected in more than half the cases.

The statistical story of cancer of the colon and rectum is not so grim, but the discrepancy between potential and actual cures is still tragic.

ALMOST HALF of the cancers of the colon occur in the rectum. This is reassuring, or should be, for 75 per cent of rectal tumors that were treated while the disease was limited to the mucous lining have been reported cured. Unfortunately, the disease isn't usually treated at this early stage so the cure rate drops to a shocking 25 per cent.

Tumors of the colon announce themselves with changes in bowel habits, gas discomfort, abdominal uneasiness, and irregular pain which soon assumes the rhythm of cramps. The tumors tend to ulcerate early, so bleed-

ing may soon occur, too slight to be visible but readily detectable in the laboratory. And the steady loss of blood can add up to noticeable anemia: fatigue, shortness of breath and weakness. If anemia is confirmed, and there is no other cause for it, X-ray studies should be made of the colon.

WITH RECTAL tumors, the blood is visible soon after ulceration. A timely warning, and how often neglected? Especially by the patient with hemorrhoids. Doesn't everyone know they bleed? Of course. Isn't it a nuisance many people endure all their lives? Again, of course.

But like that "indigestion," hemorrhoids can conceal a coincident condition of early cancer. So don't be content with home treatment, not until the doctor says the bleeding is not caused by a tumor.

Surgery, aided by X-rays and radium, is the only means of saving life from colonic cancer known to science at the present time.

WITH CANCER of the stomach, detection is much more difficult. Symptoms are very vague and often long in developing.

On The Oval Taps to Sound

Col. John Irwin

Taps will sound on the Oval at 11 a.m. tomorrow for Col. John W. Irwin, Arts, w'16, victim of the death march on Batann, April 11, 1942.

He was on the second tour of duty in the Philippines as commander of the 31st Filipino infantry regiment at the fall of Batann. He entered the service while attending Ohio State in 1917. After serving a short term on the Mexican border, he was sent overseas with the 37th division and served 17 months in France.

He served originally in the Philippines from 1929-1939. He was re-assigned to the Islands in 1939. He is survived by his wife, Mrs. Bernice Irwin, Columbus.

LITTLE MAN ON CAMPUS

"HE NOT ONLY GIVES A LOUSY LECTURE — BUT HE EXPECTS YA TO TAKE NOTES ON EVERYTHING HE SAYS!"

Soviet Education Is TV Topic

Television station WOSU-TV, channel 34, will take a close look at university education in Russia and American security problems, and will present a bit of live opera and a Beethoven quartet during April 21-24.

Former Rep. John Vorys (R-Ohio) will discuss the "Role of Congress" in the formation of a foreign policy on the series, "National Security Today," at 6 p.m. Tuesday, April 21.

Five Ohio State students will perform four scenes from Verdi's opera, "Aida," at 9 p.m. Tuesday. Assistant Prof. Theron R. McClure of the School of Music will act as host. His guests will be Prof. Dale Gilliland and assistant instructor Louise Chambers, both of the School of Music.

"Higher Education in the USSR" will be examined over the University television station at 8:30 p.m. Friday, April 24 by Dr. Edward H. Litchfield, chancellor of the University of Pittsburgh, who directed a tour through Russia last summer, and a panel of American educators. They will discuss the price

Lawyer Gets Study Grant

Prof. Carl H. Fulda of the College of Law has received a law faculty fellowship from the Ford Foundation for the 1959-60 academic year.

The grant was made to enable Professor Fulda to complete a study on "Competition in the Regulated Industries."

The study deals with the application or non-application of anti-trust principles to industries subject to federal regulation.

the Soviets are paying for education, overstandardization and education as a tool of the state.

Beethoven's Quartet in B Flat Major, Opus 18, No. 6, will be performed at 8 p.m. Friday by the Alard String Quartet, now in residence at Wilmington College.

Dr. Peters Writes Book

Dr. Herman J. Peters, associate professor of education, and Gail F. Farwell, now on the University of Wisconsin faculty, are authors of a new book, "Guidance: A Developmental Approach."

Dealing with all aspects of the teaching process in relation to classroom guidance, the book will be published May 1 by the College Department of Rand McNally & Co., Chicago.

The volume devotes a chapter to use of community resources in pupil guidance, and takes into account the various factors, including the community, social background and maturation, which determine the child's personality.

Dr. Peters, a faculty member since 1954, is a past president of the Central Ohio Guidance Association. Farwell is a former member of the Ohio State staff.

WRONG ADDRESS

NORFOLK, Va.—(UPI)—Builder David I. Levine constructed three new homes only to discover his carpenters had mistakenly erected them on property owned by the city of Norfolk.

The City Council come to Levine's rescue however, by selling him the property on which he had built. It was almost identical to the lots he had purchased for the homes, but two blocks away.

Army Cadets To Take Tour Of Fort Knox

A field trip is in store for 88 advanced Army ROTC cadets today through Saturday at Fort Knox, Ky.

For the first time since the spring of 1957, selected juniors and seniors will visit Fort Knox, United States Army Armor Center, for a taste of typical Army post life in preparation for their sojourn at summer camp.

At the fort they will acquaint themselves with service schools, armor maintenance and firing. A tour of the Patton Museum will follow.

With an eye for the future, the men will tour the housing area for Army personnel and dependents including the recreation centers, schools and post exchange.

A visit to the famed gold vault at Fort Knox with dinner at the officer's club will end the program.

Army Maj. Herbert Kay and Army Capt. Phillip Lombardi will accompany the cadets with Cadet Brig. Cmdr. Marion Marshall.

LADIES' NIGHT

"Fashions for the Home" will be the theme for the annual Ladies' Night Out program at the Faculty Club at 8 p.m. tomorrow. The event is for wives and women members of the club.

Representatives of two Columbus furniture dealers will be the featured speakers. Appropriate displays of fabrics and accessories will be placed in the grand lounge of the club.

Hostesses for the evening are Miss Lucile Alexander and Mrs. Alfred B. Garrett.

Many Exhibits Planned For International Fair

Heigh! Ho! Come to the Fair! Items ranging from exotic 15th century pottery to a 1959 Citroen sports car will be displayed Sunday at the first annual International Fair in the Ohio Union.

AMERICAN AND international students and embassies in Washington, D. C. have combined efforts to arrange the displays to be set up in the Ohio Union ballrooms. The Fair is sponsored by Student Senate, Ohio Union Activities and the International Student Association.

Among other items to be displayed are a hand tooled tray which belonged to a Turkish sultan, a nine foot scale model of a Swiss chalet, camel saddles from Egypt and jewelry from around the world.

FOREIGN CARS will line the walls of the ballrooms during the Fair. Columbus auto dealers and private owners have provided cars from Switzerland, Italy, France, Germany and England.

The Franklin Room will be the headquarters for displays from agencies such as the United Nations, UNICEF and the International Living Experiment. Movies will be shown continuously throughout the day in the Conference Theater.

INTERNATIONAL and American foods will be served in the cafeteria during its regular serving hours. Specialty acts by international students will be presented throughout the afternoon. In addition, an international style show will be held.

The Fair is being held in conjunction with International Weekend, an event which has brought

international students from Ohio campuses to Ohio State each year.

SPECIAL EVENTS such as panel discussions and campus tours have been planned for the visitors. The public is invited to hear a panel discussion, "The American Student—Free for What?" at 2 p.m. Saturday in the Ohio Union Conference Theater.

International Weekend and International Fair have joined forces to present the Fiesta Internacional, a combination dinner, dance and talent revue on Saturday evening. Tickets for this all-campus event must be purchased by 5 p.m., Thursday, at the Ohio Union Ticket Booth or room 112, Administration Building.

CAROLYN DAVIS, and Jan Zehner, are co-chairmen of the Fair. Working with them are Bob Chen, publicity; Jane Lehmann and Phasook Kullavanijaya, national displays; Jerry Zeller and Daniel Owino, complementary exhibits; Ann Sisinger, art; Helen Goodwin and Syed Rahman, foods, and Tom Smith, movies.

Working with Charlotte Present, A-4, and Pete Toundjis are committee chairmen Siegfried Storz, Mary Sisson, C. T. Lakshmanan, Bobby Litz, Noel Lawson, Mary McDermott and Dick Sisson.

ELVIS STILL TOPS

HOLLYWOOD — (UPI) — Elvis Presley is still the favorite among teen-agers even though he's in the Army, according to a poll conducted by "Teen Magazine."

The magazine says that more than one million votes were cast in the poll. Trailing Presley were Ricky Nelson and David Seville.

Level Quits Buck Grid Squad

John Level, a freshman halfback, quit the Ohio State football squad Saturday following a disagreement after the Buckeyes' first scrimmage, it was learned yesterday.

The Fremont All-Ohio gridder, who started at the Red One right end position when spring drills got underway two weeks ago, objected to trials at many positions.

LEVEL, WHO was originally a halfback, was shifted by Coach Hayes because of the thin end reserves, hit hard by the loss of Schafrath, Bowermaster and Tidmore.

Tom Perdue, who stood out again in Monday's defensive scrimmage, had replaced Level at the right end position during last week's drills.

Saturday, Level was shifted back to his old right halfback position.

PERDUE, WHO is as rugged defensive end as can be found on the football field, seems to have the right end position locked up at this point in the drills. At the center position, freshman Mike Coburn is definitely number one at this point in the drills.

Monday's Red One unit looked more and more like the one which might open against Duke come Sept. 26.

The Red One unit was composed of: Jim Houston and Tom Perdue at ends, Dick Michael and Jim Tyrer at tackles; Oscar Hauer and Ernie Wright at guards; Mike Co-

burn at center; Jerry Fields at quarterback; Tom Matte and Jim Herbstreit at halfbacks and Bob White at fullback.

These 11 players plus frosh standout Bob Ferguson were considered by Hayes as "12 Big Ten football players."

FOOTBALL DRILLS at Iowa began yesterday as Hawkeye coach Forest Evashevski welcomed a squad of 100, including 18 lettermen.

The Big Ten's defending champions and 1959 Rose Bowl winner have a serious hole to fill at the quarterback position which was vacated by versatile Randy Duncan.

Number one replacement for the graduated Duncan is Mitch Ogiego, who is reportedly in "hot water," scholastically speaking.

Top returning backfield returnees are fullback Ray Jauch and fleet-footed halfbacks Willie Fleming and Bob Jeter. The Hawks also have nine lettermen returning to play the line.

AT INDIANA, Coach Phil Dickens placed emphasis on the Hoosiers' defense and kicking game as spring practice got underway yesterday at Bloomington.

"We'll have to bring up our kicking game," Dickens said, "because we have back only one punter from last season, Capt. Teddy Smith. The defense is going to take a lot of work because we've lost all of our middle line."

Since the Hoosiers lost both their number one and two centers last season via graduation, this position is the weakest spot in the line. Regardless of who wins the assignment, it will be someone who has never centered the ball in a previous college game.

"That center is a key man in our single wing offensive," said Dickens, "and developing our strength there is a 'must'."

BANGIN' BIG BIRTHO—An unidentified Ohio State gridder practices a block during spring drills. Man on the left is Birtho Arnold, the Buckeyes'

huge 300-pound-plus tackle. Arnold, who saw action in the Ohio State lineup last fall, is having trouble getting his weight down. (Photo by Jim Katz)

Rose Bowl Is WOIO Topic Aired Tonight

Three Ohio State students will discuss the Rose Bowl situation at 7 p.m. tonight on the Buckeye student radio station, WOIO, 580 on the dial.

The 30-minute program "Undercurrent," will consist of a look at the Rose Bowl picture as it affects both Ohio State and the Big Ten Conference.

Arguments both for and against the Faculty Council's negative decision will be presented during the show.

The discussion will be conducted by Phil Shaffer, sports director of WOIO, Bernie Ledermann, program director of the campus station and Jack Wittenmeier, sports editor of the Ohio State Morning LANTERN.

The present Rose Bowl contract runs out after the game in 1961.

Buck Rifles Take Second

Ohio State's Rifle Team missed the Big Ten championship last weekend by 14 points to host Illinois.

The Bucks, who finished second in the competition, placed one member, Jack Leech, on the first All-Big Ten team and three gunners on the second team.

The second team Buckeyes are Richard Kelley, Richard Gable and Donald Rhamy. Here are the final standings of the rifle championships: (1) Illinois, (2) Ohio State, (3) Indiana, (4) Michigan State, (5) Purdue, (6) Michigan, (7) Wisconsin and (8) Iowa.

Northwestern and Minnesota did not compete in the rifle championships.

Wes Fesler, Cleveland Advise Buck Athletes

By Frank Evans

One of the saddest stories ever told is the tale of the famous college athlete who in his senior year fails to achieve his real purpose at college—getting his diploma.

Time and time again, not only at Ohio State but at universities around the country, this sad story is re-enacted.

AND IT IS A SHAME that these athletes that have brought excitement, and thrills to the thousands of spectators either on the gridiron, basketball court, diamond or in the pools until their eligibility expires, never reach the commencement exercises and grasp their sheep skin of merit.

So in order to try to "wake up" some of the freshman and sophomore athletes (as well as ourselves) here is a couple of comments from two of Ohio State's All-Americans who now rank in Buckeye sports history.

It was my main purpose to bring to the LANTERN reader a column, titled, "Where Are They Now?" especially devoted to some of the Bucks' former athletes and what they are doing today. But we are taking only two letters from our collection which we recently received and thought it worthwhile to print them today.

THE QUESTION that we are most interested in the one page questionnaire is "What Advice Would You Offer College Athletes?"

Wes Fesler, 1931 graduate, is our first speaker. To the many Ohio State students who are not familiar with his name, here is a brief rundown of his achievements . . . All-American end in 1928-29-30 . . . Junior class president, Bucket and Dipper, Sphinx . . . won nine varsity letters . . . head coach at Ohio State from 1947-50 . . . Ranks his greatest moment in sports in 1950 when Jimmy Hague's field goal won the Rose Bowl, beating California, 17-14.

Wes Fesler now takes the floor . . . "My advice to college athletes is this: Learning to give completely of yourself in cooperation with the folks around you will pay off in many, many ways."

"THERE IS NO easy way to success . . . it takes hard work, sacrifices. Learn from your sports activities these things, and it will surprise you to find how far ahead of others you will be."

Good luck, Wes Fesler.

Our second speaker Dick Cleveland graduated in 1954.

Dick, now in Hawaii, was in the Sphinx, and was captain of Ohio State's 1954 swimming team. His name is easy to find in the record books of great swimming stars.

Cleveland ranks his greatest thrill winning his first National 100 meter title in 1950 at Seattle, Wash. This helped to bring about his meeting with Buckeye Coach Mike Peppe and four years of competition at Ohio State.

DICK'S ADVICE to college athletes is simply this . . . "It's basic actually. Do the best you can to compete to your utmost in whatever sport you enter. Remember, one thing, every day you shirk in training or cut from your books will throw you back just that much farther when you're out on your own in business.

"Also don't for a moment be deluded into thinking that the world owes you a living for your prowess in sports. I held every major world record in sprint swimming from 1951-1954 and all it brought me was the knowledge that you can't eat a record blank or a swimming medal. But—you can transfer your desire drive in sports to a similar drive in business and I guarantee you that it will pay off."

Aloha, Dick Cleveland.

Buckeyes Invade Lion Den For Last Big Ten Tuneup

By Jack Wittenmeier, Sports Editor

Ohio State's baseball squad, sporting a lofty 11-2 record, travels to Penn State this weekend, hoping to cage the Nittany Lions with their hot hitting, stingy hurling and blazing speed on the base paths.

The Buckeyes, playing their first road game since returning from Florida, shouldn't* find the Nittany Lions as tough as Xavier. The Bucks dropped the Musketeers twice in three games.

THIS WILL BE the last competition for the Buckeye baseball squad before they open Big Ten action April 24 at Minnesota.

Penn State won 14 games last season while dropping five decisions. However the Lions lost a great deal of talent and have only four lettermen back this season.

Three of these lettermen, two infielders and an outfielder, accumulated outstanding batting averages last season.

SENIOR OUTFIELDER Chuck Caldwell, a southpaw swinger, lead the returnees with a .333 average, including 10 RBI's. However, Caldwell came to bat only 33 times.

Second sacker Larry Fegley, a junior who bats from the right side of the plate, came to bat 68 times, collecting 22 hits for a .324 average. Fegley knocked in 15 runs.

Senior shortstop Bob Hoover, also a right-handed batter, hit .320 in 72 times at the plate, including two homers. As a junior, the 6-1, 170 pound infielder batted .239.

THE PENN STATE ball club is comparatively young and inexperienced, carrying 12 juniors and 10 sophomores.

The Buckeyes provided the Nittany Lions with their only Big Ten competition last season, winning two out of three. Ohio State won, 9-0 and 9-4, losing 7-2.

Last season Penn State scored 82 runs in 19 games, allowing the opposition 49. Only Lafayette was able to do better against the Nittany Lions than the Bucks, downing Penn State twice, 8-7 in the regular season and 9-1 in the district playoffs.

PENN STATE coach Joe Bedenk, in his 29th year as head baseball mentor, has only one experi-

Programs in Great Britain For Summer of 1959

The Institute of International Education has announced a series of study programs in Great Britain for the summer of 1959. These programs are sponsored by schools, universities, and societies in Birmingham, Croyden, Edinburgh, Leicester, London, Loughborough, and Oxford, and include courses in Shakespeare and Elizabethan drama; "the European inheritance"; English literature, drama, art, and music; acting and production; international and comparative law; English folk song and dance; education, arts and crafts, and physical education; courses for organists, choirmasters, and choir singers; and courses for teachers of ballet. Additional information may be obtained by writing to: British Information Services, 45 Rockefeller Plaza, New York 20, N. Y., or by visiting the International Students Office, 112 Administration Building. Information on summer study program in Europe, Latin America, Canada, and the Near East is also available.

Summer Study Programs Announced by IIE

The Institute of International Education has announced that 15 summer study programs, in 13 cities, are being conducted in Italy during the summer of 1959. Many of the lectures will be given in English. A variety of courses is offered, including: genetics and ecology; Italian language, literature, history, and civilization; history of art and music; archaeology (with visits to archaeological sites); science; politics; and instrumental music, voice, and related subjects. Information about these and other programs in Europe, Canada, the Near East, and Latin America may be obtained in the International Students Office, 112 Administration Building.

INTERNATIONAL STUDY

Two summer study programs in the Near East have been announced by the Institute of International Education. The American University of Beirut, Lebanon will sponsor courses in Arabic culture, history, philosophy, science, and social science from July 2 to September 5. From July 1 to September 30 the University of Istanbul, Turkey will give a course in Turkish language and culture. The International Students Office, 112 Administration Building, has information about these courses, as well as other summer study opportunities in Latin America, Canada, and Europe.

tion about these courses, as well as other summer study opportunities in Latin America, Canada, and Europe.

April Meeting of the Graduate Council

The April meeting of the Graduate Council will be held at 9:30 a.m., Saturday, April 18 in the office of the Graduate School.

Richard Armitage, Secy.

Announcing Zeta Tau Alpha Foundation Scholarships

The Zeta Tau Alpha Foundation offers annually scholarship awards to worthy students at both the graduate and undergraduate level. In reviewing applications, preference is given to seniors and to students in the field of education, although this does not limit consideration of students of other ranks or areas of study. A special award is available in the field of physical therapy, speech correction, occupational therapy, or in the teaching of handicapped children. Major consideration is given to financial need.

Awards vary in amount according to need. Undergraduate awards do not exceed \$300. Graduate awards may be greater in certain instances. Grants are made on an annual basis, but may be renewed upon written request.

Applicants must maintain a scholastic average of B or better in all college work and must have the highest character recommendations from the personnel of the college they are attending.

Application blanks are available in the Dean of Women's Office, 216 Pomerene Hall, and from the Zeta Tau Alpha Central National Office, 708 Church St., Evanston, Ill. Applications must be submitted before May 15. Applicants are notified by July 15.

Warning—Incompletes Are To Be Made Up By May 1

The Faculty Incomplete Rule states that the instructor must report a final grade for a student at the same time he reports the incomplete.

The incomplete becomes final six weeks after the end of the quarter unless the work is made up and the grade reported to the Registrar.

Students have only three weeks of the six-week period remaining to complete their work. All grades for Winter Quarter incompletes must be in the office of the Registrar on May 1, 1959.

Be Sure to See and Hear . . .

THE FOUR FRESHMAN

Will appear in two performances on April 16th—6:30 and 8:00 p.m.—in the Upper Arlington High School Gym. Tickets are \$1.50 and may be obtained by calling HU-8-3677, the high school music office. Last performance will be over by 9:30.

Circle K Starts New Service

Circle K Club has begun a new system at the Ohio Union. Members now serve as ushers and coat checkers.

Wendell W. Ellenwood, director of the Union, said that Circle K will be quite helpful at banquets and in several other ways. The club will also do some gardening around the Union building.

SO FAR THIS spring, Circle K has agreed to work at the Board of Trustees Recognition Banquet, and at the banquets of the Columbus Kiwanis Clubs and United Appeal.

Sponsored by the Ohio State Kiwanis Club, Circle K has been lending its services to both Columbus and the University since Autumn Quarter, 1957.

The club's activities have included renovating the basement of Stillman Hall, tutoring at Franklin Village Children's Home and

monthly visits to Columbus State Hospital.

THE CLUB would like to increase the present membership of 17 and is looking for more projects.

Newly elected officers of the club are Karl Stout, president; Jim Lanier, vice-president; Carl Wine-ly, secretary, and Ted Boyce, treasurer.

April 25, the club will attend a national meeting at Ohio University. Ten universities will be represented.

NOTHING TO CROW ABOUT

BRIDGEPORT, Conn.—(UPI)—Mrs. Alvis Adams won an uncontested divorce after testifying she was assaulted by her husband's pet rooster. She said Adams told her she was "secondary" to his pets and took the rooster's side in the affair.

2. You are making a speech—and suddenly find you have a large hole in your clothes. Would you (A) excuse yourself and leave? (B) pretend you didn't know the hole was there and finish the speech? (C) cover up the hole with a handkerchief?

A ☐
B ☐
C ☐

3. Would you rather have the characteristics of (A) U.S. Grant? (B) Thomas Edison? (C) J. P. Morgan?

A ☐
B ☐
C ☐

4. You have taken your date to dinner and find you haven't money to tip the waiter as well as take your date home. Would you (A) ignore the waiter? (B) take him aside and tell him you'll tip him next day? (C) tip him and walk your date home?

A ☐
B ☐
C ☐

5. Mathematics is your poorest subject, yet you are fascinated by the idea of being an atomic physicist. Would you (A) try to overcome your difficulties with math? (B) pick an easier occupation? (C) ask yourself if it's physics you like or its glamour?

A ☐
B ☐
C ☐

6. Your roommate is a nice person, but suddenly takes to asserting an ability to foretell the future. Would you (A) notify the authorities? (B) ignore the whole thing? (C) give him tests to prove to him he's wrong?

A ☐
B ☐
C ☐

7. Do you believe the maxim "It's a long lane that has no turning" is (A) a complete non sequitur? (B) a well-known fact? (C) an allusion to a common phenomenon?

A ☐
B ☐
C ☐

8. Would you rather have as a birthday present (A) something expensive? (B) something long-lasting? (C) something beautiful?

A ☐
B ☐
C ☐

9. In choosing a filter cigarette, would you pick one that (A) claims it filters best? (B) merely says it tastes good? (C) gives you a thinking man's filter and a smoking man's taste?

A ☐
B ☐
C ☐

If you're the kind of person who thinks for yourself . . . you use judgment in your choice of cigarettes, as in everything else. Men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

*If you have checked (B) in three out of the first four questions, and (C) in four out of the last five . . . you think for yourself!

The Man Who Thinks for Himself Knows — ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Critics Laud OSU Choir

The same concert which drew rave notices from newspaper critics in Detroit last week will be presented by the 63-voice Symphonic Choir at 8 p.m. Sunday in Mer-shon Auditorium.

Featuring a symphonic choral and two guest artists, the concert was presented last week in Fostoria, Detroit, and in Ottawa Hills near Toledo.

Reviews in the Detroit papers were highly favorable. "The Detroit Free Press said the choir was 'supremely musical.' The Detroit

News reported 'The Ohio State University Symphonic Choir enhanced exceedingly refreshing and unhackneyed choral music . . . the choir's singing showed how beautiful our language can be when it is presented without affectation and with superb enunciation,' said Roger Jamison, Ed-4.

The symphonic choral, "The Burden of Babylon" by Bantock, is written for 18 parts, with each voice treated as an individual instrument rather than part of a blended tone.

Other selections Sunday night will range from Mendelssohn to Poulenc.

Guest artists for the concert will be two pianists, Roger Jamison and Robert Mumper, Ed-3.

Scientists Get Money Grant

The National Science Foundation in Washington, D.C., has announced the award of a \$35,900 grant to Ohio State to continue a research project in theoretical nuclear physics.

Directed by Profs. Robert L. Mills and Andrew W. Sessler, both of the department of physics and astronomy, the project began in 1957 and under the new grant will be carried on through 1961.

The researchers will continue basic studies of the structure and properties of nuclei and of the properties of liquid helium three and will begin new work next year on the physics of fundamental particles.

Discoverer Hailed as Success

VANDENBERG AIR FORCE BASE — (UPI) — Scientists were forced to call off their attempt to recover an instrument capsule from the polar-orbiting Discoverer II satellite but said most of the primary objectives of the launching were "well achieved."

The satellite remained in orbit. However, a joint announcement in Washington and here by Roy Johnson, director of the Advanced Research Projects Agency, said no attempt will be made to snare the

instrument capsule with its valuable data.

Airplanes in Hawaii with special recovery equipment and Navy surface vessels in the Pacific had been on the alert to make the recovery attempt if the Discoverer II capsule had been ejected and parachuted downward. Odds against recovery, however, were 900-1, scientists said.

The United States has never recovered such a capsule but Russia claims it has made one recovery.

Hillel Ready For Annual Stunt Night

There'll be singing and dancing tonight in Mer-shon Auditorium.

It's Hillel Stunt Night for six fraternities and sororities. Stunt Night has been an annual event on the campus since the early 1920's. All the proceeds of Stunt Night will go to the United Jewish Student Fund, a yearly community-service drive held among the Jewish students on the campus.

With Mrs. Marjorie Judson of the Hillel staff as coordinator, Naomi Meschan as Stunt Night chairman, Mike Traub and Fred Silverman, as masters of ceremonies, and Herb Newman of Akron as student ticket chairman for the special affair, the night promises to be a real success.

Sororities entering the competition are: Alpha Epsilon Phi, Delta Phi Epsilon, and Sigma Delta Tau. The fraternities participating are: Phi Epsilon Pi, Alpha Epsilon Pi, and Sigma Alpha Mu.

Trophies will be awarded to the first, second, and third place winners.

Tickets are now being sold for \$1 at the Hillel Foundation, at all Jewish sororities and fraternities, and can also be secured at the B'nai B'rith office at the Jewish Community Center from Sol Shamon, Mel Harris, Mrs. Alex Clowson, Mrs. Ralph Stein, and Donald Tishman.

Registration Deadline

Deadline for registering a May Week pageant wagon or a carnival booth is April 23. Registrations will be accepted in the Student Senate Office, room 327, Ohio Union. Also, for groups that plan to use tents for their carnival booth, registrations must be in the Student Senate Office by April 15.

HARRY LAWTON, JR., received his B.S. in Physics at Union College, Schenectady, N. Y., in 1950, joining General Electric that same year. He received an M.S. degree in Management Engineering from Rensselaer Polytechnic Institute in 1958.

"Long-range programs are important —for both men and missiles"

"In a company dedicated to research and development, a young man's opportunities to learn more—to increase his technical skills—are almost unlimited," says 31-year-old Harry Lawton, Jr., a General Electric engineer engaged in the development of inertial guidance and fire-control systems for ballistic missiles. "And to maintain America's scientific leadership, we're going to need all the technical training and skills we can produce."

"An important aspect of my job at General Electric is the continuing opportunity to learn more. I've been able to continue my education in the company's Physics Program for college graduates. And I also have the advantage of association with top technical experts in my work. Opportunities like this have helped me realize that long-range programs are important—for both men and missiles."

Harry Lawton is one of several hundred technical graduates who are devoting their skills to the develop-

ment of 14 government missile projects to which General Electric is a major contributor. More and more our scientific progress and our national security depend on men like this—men who bring high qualifications to their work and who continue their quest for knowledge, both on and off the job.

General Electric believes that individual initiative and career growth are essential to America's continued technological leadership. To this end, the company encourages all of its employees—including more than 30,000 college graduates—to develop to their fullest capabilities by providing opportunities for increasing knowledge and working skills.

Progress Is Our Most Important Product
