

## F.D.R., Jr., Will Speak Here On October 18

Young Dems Sponsor Appearance at Rally

Franklin D. Roosevelt, Jr., head of the Young Democratic Clubs of the nation, will address the Young Democratic Club of Ohio State Thursday, October 17, at 4 p. m., in the Commerce Auditorium.

Plans to start an active campus political campaign were made last night as the Ohio State chapter of the Young Democratic Club elected officers and adopted a constitution at its second meeting of the year in the Grand Lounge of Pomerene Hall.

### ELECTIONS HED

George Kitchon, Com-4, vice-president of the last Young Democratic Club, was elected president. Robert B. Schultz, Com-2, was chosen vice president; Marcia E. Cooper, A-4, secretary; Robert D. Schuck, Law-3, treasurer; Nelson Lancione, Law-1, parliamentarian and sergeant-at-arms. Frank L. Dempsey, Com-2, and Andrew Van-Echo, Engr-2, were elected members of the executive committee.

### ALSO APPOINTED

Appointed as co-chairmen of the publicity committee were Marie Claire Davis, A-4, and William E. Sharp, Com-4. Robert C. Tate, A-3, was appointed chairman of the membership committee; John F. Holbrook, Com-2, chairman of committee on University and student needs; Marian Teigart, speakers committee; Robert D. Schuck, financial committee, and Rosalie F. Thompson, A-3, and Edward H. Calvert, A-2, social committee. Nancy A. Bergin, A-4, was appointed assistant secretary.

Jacob Simms will head the absentee voters committee, which will aid students in voting by absentee ballot.

## Ohio State Cadets Will Get 'Wings'

John A. Newbauer, '38, and Robert Levine, ex-'40, former Ohio State men, now Flying Cadets, are among the 265 embryo pilots of the Air Corps who are scheduled to complete the basic flight training at Randolph Field, Texas, "West Point of the Air," about October 5.

This is the eighth class to be trained under the expansion program of the Air Corps that envisions 7000 additional pilots annually.

Mr. Levine was a senior when he accepted the Air Corps training assignment. He is 22 and a graduate of Youngstown South High School.

The class will transfer to the advanced flying school at Kelly Field, Texas, for a final ten weeks aerial training in formation flying and day and night navigation before getting their "wings" and commissions as Second Lieutenants.

This eighth class of Flying Cadets started their aeronautical career last May when they began their primary flight training. Eighteen flying schools located at strategic centers of the country are utilized by the Air Corps for this phase.

## Swan Club Candidates To Try Out This Thursday

Tryouts for places on the Swan Club will be held Thursday of this week and next week, it was stated today by Hildegarde Day, Ag-2, chairman in charge of tryouts.

To qualify for the Swan Club girls must demonstrate proficiency in the breast stroke, backstroke, sidestroke, and crawl. They must show speed and form in addition to ability to make three graceful dives.

## Club Administrator Elected

William B. Shelton, A-3, was elected freshman administrator of the Stadium Club Monday night. Robert K. Thompson, A-1, was elected freshman president, and Howard B. Sampson, A-1, freshman representative to the Interclub Council.

## Student Tells of Island Life

Lake Erie Island Inhabitants Must Use Airplanes For Daily Travel; Relief and Crime Unknown

"I guess it's like any other place in Ohio," answered Clifford A. Morrison, Ed-4, when queried about his home town.

Yet, on South Bass Island in Put-in-Bay, a village of 500 people, mail is delivered by airplane twice daily; the inhabitants fly to the mainland in summer or cross by auto on a frozen highway in the winter; crime, relief, and unemployment are

## Young G.O.P. Hears Craig

Kramer, Ex-President, Also Addresses Club

Plans for student cooperation in the coming elections were discussed at a meeting of the Student Republican Club Tuesday night. Mr. Thomas Craig, who is affiliated with Republican State headquarters and the League of Young Republican Clubs of Ohio, spoke briefly on the seriousness of politics and voting.

John Kramer, past president of the Young Republican Clubs of the 12th Congressional District, also addressed the club. Robert Forney, present president of the organization, presented the group with its charter.

Howard L. Hamilton, secretary of the College of Arts and Sciences, resigned as advisor of the organization because his position conflicted with the Hatch Act. His resignation was accepted by the club under protest.

Plans for a debate between the Student Republican and the Student Democratic Clubs will be announced at the next meeting. The possibility of a State convention of college Republican clubs to be held here will also be discussed next week.

New appointments in the organization include Leon Shaffer, chairman of office management; Jean Kallenbaugh, chairman of women members, and Milton Zimmerman, chairman of activities.

Guests of the evening included Jack Hawley of the State Treasurer's office and Miss Frieda Renollet of the Governor's office. Entertainment was provided by Reeder Hutchinson, a magician.

Student Republican headquarters are located at 13 Sixteenth Avenue, and are open from 8 a. m. until 11 p. m. daily. Absentee ballots are notarized at headquarters free of charge.

The next meeting of the group will be next Tuesday at 7:30 p. m. in room 100, Derby Hall.

## Harassed Scribe Tells Of Fascist Coup d'Etat

By EDDIE PHILLIPS (LMOC)

Joe Doaks, LMOC (Little Man On the Campus), grabbed his hat from a peg and hot-footed it across the LANTERN newsroom leaving a little "twister" in his wake.

Like that famous broken-field runner, Blondie's better half, Joe was three minutes behind schedule. Miraculously he eluded all obstacles in his path, straight-armed a typewriter stand and side-stepped a wastepaper basket.

As he skidded to a stop at the door and peered cautiously around the corner as if not wishing to upset the ubiquitous postman—again, he drew a deep breath in preparation for the sprint down the hall.

"Joe," a too familiar voice screamed above chattering typewriters, "Where is my story?"

Joe gulped, and mentally chiding himself for not having left a minute sooner, thus avoiding "The Chief," he rammed his hands deep into his pockets and shuffled back to the copy desk.

"I'm late, Chief," he grumbled without glancing up. "My boss will can me this time sure!"

"Why do you promise me feature stories when you have no intention of delivering them?"

"I had good intentions . . .," said Joe, "but . . ."

"The road to hell . . . etc.," replied "The Chief" for the 10,000th time.

"You never print my stories anyway," complained the LMOC.

"Well, they have been a bit tame. You know we have to compete with war news these days. But," exploded his superior, "this week we are desperate. Write something. Anything! I'll use it all right."

Joe swallowed again. "I'll try," he said. "But I'm dead, 'Chief,' sat

\*almost unknown; the entire village moves out on the ice during the winter; and strangest of all perhaps, on this little three-mile-long island there is the usual indispensable car for each family.

Here is also the only school in the country which the county superintendent must visit by plane—a typical American town.

Since the island is about five miles from the mainland, a 14-passenger plane service is maintained for transportation and mail. During exceptionally cold weather this service is augmented by the use of automobiles over the frozen bay.

"Of course we don't work every day," Morrison said, "but the only form of relief we have is in the form of old age pensions. Almost everyone does a little farming or keeps a vineyard, but our biggest industries are summer tourist trade, farming and fishing."

When asked about crime, he admitted that Put-in-Bay had two summer policemen, "But," he hastily added, "we have a heavy tourist trade in the summer. In winter the police do odd jobs and fish."

"I might say, though," he smiled, "the only real criminals we have are the numerous pheasants which eat our grapes at this time of the year."

Fishing up there is not only fun, but business. In the winter all the men, women and children move their fishing shanties out on the ice where they fish for pickerel and perch.

"We get about ten cents a pound for fish, but even so, I have a friend who makes as much as \$30 a day pulling them out," Morrison claimed. Incidentally, the best fresh water fisheries in America are in that part of Lake Erie.

Since there are no street cars or buses on the island everyone indulges in the great American pastime of motoring, "Although," Morrison said, "a Sunday ride involves driving over the same roads several times."

Put-in-Bay high school has a total enrollment of about 90 students. There were four in Morrison's graduating class. This school in Ottawa county is the only one in America which the county superintendent must visit by plane.

Put-in-Bay is four miles from Canada and only a stone's throw from the scene of Admiral Perry's 1813 battle of Lake Erie.

up half the night last night and couldn't get a single idea."

"Well, see what you can do, and—don't forget my proposition."

"Paper, mister?" inquired a newsie of the dervish he saw wheeling to a halt at the street car stop.

"Fifth Column Active in U. S.—read all about it."

Joe mechanically bought a paper and boarded his car. He spread the paper across his lap. Fifth columnists might be boring from within, but to Joe at the moment, they were just boring. He scanned the headlines. "FBI Fears It May Be Too Late," He yawned.

"Broad Street," droned a voice.

"Broad Street," the voice repeated.

Joe awoke with a start. His paper had fallen from his lap. He stooped to retrieve it and at the same moment glanced out of the car window. The sight that met his gaze was incredible. Shaking his head and blinking vigorously, he made his way to the exit.

As his foot touched the curb he looked once more to confirm what he had seen from the window. No, he was not dreaming. On a pole high above Broad and High streets there floated a flag that Joe had never seen before—that is, never in its present setting. In vain he plumbed his memory. Where before had he seen that strange and macabre em-

(Continued on Page Three)

## SLB Is Cleared

The Student Labor Board has been restored to good standing, Dean of Men Joseph A. Park announced today. The organization was suspended from further campus activity Tuesday for what was thought to be a failure to turn in a required report on activities, but it was found the report was handed in last spring and lost.

The Labor Board will hold its meeting tonight in the Ohio Union as scheduled.

## Yale's Phelps To Speak Here

AAUW Sponsors Series Of Five Lectures

Dr. William Lyons Phelps of Yale University, author and literary critic, will speak in the University Hall Chapel Wednesday, October 16, at 8:30 p. m., on the subject of "The Art of Living," it was announced today.

Dr. Phelps' lecture is the first of five to be presented during the autumn and winter quarters by the Columbus branch of the American Association of University Women. On the schedule are: Pierre Van Passen, foreign correspondent and author of "Days of Our Years"; Dr. Ruth Alexander, nationally known economist; Edward Tomlinson, author and commentator on the American scene; and Dorothy Sands, actress and impersonator.

### ALEXANDER WELL KNOWN

Dr. Alexander, who is recognized as one of America's foremost women speakers, will consider "The Truth About Money" in a Chapel talk at 8:30 p. m., December 4.

Miss Sands, known as a keen analyst of the methods employed in the theater today, will discuss "Tricks of the Acting Trade" at 8:30 p. m., March 18, in the Chapel.

The two other lectures in the series, featuring Pierre Van Passen on "The Crisis in Western Civilization" and Edward Tomlinson on "New Roads to Riches in the Other Americas" will be heard at Mees Hall, Capital University, on November 7 and January 27.

Mrs. E. E. Dreese is the ticket chairman for all events and Mrs. Raymond C. Gauch is assistant chairman.

## Baker Hall Elects Executive Council

A temporary hall executive council was elected at Baker Hall, new men's dormitory, Tuesday night. Bill Hostetter, Engr-3, is president.

Dwight Jones, Phar-4, is secretary, and John Covington, L-1, is treasurer. Also on the executive council are Bob DeLloyd, Roy Abel, Dave Perry, and John Covington, first, second, third, and fourth vice-presidents respectively.

This council, which serves as a judicial and legal body, will function for a month in its temporary capacity. Some time in November a permanent organization will be elected for the remaining two quarters.

## Co-eds Learn About Law; Hear Lecture Today

Four University co-eds are probably thinking today that "working your way through college" isn't all it's cracked up to be. They are under police investigation for obtaining city licenses to sell novelties for out-of-town men at football games.

Police Corporal Edgar Butler said the girls, all freshmen, would be taken before the University today. They are not being held under arrest.

According to Butler out-of-town persons may purchase a peddler's license, but he said, "I have always tried to keep the sale of novelties around the OSU football games restricted to students."

### Fraternities Set Initiation

Initiation day for all fraternities was set for November 15 and 16 at a meeting of the executive council of the Council of Fraternity Presidents in Page Hall, Tuesday.

Originally initiation day was scheduled for October 26, but was set back a week so that it would not interfere with attendance at the Ohio State-Cornell game.

## Glee Club Will Travel South For Concert

Varsity Members, No. 2 Club, Are Chosen

The Varsity Glee Club will travel to Ashland, Kentucky, November 8, to present a concert before the Kiwanis Club. It will be the first concert of the year for the 58 members, whose names are being announced by the executive committee of the group.

The members were chosen after a week of competitive tryouts ending Tuesday. Rehearsals will be held every Tuesday and Thursday at 4 p. m. in the Ohio Union. Varsity Club men include:

First Tenor: George T. Bradford, Gerald O. Allen, Robert O. Zimmerman, James A. Kintz, Ralph E. Beam, Galen Fuller, Robert Buhl, James Eskew, George Garrison, Harold Robinson, Kolland Chamberland.

Second Tenor: Joe Shank, George S. Snyder, Robert L. Kohler, A. Lewis Fullerton, Wilbur B. McDowell, Nelson N. Harper, Harold S. Lowe, H. Robert Heiskell, Rupert L. Atkin, David Schutz, John E. Peck, Norwood Tupps, James Metropolis, Robert E. Friedly, Wayne C. Gault.

Baritone: Kenneth E. Oeffler, Frank J. Kovath, Robert L. Dissly, Robert H. Kuhlman, William M. Tonneff, Richard D. Gannon, Rodger O. Borrer, Charles E. Crook, George D. Curtis, Robert J. Eppley, Leslie A. Brooke, Herrold E. Headley, Carl Moore, John E. Larmi, Robert Hunker, Raymon M. Ferron.

Bass: Clyde S. Barnhart, C. Dale Bechtol, Jack B. Cullen, Charles H. Kohler, James C. Wittenmyer, Howard G. Miller, Edward F. Roubal, Eugene W. Bates, William L. Torow, Francis A. Miller, Ralph L. Poston, William Davis, Kenneth Ewing, William G. Kneisel, Warren Glunt, Lynn Borders.

### ANOTHER GLEE CLUB

The Ohio State No. 2 Glee Club, composed largely of freshmen and

(Continued on Page Three)

## Air Battles Rage Over Britain and Germany

Axis Powers Threaten Balkans and Far East

LONDON, October 9 (UP)—Operations of the Axis powers and Japan threatened new military blows in the Balkans, North Africa and the Far East today, but the real war raged most fiercely in the air over Germany and the British Isles.

Nazi warplanes smashed with bombs and machine guns at streets in London and other cities where the wreckage of buildings, hospitals and homes was piled higher than ever as a result of furious attacks in the last 48 hours.

### Bureau Managership Open

Students interested in the position of manager of the Travel Bureau of Ohio Staters, Inc., should present themselves for interview at 3 p. m. Thursday, October 10, in the office of the manager of the University Book Store in Derby Hall. No specific qualifications for the position have been announced but choice, so far as possible, will be made from sophomore men in the College of Commerce and Administration.

## Agronomy Club Begins Year at Thursday Meeting

The recently founded Agronomy Club will have its first meeting of the fall quarter at 7:45, Thursday evening, in room 205, Townshend Hall.

The club plans to continue the practice of having an authority on agronomy present at all meetings to discuss agronomic problems.

Membership in the club is open to students majoring in Agronomy and to those students who have completed five hours of Agronomy. Faculty members, agronomy graduate students, and those students interested in Agronomy are urged to attend the first meeting.

## LATEST NEWS FLASHES

By United Press

## Britain Opposed to Spanish Blockade

LONDON—Suggestions that the American nations be permitted to send their surplus foods to Spain were revived today as the result of Prime Minister Winston Churchill's reference in Commons yesterday to Spain's urgent need for "peace, food and an opportunity for prosperous trade."

Churchill said that Britain opposed blockading Spain and that "All we need is a guarantee that she will not become a channel of supply for our mortal foes."

## British Seize French Freighter

VICHY—British naval forces have cut maritime communications between South Africa and the great French colony of Madagascar and have seized the French freighter Esperance, bound for Djibouti with food supplies, it was disclosed today.

## Monthly Plane Output Is 800

SCOTT FIELD, Ill.—General Henry H. Arnold, chief of the U. S. Army Air Corps, said today the United States is building 800 combat planes a month and that personnel training was far ahead of aircraft delivery.

"Within one year," he said, "the Army Air Corps will be graduating 12,000 trained pilots a year and by April, 1942, the army hopes to have 14,000 officers and 150,000 enlisted men in the corps."

## County Results Reported First

COLUMBUS—George M. Neffner, secretary of state, said today he will instruct county election boards to tabulate and report returns on the presidential race November 5 before making any count of votes for the state and local offices.

## Roosevelt Signs Tax Bill

WASHINGTON—President Roosevelt has signed the Excess Profits Tax-Amortization Bill designed to raise \$1,000,000,000 more a year for defense, prevent the growth of "war millionaires," and ease repayment of defense plant extension costs, it was announced today.

The measure sets up a 25 to 50 per cent additional tax on profits in excess of what are considered "normal" corporation earnings, and will affect nearly 50,000 firms throughout the country.

## Draft Boards Await Confirmation

COLUMBUS — Recommendations for personnel on local draft boards in all but five of Ohio's 88 counties were in Washington today, awaiting consideration by President Roosevelt.

ings, hospitals and homes was piled higher than ever as a result of furious attacks in the last 48 hours. In London, one bomb destroyed a big section of a hospital in which 108 patients were housed, apparently taking a heavy toll of lives. Another bomb crashed through an air raid shelter in which 150 persons had sought safety, killing eight or more. The toll mounted as Nazi pilots circled back to drop incendiary bombs on the scene and as others glided low to machine gun streets in British towns.

### BRITISH RETALIATE

The heavy all-night attacks on Britain were echoed by the crash of British bombs in Germany, where the London Air Ministry said that great damage had been inflicted on the Nazi naval bases at Bremen and Wilhelmshaven and the invasion ports along the English Channel and in Holland.

Objectives included oil refineries, power stations, war factories and other targets in line with Prime Minister Winston Churchill's promise that the task of destroying the German war power would not be interrupted in order to carry out reprisal bombings of Berlin.

### BRITISH TURNED BACK

Nazi sources at Berlin reported that about 30 British bombers had been turned back by Nazi night fighters when they tried to enter Germany from the North Sea, while more than 250 German planes were dumping 150 tons of explosives on London.

In addition to the aerial war, however, the axis powers were busy building up their threat of a climactic offensive to destroy the British Empire in line with decisions taken by Adolf Hitler and Benito Mussolini and their Brenner Pass meeting, and in the Far East the Chinese Government added to the possibility of a new crisis by promising to fight on relentlessly against Japan.

## ASA Sponsors Round Table; Dr. Mathews to Participate

The American Student Alliance will hold its first meeting of the year Thursday at 7:30 p. m. in the Social Administration Auditorium. Featuring the program will be a round table discussion on "What About Civil Liberties." Dr. Cecil C. North, department of sociology, Dr. Robert E. Mathews, College of Law, and one ASA member will participate. Questions will be allowed afterward from the floor.

Business of the evening will center around a plan for an "All Student Peace Conference." Other organizations have already been asked to cooperate.

## Newman Executive Board Plans Year's Activities

The Executive Board of the Newman Club met Tuesday night in the Ohio Union to form plans for the organization's activities during the coming year. Members of the Executive Board include Edward J. Peters, A-2, president of the Newman Club; Jean M. Bowen, Ed-3, vice-president; John C. O'Neill, Engr-3, treasurer; Elizabeth A. Abram, Ag-3, recording secretary, and Eleanor M. Smith, A-3, corresponding secretary.

The first meeting of the Newman Club will be held Sunday at 3 p. m. in room 307, Pomerene Hall.

## Wastebasket Drops Again

While emptying confetti from a wastepaper basket as Wendell L. Willkie, Republican presidential nominee, was parading in New York City today, the basket was accidentally dropped and struck a pedestrian.

Office boys of an advertising agency working on the twenty-third floor of an office building said the basket was not dropped intentionally.

## The Ohio State Lantern

Established in 1881

Member of Associated Collegiate Press

Member of Western Conference Editorial Association

Member of Inland Daily Press Association

Editorial and other opinions expressed in The Lantern are those of students unless otherwise indicated.

Published daily except Saturday and Sunday during the regular school year by The Ohio State University, under the direction of the School of Journalism.

Combined with the Official Daily Bulletin.

Entered as second-class matter, January 16, 1907, at the post office at Columbus, Ohio, under Act of Congress March 3, 1879.

Accepted for mailing at special rates of postage provided for in section 1103, Act of October 3, 1917, authorized July 10, 1918.

### TERMS OF SUBSCRIPTION

Three dollars for autumn, winter, and spring quarters inclusive, on the campus, in the University district, or by mail outside of Columbus. Four dollars by mail in Columbus.

## STYLE CAPSULES

by Rosalie F. Thompson

Since classes began the freshmen have come down to earth to put their feet on the ground that trips many an upperclassman. That being the case, we might take a look at the aforementioned feet to see how they are shod.

Although brown and white is still in the saddle, by Homecoming all browns will have come into their own. The moccasin-stitched styles are more popular than ever, for they have strayed from the straight moccasin to other flats. And the seaming (which gives a deceiving illusion of ash foot) is heavier than ever. That trend grows particularly in men's models.

If you are in the least detail conscious, you know by now that there isn't much difference in the styling of men's and women's sport shoes. The moccasin, the saddle and the side-tie are mutual property. The antique finish dear to the hearts of our men hasn't yet been successfully translated into feminine footwear, probably because it looks too heavy. But modified versions of it look very trim on co-ed feet.

Rough leathers—including a sturdy masculine one resembling tree bark—eclipse smoother ones for campus popularity. Reptile and pebbly finishes come in for a big share of the vote, while the monotone suede oxford, with an alligator saddle, edges into favor. In smoother finishes, the dull elkskin retains its wearability.

## HARASSED—

(Continued from Page One)

blem? "The Jolly Roger," he exclaimed. "Sure enough, grinning skull and cross-bones."

Joe had never been an alarmist before but beads of perspiration began to appear on the little one's brow. He was not asleep now but ashamed that he had ever been sleepy.

He thought of what that fellow had said over the radio a few days before. "The democracies are asleep, blind to the insidious workings of under-cover agents. When least expected, this treacherous body which so stealthily is undermining our institutions will be in complete control."

Joe shivered. Our worst fears have been realized, he thought. He looked at the masses about him as if eager to share responsibility for the terrible catastrophe. The crowds milled about, seemingly oblivious to the flag high above the square. Joe savagely deplored their lack of interest . . . in their hour of doom their calmly acceptance of fate.

Nowhere was there any apparent disorder. The surrounding buildings seemed intact. The Capital building bore no scars. Why, almost at the foot of the pole itself the same old pop-corn man whose cart had become a landmark sold his wares unperturbed. Joe decided to ask him just what had occurred. He strode over to the little cart.

"Can you explain that flag?" he asked, pointing toward the leering skull.

"Sure," answered the vendor, brokenly. "The city he fly that flag every time a man he is killed in a traffic accident."

A flush of crimson spread over Joe's countenance. Blindly, he loped off into the crowd in search of the nearest headache powder.

I saw Joe on the campus today. He is growing a beard. "Not so much to look like Orson Welles," he said, "as to look less like Joe Doaks."

Well, that is Joe's (my) story, folks. I hope he prints it—he said he would.

## Houses of Wooden Brick

ABERDEEN, Wash. (UP)—Frank J. Wortner, veteran inventor, has built three model houses of wooden bricks 10 inches long with a 2 1/4-inch face and 1 1/4-inch thickness. The bricks are locked together by a dovetail strip.

## Sourdoughs Meet Again

VANCOUVER, B. C. (UP)—Two old sourdoughs got together over a pan of gravel at the Canadian Pacific exhibition here. Both were veterans of the Klondike gold rush of '98.

Smart co-eds are beginning to visit the children's departments for campus shoes. Sizes usually go up to 9, and the styles combine chic with an emphasis on comfort. Witness the Girl Scout shoe, which co-eds have just "discovered," and its sister styles.

Dress shoes for women allow for more imagination than men's. For instance, the wooden touches which were thought up this summer. They were too hastily taken up by the cheapest lines of footwear to become high style; but a heel of highly polished wood, carved simply but differently from the cheaper grooved heels, does have a definite fashion value.

The ones we liked best were of military heel height on a suede pump. Incidentally, the low-heeled pump has grown rapidly into one of the significant styles, and promises to join the perennials, such as spectators, for round-the-clock wear.

The two high-heeled footies that caught our eye were of suede. One was the classic opera pump, dressed up with a double-breasted front, with four tiny buttons lining each side. The other was similar, dressed up by a petal bow caught in a metal Puritan buckle at the instep.

Incidentally, for foot-protection in soggy weather, a streamlined rubber shoe to fit over high heels is light, effective, and folds into a small purse packet. All for a mere dollar and a quarter.

## Canadians Go to Iowa For Religious Education

LAMONI, Ia. (UP)—War and not coincidence led all Canadian students who entered Graceland College here this fall to enroll in the religious education department.

They were required to tell customs officials they desired to study certain courses not available in Canada to take money out of their country.

Graceland is maintained by the reorganized church of Jesus Christ of Latter Day Saints, and by enrolling in the religious education classes the students kept the letter of the law.

## Play Days Are Over; Boy Turning to Stone

FORT WORTH, Tex. (UP)—A year ago he was a husky young 10-year-old boy active in baseball, football, and all the neighborhood games.

Today Edwin Hatch, Jr., stays in the house most of the day. For sports and childhood play he has substituted card tricks, mastery of the mouth organ, and racing a pet turtle.

Bone specialists have said that young Hatch suffers myositis ossificans progressiva. Those are the scientific terms. The boy is turning to stone.

## Mormon History Written

SALT LAKE CITY, Utah (UP)—An 1100-page book soon to roll off the presses will outline in minute detail the history of the Mormon church and culminate 67 years of research in dusty files of the Church of Jesus Christ of Latter Day Saints. Andrew Jensen, church historian, first began the voluminous work in 1873 when but 22 years old.

## Smith and Smitha

CARROLLTON, Ga. (UP)—It'll be Smith and Smitha when the roll is called for Carroll county in the 1941 Georgia legislature. Willis A. Smith, lawyer, and Bill Smitha, rural school principal, won the county's two lower house seats. Their opponents were Reed and Steed.

## Unopposed—He Loses

WAKEFIELD, Mass. (UP)—Fred P. Elliott was unopposed for the Democratic state representative nomination but he failed to win. He received 44 votes, and the law requires a minimum of 45 votes for nomination. Elliott says, however, he will be a sticker candidate.

with the chances being that it would have little effect in either direction. Moreover, the limit won't operate this year anyway, because when the law was submitted to arbitration before Rush Week, it automatically became inoperative until final settlement, and the fraternities took as many members as they wanted, or could get.

But there are other questions that ought to be answered at once. Why, for example, should a law passed twice by big majorities in the Council be submitted to arbitration, and possible reversal, by the petition of only 11 fraternities? And what is the good of an arbitration board when two of the arbitrators are deadlocked, and the third refuses to vote because he doesn't want to show partiality? It isn't the board's function to say whether the law is good or bad, but only to say whether the council's action was legal.

Since the arbitrators are tied up, the question goes (by constitutional provision) to the Student Court for final judgment. But no one denies that the law was fairly and legally passed in the first place, so the Court's jurisdiction is doubtful.

Which raises the question, why should the Court have the final decision on matters that the Council is supposed to know most about, since it lives with them?

Now, all this leads inevitably to the proposition, what good is the Council, anyway? And if the Council doesn't want that idea to grow to embarrassing proportions, it would do well to forget the 60-man-limit temporarily, and devise a constitution that won't collapse when a question is dropped on it.

"The Dean of Men's office will uphold the decisions of the Council of Fraternity Presidents," the office said Monday. It probably would not only uphold but hail this decision if the Council made it.

By John Murray

the stores on both sides and all the people and the man. Ha, ha, ha, ha, I wanted to solve it. He's crossing the street. If you close your eyes you can see him too. He won't stop crossing the street.

Watch him. He's a little bug and we're watching him. There he is, at the curb. He's moving. Ha, ha, ha, ha, he's moving. Do you see him moving? He's walking across the street. Such a little bug. But he won't get away. We're watching him. Every time I close my eyes he's there and he starts across the street. And I watch him. For 15 years I've been watching him start across. Someday he's going to get across that street.

What's he want there, anyway? Why don't he stay on this side? Maybe he wants food. Food to give him strength to cross more streets to get more food to cross more streets. And you call ME crazy. Just because I wanted to solve it. I wanted to cross a street and be finished crossing streets to get food to get more strength to cross more streets. I got to where I didn't know which was the food or the streets.

Can't you see I'm not crazy? It's the food and streets that's crazy. My, I wish he'd get across that street. Fifteen years I've been watching him. Someday he's going to get across that street and I won't have anything to do. I'll probably go crazy if I don't have anything to do.

... with Warren Edwards and Ralph Kaminsky

it's an art—often represents a pretty keen insight into the reasons why every once in a while the world goes haywire. Laughing at the funny side of life doesn't mean that one doesn't recognize the more serious aspects. Nor does being serious about life mean that one has more intelligence or sincerity.

Quite often the ready wit and alert mind grasps the essentials of a situation and expresses them in half the space and time required by the serious mind. Humorists indulge in flashes of common sense which simplify and explain our problems. Handling ideas with a deft, light touch of wit is one way of exposing sham and humbug.

We needn't worry too much, however, about humorists joining one party, and heavy thinkers giving their support to the other. In their own way both contribute something toward clarifying and explaining the issues that confuse us. More significant to us, at least, is the Tribune's lament regarding the lack of a Voltaire or a Paine.

Certainly the nation and both parties could profit from Voltaire's razor-edge mind and Paine's common sense. Blending their wit and gravity would be one way of injecting a high note of wisdom and levity into our politics. Unfortunately, as the Tribune suggests—there ain't no such animal.

## It's the Limit

The wrangle over the 60-man limit on fraternity membership, passed twice last spring by a substantial majority of the Council of Fraternity Presidents, has broken out again, between 11 fraternities who don't want the limitation and about 30 who either do want it or don't care.

In an attempt to find a solution to the argument, the members of the Council have jumped on their horses and are riding off in all directions, with the result that the main question whether actives and pledges should be limited to 60 per fraternity—has been buried under a mass of questions about legal procedure that expose the Council's constitution as an impenetrable mess.

The big fraternities argue—as they argued last spring—that they can't support their chapters on the income from only 60 members. The other fellow chapters contend that a fraternity with more than 60 members is no longer a fraternity, in the fellowship sense of the word. They say the surplus should be distributed among the chapters with less population.

But actually the whole question of the 60-man limit could well be set aside for the moment, because no one really knows whether it would help or hurt either side,

## INCONSEQUENTIA

You think I'm crazy. You know why you think I'm crazy? Because they got me in here. Just because I'm in here you think I'm crazy. I'm not crazy. Everyone else is crazy. They got me trapped. Every time I scream I'm not crazy you think I'm crazy just because I say I'm not. But if you say you're not crazy nobody puts you in here. They believe you. Why don't they believe me?

Just because I wanted to solve it, they think I'm nuts. They put me in here just because I wanted to solve it. Did you ever watch a man? Try it some time and watch yourself watching him. Stand on one side of a street and watch yourself from the other side. That's what I used to do. I used to watch myself do everything and then there wasn't any point in doing anything because I knew just how I was going to do it.

That got tiresome. So I started watching how I watched myself watching myself. A game that's what it was, a game, ha, ha, ha. I used to watch myself watch myself just like a cat watches a mouse. I kept trying to outwit myself. Trying to do something too quick for me to watch myself but I never could. I was too quick for me.

I kept trying to solve it. Close your eyes and see the man. I can't get rid of that man. He keeps crossing the street. Close your eyes and see the street. It's a busy street. There's a carline on it and much traffic. See

## LET'S TALK

Scrimmaging around in the daily papers the other p.m. we read an editorial in the New York Herald-Tribune which regretted that as yet a Francois Voltaire or a Thomas Paine has not joined either political party. Continuing, this daily journal tells us that while the Republicans have gained the support of older, more serious authors, the Democrats have only attracted several gay, frivolous writers of pointed humor. Egad, means the Tribune, Is life such a joke?

The editorial is right about the absence of great philosophers in the two parties. And perhaps the editorial is right in implying that the writers who are holding hands with the New Dealers consider life as nothing but a joke; while the more sober Republican authors evince more respect for the weighty problems of today.

That may be so. But there are times when all of us would agree that there's plenty of humor in our little world. That perhaps we'd all digest our meat and potatoes a lot better if we accepted this little coincidence called life as more of a joke and quit being so dog-gone serious.

Not so many of us, however, appreciate this ability to joke, to pun, to satirize on important issues. This ability—and by golly

South's Permanent  
Grid Superiority  
Suffers Setback

Last New Year's Day, Tennessee was playing in the Rose Bowl, Tulane in the Sugar Bowl, Georgia Tech in the Orange Bowl, and Clemson in the Cotton Bowl. Casting a quick glance over the situation, the football experts came to the conclusion that the aegis of football supremacy, once the sole property of those teams east of Pittsburgh, after moving through the Midlands and on to the West Coast, had swung back on itself and taken up permanent abode in the Sunny Southland.

Not only that, but they had it all figured out just why the South was getting so good. And they weren't far wrong either.

The sudden rise of Dixie in the gridiron world was not due to any reincarnation of the shades of Lee or Jackson. No Suh! Not by a mint julep. The boys who were raising so much havoc down upon the Swannee river hailed from Gary, Ind., Massillon, O., and points north.

Nor was there anything mysterious about this second carpetbag movement. It was just a case of a good football player choosing between playing for fun or playing for fun plus something else. You guess which won.

With Southern coaches making fantastic offers to youths who carry a football a little better than most, and all above board and inside the law, too, the consensus was that the Old South would continue to dominate football until Stone Mountain crumbles into dust, and the Daughters of the Confederacy open their annual convention with Marching Through Georgia. And maybe it will.

But temporarily, at least, there seems to be a hitch in the program. Tulane, supposedly one of the best in the South, has twice taken it on the chin from teams representing the effete, but apparently effective, East.

Duke, the eleven which was to strike terror into Yankee hearts this fall, especially those around Pittsburgh, took a 13 to 0 tunking from Tennessee, a team which was greatly over-rated last year, and is not as good this year as last. In fact, for our money, there are at least seven teams north of the Ohio and east of the Mississippi which can beat the pants off anything the South can offer.

Year in, year out, the best football in the United States is played in the Big Ten and the Missouri Valley, and we believe it will continue to be so, in spite of the tub-thumping rolling up from the land of fish fries and Carolina Moons.

**News Notes Around the Big Ten:** Western Conference teams have played eleven games with non-Conference foes this year, and have dropped but one of them, that being Indiana's defeat by Texas. The Big Ten has scored a total of 308 points in these games, while allowing the opposition only 74 . . . Add sophomore stars of 1940: Hadley Hoskins of Wisconsin, who completed six passes in six tries against Marquette, and averaged 9.2 yards at rushing. Also Bill Daley, who stood out in Minnesota's victory over Nebraska . . . Michigan holds what must be some sort of a record. In one season, they won half their football games, but scored only one point, and were un-scored upon. Catch: the year was 1879, the schedule consisted of two games, and the scores were 1-0 and 0-0.

# Varsity Works Against Wildcat Plays

## Inactive

**JIMMY STRAUSBAUGH**  
Halfback  
Ohio State

Sitting on the bench is more tiring than actually playing to Strausbaugh, whose injured ankle has kept him out of action so far this year.

## Injured Star Bemoans Fate

Strausbaugh Would Rather Play Game Than Watch It

By CLIK WILLIAMS

If you think you have a bad seat to watch the game from in the Stadium, you should hear what Jimmy Strausbaugh has to say about his. He doesn't like it a bit, to be conservative.

It's as natural for Jimmy to be out there on the field when the game starts as it is for you to eat dinner. Only he feels worse about not being out there than you would if you had to miss dinner.

Strausbaugh, as you know, was injured in the last practice before the first game, and hasn't seen any action. His ankle isn't right yet, either, and he may see another game or two from the bench.

Monday night Jimmy said, "I think it's harder to watch a game from the bench than it is to play it. After a game on the sideline I'm twice as tired and nervous as I am after I play."

### CAN'T CUT BACK

He can run just as good now as he ever could, as long as he runs in a straight line. It's when he tries to cut, or stop quickly, that he puts his weight on his heel and spoils the picture. As long as his weight is on his toes he's all right, but his weight on his heel is very painful, and there the weakness shows up. He just hasn't any maneuverability, and that's what he is famous for.

Jimmy is popular with his teammates as well as with the fans. Everybody has a good word for him and wishes he was in shape to play. But nobody wishes that as much as Jimmy himself does.

A Chillicothe High product, Strausbaugh last year led the Big Ten in yards gained per try with a 8.43 average, which isn't bad in any league, and is really something in the Big Ten. Modest and quiet, Jimmy is the steady type of ball player that can always be depended upon. He hates this hanging around and being useless and wants to play as soon as possible.

No one knows when that will be, but all are agreed that when the time comes Jimmy Strausbaugh will add punch to the Buckeye attack, yards to their ground gained, and points to their score.

## CO-ED SPORTS

By MARY LOU EATON

Rifery for women has at last made its appearance at Ohio State. The new rifle range at Orlentangy Village will be the scene of operations and all students interested in this most fascinating of sports are invited to meet in the Pomerene Gymnasium at 5 p. m. Friday, for further information regarding a Rifle Club.

Swan Club will hold its tryouts in the Men's Natatorium at 5 p. m. Thursday.

Archery Club will have an open house from 5 to 5:30 p. m. Wednesday, at the Field House. All girls interested in drawing the bow are cordially invited to be present.

The Orlentangy bowling alleys are to accommodate all of the bowling classes this fall. The Bowling Club tournament also is to be held there. The deadline for signing up your

## I-M Football Entry List To Set New High

Horshoe Doubles To Start First Round Play

By GENE FRIEDMAN  
I-M Editor

With fraternity flights already drawn, the 1940 intramural touch football season is scheduled to get under way Monday, October 14. Practices are being held every day this week for those teams who desire a little preparation before getting under way.

Also getting started is the horshoe doubles campaign with the first round being run off today and Wednesday at 5 p. m. and 5:30 p. m.

Altogether 10 touch football flights have been drawn for a total of 80 fraternity teams entered. Although the independent drawing has not yet been completed, it is assured that this year's list of teams will exceed last year's total of 102.

There are two flights of professional fraternity touch football teams. All flights are run under double elimination; no team is eliminated until it has lost two games.

### FLIGHT 1

Flight 1 includes Omega Tau Sigma, Acacia, Triangle, Alpha Gamma Rho, Delta Theta Sigma, Phi Delta Chi, Delta Theta Sigma, and Theta Tau.

In Flight 2 of the Professional Division is Delta Sigma Delta, last year's Fraternity Champion which outclassed its competition by a wide margin, Alpha Gamma Sigma, Delta Theta Phi, Alpha Zeta, Epsilon Psi Epsilon, Psi Omega, Alpha Kappa Kappa, and Nu Sigma Nu, which walked with a flight championship in last year's play.

Four flights have been drawn in the fraternity active division. The

### Intramural Notice

The Intramural department announces that entries of independent touch football teams will be accepted up to Friday noon. Entries can be made in room 205 of the Men's Gymnasium.

first includes Pi Kappa Alpha, Phi Sigma Delta, Alpha Tau Omega, Tau Epsilon Phi, Kappa Sigma, Sigma Alpha Mu, Phi Gamma Delta and Sigma Phi Epsilon.

The second flight is made up of Phi Mu Delta, one of last year's strongest teams, Phi Kappa Sigma, Phi Kappa Tau, Phi Epsilon Pi, Delta Upsilon, Delta Tau Delta, runner-up to the champion Delta Sigs, Alpha Sigma Phi and Phi Kappa Psi.

Delta Sigma Phi, flight champion, Alpha Epsilon Pi, flight champion, Tau Kappa Epsilon, Sigma Pi, Zeta Beta Tau, Sigma Nu, Sigma Alpha Epsilon, and Chi Phi make up Flight 3.

### ACTIVE FLIGHT 4

In the fourth active flight, we find Alpha Phi Delta, Lambda Chi Alpha, Theta Chi, Sigma Chi, Phi Kappa, Theta Kappa Phi, Beta Theta Pi, and Phi Delta Theta.

There are also four pledge flights. The first includes Tau Kappa Epsilon, Sigma Phi Epsilon, Beta Theta Pi, past pledge champion, Phi Kappa, Zeta Beta Tau, Delta Chi, Sigma Chi, and Pi Kappa Alpha.

Flight 2 is made up of Chi Phi, Sigma Alpha Epsilon, Phi Epsilon Pi, Phi Gamma Delta, Phi Kappa Tau, Delta Tau Delta, Sigma Alpha Mu, and Sigma Pi.

Alpha Epsilon Pi, Phi Delta Chi, Alpha Tau Omega, Alpha Sigma Phi, Phi Sigma Delta, Phi Kappa Psi, Kappa Sigma, and Lambda Chi Alpha are all in Flight 3.

The last flight includes Alpha Phi Delta, Phi Delta Theta, Delta Upsilon, Tau Epsilon Phi, Theta Kappa Phi, Alpha Gamma Rho, Sigma Nu, and Alpha Zeta.

bowling teams for this tournament is October 15.

A team consists of five girls plus two girls for substitutes. The tournament will be limited to 24 teams and the place to sign up is on the bulletin board at Pomerene Hall. Each tournament game will be held on Tuesday and Thursday from 4 to 6 p. m. and they start on October 22.

All entries for the volleyball tournament must be in by October 18. Pick your team and get into intramural sports for fun.

Broken egg shells may compete with oyster shells and limestone as a poultry feed, according to Iowa State College.

## Captain

Though Eisenhart, captain-elect of the track team, probably will not be in condition for the cross-country meet at Miami Saturday, he will be one of the better distance men in the Big Ten by the end of the season.

## Cross-Country Team to Miami

Three Lettermen, Four Sophomores Slated to Go

The boys with the iron lungs, who run over hill and dale for their Varsity "O's," will inaugurate the 1940 cross-country season at 3 p. m. Saturday, on Miami University's rugged four mile course. Seven men, and possibly eight, will make the trip to Oxford in the first in a series of eight meets.

Three lettermen are scheduled to go Saturday along with a quartet of sophomores. Les Eisenhart, 1941 track captain-elect, is "not in shape" and may not go, according to Coach Larry Snyder. The senior letterman is rated by his mentor as one of the best half milers in the country.

Ohio State's trio of veterans include Nelson Price, miler and two miler, Gene Kiracofe, last year's best two miler, and Bill Boulton, senior distance man. First year candidates are Johnny Jones, Bob Raymond, Keith McFarland, and Tommy White.

Purdue will invade Ohio State on October 19, and the Scarlet and Gray team will trek to Wayne on the following Saturday. Indiana will come here on November 2, followed by Oberlin on November 5. Winding up dual competition is the contest at Illinois on November 16. The Big Ten meet is slated for Chicago on November 18, followed by the finale at Lansing, Mich., the scene of the N.C.A.A. meet.

## Frosh Imitate Northwestern As Buckeyes Prep for Tilt

Tuesday afternoon the title aspiring Buckeyes got a glimpse of what to expect from Northwestern this Saturday as freshman coach Fritz Mackey sent a frosh eleven against the Buck Varsity armed with Northwestern plays.

The Buckeyes, rested and over the ill effects of the Purdue game, undertook seriously preparations for this week's clash. Everybody worked hard and the cry, "Beat the Wildcats" sounded time and time again as the different teams hustled to the line of scrimmage from the huddle.

Every member of the squad has but one thought in mind, that being to beat Northwestern. They know it will take a lot of hard work, so that's what they are doing, working hard, every one of them. Fisher's leg, which was bruised in the Purdue game, seemed to be in good shape as he worked at full speed. Nor was there evidence of any recent injury. Strausbaugh, who probably will see the Northwestern game from the bench, worked out but confined his activity to a little running and passing.

### STILL PASSING

Coach Schmidt again emphasized passing in the early part of the drill. The first three teams executed passes and running plays against unresisting opposition. Langhurst and Scott did most of the passing for the first eleven.

The team of freshmen that ran the Northwestern plays against the

Varsity were not, Coach Mackey pointed out, the best frosh prospects. They were picked because they could report for practice 4 o'clock this week. It is too early to tell who are the outstanding boys on the freshman squad since the squad didn't start working out until after school started.

The team representing Northwestern had Ueberoff and Steinberg at the ends, McGillivray and Moldea at the tackles, Dean, Houston and Naples at the guards, and Rosen at center. The backfield posts were filled by Flor, McClure, Cherokee, Palmer, Hecklinger and Consola.

Hecklinger was picked to impersonate DeCorrevont, since the two are about the same size. Consola wore Hahnstein's (the other Northwestern left half back) number. Palmer was at full and took the place of Northwestern's Clawson, while Cherokee the quarterback, portrayed Richards, Flor, Keppford, and McClure, Chambers.

The Varsity bottled up everything that the "Northwestern" team ran or threw their way without trouble. Whether or not they will be able to do the same Saturday remains to be seen.

## This and That About the Buckeyes . . .

Since Fritz Mackey brought back the word that this year's Northwestern team is the best Northwestern team that he has ever seen, and he has been scouting them for several years, the general opinion is that the game this Saturday won't be any pipe.

A lot of people are really afraid that the Wildcats may knock the Buckeyes out of the title picture by defeating them this week. All of which should serve to keep the team from getting too self confident and looking on the game too lightly.

The first string team has new red jerseys that are made short, so that they can be put on or taken off easily, to wear during scrimmage and dummy practice. They are rather loose fitting and something different than the usual thing.

Charley Maag only missed three or four of his practice kicks. He kicked about 40 from various distances and angles, and looked plenty good. Langhurst held the ball for him and did a swell job of that. How the ball is held means a lot when

time is as precious as it is during a field goal attempt. Jimmy deserves a lot of credit.

Anderson seemed to be taking particular pains as to how he held the ball after he caught it. He does not want to fumble another one. After watching him practice for several days there doesn't seem to be anything he can't do with a football—except maybe swallow it.

Professor Don J. Kays of Ohio State University has worn the same pair of bowling shoes for 27 years.

Strollers, rooms 100, 107, Derby Hall, 7 to 10:30 p. m.

Gray Manor Cooperative House Hayride, Worthington, 7 p. m. to 12 m.

### Saturday, October 12

IWA Terrace Dance, Terrace, Pomerene Hall, 4 to 6 p. m.

Pomerene Lounges open for music or football by radio, 12 to 4 p. m.

### Notice

The organizations listed below failed to comply with the rule of the Board of Trustees requiring an annual report in May of this year. They are accordingly suspended from further activity:

Avukah, Quadrangle Jesters, Scarlet and Gray Combine, Student Labor Board.

J. A. Park,  
Dean of Men.

### Pistol Club

The fall season of the Pistol Club opens Monday, October 14.

Instruction is offered at convenient hours for beginners. The fee for the instruction course, which is offered to all male undergraduate students, is \$1.

Pistols, ammunition, and targets are furnished by the club.

For further information and for signing up for specific hours of instruction, report to the fifth floor of the Southeast Tower of the Stadium between the hours of 4 and 6 p. m. either October 10 or 11.

### Physiology Seminars

Physiology seminars will be held at 4 p. m. on Tuesday in room 218, Hamilton Hall. The calendar is:

October 8—Dr. Frederick Shelden. The pilately perfused frog intestine.

October 15—Dr. Emil Bozler. Graded responses in nerve and muscle fibers.

October 22—Dr. S. R. Tipton—The respiration of isolated tissue slices after adrenalectomy.

October 29—Dr. Gordon C. Ring. Are the specific dynamic effects of foodstuffs additive?

November 5—Dr. Russel V. Milner. Cytological studies on the pituitary.

November 12—Dr. Allen Lein. The influence of the thyroid gland on iodide tolerance.

November 19—Miss Emelia Vicari. The thyroid glands of pure-bred dogs.

November 26—Dr. Frank A. Hartman. The study of electrolytes in elasmobranchs.

December 3—Mr. Douglas Smith. Some physiological properties of degenerating and regenerating nerves.

December 10—Mr. A. Edelmann. Some effects of artificially induced fever.

All those interested are invited to attend.

### YMCA—Report of Meetings

There will be a meeting of the Freshman and Upperclass Councils every Tuesday night at 7:30 in rooms 10 and 11, Ohio Union.

### University Faculty Meeting

There will be a meeting of the University faculty at 4 p. m. Thursday, October 10, in room 100, Administration Building. One of the items of business will be the election of a member to the Committee on Honorary Degrees.

### Report of Committee on Rules

The following report of the Committee on Rules will be presented to the University Faculty at its meeting on October 10:

TO THE UNIVERSITY FACULTY: Gentlemen—The Graduate Council, at a meeting held Monday, November 6, 1939, passed the following motion, which is hereby transmitted to the University Faculty for appropriate action:

"That University Rule No. 78 be changed to include among the ex-officio members of the Graduate Council, the Director of The Ohio State University Research Foundation."

Rule 78 at present reads: "The Graduate Council. The Dean of the Graduate School shall be chairman of the Council. The Council shall be constituted as follows: The Dean of the Graduate School, the Director of the Bureau of Educational Research, the Director of the Bureau of Business Research, the Director of the Engineering Experiment Station, the Director of the Agricultural Experiment Station (or some member of the staff designated by him) and the University Librarian shall be ex-officio members of the Council. It shall include one or more members of the Faculty of professional rank representing each of the following groups, etc., etc."

The committee recommends the approval of the amendment to Rule 78.

Respectfully submitted,  
Alpheus W. Smith,  
Dean.

Referred to Committee on Rules, December 14, 1939, Faculty Meeting—

AMENDMENT TO RULE 220—  
Examination Schedule:  
Add the following sentence: "Morning classes shall be assigned to morning examination periods and afternoon classes to afternoon examination periods."

The committee does not recommend the adoption of the amendment to Rule 220.

### Dean of Women's Announcement

Students who wish to lie down in quiet during the day should ask for information in room 215, Pomerene Hall. There is a rest room adjoining the Informal Lounge on the second floor of the building.

## SOCIALLY SPEAKING . . .

Harriet Oelgoetz Marjorie Smith

The professors would no doubt be pleased—at least more than we are—to learn of the dearth of social activities scheduled so far this quarter. Or doesn't that mean that more studying is being done?

Notice comes that Dr. N. Paul Hudson, chairman of the department of bacteriology, will address the Fireside Club of First Congregational Church, Friday, on "The Biology of Tropical Diseases."

The talk will follow dinner at 6:30 in the parish hall, which opens this year's program for the club. Membership is open to all younger adults of the church. A social hour will follow the talk.

Professor Harold W. Bibber, department of electrical engineering, is program chairman.

## WANT ADS

Flat rate per word two cents, 10% discount for three or more consecutive insertions. The LANTERN does not carry advertisements of rooms for undergraduates. All room advertisements are for men students unless otherwise stated.

## College Grads in Demand

PHILADELPHIA, Pa. (UP)—A Temple University survey disclosed that more college graduates are being sought by business and industry than in past years. "Never in the history of the university have inquiries from big business and industrial concerns been as numerous as they are today," a report on the survey said.

## Grand Coulee up 550 Feet

GRAND COULEE DAM, Wash., (UP)—Part of Grand Coulee Dam, the world's largest hydro-electric project, has reached its highest elevation, 550 feet above the lowest bedrock. Workers have finished pouring one of the topmost blocks in the east abutment section.

The American Association of University Women has cabled \$6050 abroad to help European women scholars in distress because of the war.

Hamann, J. E. The English Hire-Purchase Act, 1938: A Measure to Regulate Installment Selling. 1940.

## Follow the Big Ten Conference

Once again Ohio State University threatens to capture the Big Ten Conference title. Facing one of the toughest schedules in recent years, the race will be watched closely and eagerly by many students through the sports page of the LANTERN. The advertiser therefore has an excellent opportunity to meet the student buyer on his own field by placing his sales message in the LANTERN—the students' daily newspaper.

## It Pays to Advertise in the Lantern
