

Galloping Inflation Hits Stables

OSU Horses Never Die, They're Sold

By June Crismer

Another era has passed! The stable is practically empty.

It seems horseback riding is no longer thought necessary for a well-rounded education. However, this is not the true case.

TRUE, THE STABLE is practically empty. Only four of the former 22 horses remain. The other 18 were sold this summer to people living mostly in the Columbus area, wanting quiet horses.

This began last spring when the physical education department decided it would not be able to offer equitation to the students. It was running a deficit in that account.

The 22 horses were owned by the animal science department and the physical education department. The horses were used in equitation courses and horse production courses.

AS THE COST of living rose for people, so did the cost of living for horses rise. Fees for the equitation classes also rose. They were \$20, then \$25. Finally, the fee was \$35. Class enrollment dropped because of the higher fees.

As enrollment dropped, the physical education department sank deeper in the red. It had to pay the animal science department every quarter for taking care of the horses.

To make matters worse, equi-

tation was not offered the full year because there was no indoor ring. However, the animal science department still had to be paid for its work.

As Dr. Richard C. Larkins, chairman of the department of physical education and Director of Athletics, said: "There was the problem of balancing the budget."

THE ONLY ANSWER to this problem was to discontinue the equitation program.

Dr. Margaret A. Mordy, chairman of the women's physical education department, said she hated to give up the equitation program. "I fought it desperately," she added.

However, the animal science

department could not afford to keep all of the horses. So they were sold to anyone interested in buying them.

ACCORDING to Thomas L. Merritt, instructor of animal science, the horses were good for equitation courses, but were not good for his horse production courses.

Merritt is now planning to purchase four or five more broodmares for the horse production course. They will be quarter horses. In time, he hopes that they will have several foals.

SELLING MOST of the University's horses has affected many things. It has curtailed lab work in the horse production courses.

Boots and Saddles also was affected. According to Merritt, this probably will eliminate their fall and spring horse shows.

As for the stable, it will be used for research purposes and other types of livestock. At the present time, it is being used for sheep projects.

ANOTHER ERA has passed. What will take the place of the equitation class is unknown. Miss Mordy said, "I would still love to have it in the physical education program."

Larkins, however, said, "It is doubtful if we will be able to bring the equitation program back in the near future. It's an expensive program."

Right to be Different Is Platform of Group

By Carole Greenbaum

Ohio State has an organization that stresses individuality instead of conformity through five students who represent different faiths, races or nationalities.

The Panel of Americans is a nation-wide program in which university students, through frank and honest discussion, demonstrate the right of every individual to be different and to be understood.

THE STUDENTS on each panel—Roman Catholic, Negro, Jewish, Protestant and New American—appear with a faculty moderator before a variety of campus and community audiences to examine the problems and opportunities which arise from our racial, religious and cultural differences.

A typical program would be as follows: The moderator introduces the speakers as a group to the audience. After each student makes a brief, personal statement, questions are invited from the audience. A free discussion between the panel and its listeners concludes the program.

ORGANIZED in 1957 after a demonstration by the Purdue University Panel, the Ohio State group received recognition by the Stu-

dent Senate in the Spring of 1958.

Frank Watanabe, executive secretary of the Ohio State panel, said the first appearances of the group last spring before a few audiences were successful and indicated that a demand for the program existed on campus and in the community.

Supervising the organization is a 17-member Advisory Board made up of administrators, faculty and other staff members, of which the chairman is Dr. Robert D. Patton.

OFFICERS of the group are George Kuhn, president; Mike Shahan, vice president; Helen Shuman, secretary; and Carolyn Thomas, treasurer and acting student coordinator.

Meetings are held each Thursday at 7 p.m. in the YM-YWCA office, 212 Student Services Building. Mr. Watanabe said that observers are welcome and that requests for appearances of the panel may be made at the office.

Eighteen universities now sponsor the Panel of Americans.

Among these schools are the Universities of California, Minnesota and Wisconsin; Stanford, Purdue, Kent State, Western Reserve and New York Universities.

Bucks Drop To 5th Spot

Ohio State dropped from second to fifth place in the Associated Press football poll following last Saturday's tie with Wisconsin. And next Saturday's opponent—Northwestern—is rated as No. 11 in the nation.

Top spot in the poll went to undefeated Louisiana State, which replaced Army, the leader for the past two weeks.

Iowa's Hawkeyes, who whipped previously unbeaten Northwestern, were boosted from seventh to second place with 33 first place ballots. Army slid to third place following its tie with Pittsburgh.

Other top ten teams were Auburn, fourth; Mississippi, sixth; Oklahoma, seventh; and newcomers Wisconsin, eighth; Colorado, ninth; and Purdue, tenth.

Greeks Flood Storm Drain

SOUTH GATE, Calif.—(UPI)—One student group at last has found a place to hold a Halloween party where you don't have to pay rent and can get use of one of the biggest dance floors in the world.

The Sigma Phi Epsilon fraternity of nearby University of Southern California held a "Sewer Party" Saturday. About 300 students slithered into the city's storm drain and had some sort of ball.

A three-piece combo blared out rock and roll tunes in the cement cavern as the costumed students danced over a mile-length of the 10-foot wide drain.

To keep in harmony with the surroundings, punch was served from 30-gallon garbage cans.

SCHEDULES OUT

Winter quarter schedule cards for regular students may be obtained at the Students' College Office on Oct. 30 and 31. Students whose last names begin with A through K report Oct. 30; L through Z on Oct. 31.

Reds, Yanks Trade Gifts During Antarctic Visit

CHRISTCHURCH, NEW ZEALAND—(UPI)—Eight Russian Antarctic explorers flew back to their home base from a visit to the American Antarctic headquarters today laden with bottles of American whiskey, cans of beer, magazines and peanuts as souvenirs of their 48-hour stay.

They left behind for U.S. Rear Adm. George J. Dufek and his men at McMurdo Sound a case of Russian liquor, boxes of cigarettes and picture postcards of Russian scenes.

There was no question of East-West rivalry in this perpetually frozen continent.

THE RUSSIANS, three scientists and five plane crewmen, flew to McMurdo aboard a twin-engine transport from their base at Mirny on the other side of Antarctica. They made the 2,300-mile survey flight over the South Pole in a little over 13 hours.

Dufek cordially greeted the Soviet Antarctic expedition chief Prof. Eugene I. Tolstikov and his companions.

"NICE TO SEE YOU," Dufek said. "That was a fine flight."

Jet Service Begins

PARIS—(UPI)—A Pan American World Airways Boeing 707 jet clipper opened a new age of daily jet passenger service across the Atlantic yesterday. The airliner flew from New York to Paris in 8 hours 41 minutes.

The Russians saw an American movie Saturday night, a film entitled "Living It Up."

Some of the Russians also visited the nearby New Zealand Antarctic base.

Their flight to McMurdo Sound had been roundabout, designed to aid the Russians in their exploratory work in connection with the International Geophysical Year.

13 Promoted In Rifle Group

Eleven new members were initiated into Pershing Rifles Company A-1 today followed by the commissioning of 11 second lieutenants and two first lieutenants.

At the ceremony in the Park Memorial room of the Ohio Union, initiated were: Robert Wilson, John Sanders, David Hull, Tony Barklage, Raymond Fowler, William Givens, James Kadel, John Philp, A. V. Shirk, Leon Nawrockie, and Thomas Watkins.

New second lieutenants are A. V. Shirk, James Castro, Gary Cooper, Edward Helal, Walter McClure, Robert Stodill, James Talbot, George Nartissov, Robert Wilson, John Philp and Thomas Prickett. New first lieutenants are Donald Kauner and William Vance.

A total of 138 Army and Air Force cadets contributed to the Red Cross blood drive at the Military Science Building Monday.

50 Teachers To Get Grants

Fifty Ohio High school science and mathematics teachers will receive grants of \$3,000 each for study at Ohio State during the 1959-60 academic year.

The money is part of the University's share of National Science Foundation funds totaling \$8,600,000 to be distributed next year through the foundation's Academic Year Institute for improving science and math teaching in high schools.

Thirty-two colleges and Universities are participating. This is the third year for Ohio State. Prof. John S. Richardson, department of education, is in charge of the program. Forty-nine teachers are enrolled currently. Allowances for dependents and travel are made in addition to the grant.

Late News . . .

BULLETINS

Reds Reject Suspension

WASHINGTON—(P)—Russia has rejected the American and British proposal to suspend nuclear weapons tests for one year, starting this Friday.

More Miners Killed

BISHOP, Va.—(P)—Twenty-two coal miners died yesterday in an explosion at the Pocahontas Fuel Company mine here. The deaths were caused by a gas explosion. This brought the apparent death toll in mine disasters to 118 in the last five days.

OSU Printer Dies Of Heart Attack

Allen Francis Flynn, 52, University Print Shop pressman, suffered a heart attack and collapsed a few minutes after arriving for work Monday.

Taken to University Hospital by fire emergency squadman, Mr. Flynn was pronounced dead on arrival.

Mr. Flynn, who lived at 1285 Briarwood Ave., had been employed by the University for 17 years. Friends reported he had been suffering from a heart ailment for several years.

Funeral arrangements are being completed by the Cross Funeral Home.

Elasticity

The "Joe College" of the 1920's and 30's is almost as extinct as the dodo bird and the nickle beer, if the American Council on Education has the facts straight.

The commission, composed of noted educators, recently finished a report dealing with the American college student. In it, they questioned students on subjects ranging from the number of courses they were carrying to their marital status.

The commission found that today's college student bears little resemblance to his predecessor.

Instead of eating goldfish, in an attempt to grab publicity and showing the "I don't care attitude prevalent 30 years ago, most students are worrying about grades, money and the housing situation.

Instead of clamoring for bath tub gin in the prohibition era, students in the colleges now are wondering how to stretch the budget far enough to include a quiet beer and a movie on the weekend.

Instead of flappers and red-hot mammas, we have the married students, dead serious about an education and where he's going, and why he can't get there faster.

The commission found that although the "Joe" of yesterday is gone, the colleges, in most cases haven't adapted themselves to meet the needs of this new kind of student.

They have suggested that educators make scholastic requirement more flexible, and that they replace rigidity with elasticity, in order to best serve the student.

That's all well and good. But when it comes to lowering the scholastic standards and giving students credits for subjects that are so elastic they're worthless, it's time to remember the elasticity of a rubber band. You can pull it so far and then it breaks and snaps back.

We believe in a program of rigidity with adaptability, but not with elasticity alone.

Hate Mongers

We wonder how long it will be until the hue and cry of outraged Americans makes it imperative for the federal government to do something about the hate mongers in this country.

Today these vultures are preying on people of a different color or a different religion. The racial question and the story of those who keep this pot boiling is well known, as is the story of the bombings of synagogues, temples, churches and meeting houses.

Tomorrow, these bomb throwers and rabble rousers could loose their venom on people with freckles or against those who wear glasses . . . the list is endless. The next step could be the disemboweling of the government itself.

We reeled at the atrocities reported in Nazi Germany, in Communist dominated countries and those committed against minorities anywhere.

Yet, the action taken in this country against those persecuting others has been alarming because of the lack of it.

Law enforcement agencies have taken quick action when dealing with Communist agencies and agents in this country. Yet, these hate mongers are just as dangerous as the Communists when it comes to undermining the basic ideals of this country.

Hate is without logic or purpose. It grows and grows until it must be dealt with as you'd deal with a killer. Unless the government takes strong and quick action against these displays of hate, and those who perpetrate them, there is no telling what they will try next.

Take time to work, it is the price of success. Take time to think, it is the source of power. Take time to play, it is the secret of youth. Take time to read, it is the foundation of knowledge. Take time to worship, it is the highway of reverence. Take time for friendship, it is the source of happiness. Take time to love, it is the one sacrament of life.

Editor's Mail Bag

'Limit Union Use,' Suggests Reader

To the Editor:

Since the Union has just been given "up to \$200,000" by the Board of Trustees for needed repairs, I'd like to pass on a bit of advice to remove the necessity for such large grants in the future.

Simply limit the use of the Union to students, families and friends. This would allow the students to get a cup of coffee without waiting 20 minutes, would provide some peace and quiet so that one can study in the lounge, and would save most of the wear and tear on the furniture and carpeting. This might also remove the feeling I so often have, that of a fish in a bowl, as crowds of gaping, wide-eyed clods are escorted through the Union, peering into the lounges, the Tavern, the john and the activity offices.

Union officials say that over 15 million people used the Union during its seven years of existence. Since it is obvious that only a fairly small part of this figure could have been students, it would seem that the visitors are partial responsible for the wear.

Failing in keeping the student union for students, perhaps at least we could have a "student's day" once a month, at which time students would have the right to use union facilities ahead of the visiting herd. This may seem like a radical proposal, allowing students full use of the student union, but it would be an interesting experiment. Perhaps this could even lead to a revolution bringing back the campus to the students in other areas, such as parking and football tickets.

(Name withheld by request).

Personalities

By Bill Bowden

All her life Irene Politis has been interested in entertainment. She can recall being scolded by her parents when a child for "acting" at parties and when in front of guests. This seems to be the start of her career.

Her on-stage experience however, didn't begin until high school when she appeared in several skits and an original musical comedy written by one of her teachers.

BUT OHIO STATE has served as her basic foundation in the entertainment world. Her first part on this campus as the Polish adventuress in "Misalliance" won for her the outstanding supporting actress of the year award of University Theatre. She was a freshman at the time.

From there she went on to "Picnic" and probably her best known role, Bloody Mary in "South Pacific."

Miss Politis receives tremendous satisfaction from acting. And if the audience enjoys her work the satisfaction is, of course, increased greatly.

NOT LIMITING herself to the theater, Miss Politis also enjoys being a part of Symphonic Choir and dorm skits. She sings popular songs with a combo and is a partner of Kaye Madison in a vaudevillian comedy sketch.

Tennis is another way in which she performs and has captured the women's intramural championship twice.

Besides studies and performances, Miss Politis finds time to be an active participant in University Players, Drama Board, National Collegiate Players and Zeta Phi Epsilon (speech and arts honorary).

MISS POLITIS says that the theater has made her more aware of people than anything she has yet experienced. As an example of her observation of people, she worked in the library one year and through her experiences there was able to collect material by watching for small eccentricities among the students. She also practiced routines and dia-

lects on her patrons. "You see, even at work I'm a ham," she said.

And now for some of the philosophies of Irene Politis:

On Men: Woman is stronger emotionally, but the man must be one a woman can look up to and respect him and his decisions.

On Love: Love has to be an understanding of two people. It can't be one-sided. Love goes, according to an old Greek saying, from the eyes to the lips to the heart and stays there.

On Religion: As long as a person feels right in his belief, then religion is answered. You can't fool yourself.

On Politics: Being in college, in our own Utopia, we are closed from the outside world and are not prepared for politics. After graduation however, I will vote, and know what I'm voting for and why.

On Education: In order to have peace we must have understanding. As we learn, we understand. We oppose what we don't understand. Therefore, we must continue learning.

On Conformity: If you feel right conforming, do it. But if you conform to something because society says conform and it is against your principles, your are unhappy.

On Life: Before you can realize happiness, you must experience sorrow. But happiness always follows. Love life and you'll be happy.

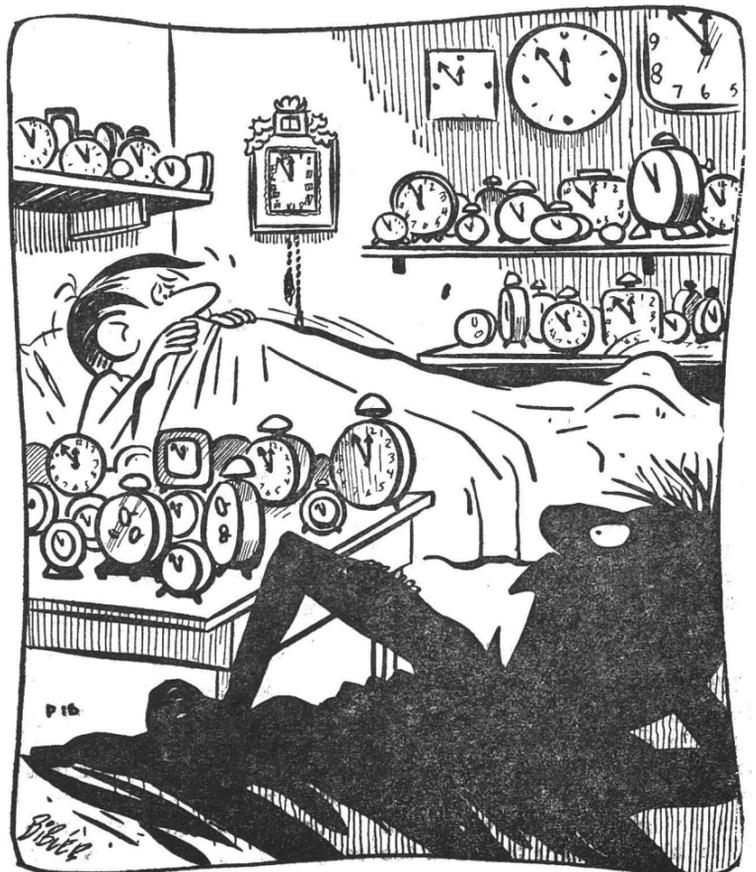

ETERNAL VIGILANCE

DUNN, N. C.—(UPI)—Howard M. Lee, official of the local volunteer fire department for nearly 20 years, prides himself on the fact that he never misses a fire in the city.

In fact, when a local radio station persuaded him to appear on a program to promote fire prevention, Lee excused himself in the middle of the broadcast when the fire alarm sounded.

"Excuse me," Lee told his listening audience. "I have to go."

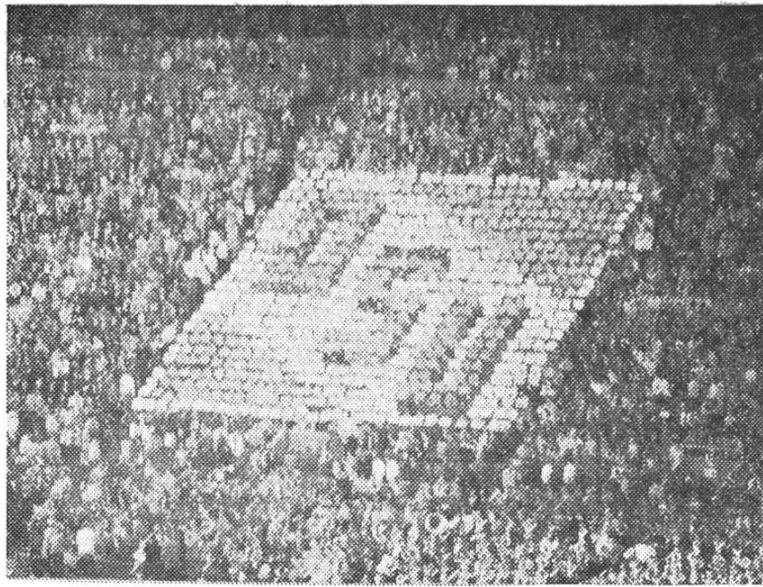

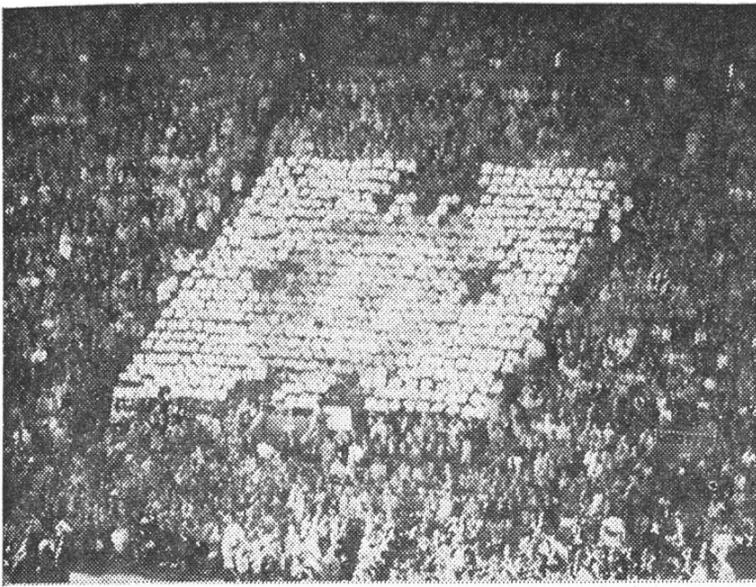

LITTLE MAN ON CAMPUS by Dick Bibler

"IT'S YOUR TIME TO WIND THE ALARMS TONITE."

Block 'O' Sets Pace for Buckeye Fans

Award Given To Dairyman

Lester R. Stauffer received the Award of Merit presented annually by the department of dairy technology.

Dean Leo L. Rummell of the College of Agriculture made the presentation before 150 alumni at the dairy technology department's 10th annual homecoming brunch.

Stauffer is president of the Warren Sanitary Milk Co. The University's announcement said he had been "instrumental in selecting, sponsoring and encouraging students in the field of industrial dairying, having provided five four-year scholarships as well as employment and inspiration for these as well as many others."

ENTHUSIASTIC BLOCK "O" members participate in the half-time show by flashing their stunt cards. Billy Block "O", the flashcards mascot, smiles at the football crowd while the monogram O. S. U. is held high in the air by the students.

Ohio State Buckeyes' most avid football fans sit in Block "O", the student flashcard section.

This year has been a big one for this organization. Membership has increased from 800 a year ago to 900.

LAST APRIL, 600 seats had already been assigned, while the additional seats were reserved for incoming freshmen. There is a list of 400 students waiting to join.

A full year of preparation goes into some stunts. The "3-D" stunt used at the Indiana game is an example.

Frank Starinieri, Ed-4, chairman of the stunt design committee, said Block "O" hopes to work out some stunts in co-ordination with the Marching Band for the Michigan game.

ORANGE AND BROWN are the section's new colors this year. They used cowbells to liven up the Wisconsin game.

According to Diane Poulton, FA-4, recording secretary of Block "O", an improvement resulted with clarification of stunt card instructions. There were some pictures of Block "O" in Sports Illustrated magazine.

At Saturday's game, the Block "O" presented a new version of "Script Ohio" and a special "Queen Stunt."

OSU, Oxford To Air Views On Education

A suggestion "That the West Should Adopt the Russian System of Education" will be thrashed out when two Oxford (England) University law students meet two Ohio State debaters in an international debate over station WOSU-TV, channel 34, at 7 p.m. Wednesday.

The annual debate is made possible by the Institute of International Education, which sends two American student debaters abroad each year and brings two British students to the United States.

The Oxford students, whose names were not available, will speak for the negative in the hour-long debate.

Speaking for the affirmative are Ohio State debaters Allen Rule, a pre-law student, and Carl Hetrick, a senior in political science. Richard Rieke, instructor in speech, will serve as host.

GET SATISFYING FLAVOR...
So friendly to your taste!

No flat "filtered-out" flavor!
No dry "smoked-out" taste!

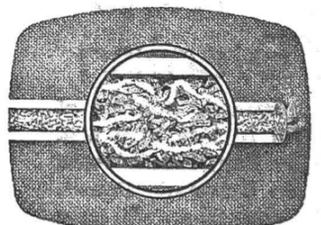

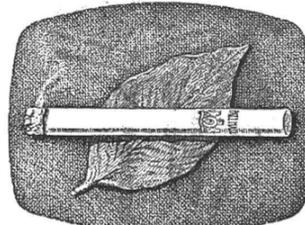

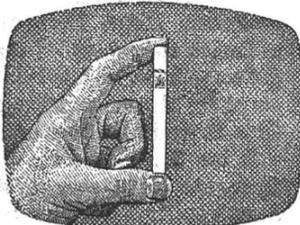

You can light either end!

© A. T. Co.

See how Pall Mall's famous length of fine tobacco travels and gentles the smoke — makes it mild — but does not filter out that satisfying flavor!

HERE'S WHY SMOKE 'TRAVELED' THROUGH FINE TOBACCO TASTES BEST

- 1 You get Pall Mall's famous length of the finest tobaccos money can buy.
- 2 Pall Mall's famous length travels and gentles the smoke naturally.
- 3 Travels it over, under, around and through Pall Mall's fine tobacco!

Outstanding...and they are **Mild!**

Product of The American Tobacco Company — "Tobacco is our middle name"

Wise and Otherwise

by Carolyn Davis

Sometimes I envy men.

For one thing, I envy their skill in shopping. Watch a man buy a suit and you'll see what I mean.

He enters the department and takes a look at the suits on various racks. A clerk approaches him and together they select a brown, a gray and a blue suit.

He tries them on. The brown is too tight; the blue is too loose. He takes the gray.

A FITTER is called. A chalk mark here and there and his work is done. Before long, our satisfied customer makes a beeline for the door.

In just a few minutes he has purchased a new suit. No fuss. No bother.

But watch what happens to his wife in another department of the same store. Before she gets inside at least three sales ladies converge upon her. One wins out and leads her smugly to the racks of dresses.

"WHAT DID you have in mind, dearie?" the sale lady asks.

"Well, I don't know . . ."

When she came, she knew exactly what she wanted—a green taffeta cocktail dress. But now she is confronted with so many

styles, shades and shapes that she doesn't have any idea what she wants.

"WELL, THEN, if you're not sure, let's just take this blue chemise, the pink trapeze, and the darling red bouffant dress back to the fitting room."

When the shopper emerges from the fitting room she is met by cries of, "Oh, that's utterly dee-vine," and "so smart looking, dear," from the sales ladies gathered round.

"It's made just for you," one says.

"And the blue brings out the blue in your eyes perfectly," says another.

OUR BROWN-EYED customer doesn't agree. The zipper won't zip all the way; the neckline is choking her; the dress is so tight, she can hardly raise her arms.

"I think it's a little snug," she mumbles.

"Oh, no, dear," the sales ladies cry. "If it were a size larger, it wouldn't have any line at all."

Well, you know the rest of the story. The dress she finally buys is a far cry from what she originally had in mind and it costs far more than she can afford. And she is persuaded to stop on the way out to buy a hat she doesn't need.

FROM THE TIME she enters the department, the woman customer wages two battles, one with herself as she tries to choose from among the various styles and prestige labels and one with the sales ladies. This takes real character.

I guess the men have it easier. They only have to choose from blacks and browns and grays and blues. In spite of the current trend toward more variety in men's clothes—a suit is still a suit.

A MAN doesn't have to choose from sacks, trapezes and empire sheaths in all colors of the rainbow. And he's not bombarded by helpful clerks.

No wonder he's a better shopper.

Author Says Autobiog. Is Egotistical

By Mary Prime

NEW YORK—(UPI)—Writing an autobiography is an "egotistical thing to do," says Fannie Hurst, who has just had her life story published.

"The entire time writing it, I questioned my wisdom. I don't understand myself, or why I wrote the book, but I was like a runaway horse with the bit between my teeth," said Miss Hurst, who has been writing books, poems and short stories for half a century.

SLIGHTLY AMUSED and enormously fascinated by life and people, Miss Hurst seemed a frail figure as she settled down to discuss her book, "Anatomy of Me" (Doubleday).

The living room, several stories high, was hushed and dimly lit, because she does not like sunshine. A tiny mop of a dog barked shrilly from a balcony overlooking the room. Vases of calla lilies punctuated the clutter of relics and knickknacks of a more opulent era.

The author's ever-present calla lily pin was fastened to her dress, and a calla lily bracelet of gold and emeralds, encircled her wrist.

"PSYCHIATRISTS MAY take exception to the book, although I can't say I stand revealed to myself. The only quality I can give it is honesty. I don't think I gave myself the benefit of too many doubts.

"I've never been near a psychiatrist, and depend on myself to be my own crutch, even though I limp badly. I hold up a mirror and get a reflection of a Coney Island looking glass," she said.

Miss Hurst now is working on a novel, which she drafted last summer. "I don't keep more than one plate in the air—The advantage of a single track mind."

SHE CONSIDERS her success "external" only. "Inner success must be realized before we feel real achievement. It's what makes us go on to the next goal and the next. Cliches are dusty, but so true—we must keep the nose to that famous old grindstone," she said.

DON'T BE FOOLED into believing that the dangling pendant necklace you wear is a creation of twentieth century fashion experts. It's just an idea borrowed from the Egyptians who wore such jewelry many centuries ago.

Today's Jewelry Is of Old Origin

By Theodora Robinson

It's a fact. Dangling pendants and strings of beads have been fashionable since the Egyptian began wearing them centuries ago.

It was a custom in Egypt to bury the dead with great care. In strict observance of funeral rites, they dressed and ornamented their mummies with a view to future comfort both in the grave and in the after life.

MUCH OF THE Egyptian jewelry possessed some emblematic significance. For instance, the use of scarabs in burial had reference to the resurrection of the dead and immortality.

These and many others were worn to bring good fortune and to ward off evil.

Jewelry was first noticed in Egypt but it was imported into Italy and Greece by Phoenician navigators.

BRIDGING THE GAP between the imports of Phoenicians and the time of Charlemagne (742-814), the idea of enhancing the human body with stones spread.

The old pagan customs of dressing up corpses faded in the seventh century. The introduction of Christianity produced a big change in the character of personal adornment.

The chief personal adornment in the ninth century was the brooch. Regardless of the place the brooch now has in milady's jewel ensemble, in the beginning it was a useful accessory. It evolved, in other words, into a glorified safety pin.

During the Middle Ages, pendants and bracelets were quite popular.

In the years that followed, jewelry lost most of its emblematic significance. The last remnants of symbols are on charm bracelets.

As the sands shifted, the women took up the cry for ornamentation. Today, they are tripping over ropes and holding up their arms to avoid the clanging of bracelets on desks, tables and doors.

To think back a minute, you will find that the Egyptian mummies didn't have it so bad after all. They were at least at rest.

Today, in order to keep in step, it is necessary to bear the weight of style around your neck.

English Lady Recent Visitor

Lady Alexander

Lady Alexander, representative of the English Speaking Union, was a recent visitor to Columbus and Ohio State. She spoke to the local branch of the ESU and to commonwealth students last week.

She is a delegate to the World Branches Conference of the English Speaking Union being held in Ottawa, Canada this week. The ESU is an organization which aims to promote good will and understanding among world peoples who speak the English language.

Dames Meet This Evening

The first business meeting of the year will be held at 8 p.m. tonight at the Fairgrounds Youth Center by the University Dames.

Old and new members will have an opportunity to sign up for the various interest groups they want to join. Also, members will be asked to fill out a questionnaire which will be used in planning meetings for the rest of the year.

A social hour will follow the meeting.

Danish Coed Likes OSU Football

By Judy McCluskey

Margit Hvirvelkarer, H-Ec-1, is an astonishing young lady from Denmark.

Before coming to the United States, she was the dietitian in

charge of Central Hospital in Randes, Denmark.

Because she always wanted to come to America to study, she became the first Danish dietitian to be awarded a fellowship from the American-Scandinavian Foundation.

DUE TO MONEY exchange

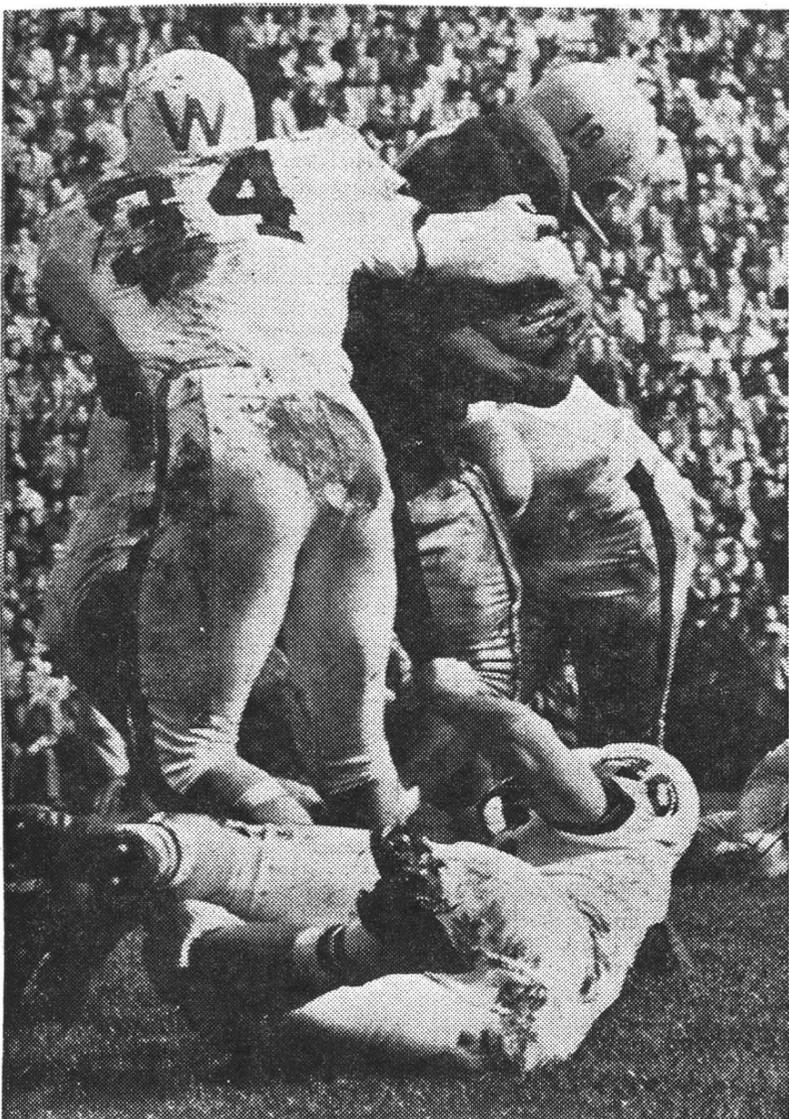

differences, the fellowship only paid enough for her transportation to America. A trainee visa enabled her to work for 16 months as a dietitian at Georgetown University Hospital in Washington, D. C.

"Ohio State University students can be very proud of their reputation as being extremely kind to foreign students," Margit said.

This is one of the reasons the American Home Economics Association recommended that Margit come here. She is being sponsored by the association and the Ohio State Home Economics Club.

"Ohio State students are very fortunate to be able to study at a university that has so many activities—especially with one of the nation's best football teams," she exclaimed. Margit saw her first football game here this fall.

MARGIT HAS traveled more already than most of us will in a lifetime. Before coming to America, she visited almost every country in Europe.

STOPPED—Don Clark, Ohio State's All-American halfback candidate, is shown here as he blasted through the rugged Wisconsin line only to be stopped by the Badger secondary. Making the tackle on Clark is linebacker Bob Zeman. —Photo by Lou Copits

Hayes Pleased With Officials; Strobel Amazed at NW Speed

By John Auble

"Saturday's game was a typical Big Ten game—maybe too typical," said Buckeye coach Woody Hayes, at the weekly meeting of the Touchdown Club Monday. "The game was being played too evenly, and we looked for a critical break in the second half, but unfortunately, we didn't find it."

Hayes said that the call by the official in the third period was definitely correct, and, according to Woody, "All the Conference games were well worked Saturday, and the officiating was the way it ought to be in the Big Ten."

"I think," stated Hayes, "there is now a little more enlightened public who won't stand still for bad officiating." He went on, "Every good organization has its weaknesses which have to be brought out in the open to be solved."

"NORTHWESTERN will definitely be up for their game with the Buckeyes," said Harry Strobel who scouted the Wildcat team. "It's their homecoming, and they'll be out to win."

In Strobel's estimation, Northwestern has the fastest backfield in the Big Ten. Other factors in Northwestern's favor are the facts that: 1. Sophomores and Juniors are helping to make the team 'jell'. 2. The four Sophomores on the squad have never tasted defeat. 3. Their quarterback Richard Thornton is an excellent faker, ball

handler, and passer. Above all, he doesn't lose his poise when the pressure is on."

INJURIES: Clark will possibly not be ready for Saturday's game. Jim Herbstreit will replace him at left half. Jim Tyrer's leg is sore, and he won't be working out heavy for a few days. Bob White, who played a rough game during the Badger clash, escaped with very little injuries. "It seems funny," stated Hayes, "but you always seem to get more injuries in the easy games, and hardly any in the rough battles."

Jim Houston was nominated by the coaches as the lineman of the week because of his brilliant offensive and defensive play.

PROBABLE STARTING line-ups: **NORTHWESTERN:** Elbert Kimbrough, le; Andy Cvercko, lt; Joe Abbatiello, lg; Jim Andreotti, c; Russ Asala, rg; Gene Gossage, rt; Doug Asad, re; Dick Thornton, qb; Ron Burton, lh; Willmer Fowler, rh; Mike Stock, fb. For **OHIO STATE:** Jim Houston, le; Jim Tyrer, lt; Oscar Hauer, lg; Dan Fronk, c; Ernest Wright, rg; Jim Marshall, rt; Dick Schafrath, re; Frank Kremblas, qb; Jim Herbstreit, lh; Dick LeBeau, rh; Bob White, fb.

LANTERN photo by Lou Copits

BUCKEYE BOSS—Woody Hayes sits in one of the Ohio Stadium offices contemplating the upcoming game with Northwestern. Hayes pointed out "that this is homecoming for the Wildcats and they will want to avenge their nine-year losing streak against Ohio State."

Wildcats Ready For Bucks

The Cinderella team of the Big Ten, Northwestern, will play host to the powerful Buckeyes Saturday at Evanston, Ill. Last season's doormats, the Wildcats will be looking for their fifth win in six starts. Northwestern failed to win a game in 1957, but in 1958 has beaten Washington State, Stanford, Minnesota, and Michigan.*

The only loss suffered by Ara Parseghian's crew was at the hands of Iowa last Saturday. Northwestern showed that it had the horses two weeks ago when they handed Michigan the worst defeat in Wolverine history by a 55-24 margin.

Still in the running for the Big Ten Conference crown are Purdue, Wisconsin, and Michigan.

THE BUCKEYES have their work cut for them this week as they prepare for their encounter with the Wildcats. Northwestern will be seeking revenge for the humiliating 47-6 loss to Ohio State last season.

Parseghian has come up with some fine sophomores in quarterback Dick Thornton, end Elbert Kimbrough, fullback Mike Stock, and guard Russ Alasa.

New talent, more spirit, and the annual homecoming celebration at Evanston will give an added charge to the upset minded Wildcats and could give the Buckeyes and their fans a very anxious afternoon.

The Ohio State Buckeyes today face a hard uphill battle as they seek their fourth Big Ten crown in five seasons.

THE 1958 Western Conference race is one of the wildest scrambles in history as six teams still remain in contention for the coveted crown. Only Michigan State, Minnesota, and Indiana appear to be out of the picture.

The Hawkeys of Iowa appear to be in the best position. Forest Evachevski's squad is now in first place with only three Conference encounters remaining. They will face Michigan, last-place Minne-

as they tied Wisconsin 7-7 last Saturday.

As for the Buckeyes, only Don Clark appears to be a doubtful starter following a recurrence of his shoulder injury against Wisconsin. If Clark is kept out of action, his place will probably be filled by sophomore flash Jim Herbstreit who made two game-saving plays against Wisconsin Saturday.

The Ohio State defense has finally started to jell and the main problem left is to find an outside running threat, if Clark is unable to play against the potent Wildcats.

Women's Intramurals . . .

Semi-Finals Playoff Tonight; Swan Club Initiates Members

By Jane Cellio

The semi-finals in the volleyball tournaments will start tonight with Oxley and Siebert Girls squaring off for the lead in the women's tourney. This Thursday night will see more action when Mack II plays Bradley, and Alpha Chi Omega opposes Mack I.

The bowling "Round Robin Tournaments" are in their third week. The team with the highest score last week was Gamma Phi Beta No. 1, with a total of 484 pins. Pat Kotsos was high girl with 167 pins. Pat plays for Sigma Epsilon Phi.

THE WOMEN'S Hockey Club played former club members last Saturday, and lost to the alumni, 4 to 1.

This Wednesday at 4 p.m., the Ohio Staters play Wittenberg College on their home field.

Seventeen members of the Outing Club had a cook-out at Hoover Dam, Sunday. The club plans to be more active this year than in pre-

vious years. The election of officers are expected to take place soon.

LAST TUESDAY NIGHT, Oct. 21, Swan Club had its initiation. New members are:

Mary Ann Davis, Joy Eubanks, Grace Worst, Diana Riehl, Kathy Gideon, Jackie Agnew, Nancy Jean Clark, Jackie Klinker, Joyce Teitel, Sally G. Ballou, Marilyn Leibius, Gail Ratner, and Suzanne Garl.

The Cygnet group, or the apprentice group of Swan Club, are: Patricia L. Topping, Susie Curtin, Kay Schultz, Jean Evans, and Colleen Kelley.

Officers of Swan Club are: Carolyn Curry, president; Ann Nico-demus, vice-president; Carol Messerly, secretary; Gretchen Kluter, treasurer, and Cathy Brooks, try-outs chairman.

Barney Oldfield, born in Wauseon, Ohio, was the first auto racer to drive a mile a minute, 1910.

Highlights in Sports . . .

Ohio State Rated Ball Control Artist

Why so many football upsets this year? . . . Coach Bobby Dodd of Georgia Tech advances this theory: "Every college has so many good players they can click on a certain day and beat any of the others. It all goes back to the fact that high school coaching is so improved because of coaching clinics and other factors and they are* sending better prepared athletes to college".

Harry (The Horse) Wright, the old Notre Dame quarterback now coaching the U. S. Merchant Marine Academy at King's Point, N. Y., has a Hawaiian triple-threat back who boots extra points with his bare feet . . . Ed Namahoe, the kid from Hawaii, is leading his eastern small college group in total offense and, on conversion kicks, takes off his shoe and sock to boot 'em.

BOB HOFMAN, the weight lifting chief from York, Pa., and president of the Middle Atlantic A.A.U., is staging the national 30-kilometer run at York Nov. 2 under a new system that'll give the tail-end runners a "coffee break" . . . "usually in this race only the leaders get a chance to eat and drink from a moving truck while doing the 18-plus miles," said Big Bob. "But we're running this thing in four laps. Everyone, leaders and tail-enders, will pass the refreshment stand four times."

Promoters of the televised bout between light weight champ Joe Brown and Johnny Busso at Miami Beach Exhibition Hall Nov. 5 hope to flash the official score at the end

of each round—for viewers only . . . this one out to be a law.

BOB MITCHELL, former Illinois halfback now starring as a Cleveland Browns rookie, had a penchant for fumbling during his college career . . . asked how come he isn't fumbling as a pro, Scout Jack Lavelle of the New York Giants insisted, "He's so fast no tackler has caught up with him yet to find out."

Here's why Army had so much pre-game respect for Pittsburgh . . . in their first three games with the Panthers at Pittsburgh, the Cadets lost 'em all . . . they lost five of the first seven games in the series.

Ohio State continues to give lessons in ball control . . . the Buckeyes ran off 73.5 plays per game up to this week to only 53 plays for the opposition . . . Woody Hayes figures the other guy can't score if he doesn't have the ball.

Since football is coming up with so many revolutionary offenses this year, Coach Fuzzy Lavane of New York's pro basketball Knickerbockers will experiment on his own . . . "I may use three forwards and no center against Boston this week," he says . . . his regular centers haven't been so hot.

OFFICIAL BULLETIN

THE OHIO STATE UNIVERSITY

This Bulletin will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for meetings. In the interest of efficiency and to avoid conflicts, the following announcement is made: No meetings or functions of any sort will be permitted or provided for either on the campus or in the University buildings unless authorized and announced in the Daily Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the office of the Executive Dean, Special Services, not later than two days before the date of publication. Notices of Monday's Bulletin must be received Thursday morning.

VOL. XXXVIII No. 32
TUESDAY, OCTOBER 28, 1958

Tuesday, October 28:

University Masonic Club, Recreation Room of Service Building, 7:30 to 10:30 p.m.
Women's Panhellenic, 101 Page Hall, 6:30 to 9 p.m.
U. S. Power Squadron, 203 Ives Hall, 7:30 to 10 p.m.
Agriculture Extension Service Conference, Agriculture Administration Building Auditorium, 8 to 11:45 p.m.
County Agent Meeting, Plumb Hall Arena, 6 to 7:30 p.m.
Education 704, 100 University School, 7 to 9 p.m.
Education 646, Library and 210 University School, 7 to 9 p.m.
Physics Department Lecture, 100 New Physics Building, 4 to 10 p.m.
Agriculture Exploratory Meeting, 108 and 111 Agricultural Administration Building, 7 to 8:30 p.m.
Agriculture Exploratory Meeting, 101 Poultry Science Building, 7 to 8:30 p.m.
Freshman Class Council, 100 Page Hall, 5:30 to 9 p.m.
Block "O", 207 Hayes Hall, 7 to 10 p.m.
Fraternity Presidents Council, 201 New Law Building, 7 to 9:30 p.m.
Arabic Classes, 102 Derby Hall, 7 to 8 p.m.
Strollers, 109 Derby Hall, 7 to 10 p.m.
Pershing Rifles, 103 Military Science Building, 5 to 6 p.m.
Children's Theatre Tryouts, 104 Derby Hall, 7 to 10 p.m.
University Theatre, University Hall Chapel, 7 to 11:45 p.m.
Family Play Rehearsal, 202 Derby Hall, 7 to 9 p.m.
Western Reserve Academy Alumni Luncheon Meeting, 331-DE, Ohio Union, 12 to 2 p.m.
Columbus Illini Club Luncheon, 331-AB, Ohio Union, 12:10 to 1:30 p.m.
Ohio Staters Financial Affairs Committee Meeting, 340-A, Ohio Union, 2 to 2:50 p.m.
Ohio Staters Credentials Committee Meeting, 340-A, Ohio Union, 3:45 to 5:50 p.m.
Student Senate Steering Committee Meeting, 340-B, Ohio Union, 4 to 5:20 p.m.
Student Council for Religious Affairs Meeting, 329-B, Ohio Union, 5 to 5:50 p.m.
Education Student Council Meeting, 329-A, Ohio Union, 5 to 5:50 p.m.
University House Assembly Meeting, 329-F, Ohio Union, 5 to 5:50 p.m.
SCOP Medical Technologists Association Social Hour, 331-ABC, Ohio Union, 7 to 9 p.m.
Boot and Saddle Executive Committee Meeting, 329-D, Ohio Union, 7 to 9 p.m.
Ohio State Engineer Meeting, 329-B, Ohio Union, 7 to 9:30 p.m.
Chess Club Meeting, Game Room, Ohio Union, 7 to 10 p.m.
Chess Club Tournament, 329-A, Ohio Union, 7 to 10 p.m.
Dairy Technology Toastmasters Club Meeting, 340-AB, Ohio Union, 7:30 to 8:30 p.m.
Ohio State Sailing Club Meeting, 329-FG, Ohio Union, 7:30 to 9:30 p.m.
Sigma Gamma Epsilon, 213 Pomerene Hall, 7:30 to 9:30 p.m.
Spanish Club, 306 Pomerene Hall, 7:30 to 9:30 p.m.
Jazz Forum Meeting, 329-C, Ohio Union, 9 to 10 p.m.

Wednesday, October 29:

WSGA, 101 Page Hall, 5:30 to 10 p.m.
University Theatre Rehearsal, University Hall Chapel, 6:30 to 12 p.m.
Dance Classes, third floor of Student Services Building, 6 to 10 p.m.
U. S. Power Squadron, 203 Ives Hall, 7:30 to 10 p.m.
Physics Department Lecture, 100 New Physics Building, 4 to 10 p.m.
Agriculture Exploratory Meeting, 109 and 113 Horticulture and Forestry Building, 7 to 8:30 p.m.
Gents' Club Meeting, 100 University School, 6:30 to 9:30 p.m.
Mixed Swim, Natatorium, 7 to 9:30 p.m.
Health Education, Campbell Hall Auditorium, 7 to 8 p.m.
Four-H Club, Agricultural Administration Building Auditorium, 7 to 10 p.m.
Psychology Research Team, 402-B Arps Hall, 7 to 9 p.m.
Psychology Research Team, 402-B Arps Hall, 7:30 to 9:30 p.m.
Strollers, Hagerty Hall Auditorium, 7 to 10 p.m.
Tissue Culture Seminar, Faculty Lounge, Sisson Hall, 8 to 10 p.m.
Midwest Poultry Breeders Conference,

329-DEFG, Ohio Union, 9 to 11:30 a.m. and 12:30 to 4 p.m.
Family Plays Rehearsal, 202 Derby Hall, 7 to 9 p.m.
Children's Theatre Tryouts, 104 Derby Hall, 7 to 10 p.m.
Student Committee on Nuclear Policy, 306 Pomerene Hall, 7 to 9:30 p.m.
Conference of Head Residents Registration and Coffee Hour, East Ballroom, Ohio Union, 9:30 to 10:30 p.m.
Conference of Head Residents, Conference Theater, Ohio Union, 10:30 to 12 noon.
Conference of Head Residents Luncheon Meeting, East Ballroom, Ohio Union, 12:30 to 4 p.m.
Student Senate International Affairs Committee Meeting, 329-C, Ohio Union, 4 to 4:50 p.m.
Scarlet 'n Gray Meeting, 329-AB, Ohio Union, 4 to 4:50 p.m.
Ohio Staters Campus Improvement Committee Meeting, 340-A, Ohio Union, 4 to 4:50 p.m.
Engineering College Seminar, Conference Theater, Ohio Union, 4 to 5:30 p.m.
Strollers Dramatic Society Board Meeting, 329-B, Ohio Union, 5 to 6:50 p.m.
Circle "K" Dinner Meeting, 331-AB, Ohio Union, 6 to 6:50 p.m.
Ohio Staters Probationary Members Committee Meeting, 329-C, Ohio Union, 6:30 to 7:20 p.m.
Alpha Delta Sigma Dinner Meeting, 331-EFG, Ohio Union, 6:30 to 9:30 p.m.
Ohio Staters Steering Committee Meeting, 340-A, Ohio Union, 7 to 8:45 p.m.
Boot and Saddle Club Meeting, 329-A, Ohio Union, 7 to 9 p.m.
OSU Young Democrats Meeting, 329-FG, Ohio Union, 7 to 9 p.m.
Military Council Meeting, 331-CD, Ohio Union, 7 to 10 p.m.
Ohio Union Bridge Lessons No. 4, Game Room, Ohio Union, 7 to 10 p.m.

Prof. R. L. Mills Will Speak Tuesday, October 28

The department of physics and astronomy of Ohio State General Colloquium, Prof. R. L. Mills will speak on "The Exclusion Principle and Optical Model Nucleon-Nucleus Scattering," Tuesday, Oct. 28 in room 110, New Physics Building. Visitors are invited.
Tea will served in room 101 immediately preceding the lecture. There will be no Seminar on Thursday, Oct. 30.

Winter Quarter Schedule Cards

Winter Quarter Schedule Cards for all regularly enrolled students in Agriculture, Arts and Sciences, Commerce, Education, Engineering, Home Economics, Graduate School and Undergraduate College combinations may be obtained at the Students' College Office on Oct. 30 and 31 in the following manner: Students whose last names begin with the letters A through K will report on Thursday, Oct. 30. Students whose last names begin with the letters L through Z will report on Friday, Oct. 31. Schedules may be filed in College Office beginning Nov. 3. Students in the Part-time Educational Opportunities program (Twilight) must pick up their schedules at the office in Room 102 Administration Building. Final date for filing without penalty is Saturday, Nov. 8, 1958.
The extra fee for any student who files his schedule card in the College Offices after Nov. 8 will be \$1. a day up to a maximum of \$5. Schedule cards should be made out carefully. No change tickets for changes in Winter Quarter schedules, after they are filed in College Offices, will be issued until Monday, Dec. 15, 1958.

FALSE ALARM

BOSTON—(P)—Firefighters answered a false alarm given, unwittingly, by fellow firemen going to another blaze. The firemen had been fooled by a light reflected in an upper window of an office building.

WOSU-TV will present a 26-week series of puppet programs beginning Tuesday, Oct. 28 at 5:30 p.m. Puppeteers Leo and Dora Velleman will explore the everyday world of pre-school and primary grade children through puppetry.

Bob Kaplan, fencing coach at Ohio State, and six students will demonstrate fencing techniques at 7:30 p.m. Monday, Nov. 3, on the "Relax and Live" show on WOSU-TV.

A concert by the New York Pro Musica will be presented at 2 p.m. Saturday, Nov. 1, at the Ohio State Museum Auditorium. The group, directed by Noah Greenberg, will present a concert of Medieval and Renaissance music as part of Ohio State's Medieval Conference which opens Friday, Oct. 31. Tickets can now be obtained at the Ohio State Museum and Heaton's Music Store.

Ohio State's Home Economics Alumni Association's 13th annual institute will be held Saturday, Nov. 1. "The Home Economist Looks at Herself" will be the theme of the all-day meeting. The program is open to all home economists.

The Child Development Group of the Ohio State Women's Club will open the 1958-59 series of meetings on Monday, Oct. 27 at 8 p.m. in the home of Mrs. Alfred B. Clarke, 2459 Swanse Rd. Newcomers to the University are invited to join the group.

Registration for the 13th annual Winter Quarter study in Mexico City College started Oct. 20. Dr. James B. Tharp, director of the project, has office hours at 11 to 12 Tuesdays and Fridays, and 3 to 5 Monday through Thursday in Arps Hall 138.

Student Financial Aids and Scholarships Office, room 201 has announced six openings for janitor work to be done on off-beat hours. Applications can be made between 6 a.m. and noon.

'Hot' Tea Is Not So Hot

WASHINGTON — (UPI)—Food and Drug Commissioner George P. Larrick said that up to now there was no cause for alarm about radioactivity in tea.

Larrick's remarks were prompted by a report by two food and drug officials last week that there had been a sharp statistical increase in radioactivity in the tea samples since 1945.

"The tea we are getting today is quite safe for consumption," the food and drug chief told a news conference.

OSU Professor Heads Association

Prof. Delbert Oberteuffer was elected national president of the American School Health Association yesterday at its annual meeting in St. Louis, Mo.

A member of Ohio State's physical education faculty, he succeeds Dr. Ruth Weaver, medical director for the Philadelphia Public Schools, in the presidency of the 7,000-member organization.

Library Offers Page Reproductions

By Judy Weiss

Are you one of the students who has gone to the library for required readings and found the information you were looking for torn from the book?

The Main Library will now issue photographic copies of pages for a small fee.

"I don't think students realize that they are committing a criminal offense when they rip pages from books and magazines," said Mary A. Mazarak, assistant in the periodical room.

"Furthermore," she said, "student are not aware of the expense, time and effort involved in replacing a damaged book or magazine."

"Every time a page is torn out or a coupon or cartoon is clipped from a magazine, a new issue must be bought. If the magazine is an old issue, it may take months or years before we can get another copy. Sometimes the issue can never be replaced."

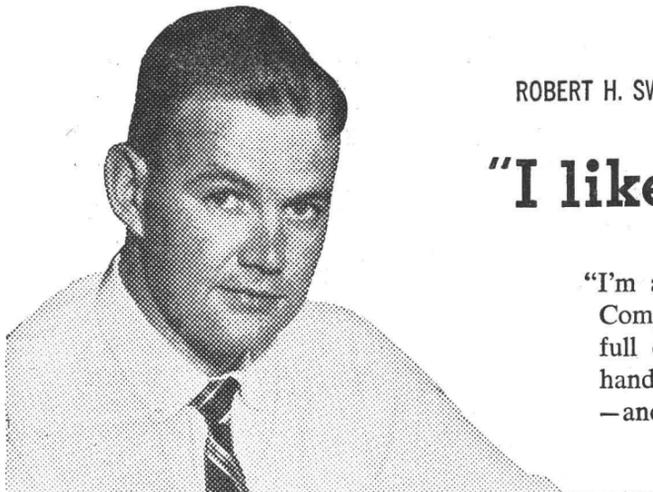

When asked what was being done

about the problem, Mrs. Mazarak replied, "We will not restrict the materials any more than they have been. What we have done is exhibit some of the damaged materials hoping the students will realize the seriousness of the problem. Also,

we have printed signs reminding the students of the penalty if they are caught destroying the materials."

Let's give some thought to the other readers when we use library books in the future.

BALDWIN-WALLACE COLLEGE ALUMNI AND FORMER STUDENTS MEETING
 Tuesday, October 28, 8 p.m., Ohio State University Faculty Club
 New College Film. Meet President Bonds. Dessert and Coffee
 Contact: Mrs. John Blocher (AM-3-3102)

ROBERT H. SWISHER, B.S.E.E., GROVE CITY COLLEGE, '54, SAYS:

"I like my job. Here's why."

"I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example —and see for yourself."

"8:30 a.m. I'm at my desk applying a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."

"10:45 a.m. Before any modifications can be made, it's important that I check apparatus and wiring options. That's what I'm doing here at the Remote Control Terminal equipment."

"1:30 p.m. After lunch, I take a company car out to the transmitter tower site. Here I check wiring and explain our plan to one of our mobile radio maintenance men."

"3:15 p.m. I review my proposed modifications of auxiliary control circuits with Supervisor Sid Graul. Now I'll prepare work orders, and next week we'll make operational tests."

"Final phase. The operational test is made from an actual mobile radio unit. I'll make test calls and monitor the channels from various points within the Pittsburgh area."

"See what I mean? I really get to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said —I like my job."

Like Bob Swisher, you may find a bright engineering future with the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

BELL TELEPHONE COMPANIES

Physical Defects Noted By Doctors

Factors which cause increased cerebral damage in premature babies also have other harmful physical effects, a research team reported yesterday.

In a paper presented at the 68th annual meeting of the American Public Health Association in St. Louis, the researchers reported results of a study of the health and growth of 500 premature infants.

AUTHORS OF the paper were Drs. Hilda Knoblock and Benjamin Pasamanick of Ohio State and Drs. Paul A. Harper and Rowland V. Rider of Johns Hopkins University.

The study revealed that at 40 weeks of age the premature infants were one-half to one inch shorter, 500 to 1000 grams lighter, had two to three times as many physical defects, and 50 per cent more illness than a control group of 492 full-term babies.

"When the presence of serious neurological abnormality resulting from cerebral damage is taken into account," the research said, "the physical disadvantage of the premature infants is even more marked."

THEY ADDED: "The findings suggest that those factors responsible for producing the increased cerebral damage in premature infants have a generalized deleterious effect as well, and lend additional support to the necessity for pre-

venting prematurity in order to effect substantial reductions in the incidence of physical and neuropsychiatric disability."

The paper was presented before the Epidemiology and Mental and Mental Health Sections of the APHA.

DR. KNOBLOCH is director of the Clinic of Child Development at Children's Hospital, Columbus, and a member of the pediatrics and psychiatry departments at Ohio State. Dr. Pasamanick is director of research at the Columbus Psychiatric Institute and Hospital and professor of psychiatry at the university.

Drs. Harper and Rider are faculty members of the School of Hygiene and Public Health at Johns Hopkins.

Pope Not Yet Picked

ROME—(P)—The College of Cardinals failed, for the second day, to decide on a new Pope of the Roman Catholic Church. Black smoke signals went up twice over the essay two-thirds of the votes. Ruvatican yesterday, indicating that no candidate was able to get the necessary number of votes. The reports say medicines have been requested for 84-year-old Nicola Cardinal Canali.

Counterpoint Deadline Set

The fall quarter deadline for submitting material for publication in Counterpoint is Wednesday, Oct. 29. In its fourth year, Counterpoint needs stories, poetry, short drama, essays, and criticism.

Manuscripts should be submitted under a pseudonym (with real name, address and telephone number attached in a sealed envelope) to Room 115, Derby Hall or Room 310, Ohio Union.

Contributions will be judged by a board of 11 members of the student body and faculty. All unused material will be returned.

Art Display On In Library

Eleven oil paintings by Mrs. Mary Ann Miler, Ed-4, are now on display in the Browsing Room of the Main Library. The paintings, some in realistic style, others in non-objective mode, will be on display through Nov. 15, according to Mrs. Margaret Browning, Browsing Room librarian. This is the first "one-woman" show for Mrs. Miller.

Smoker Set For Rushees

Alpha Kappa Psi will hold its annual Smoker for rushees Wednesday, October 29, at 7 p.m. in the Ohio Union, Rooms 329 C and D. Members and invited guests are urged to attend. Refreshments will be served.

Mexico Trek Planned

Registration for the 13th annual Winter Quarter study at Mexico City College is now open.

This was announced today by Dr. James B. Tharp, professor emeritus of foreign languages. He added that the 1959 bulletin, which lists all information concerning the school and available courses, will be ready at that time.

STUDENTS MAY contact Dr. Tharp from 3 to 5 p.m. daily or 11 a.m. to noon Tuesday and Friday in room 138, Arps Hall. At other hours, the WQIM Bulletin and applications may be obtained in room 257, Arps Hall.

The fall meeting of the Mexico Society will be from 7 to 10 p.m., Oct. 30, in the recreation room of University School.

JOHN HUEY, JR., Com-3, president of the group, will preside, with Dr. Tharp acting as adviser.

Prospective members of WQIM (Winter Quarter in Mexico) are invited to attend in order to receive information concerning the study

project. Movies and color slides depicting life in Mexico and details about travel will be shown.

Buck Booters Bat 'Big Red' Today

Today at 3 Ohio State's booters meet Denison on the Buckeye field.

The Bucks now have a 2-2-1 record, while the Big Red has a 4-1-1 showing. Denison is a good team, but two of their victories were over Ohio University, and they have yet to play any of the real powers like Oberlin or Akron.

The Big Red's big gun is lineman Bill Koulter, one of the top offensive threats in the Midwest. He has scored 16 goals in six games to date.

FINE!

I'll Meet You for Lunch at the

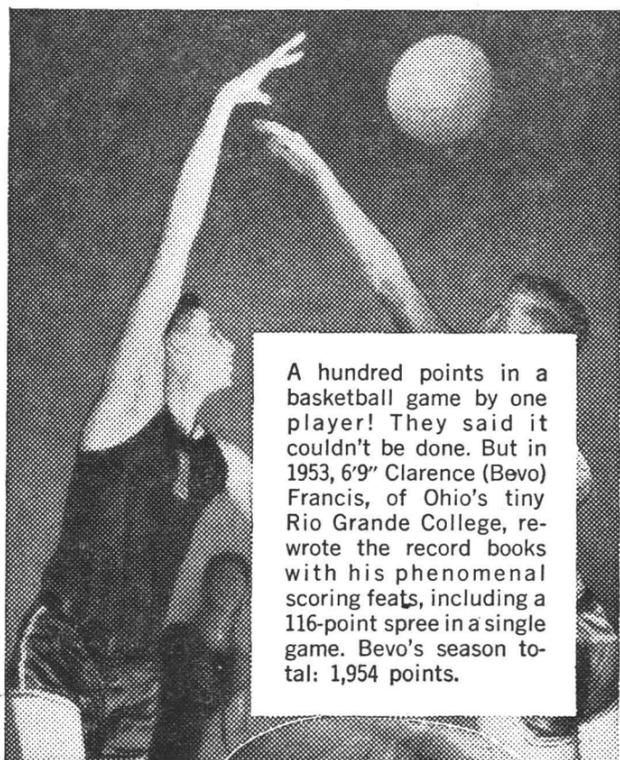

GALLEY

WOODRUFF AT NEIL

Open 7 a. m. to 6 p. m.

THEY SAID IT COULDN'T BE DONE - BUT TODAY'S L&M GIVES YOU-

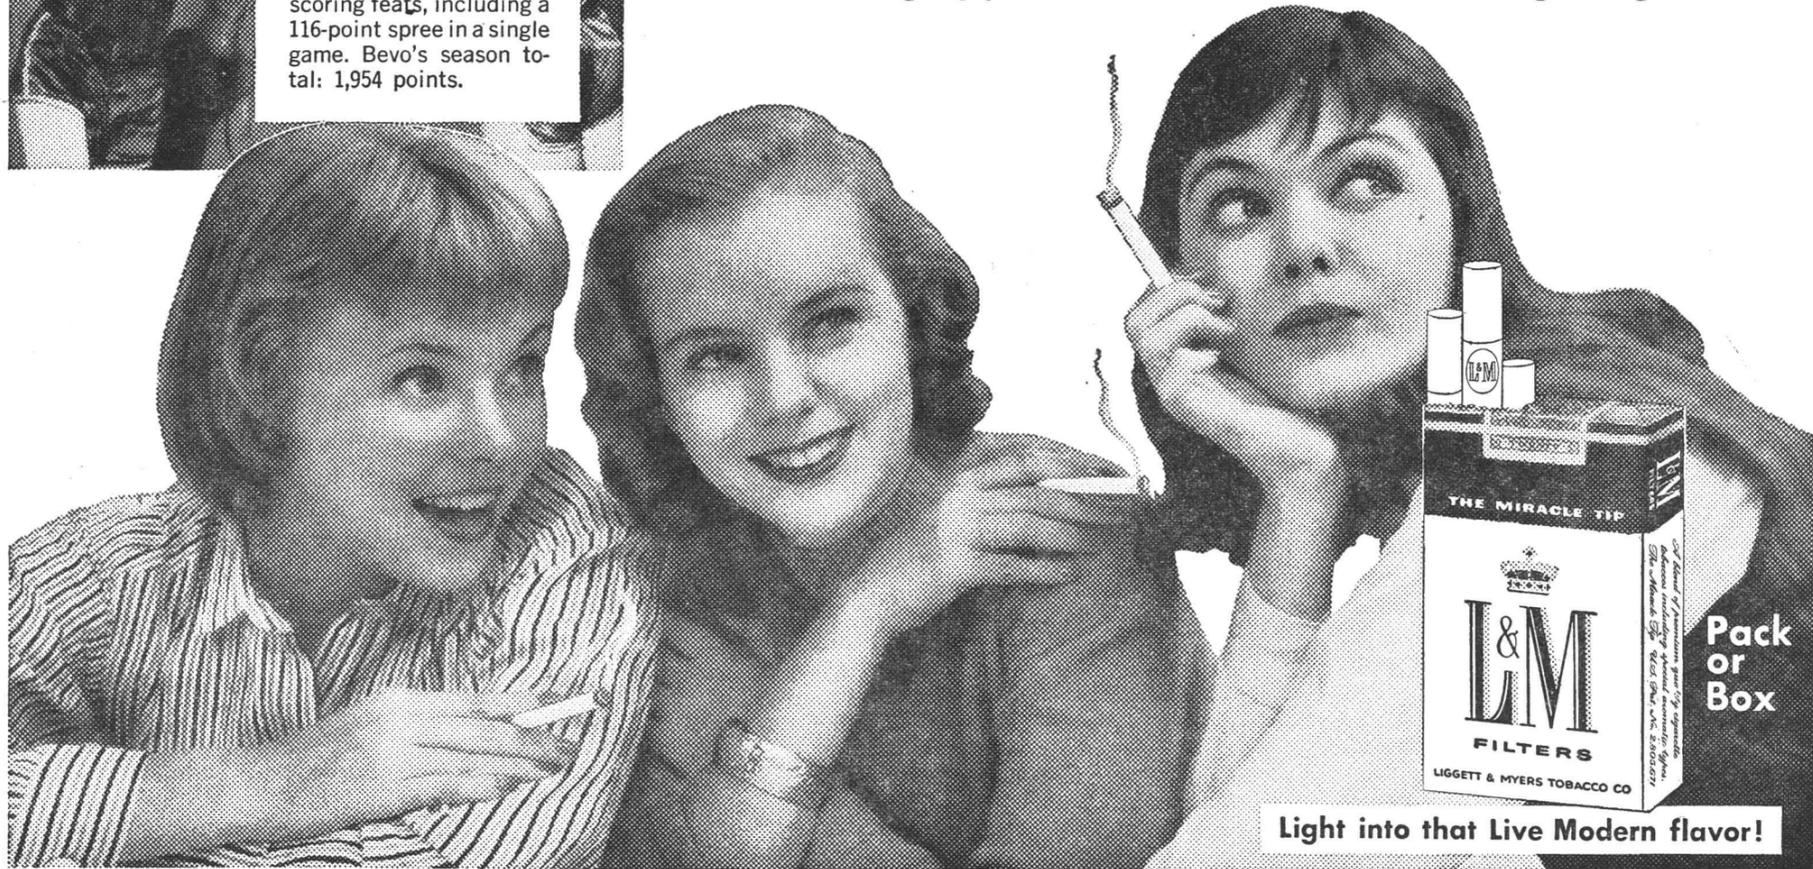

A hundred points in a basketball game by one player! They said it couldn't be done. But in 1953, 6'9" Clarence (Bevo) Francis, of Ohio's tiny Rio Grande College, re-wrote the record books with his phenomenal scoring feats, including a 116-point spree in a single game. Bevo's season total: 1,954 points.

Puff by puff

Less tars & More taste

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment—less tars and more taste—in one great cigarette.

Light into that Live Modern flavor!
