

# THE OHIO STATE Lantern

VOL. 85 NO. 63

COLUMBUS, OHIO, FRIDAY, DECEMBER 11, 1964

## THE WEATHER

Today: Rain and mild.

Tomorrow: Cloudy and colder.

TEMPERATURE RANGE

Today: 35-48 Tomorrow: 30-40

## Christmas: A Time of Brotherhood

Christmas will have a new meaning this year for Phi Delta Theta member Dick Maxwell, injured last year in an intramural football game.

Paralyzed from the waist down and with a partial disability of hands and arms, he can write only by using an electric typewriter. His fraternity brothers, bringing Christmas to Dick early, bought him one. Dick is presented with the gift-wrapped package (left), unwraps it (center) and types his first word (right)—Christmas.

"I have an old sweatshirt with the Phi Delta crest on it that I wear all the time," Maxwell said. "The crest always reminds me of a brother coming to the aid of another."

## Salad-Maker Wills Bundle to University

By PAM HOLLISTER

An 85-year-old woman who worked as a salad-maker and lived in a two-room, gold-water flat left a \$20,000 scholarship fund to Ohio State University.

The Anna B. Hennon Memorial Scholarship Fund was reported yesterday to the Board of Trustees.

From this fund, two grants of \$500 will be given each year to top students at the Ohio State branch in Lima where Mrs. Hennon was living at the time of her death. She died a year ago.

### Leaves \$76,000

The contents of her faded, hand-written will came as a surprise to all who knew

the shy, elderly woman. She left an estate of \$76,000.

Mrs. Hennon, widowed for more than 50 years, lived very modestly according to those who knew her. Her personal possessions at the time of her death were valued at little more than \$100. She drove a 1941-model car.

Mrs. Hennon worked almost all her life. She started working in her husband's grocery store at the time of their marriage in 1908. And she worked the 4 to 11 shift the night before she died of a heart ailment.

### No Children

She had no children. In her will she left more than \$14,000 to friends and relatives. The remaining portion of her estate was divided among seven organizations in Lima — a home for the aged, a school, a church, the YWCA, a library, a hospital and a children's home.

"We knew she had some money, but not that much," Herbert Boate, the executor of her estate, said.

"She wasn't connected with Ohio State in any way," he added. "But she was very much in favor of young people going on to college. I guess she was just interested in education."

"She never got to finish high school."

pointment of a University registrar were approved by the Trustees. Named to the post of registrar effective Dec. 1 was Dr. Dean O. Clark, former director of teacher education and certification in the Ohio Department of Education.

### \$1 Million for Research

He succeeds Kenneth R. Varner, who resigned recently to become registrar at the University of Rochester.

In other action the Trustees received over \$1 million in research contracts and grants.

Twenty contracts, valued at \$623,788, will be administered through the University Research Foundation, and two others valued at \$52,500 through the Engineering Experiment Station. Largest of the contracts, \$141,940, is for the Air Force Institute of Technology, Wright-Patterson Air Force Base and the Defense Management Center of the Commerce College. The project calls for development and teaching of weapons systems management for the center at Wright-Patterson.

### To Add to Lab

Another contract totaling \$123,700 will support physics department research on physical phenomena at very low temperatures.

Of the eight grants, totaling \$577,859, the largest was \$267,525 from the National Advisory Council on Health Facilities of the U.S. Public Health Service.

The grant will be matched by the University for construction of a two-story laboratory to Wiseman Hall, 400 W. 12th Ave., for research in preventive medicine.

## Board Approves Funds for Lights

By TOM COTTON

The University's Board of Trustees yesterday approved a plan for \$12,000 worth of high intensity floodlights for seven campus walkways. The lights will make the campus safer for coeds walking at night.

The floodlights will provide exterior lighting in 15 campus locations — mainly along pedestrian pathways serving the north and south residence hall areas.

These lights are a part of the University's program for improving campus lighting, according to Thomas B. Smith, associate director of the physical plant.

### Middies to March

The Trustees also announced receipt yesterday of an invitation from Secretary of the Navy Paul H. Nietze to Ohio State's Navy ROTC unit to participate in President Johnson's inauguration in January.

Twenty-five midshipmen will march in the inaugural parade in Washington as a color guard. The midshipmen will be selected next quarter on the basis of academic standing and merit.

Recommendations for ap-

## Crane Curbs Cars on Campus

Neil Avenue, between 17th and 18th Avenues, will be closed to traffic until Dec. 17.

It will be closed because of construction work on Caldwell Laboratory, requiring the use of a crane to set steel in place atop the building.

Traffic will be rerouted around the two-block area during this time.

## U. S. Commissioner Frees 19 Held in Civil Rights Case

MERIDIAN, Miss. (AP) — A U.S. commissioner dismissed charges yesterday against 19 white men arrested last week in connection with the midsummer slaying of three civil rights workers in Neshoba County.

Surprised by an abrupt turn in a preliminary hearing for 19 of the 21 men, the Justice Department announced it would take its case directly to a federal grand jury as soon as possible.

Miss Esther Carter, the federal commissioner, blocked government efforts to give testimony about an alleged confession from one of the men the FBI charges with helping to conceive and carry out a Klan-inspired plot to murder the trio.

"We will simply not produce any more evidence," said Robert Owen, a Justice Department attorney, after Miss Carter's ruling.

### Walked Out Free

The commissioner then dismissed the charges and ordered the bonds, which ranged from \$3,500 to \$5,000, refunded. The 19 men walked out free men just six days after their arrests.

They included Neshoba County Sheriff Lawrence Rainey and his deputy, Cecil Price.

In a joint statement, the 14 defense attorneys claimed the commissioner's ruling showed in effect their clients were innocent.

The statement charged that the government is "playing politics with the lives of these people." The statement claimed Negro leader Dr. Martin Luther King had put "pressure" on President Johnson and FBI Chief J. Edgar Hoover to get arrests.

### It's Up to Judge

Justice Department attorneys said they would put their evidence before a federal grand jury "as promptly as possible." It will be up to U.S. Dist. Judge Harold Cox at Jackson to convene a grand jury.

The 21 white men, some of them members of the Ku Klux Klan, were arrested last Friday. The FBI charged 19 with conspiracy to interfere with the federal rights of the slain trio. The other two were accused of being accessories.

### First Witness

The arrests climaxed an intensive investigation begun on discovery of the bodies of Michael Schwerner, 24, and Andrew Goodman, 20, both white New Yorkers, and James Chaney, 21, Meridian Negro.

Purpose of yesterday's preliminary hearing was to find out if the government had sufficient evidence to warrant holding the 19 men for grand jury action. The other two men, arrested at Gulfport, Miss., and near Shreveport, La., were to appear before commissioners in those cities.

The government's first witness was FBI agent Henry Rask, 39, of Atlanta. He testified he obtained in November a signed confession

from Horace Doyle Barnette, 25, of Cullen, La.

Defense attorneys protested Rask's testimony would be "hearsay" — that is, secondhand — and Miss Carter agreed. She said the FBI agent could not describe the nature of the statement or any of its contents.

Government attorneys protested that such statements were permissible at preliminary hearings. But Miss Carter refused to change her ruling.

At this point government attorneys said they would produce no further evidence and Miss Carter dismissed the charges.

### Brief Demonstration

A half dozen Negroes and several white civil rights workers, including Mrs. Fannie Chaney, mother of James Chaney, staged a brief demonstration on the courthouse steps after the ruling.

When Rainey left the building for a luncheon recess, white spectators reached out and shook his hands. "Ol' Rainey could be elected governor now," said a Meridian policeman watching the scene.

### Expresses Shock

Roy Wilkins, executive director of the National Association for the Advancement of Colored People, said in New York yesterday, "We are deeply shocked, as we are certain most Americans of all races are, by the release of the 19 men held in connection with the killing of the three civil rights workers."

Negro leader Charles Evers, brother of slain civil rights worker Medgar Evers, said the ruling was "typical of Mississippi justice."

Former Mississippi Governor Ross Barnett praised Miss Carter as a "highly intelligent, fair and honorable" woman.

## Marxist Premier Will Not Resign

GEORGETOWN, British Guiana (AP) — Marxist Premier Cheddi Jagan told Gov. Sir Richard Luyt yesterday he felt there has been an election fraud and that he would not resign. Jagan fell short of a majority vote in Monday's election.

The executive committee of Japan's People's Progressive Party (PPP) voted to support the leader's decision.

Jagan told a news conference: "I will not resign. The British government will have to force me out."

### Crisis Approaches

Jagan's remarks appeared to be building up to a crisis for the British government as Gov. Luyt took preliminary steps to form a new regime for this racially troubled British colony.

Amid separate conferences with Jagan and two opposition leaders, Forbes Burnham of the People's National Congress (PNC) and Peter D'aguiar of the United Force (UF), Luyt also met with legal advisers on the problem posed by the Premier.

### Merry Christmas, Ed

Sources close to the governor said Jagan's tenure would end with the calling of a new legislative assembly, but some experts on the British Guiana constitution said there were ambiguities that leave it unclear whether Jagan's tenure ends automatically or whether his resignation is required.

At an evening news conference Jagan reiterated his determination to stay in the premiership until deposed by British government order. He indicated he expected the governor to request the order, which it is believed will be received here tomorrow.

Jagan and his wife Janet, formerly of Chicago, vacated Red House, the premier's residence, yesterday.

Meantime, Burnham who will probably be the next premier, announced that he and D'aguiar had agreed to form a PNC-UF government.

## Warfield Finishes 2nd In Top Rookie Voting

Former Buckeye halfback Paul Warfield, the No. 1 draft choice of the Cleveland Browns who switched to split end, tied for second place in the Associated Press voting for National Football League "Rookie of the Year" yesterday.

Warfield and Washington safety Paul Krause both placed behind the Redskins' other fine first-year man, halfback Charley Taylor.

In 13 games going into tomorrow's regular season final against the New York Giants, Paul has speared 47 passes good for 817 yards and 8 touchdowns.

### Leads Receivers

His closest pursuers in pass receiving on the Browns are Jim Brown with 35 receptions and 332 yards, and Gary Collins with 32 catches for 496 yards.

With Ohio State in 1963, Warfield was selected to Time Magazine's All-Ameri-

can team. He was All-Big Ten in his last two seasons.

Also drafted by the Buffalo Bills of the American Football League, Paul had to decide whether to sign a pro football contract or retain his amateur status to participate in track.

### Decision Difficult

"Believe me, I had difficulty studying the two weeks after the draft," Warfield said.

"If I signed, I wouldn't be able to go out for track. I'd have to give up my dreams of the Olympics, and I had some thoughts about a pro baseball career."

He placed third in a U.S.-Russian track meet three years ago with a leap of 26 feet, 2 inches. He was an outstanding sandlot baseball player in his hometown of Warren.

Neither Warfield nor the Browns have any regrets over the final decision.

## Nine on Scholarship Honored at Banquet

The Saddle and Sirlain Club recognized its outstanding members at a banquet last night in the Ohio Union.

Dr. George R. Johnson, chairman of the Department of Animal Science, introduced nine agriculture and home economics students who have won scholarships during the past two quarters.

The meat judging team and the livestock judging teams were introduced by their coaches, Dr. Paul Alt-house and Dr. Randall Reed, respectively.

The livestock judging

team won first place in the International Intercollegiate Livestock Judging Contest in Chicago Nov. 28.

The guest speaker was Dale Runnion, advertising manager of the Aberdeen Angus Journal. Runnion spoke about changes in agriculture from his college days and asked the students to "think of the influence you will have during the next 25 or 30 years."

He urged them to try very hard after graduation and added that he thought there was plenty of room in the field of agriculture for capable graduates.

The Lantern will print all signed letters to the editor which are not libelous and are in good taste. Letters should be less than 300 words and the Lantern reserves the right to cut or reject any letter. Names will not be withheld.

## SUMMER SERVICE OPPORTUNITIES for OHIO STATE STUDENTS

June-August (1-3 months) 1965

Work Camps—Abroad (Asia, Europe, South America, Africa, etc.) one-three months

June-August and in the United States  
Costs various, from \$25.00 plus travel up—scholarships available

Community Service—In settlements, rural developments and voter registration projects etc., in the United States and territories

Institutional Service—In mental hospitals, children's homes, etc., maintenance and stipend provided

Work and Study Seminars in the United States and abroad (2-12 weeks)

Caravans and Individual Service

For further information regarding costs, dates, travel, requirements and possible scholarships

# REPORT To The Campus

VOLUME VII, NUMBER 11

ACTIONS BY THE BOARD OF TRUSTEES ON DECEMBER 10, 1964

## In Brief, Ohio State Trustees . . .

. . . took these actions December 10:

1. Named Dr. Dean O. Clark to the post of registrar, effective December 1.
2. Approved plans for additional exterior lighting in some 15 campus locations.
3. Approved recommendations for appointment of two professors.
4. Named Dr. Albert H. Willis Mershon visiting professor in the Department of Agricultural Engineering.
5. Heard reports of 21 gifts totaling \$109,431.77.
6. Heard reports of contracts with government and industry for campus research projects totaling \$675,788.
7. Authorized President Fawcett to sign an agreement for purchase of the American Chemical Society's equity in the Chemical Abstracts Building.
8. Heard reports of eight grants to Ohio State totaling \$577,859.
9. Approved plans for completing the fourth floor level of the Dentistry Building.
10. Approved appropriations totaling \$85,000 from research income for three campus research projects.
11. Approved employment of architects and engineers for three campus construction projects.
12. Heard recommendations for award of contracts totaling \$171,725 for remodeling and renovation in the southeast tower of Ohio Stadium.
13. Authorized purchase of two properties.
14. Awarded a \$197,800 contract to the Julian Speer Company for work on North Commons.

## Dean Clark Named to Registrar Post

Dr. Dean O. Clark, formerly director of teacher education and certification in the Ohio Department of Education, was named to the post of registrar effective December 1. He succeeds Kenneth R. Varner, who resigned this fall to become registrar at the University of Rochester.

Dr. Clark has the bachelor of science, master's, and Ph.D. degrees from Ohio State and has studied also at the University of California and in Europe. He was state director of teacher education and certification for one and a half years, and during that time set up a system for data processing of teacher certification. In the state post he worked closely with the registrars of the "Big Ten" universities and those of colleges and universities in Ohio and other states in evaluating credentials and transcripts for certification.

For seven years he headed the Department of Education and directed the summer school at Heidelberg College, Tiffin, Ohio. He has taught also at Bowling Green State University and served in teaching or administrative posts at the Ohio Soldiers and Sailors Orphans Home, Xenia; and in high schools in Ada and Newcomerstown. He made a study of European educational systems in 1953 and in 1963 served schools in Micronesia (Trust Territory of the Pacific Islands).

## More Outside Lighting Plans Approved

The Board of Trustees approved plans for additional exterior lighting in some 15 campus locations, principally along pedestrian pathways serving the north and south residence hall areas.

The projects are a part of the University's continuing program for improving campus lighting, according to Thomas B. Smith, associate director of physical plant.

Mercury vapor floodlights will be installed at a cost not to exceed \$12,000.

Seven north-south pedestrian walkways will receive additional lights, Smith said. These will include the following:  
The Arps Hall area, including the parking lot between the two wings and walks west of the building; walk at west side of Chemical Engineering Building; area between Hughes and Hayes Halls; Horticulture and Forestry Building area, including walks and drives north and south of building; walks along east and west sides of Mendenhall Laboratory; walk south from University School to 18th Ave. extended; and the walk along east side of tennis courts between Women's Field House and 17th Ave.

Completion of Stadium Drive lighting is scheduled, and improvements are planned also in seven other areas, including the following:

East end of north residence hall area; Lord Hall parking lot; Fine Arts display court; Derby Hall entrances; Campbell Hall loading dock area in interior court; Hamilton Hall parking lot; and the Dodd Hall parking area.

## 2 Engineering Professors Appointed

Recommendations for appointment of two professors received approval of the Trustees.

Appointed to professorships effective January 1 were Dr. Arthur E. Middleton, chief scientist and director of materials and long range research for the Ohio Semiconductors Division (Columbus) of the Tecumseh Products Company, who will serve in the Department of Electrical Engineering, and Dr. Ting Yi Li, now professor of aerospace engineering at the University of Cincinnati, who will join the faculty of the Department of Aeronautical and Astronautical Engineering.

Dr. Middleton is a graduate of Westminster College, New Wilmington, Pennsylvania, and has the master of science degree in nuclear physics and the Ph.D. degree in solid state physics, both from Purdue University. He is a widely known authority on solid state semiconductors and dielectrics, has designed and developed a number of new materials and devices in this field, and has obtained several patents.

Dr. Middleton served previously as manager and director of the Solid State Research and Electronics Division of Harshaw Chemical Co., Cleveland; head of the Electric Lamp Division, General Electric Co., Cleveland; director of physics and physical chemistry laboratories for the P. R. Mallory Company, Indianapolis; supervisor of the Semiconductor and dielectrics Division, Battelle Memorial Institute, Columbus; and has taught at Purdue University.

He has been a director of the North Pittsburgh Telephone Co., Gibsonia, Pennsylvania, since 1956. He has conducted many industrial and governmental research and development projects. Among his work was the first comprehensive world-wide survey of the status of solid state physics. He has been active in professional organizations.

Dr. Li is a graduate of National Central University (China) and has the degrees of aeronautical engineer and

Ph.D. cum laude from California Institute of Technology.

From 1946-55 he held various posts including that of senior research engineer at the Guggenheim Aeronautical Laboratory at Cal Tech. He joined the Cincinnati faculty in 1962 after serving for six years on the faculty at Rensselaer Polytechnic Institute.

Dr. Li is the author of some 35 technical papers in the field of aerospace engineering. He has served as consultant to the Advanced Engine and Technology Department of the General Electric Co. and some four other firms or laboratories. He is currently consultant to the Rand Corp. of Santa Monica, California.

## A. H. Willis Named Visiting Professor

Dr. Albert H. Willis, dean of the faculty of Engineering at the University of New South Wales, Australia, was named Mershon visiting professor in the Department of Agricultural Engineering for a six-month period beginning January 1.

Dr. Willis has published a series of technical papers on the application of mechanical engineering and mechanical design to agriculture. He has the bachelor of science in engineering degree with first-class honors from the University of London and the Ph.D. degree from the same university. He is a member of both the Australian Institution of Engineers and the American Society of Agricultural Engineers.

## \$109,431.77 in Gifts Presented

Twenty-one gifts totaling \$109,431.77 presented to Ohio State through the Development Fund were reported to the Board.

Four of the gifts called for the establishment of new memorial or scholarship funds. They included \$20,000 for the Anna B. Hennon Memorial Scholarship Fund; \$10,000 for the Martha Burgess Hutton Memorial Fund; \$5,000 for the Trent D. Sickles Scholarship Fund; and \$5,000 for the John J. Fahey Fund.

The Anna B. Hennon Fund was created by a bequest from the late Anna B. Hennon of Lima. Income from the fund is to be used to provide scholarships for students at Ohio State's academic center at Lima.

The Martha Burgess Hutton Fund was established by a bequest from the late Martha Burgess Hutton of Montclair, New Jersey, former student in the College of Arts and Sciences. Income is to be used for projects suggested by the Development Fund Board of Directors.

Established by a gift from The F&R Lazarus and Co., Columbus, the Trent D. Sickles Fund will provide for an annual scholarship award to an undergraduate or graduate student for study in any phase of water conservation.

Mr. Sickles, currently assistant to the president at Lazarus, has been associated with the firm since 1930. He is a graduate of the University of Illinois and the Trade Executives' School at Northwestern University and also attended law school in Columbus.

Interested in water conservation work, he served several years as head of a statewide conservation group promoting Ohio's lakes and parks. He was a member of the original Urban Renewal Commission of Columbus and was one of the organizers of the Ohio Citizens Highway Committee which deals with metropolitan area and interstate highway problems.

He is active in the Columbus Foundation, a community charitable trust, and is a director of the Columbus Association for the Blind and the Columbus Hospital Federation.

The John J. Fahey Fund was established by Dr. John J. Fahey of Chicago, a 1931 graduate of the College of Medicine. The new gift of \$5,000 is to be added to a previous gift of \$5,000 made by Dr. Fahey in 1963. Income is to be used in the College of Medicine for projects suggested by the dean of the college.

## Contracts for Research Reported

Contracts with government and industry for campus research projects totaling \$675,788 were reported to the Board.

Twenty of the agreements valued at \$623,288 will be administered through The Ohio State University Research Foundation and two others valued at \$52,500 through the Engineering Experiment Station.

Largest of the contracts, with a value of \$141,940, was between the Air Force Institute of Technology, Wright-Patterson AFB, and the Defense Management Center of the College of Commerce and Administration. The project calls for development and teaching of weapons systems management for the Defense Weapons Systems Management Center at Wright-Patterson AFB.

Another contract totaling \$123,700 will support research in the Physics Department on physical phenomena at very low temperatures for the National Science Foundation, Washington, D.C.

The nineteen federal government research projects reported to the Trustees totaled \$621,788. A \$1,500 project for the United Nations Educational, Scientific, and Cultural Organizations, Paris, called for preparation in the Department of Economics of "a manuscript on the theory and method of measuring patterns of education according to pupil-hours of instruction received."

Two industrial contracts were for research in the Engineering Experiment Station on "high-frequency lighting and high-frequency power generation for on-site gas energy systems" for Columbia Gas System Service Corporation, Columbus, \$37,500, and development of a refractories research and testing facility for The Refractories Institute, Pittsburgh, \$15,000.

## OSU to Buy Chemical Society Equity

Ohio State will purchase the American Chemical Society's equity in the Chemical Abstracts Building.

The Trustees authorized President Fawcett to sign an agreement for purchase of the ACS equity for \$488,000 and to negotiate the terms of payment. Income from research contracts will be used to finance the purchase.

The Chemical Abstracts Service, which now occupies the four-story building, will move to new and larger quarters now nearing completion on Olentangy River Rd., probably early next year.

Construction of the Chemical Abstracts Building was financed jointly by the University and the ACS. The original structure was completed in 1955 and the fourth floor was added in 1961.

The University has not yet announced assignments for use of the space to be vacated.

Actions by the Board of Trustees at its meeting Thurs., Dec. 10, on the Campus are contained in "Report To The Campus." Prepared by the staff of the Office of University Relations, "Report" provides more details on Trustees' actions than newspaper, radio or television reports ordinarily can include.

## Eight Grants Totaled \$577,859

Eight grants to Ohio State totaling \$577,859 were reported to the Board.

Largest of the grants was \$267,525 from the National Advisory Council on Health Facilities of the U.S. Public Health Service, which the University announced Nov. 28. The grant will be matched by the University for construction of a two-story laboratory addition to Wiseman Hall for research in preventive medicine.

Another Public Health Service grant of \$20,000 will support the expansion of animal research facilities for the Department of Psychology at the Research Center.

The sum of \$49,294 was received from the W. K. Kellogg Foundation as a fourth payment on a six-year commitment to establish an experimental educational program for training medical dietitians. The support is for a period from October 1, 1964, through September 30, 1965.

The remaining five grants, all from the National Science Foundation, were for summer institutes in mathematics, science, geology, geography, and radiation biology, all terminating September 30, 1965.

A \$94,100 grant will go for a mathematics institute for secondary teachers, directed by Prof. Robert C. Fisher of the Mathematics Department; \$56,050 will go to a science institute for secondary teachers, directed by Prof. John S. Richardson of the Education Department; \$40,090 will go for a geology institute directed by Prof. Edmund M. Spieker of the Geology Department; \$31,800 will go to a geography institute for college teachers, directed by Prof. Edward J. Taaffe, chairman of the Geography Department; and \$19,000 will go for a radiation biology institute for secondary teachers, directed by Prof. Richardson.

## Dentistry Bldg. Addition Approved

The Trustees approved plans for completing the fourth-floor level of the Dentistry Building. The original three-story building was completed in 1950, and a four-story east wing was added in 1958.

The proposed addition, which will be 370 feet long, will be devoted entirely to dental research and graduate studies.

Dr. John R. Wilson, associate dean of the College of Dentistry, said the addition will permit the college nearly to double the number of persons which it can train in research, graduate studies, and the specialties.

"Ohio State's College of Dentistry is now the second largest in the country," he said. "The additional space will provide a firm base for establishing this college also as one of the largest graduate schools of dentistry in the United States."

Funds from the state bond issue will finance the construction.

The new fourth-floor level will consist of research laboratories, graduate study areas, and clinic-laboratories for clinical research.

## \$85,000 Appropriated to 3 Projects

The Trustees approved appropriations totaling \$85,000 from research income for three campus research projects.

The sum of \$40,000 will be used for renovation and improvements of the University's nuclear reactor at 1298 Kinnear Rd. Employed in both research and instruction, the reactor has received heavy use since the University began operating it early in 1962.

Another \$25,000 was earmarked as the University's contribution in support of research projects at its Van de Graaff Laboratory, which have received approximately \$155,000 from the National Science Foundation.

A third appropriation in the amount of \$20,000 to the Department of Psychology will match a grant from the National Institutes of Health. The funds will be used to provide additional space for research animals at the Research Center.

## Three Construction Projects Advanced

The Trustees approved employment of architects and engineers for three campus construction projects.

The Toledo firm of Richards, Bauer & Moorhead was named to provide complete architectural and engineering services for a third-floor addition to the south wing of the Ohio Union.

The proposed addition will provide space for centralizing University staff offices pertaining to student organizations and activities. Student facilities fees will finance the work.

The Social Board, Assistant Dean of Men, Student Publications Adviser, and Union Program Offices, already housed elsewhere in the Ohio Union, will move to the third floor, freeing space for student activities offices and meeting rooms. Several other offices in the area of Student Relations will move to the addition. These will include Student Auditing, Fraternity Managers Association, Coordinator of Religious Affairs, and others. A general purpose meeting room also is planned.

Centralization of these offices is intended to reduce the necessity for student leaders to apply for services to University agencies now housed in as many as four buildings.

The Toledo firm was transferred to the Ohio Union project from its previous assignment to the University's proposed Veterinary Hospital, and the Columbus firm of Benham, Richards, and Armstrong was employed for preliminary architectural and engineering services for the hospital, which will adjoin Goss Laboratory.

The Columbus firm of Milosevich & Trautwein was employed for complete engineering and architectural services on a proposed one-story building to house emergency vehicles at Don Scott Field, the University airport. The project will be financed by the Federal Aviation Agency.

Contract awards totaling \$711,285 were reported to the Board for construction of Houck House, a four-story student residence hall to be built in the University's north residence hall complex. It will house some 222 women.

Low bids were as follows: general contract, Knowlton Construction Co., Bellefontaine, \$390,000; heating, ventilating, and air conditioning, \$141,865, and plumbing, \$89,120, both from the Tibbets Plumbing & Heating Co., Dayton; and electrical, Gustav Hirsch Organization, Columbus, \$90,300.

(Continued on page 3)

## Report to Campus

(Continued from page 2)

The project will be financed through self-liquidating residence hall revenue bonds.

### Contracts Awarded for Stadium Tower

Recommendations for award of contracts totaling \$171,725 for remodeling and renovation in the southeast tower of Ohio Stadium were reported to the Trustees. The project will be financed from Athletic Department funds.

The first floor will be remodeled to house the men's and women's Intramural Athletics offices, now in the Natatorium and Pomerene Hall; the lobby will be improved for equipment issue, and a locker room will be refurbished. The athletic training area and locker rooms will be renovated on the second floor, and equipment and classroom areas will be improved on the third level.

Low bids for the southeast tower project were as follows: general contract, \$85,386, D. E. Gardner Co.; heating, ventilating, and air conditioning, \$44,444, Huffman-Wolfe Co.; plumbing, \$17,925, Huffman-Wolfe Co.; and electrical, \$23,970, S. & S. Electric Co. All of the firms are from Columbus.

### 2 Property Purchases Authorized

Purchase of two properties on W. Ninth Ave. was authorized by the Board.

The University will acquire buildings and property at 310-312 W. Ninth Ave. from A. A. Boal and Ruth E. Legge at a price of \$25,000 and at 354 W. Ninth Ave. from Gamma of Phi Chi Fraternity Building Co. at \$47,250.

The properties are in the area south of the campus required for the expansion of the College of Medicine. The purchases will be financed through the state bond issue.

### North Commons Contract Awarded

Award of a \$197,800 contract to the Julian Speer Company, Columbus, for heating, ventilating, and air conditioning work on North Commons, was reported to the Board. North Commons, a dining facility for the north residence hall area, will be built at 136 W. Frambes Ave. Other contract awards for the \$883,597 project were reported to the Trustees at their November 6 meeting.

# Christmas Fashions Include Definite Difference in Trees

Scotch pine or white pine Christmas trees are "in" this year, according to William F. Cowen, Jr., University Extension forester.

Cowen said that more than 2 million of the 2.4 million trees Ohio growers

have for this marketing season are one of those types.

Sales of the white pine or Scotch pine have increased by almost 800,000 trees since 1962.

No longer socially fashionable are red pine and Austrian pine.

Shoppers who don't care for white or Scotch pine can escape social ostracism, Cowen said, by either buying an out-of-state tree or an artificial one.

Cowen said that perhaps 20 per cent of the trees bought by Ohioans are grown in Michigan, Pennsylvania, New York, or even as far away as Texas and California.

"About 15 per cent of the families in Ohio now buy artificial trees," he said.

Many people prefer artificial trees because they are cleaner and attractive. Competition from artificial trees has spurred research in coloring natural trees.

Cowen explained that the recent Farm Science Review featured a "rainbow of trees" sprayed by a latex-based pigment.

"The green spray is used to cover objectionable pale green and yellow needles," he said. "The other sprays come in tinsel white, tinsel blue, tinsel pink, and tinsel yellow."

The green spray must be applied in late September or early October so that the

tree can be repainted," Cowen said.

"The preferred age for Christmas trees at harvest is about nine years old," Cowen explained.

## GRADES DUE

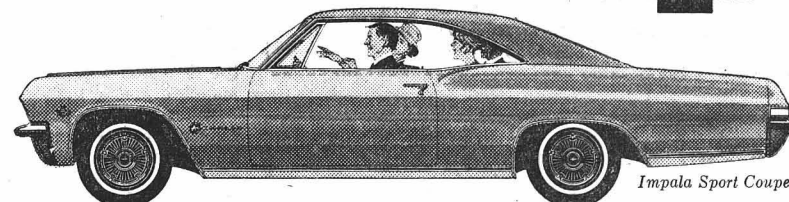

ALL grade cards other than those for candidates for graduation are due in the Office of the Registrar before noon, SATURDAY, DECEMBER 19, 1964.

FINAL EXAMINATIONS for the Autumn Quarter are scheduled for December 12, 14, 15, 16 and 17th.

OFFICE OF THE REGISTRAR

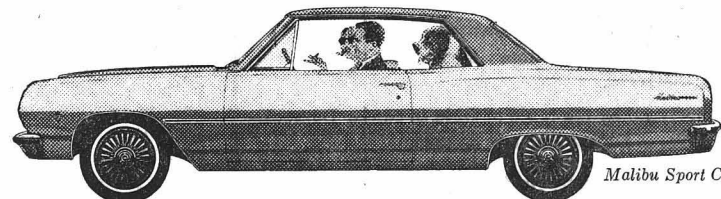

## More on the way every day! Thanks for waiting!

Your wait for one of these new 1965 Chevrolets is about over—and we want to thank you for your patience. Come see us now. When you get behind the wheel, you'll be glad you waited!

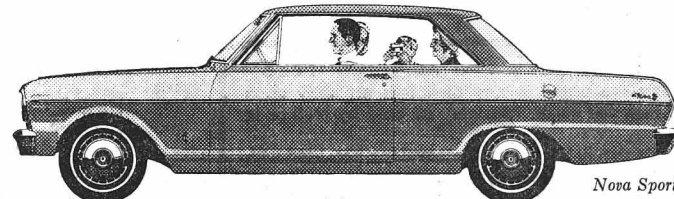

'65 Chevrolet

It's longer, wider, lower. It's swankier, more spacious. You could mistake it for an expensive car—if it weren't for the price.

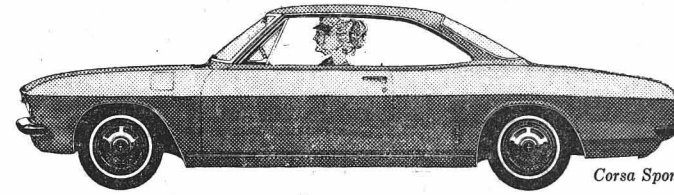

'65 Chevelle

Fresh-minted styling. V8's available with up to 350 hp. A softer, quieter ride. And it's as easy-handling as ever.

'65 Chevy II

Clean new lines. Fresh new interiors. A quieter 6 and—V8's available with up to 300 hp. Thrift was never so lively.

'65 Corvair

It's racier, roomier, flatter riding. With more power available—up to 180 hp in the new top-of-the-line Corsas.

More to see, more to try in the cars more people buy

# Reflections at Quarter's End

Today marks the end of another quarter for the Lantern. We wish to reflect on some of the more enlightening, soul-searching and controversial incidents that took place in the last 11 weeks.

Two highpoints on the national and international scene were the American and British elections. Sen. Barry Goldwater was edged out by incumbent President Lyndon Johnson in a fight that left no mud-ball unthrown.

Bobby Baker and Walter Jenkins captured news columns for short times before and after the election.

America mourned the loss of former President Herbert Hoover and reflected with grief upon the anniversary of the assassination of President John F. Kennedy.

Students caused a whirlwind of commotion in Berkeley, California, while mother nature provided Florida with a couple of the state's worst hurricanes.

Communists kept the war in Vietnam alive, while Rus-

sian leader Nikita Khrushchev suffered political death. Death of another kind came in the Congo when rebels massacred nearly a hundred white settlers in Stanleyville.

We had some goings-on here at school too. Several groups were agitating for more protection for coeds who had to walk home through inadequately lighted and patrolled areas, and then, as an illustration that this was not the only problem, a coed was raped in her bedroom.

Something is being done. The Board of Trustees has allocated \$12,000 for high-intensity mercury vapor floodlights for the campus.

Ohio State's football team started the season with so-so ratings in the polls, made it all the way to the top in mid-season, fell back to sixth place or so, blew the Rose Bowl in the last game and wound up with ninth place in the polls.

Parking space problems have caused heads to roll in high places, but about the only thing that was done was switching around a couple of B and C parking lots. There is cause for optimism, though. The University is expected to reveal plans next quarter for three parking ramps.

There have been many performances of music and theater this quarter: "Fledermaus," Faust, Handel's "Messiah," and the personal appearances of Harry Belafonte, the Kingston Trio, the Four Saints, Count Basie and Henry Mancini, just to mention a few.

Miss Waxman, an employee in the Ohio Union Browsing Library, removed some controversial right-wing political books from the shelf. The Lantern said books of all philosophies should be available to the students. A committee met, and lo and behold, the books were put back on the shelf.

Our letter forum has been vigorous; we hope it will continue. Most recent has been controversy over the thoroughbred-complex on Greek Row, an issue by no means dead. Rewards are high to prove whether or not God exists; we take no stand on it. Someone asked who John Galt was; we said he was a Mistake; a deluge of letters said otherwise.

Politics prompted editorials and letters, but, to paraphrase T. S. Elliot's words, the issue fell off with one bang and many whimpers.

Remaining whimpers are the object of our concluding comments below.

And finally, a compliment: An ad placed by a group which calls itself the Conservative Research Committee has accused us of serving the bidding of the "Red Conspiracy." This puts us in company with Eisenhower, the Committee for the Study of Alternatives and other such "dupes" (see P. 7).

Any refutation of the ad would be an insult to our readers. We comment on it only to support our editorial research and our writers. If anything, the ad reaffirms our assertions.

One example of the group's technique should suffice: Because the NCCR—the group which criticized the book "None Dare Call It Treason"—has not (yet) reviewed any leftist works it must be either pro-left (hence Communist) or invalid.

Beautiful logic. And there's more, but we will not itemize the obvious. Our discerning readers will quickly detect it.

### Intramural Roundup

Sunday is the last time for the recreation program 2-6 p.m. this quarter. It will begin next quarter on Jan. 10.

We were  
wary  
of

# MARTESIA STRIATA!

The object of our concern was a small, wedge-shaped mollusk found in southern waters where we planned to lay telephone cables.

Like others of its genus *Martesia* (of the family *Pholadidae*), it is a borer. Usually it bores into limestone or some other substance to find a home.

Would it—could it—bore into our undersea cables?

At the time, we were testing the performances of proposed dielectric

materials for undersea cables at various simulated depths, temperatures and ocean pressures. We also tested for resistance to marine biological attack.

The testing showed that our cable covering wouldn't be attractive to pholads, and in nearly fifteen years of experience with undersea telephone cables we have peacefully shared the ocean bottom with them.

But we had to be sure we could. In the telephone business, reliability is

everything. We must do all we can to safeguard service from interruption. No threat is too small to ignore, not even that posed by a tiny mollusk.

Right now we've got other problems.

Out in the Dakotas, hungry squirrels and field mice are nibbling on our wires.

We have to run.

## UNITED CHAPEL

# TREASON AND THE "NCCR"

## (LANTERN DUPED)

COMMUNISTS WILL TRY TO DESTROY any one or anything that hinders their goal of world conquest. If they can't disprove the opposition they smear it, or misguided liberals do it for them.

### NCCR REPORT

In the *Congressional Record*, September 10, 1964, Representative Charles A. Vanik of Ohio inserted a report of the National Committee of Civic Responsibility (NCCR) on John A. Stormer's book, *None Dare Call It Treason*. The report brands Stormer's book as at best "an incredibly poor job of research and documentation, and at worst, a deliberate hoax and a fraud."

We have studied the NCCR report—IT IS A FRAUD!!!

### WHO IS THE NCCR?

The NCCR is NOT a national group as its name suggests, but is a Cleveland, Ohio group formed shortly after President Kennedy's assassination to investigate "instances where violence or where calumny is used to intimidate." So far the NCCR has found no groups on the left to investigate.

### PRAISED IN WORKER

In the Sunday, January 12, 1964 edition of the *Communist Worker* the NCCR is praised in an article titled "Cleveland Committee to Fight Hate Groups." To the Communists, a "Hate Group" is one opposing Communism.

### LEGION REJECTS

Mr. Thomas C. Westropp, president of the NCCR, appeared before the annual meeting of The American Committee for the State of Ohio American Legion. According to an American Legion official, Mr. Westropp asked that the Americanism Committee criticize Stormer's book on the grounds that it was "not based on facts." The committee voted unanimously (14-0) NOT to criticize Stormer's book.

### THE TACTICS

The NCCR attacks the book in two ways. They claim: (1) Stormer subverted his references "to give a totally erroneous impression and even to say precisely the opposite of what his own reference claims." (2) That the book "is neither carefully documented nor factual and that the word 'authoritative' does not apply to many of Stormer's sources." Let's examine some of their charges.

### 1. Subverting References

NCCR's first illustration refers to an article written by Arthur M. Schlesinger, Jr., and inserted in the *Congressional Record* February 6, 1952 by Representative Charles E. Goodall of New York. Stormer states, on pages 169 and 170, that Schlesinger's remarks "set forth the plan for achieving socialism in America." NCCR claims that Schlesinger's remarks "said precisely the opposite." THIS IS FALSE!

NCCR gave two quotations from the article to substantiate their claim, but they lose their true meaning when taken out of context. This is dramatically illustrated by the second quotation:

NCCR: "Page A882: The more varieties of ownership the better; liberty gets more fresh air and sunlight through the interstices of a diversified society than through the close-knit grip of collectivism. The recipe for retaining liberty is not nationalization but muddling through."

On the surface, this would tend to refute Stormer's claim, but in its original context on pp. A881-A882 it reads:

"Government ownership and control can take many forms. The independent public corporation, in the manner of TVA is one; State and municipal ownership can exist alongside Federal ownership; the techniques of the co-operatives can be expanded; even the resources of regulation have not been fully tapped. The more varieties of ownership the better; liberty gets more fresh air and sunlight through the interstices of a diversified society than through the close-knit grip of collectivism. The recipe for retaining liberty is not nationalization but muddling through—a secret long known to the British who, as D. W. Brogan has put it, 'change anything except the appearance of things'."

The "varieties of ownership" referred to by Schlesinger are obviously VARIETIES OF GOVERNMENT OWNERSHIP. He criticizes a totalitarian socialism, achieved by force, but recommends what he calls "Democratic Socialism."

Representative Goodell interpreted the article the same as Stormer for he said:

"Socialism is alien to the free enterprise system of America. I cannot trust the advice of anyone who sincerely believes that socialism must save capitalism. . . . I am placing the entire article in the Record at the conclusion of these remarks, so that there can be no question as to the context of Mr. Schlesinger's comments. I do not believe the American people want to 'back into' socialism. . . . I ask President Kennedy to take cognizance of this article and to give serious consideration to replacing Mr. Schlesinger in his inner circles of advisers."

Schlesinger strengthened Stormer's comments even more when he said:

"There seems no inherent obstacle to the gradual advance of socialism in the United States through a series of New Deals."

WHY did the NCCR not only DELIBERATELY take a statement from the center of a paragraph, but end a sentence in its middle, and thus by distorting its meaning, try to refute someone who had correctly interpreted it from the beginning? To use NCCR's own words as they tried to apply them to Stormer: "A MORE FLAGRANT AND DISHONEST MISUSE OF QUOTED MATERIAL WOULD BE HARD TO IMAGINE."

### 2. Nitpicking To Distort

NCCR refers to page 168, paragraph 1 of Stormer's book which states: (Example 6 F)

"Despite exposure of the Communist control of the CIO by Congressional investigations in 1938-39, the Communists remained in open control for at least seven more years." (Ref. 7, ch. 10: *Congressional Record*, September 22, 1950, p. A6831).

NCCR then says:

"There is simply no mention whatever in the reference which Stormer cites as to how long the CIO remained Communist influence subsequent to the congressional investigation, or whether it remained so at all. This is a spurious reference."

The reference referred to is an article titled, *The Communist Threat to America*, by Martin Dies, former chairman of the House Committee of Un-American Activities. On page A6831 he discusses the communist influence in the CIO and continuing to p. A6832 he says:

"It is interesting to note, however, that in the past 12 months the CIO have expelled the very individuals and unions exposed by our committee in 1938. By their own actions, they have proved the truth of our findings."

In case the NCCR can't add, 1938-39 to 1950 is 11 years. Stormer was well within his rights when he said "at least 7 more years." He is further supported on page A6833. Stormer listed one instead of two or three pages. This is hardly spurious. Sounds more like nitpicking to distort.

### 3. Myth-A Reality

Example 6 H: Stormer, page 205, paragraph 4:

"If U. S. proposals for arms control and disarmament are accepted, U. S. military forces will be transferred to the U.N. peace force, which is directed by the Under Secretary for Political and Security Council Affairs, who has always been a Communist."

NCCR notes that Stormer doesn't document this statement, and then charges that it is a "myth" circulated by right wing organizations.

Stormer didn't list it, but this information IS DOCUMENTED.

Trygve Lie (first Secretary General of the U.N.), on pp. 44-51 of his book, *In The Cause of Peace*, tells of a verbal "agreement" to appoint a soviet national as Assistant Secretary-General for Political and Security Council Affairs (this post serves the General Assembly in all political questions, the Atomic Energy, the Disarmament, and other commissions). Although Mr. Lie felt this would last only while he was in office, this precedent has continued. All eight men who have held this powerful post have been from the USSR except one, who was a Yugoslavian Communist.

### 4. An Explanation

Stormer is accused of adding words to a quotation (Example 6 G). He does, but they in no way change the meaning of the quotation or of the testimony. They are obviously explanatory words which were intended to have been placed in parentheses. This testimony under the heading of "Interlocking Subversion in Government Departments" should be read by every American.

### 5. Who's Incomplete Reference?

NCCR: "Reference 32 of chapter 2 refers to 'House Document 227, page 4.' Without any information as to the date or session of Congress in which this documentation is issued, it is virtually impossible to find."

This would leave the reader with the impression that this is the way the entire reference reads. The entire reference actually is:

"Quoted by J. Edgar Hoover, Struggle On a New Plane, House Document 227, p. 4."

WHY did the NCCR leave out part of the reference?

### 6. What? Again?

NCCR: "Reference 29 in chapter 8, in which *TIME* magazine is accused of lying about the affiliations of Gustavo Duran in order to discredit Senator Joseph McCarthy, refers to the *Congressional Record* for November 14, 1951. Congress was not in session on November 14, 1951, consequently, there is no *Record* for that date."

Again, NCCR found it was convenient to leave out part of Stormer's documentation. The reference actually reads:

"Buckley: McCarthy and His Enemies, p. 441; *Congressional Record*, November 14, 1951.

The information is found on p. 141 of Buckley's book.

### CONGRESSIONAL RECORD

Two things should be noted in researching material in the *Congressional Record*:

1. It is true that Congress was not in session on Nov. 14, 1951, but this does not necessarily mean that there was not a *Congressional Record* for that date. The *Congressional Record Appendix* is published for several weeks after Congress has adjourned to allow representatives time to insert delayed material. For example, the last appendix of this year is dated October 23, but carries material dated October 2 and 3, the last days Congress was in session. The articles that Stormer refers to can be found in the *Congressional Record* of October 20, 1951, p. A6951, the last day of Congress for that year.
2. There are two *Congressional Records*, the daily edition and the yearly bound volumes. The persons inserting ma-

terial and the dates are the same, but the page numbers can vary markedly.

Was the NCCR IGNORANT of these facts, OR did they DELIBERATELY avoid mentioning these possibilities, hoping their readers would be unaware of them?

Stormer takes the *Congressional Record* and used the unbound edition frequently.

### WHY?

IF Stormer's book is as faulty as the NCCR claims, WHY did they have to DISTORT THE FACTS in their efforts to smear it? The answer may lie near the end of their article when they refer to Stormer's book and say, "TO THE AVERAGE READER, HIS DOCUMENTATION SEEMS IMPRESSIVE AND FEW WILL TAKE THE TIME TO DISCOVER FOR THEMSELVES THAT IT CANNOT WITHSTAND EVEN THE MOST CURSORY EXAMINATION."

This statement can be better applied to the NCCR report.

### LANTERN DUPED

In the November 2, 1964 edition of the *Lantern*, an editorial referred to "smear books" and said:

"They use the guise of patriotism while their prejudices show grotesquely through; they pretend reliability using many footnotes for a public that hasn't the time or resources to check them. (We have had the time and resources; a dissection of one book is on this page.)"

The article titled: "None Dare . . ." Is Called Work of a Propagandist," by John D. Huddy, appeared on the same page, and is nothing more than a series of quotations from the NCCR report.

But it then says:

IF THIS IS AN EXAMPLE OF WHAT THE LANTERN'S "TIME AND RESOURCES" HAVE PRODUCED, IT IS A SAD COMMENTARY ON THE EDITORIAL STAFF.

"We can encourage civic committees, such as Cleveland's Committee for Civic Responsibility, to make non-partisan comments on the fairness and logic of information. The public cannot go 'book burning' but it can demand information on the sources of propaganda."

As for the first part of this statement, this article should clarify the "non-partisan comments on the fairness and logic of information" as set forth by the NCCR:

We agree wholeheartedly that the public can and should "demand information on the sources of propaganda," and THERE- IN LIES THE SECRET OF THE GROWTH OF THE CONSERVATIVE MOVEMENT ACROSS THIS COUNTRY. Many people have decided to check these facts out for themselves. When they do, they find them to be correct.

### Others Duped

The *Lantern* was not the only paper to be "taken" by this fraud. Major newspapers across the country printed articles on it.

One article (from the *Akron Beacon Journal*) was inserted in the *Congressional Record* by Senator Stephen M. Young, and reprints of it were distributed by the Democratic State Committee, during the recent campaign.

### IS IT TRUE?

We in America are taught that most men are honest and God-fearing. When one reads a book such as Stormer's, he can't help but ask, "Is this really happening here?"

Yet one has only to recall past events—for that is what Stormer does. He coordinates the news events (most of which we remember without documentation) and in one panoramic view causes us to realize the pattern which has been established over the past 30 years. As he points out, it makes no difference whether or not these events are the result of a planned conspiracy or a series of blunders, the shocking thing is—IT IS TRUE.

### PLEA TO STUDENTS

We ask the students NOT to take our word for the above items, but to check them yourselves. There are too many groups around like the NCCR willing to "research" and spoon feed us answers. But without people like John D. Huddy and the writer of the *Lantern* editorial column (not to mention the Committee for the Study of Alternatives), who accepted this report and passed it on to their readers without first checking on its accuracy, these groups wouldn't get very far.

HAVE YOU READ *None Dare Call It Treason*? If not, read it. If you don't believe it, don't discount it, try to disprove it!

Then ask yourself, "WHY WAS IT SO IMPORTANT FOR THE NCCR TO TRY TO SMEAR AND THUS DESTROY THE EFFECT OF THIS BOOK?"

### A REMINDER

The international communist conspiracy is exactly that—a CONSPIRACY, no more or less. The only way that a conspiracy can succeed is by remaining secret. The only way that it can be defeated is to expose it.

# Non-Athletes Win in Balance Experiment

By DAVE LAMON

Fifteen Ohio State athletes were defeated by the same number of physical education students in a study testing balance coordination involved in a new skill.

Dr. Robert N. Singer, assistant professor in the Department of Physical Education, conducted the study to see if athletes would perform better in front of a crowd than non-athletes and to determine whether previous experience in performing a skill before an audience would have a positive transfer effect to the experimental skill.

## Balance Selected

The skill selected by Singer was balancing on a board

which was mounted between two supports joined by an axle. The test was divided into two parts.

"For the first part of the experiment, the subject was given ten trials of thirty seconds each, during which he attempted to maintain a balanced position as long and as often as possible," Singer said. The following day each subject was given six more trials, three of which were performed in the presence of spectators.

Balance fluctuations were recorded on graph paper by means of a machine called a kymograph.

In general, the non-athletes' performances were better than that of their var-

sity counterparts both with and without spectators, Singer said.

## Results Surprising

Singer was surprised at the results and took his problem to the Psychology Department.

"It was felt that perhaps athletes are accustomed to performing a skill at which they are proficient before an audience," Singer said. "Since the athlete is used to

doing well before a crowd, a negative effect results when he attempts a skill which is new to him."

Varsity athletes participating in the experiment included Dick Ricketts, Jim Brown, LeRoy Frazier, Craig Mielke, Mike Beery, Les Moes, John Machado, John Durrant and Don Harper.

Perhaps the athletes were conditioned to try harder than the non-athletes, Sing-

er said. "This would have a negative effect on a skill such as balancing."

## Personality Tests

The Psychology Department suggested that Singer give the participants personality tests to see if there are certain personality patterns which are prominent among athletes and do not appear among non-athletes. He is currently administering the Edwards Personal

Preference Inventory.

"I don't claim to be testing the type of balance used in athletics, but I felt the skills would still carry over," Singer said. "Learning of skills, however, seems to be specific to a sport."

The experiment, he said, was designed more for its theoretical value than for any practical applications.

Singer's work is to be submitted for publication in "Research Quarterly."

## Today on Campus

Friday, Dec. 11, 1964

University Theatre, Derby Hall, Rooms 109 and 207, 7-11 p.m.  
Chemistry 404 Staff Meeting, Evans Laboratory, Room 2001, 5-6 p.m.

ALLAN SHERMAN/ARTHUR FIEDLER

The masters of musical satire take an affectionate poke at Prokofiev, Brahms, Beethoven & others

It was bound to happen! The top musical satirists of our time have joined forces in a lively new album that plays fast and loose with the music of the masters. Recorded "live," this high-spirited spoof includes Sherman's hilarious parody of "Peter and the Wolf" (which includes such items as Beethoven's Fifth Cha-Cha-Cha and Aida in Dixieland) plus the fresh and funny "End of a Symphony." And Allen makes his conducting debut here in a slightly swacked rendition of "Variations on How Dry I Am." It's all great fun—as 13,327 listeners who heard these selections in concert can attest. Recorded in Dynagroove sound, it's an album you'll enjoy over and over again.
