

ENTRIES LISTED FOR AG STUDENT ANNUAL CONTEST

Russell C. Beatty Releases Names of Contestants Submitted.

First entries for the Agricultural Student's annual circulation campaign contest were released today by Russell C. Beatty, Ag-2, business manager of the magazine, after a meeting of the new contestants held Tuesday at 8:30 p. m. in the Ohio Union.

The participants in the contest are: Kenneth L. Eby, Robert A. Allen, Charles A. Bratton, Harold M. Miller, Eloise C. Lyman, Frances A. Demorest, Richard G. Anderson, Arthur J. Blackwell, Mary M. Hughes, Donald F. Rehl, James E. Milroy, Stark R. Beard, and Carl Seothorn.

Fraternities represented in the new entries include: Alpha Gamma Rho, Alpha Zeta, Delta Theta Sigma, and Alpha Gamma Sigma.

Cash prizes of \$8 and \$5 will go to the winning individuals. A large silver loving cup will be presented to the fraternity or sorority selling the most subscriptions.

The Agricultural Student staff will hold its next meeting for the benefit of new entries Thursday at 8:30 p. m. in room 14 at the Ohio Union.

Lynch Opponents Seek Support Of Nation's Colleges

League Announces Mass Meeting, Interracial Tour to Wilberforce University.

In an endeavor to create a feeling against mob violence in the United States, the recently formed Anti-Lynching League is sending letters to religious organizations in colleges and universities throughout the state and nation.

The purpose of the organization is stated in the letter as follows:

"We would like to have the cooperation of students on all college and university campuses who believe, as we do, that mob violence is a vicious procedure and should be abolished. Won't you join us in holding mass meetings denouncing lynchings, passing resolutions and writing all congressmen and senators asking that anti-lynching bills be incorporated into the federal laws?" Helen Hoag, secretary, is author of the letter.

The league, a division of the Interracial Council, recently held a mass meeting on the campus to protest the famous Scottsboro decision in Alabama. A mass meeting is scheduled for February 8 and an interracial tour February 12 to Wilberforce University.

The League is contemplating sponsoring similar tours throughout the year in order to better acquaint its members with racial problems, particularly that of the Negro.

Walker to Deliver Initiation Address

Pi Sigma Alpha, honorary political science fraternity, will hold its initiation ceremonies Thursday at 7:30 p. m. at The Village Restaurant.

Professor Harvey Walker, department of political science, will address the members on "English Civil Service." Professor Walker is the national secretary-treasurer of the organization.

A banquet will precede the initiation and all members of the fraternity are invited to attend.

Engineers to Present Papers at Convention

Results of research carried on by members of the Engineering Experiment Station are to be presented at the national convention of the American Ceramic Society, to be held in Cincinnati early in February.

J. O. Everhart, senior research engineer, will present a paper on "Electro-Phoretic Lubrication of Clays," and W. C. Rueckel, junior research engineer, will treat "Physical Properties of Insulating Refractories."

3 Ohio Universities Give Aid In Coast, Geodetic Survey

Three Ohio universities are aiding in what is probably the most complex of all projects set up in this state under the Civil Works Administration, that of local control surveys of the U.S. Coast and Geodetic Survey.

Professor Christopher E. Sherman, department of civil engineering, has been given leave of absence from the campus to organize the work as state representative of the federal bureau. Similarly, several members of the instructional staffs of Case School of Applied Science, Cleveland, and the University of Cincinnati have been given leaves to assist in the work.

State headquarters have been established on the top floor of the Hartman Building, Columbus. Office administration to meet the combined

NORMAN WANTS STATE CONTROL OF BASIC WORKS

Petition Urging Government Ownership Will Be Sent to Roosevelt.

Government ownership of basic industries was advocated by Professor Carl A. Norman, department of mechanical engineering, before the Philosophy of Life Circle at its weekly meeting in the Grand Lounge of Pomerene Hall Tuesday afternoon.

To prove the defects in the present economic system, Professor Norman cited the widespread unemployment, the dangerous and adulterated drugs, foods, and patent medicines now sold, and the wide divergence in standards of living.

That government operation of industry can be efficient, he said, was proved during the World War when the railroads, the steel industry and others were speeded up so that production reached capacity in a short time.

Following the 45-minute talk, Professor Norman answered questions raised by the audience. About thirty members were present.

A lengthy petition to President Roosevelt stating a resolution in favor of government ownership was presented for signatures.

Y.W. Freshman Cabinet To Sponsor Style Show

Freshman Cabinet Number 2 is sponsoring a bridge and style show Saturday from 2 to 5 p. m., at Westminster Hall. Grace L. Teegardin, Ed-1, is in charge of general arrangements.

Tickets are 25 cents and may be obtained from members of the cabinet or at the Y.W.C.A. office. The keepers of this cabinet are Dorothy B. Fernberger, Com-2, and Carol A. Hagaman, Ed-2.

requirements of state and national officials is handled by A. T. Connor, former State Director of Public Works.

"Eventually," Professor Sherman says, "these surveys will reach into every corner of Ohio and every state of the union."

"The project, known in the state CWA files as Federal Project Number 14, is enlisting local leaders for the survey parties in the counties where the work is done, when that is possible."

"Men who have surveying instruments, and who can use them to determine true north lines by observation on the sun or stars, cannot be found in every locality, hence staff officers have to be drawn from the larger cities to take charge in some counties."

The project will require precise level lines to be run in various parts of the state. One such line will run from Columbus north to Lake Erie. Ordinary lines of elevations are easily run, but a precise line like that mentioned must follow, or be adjusted to, an ellipse representing a section of the earth through its poles at sea level, Professor Sherman explains.

Since ordinary leveling instruments will not disclose such differences as enter into the adjustment of the U.S. precise level net, special instruments are being supplied by Case and the University. Basic precise levels are already available in southwestern Ohio, where the work is being handled from the University of Cincinnati.

Monuments being made to mark the survey points will be set so as to answer the double purpose of giving elevations and azimuths, an azimuth being a direction freed from compass errors.

The monuments, Professor Sherman says, are being made locally at each county seat from reinforced concrete precast and hardened before setting. They will be at least 42 inches long so as to extend below frost level and be permanent. Each has an official brass tablet set flush with its top at ground level, and on each tablet its elevation is to be stamped at the close of the survey.

"Although assistants in each county are not all necessary of equal

(Continued on Page Four)

Kent Illustrations Received by Makio

Rockwell Kent's illustrations for the 1934 Makio were received Monday. They include a front illustration and five main division drawings.

The 1934 Makio is to utilize a modern design motif for the front section and main division pages. The general style will be a departure from former Makio members.

Nathan Stern, A-3, editor of the 1934 Makio, speaking of the forthcoming number, said, "I feel that the students want a yearbook that will be effective. Naturally, we are preparing to give them something unusual in yearbooks."

write news and feature stories.

"I didn't know one end of a boat from another and I guess my stories reflected this ignorance. At any rate the city editor immediately fired me. But the editor at once rehired me," boyishly continued the Vice President.

"The editor was conducting an experiment with Roger A. Steffan, now a vice president of the City National Bank in New York, and myself as subjects. He was attempting to learn just what college graduates with training in journalism could do in the field. So I kept my job."

Makes Airplane Trip
Mr. Morrill received his biggest thrill in newspaper work during the summer of 1913.

"I was sent up in an airplane to fly over Lake Erie in search of the missing body of some prominent official."

"Well, airplanes in those days were not so common as they are today. We went up in the only one in northern Ohio. Before we started I turned my watch and other valuables over to a friend on shore. I was taking no chances.

"However, the trip was safely

—Courtesy Columbus Dispatch.

Colonel C. O. Sherrill, vice president of the Kroger Grocery and Baking Company, will address the Commerce Council at 7:30 p. m. today in Commerce Auditorium on the subject, "Economic Distribution." He will be introduced by Dean Walter C. Weidler. The meeting will be presided over by Willard H. Burson, Com-3, president of the Council. Mr. Sherrill is coming to the campus through the efforts of Dr. H. E. Hoagland, faculty adviser of the council.

Club Will Sponsor Joint Barn Dance In Pomerene Hall

Co-eds Ask Members of Men's Division of Physical Education Group to Party.

Members of the men's division of the Physical Education Club are being invited by the girls' division to a Barn Dance Thursday evening in the Pomerene Gymnasium.

American round and square dances, for which a sextet especially skilled in old fashioned music, has been engaged, will be taught during the evening.

Nettie Belle Clayton, Ed-3, is general chairman of arrangements. Her committee chairmen are: Winifred Calloway, Ed-3, music and callers; Marjorie Slagle, Ed-3, refreshments; Virginia Casteel, Ed-3, decorations, and Dorothy Crepps, Ed-3, publicity.

Geneva Jacobs, Ed-3, president of the Women's Physical Education Club, is chairman of the hostess and invitation committee.

Champaign Alumni to Meet

The alumni association of Champaign County will meet February 2, at the Douglas Hotel in Urbana at 6:30 p. m. Mark C. Houston will head the meeting. Dean John F. Cunningham of the College of Agriculture will address the group.

made, but the body could not be found."

During the World War Mr. Morrill was loaned by the Scripps-McRae League to the government. He functioned as executive secretary of the Ohio branch of the Council on National Defense.

After the war he returned to the Cleveland Press. A short time later he was appointed city editor of that paper.

Comes Here in 1919

Coming to the University at the close of 1919 as alumni secretary, he became junior dean of the College of Education in 1928. In 1932 he was appointed to his present position.

"I suppose you might say I followed the direct opposite of that old maxim 'Decide what you want to be, and then be it,'" concluded Mr. Morrill.

Turning to the teaching staff, we find Will Rannels, department of the arts.

Mr. Rannels has always been interested in art—and in dogs, particularly homeless dogs.

When he was very young he attempted illustrations of the Gibson

DEMING OFFERS PLAN TO BETTER POINT AVERAGES

Fraternity Scholarship Heads Told New Idea To Raise Greek Grades.

Willis R. Deming, A-3, explained a new plan for raising fraternity men's grades at a meeting of the scholarship committee Tuesday at 7 p. m. in the Delta Upsilon House. A temporary committee was appointed to discuss the matter with the Council of Junior Deans.

Under the proposed plan the junior deans on the scholarship committee of the council will record the names and grades of all deficient fraternity men and send the scholarship chairman of each fraternity the list in so far as it affects the men in his house.

The temporary committee is composed of Louis F. Gump, A-4; Thomas R. Cowie, L-2, and Robert F. Brown, A-3. It will meet with Junior Deans C. Wells Reeder and William D. Turnbull at 4 p. m. Thursday to further organize the plan.

Fred Strother, assistant to the dean of men, spoke to the chairmen on the declining point average of fraternity members while the University had compiled one of the highest ratios for fraternities among the colleges and universities of the country last year.

He emphasized the importance of grades as the leading reason for members dropping out of fraternities, and deplored the failure of systems which had been given trials in the past.

The chairmen were assured that every effort would be made to have the names of men with marginal grades made available and in the hands of the scholarship chairmen before the mid-quarter marks are issued.

The next meeting of the group is to be held at the Alpha Sigma Phi House Tuesday at 7:15 p. m., when adoption of the plan will be discussed.

Circus to Be Given In Student Center

All international and interracial groups of the campus are being invited to an "International Circus," a party to be given by the Indianapolis Student Center, 82 Sixteenth Avenue, Friday at 8 p. m.

The party is under the direction of William M. Smith, Ag-4, and Paul Mills, Engr-3. It will be given in an effort to bring University students of all nationalities and creeds into a closer relationship through an evening of entertainment and companionship.

Rev. W. Arthur Milne, director, would like an enthusiastic response from all organizations of an international character and extends an invitation to them.

Honorary Initiates Hold Joint Banquet

Geography Instructor Leaves for New Post

Nathaniel C. Burhans, instructor in the department of geography, left Columbus Saturday to begin his work as professor of geography in the Junior College of Burlington, Ia. Burhans is a graduate of Iowa State College and received his M.A. degree at the University of Wisconsin. He spent a year in graduate work at Harvard before receiving his Ph.D. degree in geography last June at the University.

RADIO STUDENTS TO HEAR TALKS, CONCERT TODAY

Professor Weigel Will Direct University Symphony Orchestra.

Demetrio A. Carbaga, graduate student in the department of Romance languages, began today's broadcast of the new Ohio Emergency junior radio college over WOSU by conducting a class in Spanish at 2 p. m.

The Ohio State University Symphony Orchestra, under the direction of Professor Eugene J. Weigel, will be the feature musical presentation on the University Hour at 8 p. m. Bland L. Stradley, University examiner, will speak on admission requirements following the concert.

Professor Allen McManigal, department of engineering drawing, will play the Orton Hall chimes to open the program.

"The Use of Electric Power in Foreign Countries" will be discussed by Professor H. W. Bibber, department of electrical engineering, at 9:15 p. m. Professor Bibber spent four years in Japan as a representative of the General Electric Company, and has traveled widely in other parts of the world studying the use of electric power.

Thursday at 10:15 a. m. Rev. Charles G. Baird, rector of St. Steven's Episcopal Church, will speak to the junior radio audience on the program of the University Religious Council.

Y.W.C.A. Discussion Led By Forrest Shoemaker

A meeting of the Y.W.C.A. Senior Cabinet was held in Pomerene Hall Tuesday evening.

A discussion on "Ways the present economic situation prevents people from living fully," was led by Forrest L. Shoemaker, department of education. The first part of the meeting was given over to reports of work done by the various committees.

"Sometimes, after painting other people's dogs, we have quite a time keeping the dogs in their own homes. They often run away and return to my home. You just treat them right and you will have no trouble," he shyly finished.

Denune Runs Grocery

Professor Perry P. Denune, department of sociology, was once Perry P. Denune, grocery store proprietor.

That was in 1911. But before that he was in the building business with his father, doing carpenter and office work.

He had his first grocery store for two years. Then he decided to enter the ministry. He went to Hiram College, where he was graduated in 1917.

"I was offered three scholarships at the time, but people were in demand for all lines of work. So I took a country pastorate for a time and then tried to enter the army. But I was too late."

He turned to preaching again until, in 1919, he started another grocery store; this time with his

(Continued on Page Four)

DR. VIVA BOOTHE TALKS TO GROUP ON KNOWLEDGE

Professor Graves Lectures To Scholaris, Phi Eta Sigma on Spain.

"The pursuit of knowledge is closely related to the pursuit of happiness," Dr. Viva B. Boothe, Bureau of Business Research, told initiates of Scholaris and Phi Eta Sigma, freshman scholastic honoraries, at a joint banquet held in Pomerene Hall Tuesday.

"College studies contain a great deal of facts to be learned," admitted Dr. Boothe, "but facts are necessary and must be learned first before you can solve your problems and obtain your end."

"It is impossible to think or write about something you know nothing about. Those who are willing to go through a certain amount of drudgery to obtain facts will acquire their ultimate ambitions."

Dr. Boothe discussed the far-reaching changes in the field of economics, the inability of the modern capitalistic machine to solve our present-day problems, and our inadequate method of money distribution.

No Final Solution

"The belief which most students acquire that institutions remain the same for long periods of time is erroneous. Attitudes and institutions are constantly changing," declared Dr. Boothe. "There is no final solution to any of our social problems."

Professor William L. Graves of the department of English also addressed the assembly with a lecture on the adventures he encountered while touring in Spain three years ago. He explained the particulars of a typical bull fight as he witnessed it in Barcelona.

"Football games are driving bull fights out of Spain," stated Professor Graves, "but bull fights are still popular, and having remained a national sport for so many centuries, they will most likely continue in Spain for years to come."

John Prior, A-2, president of Phi Eta Sigma during 1932-1933, was toastmaster. Dean Esther Allen Gaw, adviser to Scholaris, and Dean Joseph A. Park, Phi Eta Sigma adviser, welcomed the neophytes.

Second Annual Banquet

This is the second successive year that these two groups have promoted a joint banquet. The arrangements for the program were planned by a committee consisting of the following students: Marcia E. Fassig, A-2; Roselyn Mathews, Com-2, and Evelyn E. Binegar, Ed-2, of Scholaris; Charles W. Cotterman, A-2; James L. Born, A-2, and Jack A. Benjamin, A-2, of Phi Eta Sigma.

Fifty-six freshman women were initiated by Scholaris Tuesday at 5 p. m. The 72 neophytes of Phi Eta Sigma will be initiated Tuesday at 5 p. m. in Pomerene Hall.

Kenneth M. Landis Gets Y-Council Post

Kenneth M. Landis, Engr-2, won the office of Sergeant of Arms in the Sophomore Y.M.C.A. Council by the flip of a coin. Richard L. Dressel, Ag-2, was the losing candidate.

This method of choice for the office was decided upon after the candidates had tied in two previous elections. The coin was tossed by Howard D. Willits associate secretary of the Y.M.C.A.

Professor Walter L. Dorn of the department of history, spoke on "Religion and Its Relation to History."

Council to Give Report On Curriculum Changes

The faculty of the College of Commerce will meet at 4 p. m. Thursday in room 317, Commerce Building.

The Council on Instruction will report on the revision of the program of the department of geography. A proposed curriculum in public utility management will also be presented.

THE OHIO STATE LANTERN

Established in 1881

Associated Collegiate Press

1933 (National) 1934 (Ohio)

Member of Western Conference Editorial Association
Published daily except Saturday and Sunday during the regular school year by The Ohio State University, under the direction of the School of Journalism.
Combined with the Official Daily Bulletin.
Editorial and other opinions expressed in The Lantern are those of students unless otherwise indicated.
Entered as second-class matter, January 16, 1907, at the postoffice at Columbus, Ohio, under Act of Congress March 3, 1879.
Acceptance for mailing at special rates of postage provided for in section 1103. Act of October 3, 1917, authorized July 10, 1918.

TERMS OF SUBSCRIPTION

Two dollars and fifty cents for autumn, winter, and spring quarters inclusive, on the campus, in the University district, or by mail outside of Columbus. Three dollars and fifty cents by mail in Columbus.

TICKETS FOR JUNIOR PROM

In the adjacent column under the Campus Comment department, Johnny Dods of Bucket and Dipper writes an editorial explaining the honorary's proposed management of ticket distribution for the Junior Prom.

A week ago the junior honorary announced that it would provide a special price of \$2 per ticket to fraternity men if their organizations promised full representation at the dance. In Monday's editorial we attacked this policy as unfair, claiming that some such provision should be made for the unaffiliated men too.

In the accompanying editorial, referred to above, Bucket and Dipper explains through one of its members that provision has been made for the independent dance-goers.

We want to emphasize the fact that the juniors are NOT taking this action because of any suggestion made by the Lantern editorialist or anyone else. They decided to operate under such a plan a week ago but hadn't seen fit to announce it previous to this time. It is unfortunate that poor publicity management has prevented the issuance of the statement until this week, but it is commendable that the Bucket and Dipper officials HAD considered the unaffiliated as well as the fraternity men.

The announcement that special prices will be available for groups of unaffiliated men gives the Junior Prom the final touch of an All-Campus dance that it should have. The cooperative buying plan, as it now stands, is an advisable one and probably one that will set a worthy precedent for future class promenades.

The Lantern pledges every support possible to the Junior Prom.

TRIBUTE

We carry in today's Postman's Pack a tribute to John Younger, "Chief" of the industrial engineers.

An enthusiastic student thanks Professor Younger for being something more than an educator—a human being. There are some Ohio State faculty members who might profit by the example set by the head of the department of industrial engineering.

We know the "Chief" too. That's why we want to add our word of approval to that of the Postman's Pack correspondent.

FENCES

The University's maintenance department has erected fences along some of the Oval walks to keep students off the grass.

It's deplorable that young men and women have to be fenced in; but grass, in view of the recent rainy weather, is easily stamped out by the tramping feet of 8000 students—and a few faculty members.

If fences provide the only way to save the Oval's beauty, we're heartily in favor of them.

COLUMBUS AUTO SHOW

The Columbus Automobile Show is going full blast and people are coming from miles around to see the new 1934 models.

We don't need to tell the engineers to visit the show. They probably will, anyway. But we would like to point out to the rest of the campus populace that it would be to its advantage to look over the latest thing in automotive designing.

The automotive industry is an American institution which belies the theory, preached by many, that America is on the brink of an economic revolution. A glance at these latest products of the industry's engineers is adequate proof that there is much left to do in the United States and a mere depression is not going to hinder the doing of them.

See the auto show. It's worth while.

After several months of bickering and investigating the University of Oregon finally has decided upon a new president for that institution. He is Dr. C. V. Boyer, former dean of the arts college.

Campus Comment

Junior Prom

Fearing that publicity to date regarding the Junior Prom may have caused some students to jump to hasty conclusions, those in charge of the Prom wish to take this opportunity to make it clear that we are absolutely sincere in our purpose to make this a truly ALL-CAMPUS DANCE, with favoritism being shown to none. We realize fully that it is from the non-fraternity students that we should receive our greatest support. We have, however, been attempting to develop our campaign gradually, taking on only what we felt able to handle efficiently. Today the following letter is being distributed as widely as possible throughout the University district:

"Dear Student:

"As you have doubtless already heard, Bucket and Dipper and Chimes are at present doing everything in their power to make the Junior Prom of 1934 what every Junior Prom should be: the best dance of the year. Henry Busse's Orchestra, a really fine band, has been engaged to play, at the Physical Education Building, Wednesday, February 21.

"We realize fully, however, that we cannot make the dance a true success without the support and good-will of the entire student body. Regardless of what you may read or hear to the contrary, we sincerely desire to make this a representative ALL-CAMPUS DANCE to which everyone wants to go, and to which everyone does go. We are planning the dance on a purely non-profit basis for the students of the University, not for ourselves.

"Nevertheless, we cannot go ahead and bring a high-priced orchestra here and decorate the Gym in a really fitting way without previous assurance of student interest and support. For that reason we have appealed to the fraternities, as financially solvent organizations, for support; and for that reason we are now appealing to you:

"ANY GROUPS OF REGISTERED STUDENTS WHO SIGN AN AGREEMENT TO BUY FIFTEEN (15) OR MORE TICKETS and to pay for them by February 10, will be granted the special BLOCK PRICE of \$2 each. Each group must appoint an agent to collect the money and distribute the tickets. The regular advance price will be \$2.50; and the gate price \$3.

"Any member of Bucket and Dipper or Chimes will be glad to assist you in explaining this plan; or you may call FA-8124.

"Sincerely yours,

"Mary Brown,

"William M. Chambers,
Co-Chairmen."

We feel that this plan should appeal especially to students living in apartments or boarding houses; but any group of students with the required initiative may benefit by the plan.

Our problem at present is to assure the University Administration that we have the backing of the student body, in other words, that the students really want to have a Junior Prom and will go to it. We feel sure that they will. And surely the saving of 50 cents, over the advance price of \$2.50, or of a whole dollar over the gate price of \$3, is worth the slight trouble involved.

John B. Dods,
Bucket and Dipper.

Collegiate Corner

By LEE MATHEWS

A survey recently made at the University of Kentucky shows that on the average there is a total of 2,426.5 telephone calls made through the university exchange every day. How many of these calls are made by the lovelorn and how many minutes do the above mentioned spend chatting over the wire, University of Kentucky, we ask you?

Alumni of the University of Michigan who are members of campus fraternities recently went on record as being definitely opposed to any actions by their houses contrary to university regulations. The Alumni Interfraternity Council is backing the movement.

The municipal functions of the city of Akron were placed in the care of University of Akron students recently. From the Akron Buchtelite we learn that the students proved able administrators.

Senior theses at the University of Bolivia are converted into fertilizer and sold to truck farmers at a special discount. Professors please notice.—The Michigan Daily.

MISS ANGELA SCHAEFER WEDS GEORGE KABEALO
Six wedding ceremonies of interest to University students are being announced.

Miss Mary Angela Schaefer became the bride of George Kabealo in a ceremony performed Monday in St. Patrick's Cathedral in Toledo.

The groom is a sophomore in the College of Commerce and a member of the Varsity football team. He will continue his studies at the University.

The bride is the daughter of Mrs. Oraetta Schaefer and plans to continue her work with her mother in the Oraetta Schaefer Real Estate Organization.

WALKER-PRUITT RITES

Miss Elizabeth Walker, instructor in the department of fine arts, exchanged marriage vows with C. C. Pruitt, Jr., Monday evening at 6:30 o'clock in the Indianola M. E. Church, with Dr. Robert Leonard Tucker, pastor of the church, officiating.

The groom is connected with the University branch of the Ohio National Bank. He is a former student here and a member of Lambda Pi Alpha. He is the son of Mr. and Mrs. C. C. Pruitt of Comanche, Okla.

The bride is a graduate of the University and a member of Kappa Alpha Theta. She is the daughter of the late Dr. and Mrs. Charles Walker of Columbus.

The couple were attended at the ceremony by Miss Marguerite Linter and M. A. Corwin. Following the wedding, the bride and groom left for a short wedding trip. Mrs. Pruitt will continue her work at the University upon their return.

Berliner-Schönburg Rites

Miss Ethel Beliner came from her home in Great Neck, Long Island, Tuesday to become the bride of Albert Schönburg, sophomore in the College of Medicine. The ceremony was read by Rabbi Samuel M. Gup at his home, 1695 Franklin Avenue, at 9 o'clock Tuesday evening.

Miss Rowena Edelson, sorority sister of the bride in Phi Sigma Sigma, and Meyer Berliner, brother of the bride, were the only attendants.

Mrs. Schönburg was graduated from the University in June, 1933. The couple will reside at 1620 Neil Avenue.

Shannon-Salsberger Rites

Announcement of the marriage of Miss Virginia Shannon to Harry G. Salsberger is being made by the mother of the bride, Mrs. Laura L. Shannon, 1560 East Broad Street. Salsberger is a junior in the College of Commerce and the son of Mrs. Louise Salsberger, 127 Fourteenth Avenue. The wedding took place January 14 at Covington, Ky.

The bride is a former student at St. Mary's of the Springs, St. Aloysius Academy, and studied voice at Capital University.

The couple will make their home at the Fourteenth Avenue address.

Millison-Kyle Rites

Miss Helen Ann Millison, graduate of the University and a member of Alpha Xi Delta, became the bride of Dr. Donald Francis Kyle in a ceremony performed August 3, 1933, at Wheeling, W. Va. Announcement of the wedding is being made by Mr. and Mrs. Bertley B. Millison, 37 East Lane Avenue, parents of the bride. Rev. Charles H. Robinson, pastor of the United Presbyterian Church, read the ceremony.

The groom, son of Rev. and Mrs. J. H. Kyle of Cedarville, is also a graduate of the University. He is a member of Phi Rho Sigma and is resident physician at the Springfield Hospital, Springfield. Mrs. Kyle has been teaching home economics in the Ripley High School, Ripley.

Plumb-Mayer Rites

The marriage of Miss Bernice E. Plumb and Charles Cushing Bailey Mayer took place Saturday at the home of the bride's mother, Mrs. Samford H. Plumb of North Adams, Mass. Rev. Arthur Murray of the St. John's Episcopal Church officiated.

For the past two years the groom has been studying for a doctor's degree at the University. He is the son of Mr. and Mrs. F. W. Mayer of 1607 Hunter Avenue. He and his bride will make their home in Mamaroneck, N. Y.

Elected to Phi Mu Offices
Misses Jean E. Young and Eleanor J. Lynas were elected second vice president and historian, respectively, of Phi Mu in an election held Monday evening.

The positions had been made vacant by the resignations of Miss Janet Leeder and Mrs. Ayleen Henderson Nicholas.

To Celebrate Founding
The sixty-fourth anniversary of the founding of Kappa Alpha Theta will be celebrated with a formal banquet Saturday at 6:30 o'clock at the University Club. The Alpha Gamma chapter from this University, the Columbus alumnae, and Gamma Duetron and Beta Tau chapters of Ohio Wesleyan and Dennison Universities, respectively, will take part in the celebration.

Chairman of the committee on ar-

cide and spend an hour listening to your advice—then forgetting all my troubles. I want you to feel yourself a big factor in saving my life and helping me to appreciate the finer things.

O, yes—you might say that I was only with you one quarter, but really I mean it sincerely.

If I may, let me digress a moment and compare this life business to a chemical reaction. The constituents or reagents which go in to produce that fine white precipitate which is desired may be compared to your friends, relatives and contacts, and the conditions of temperature and pressure which are necessary to a fine degree to bring it forth are the surroundings. Now, when the right reagents are used and the conditions are perfect, up pops the desired results.

Here's to a good pal, a scholar and an engineer of the finest type.

JULIUS BAKER,

3 Games Tip Off Co-ed I-M League With Huge Scores

When the feminine basketball swung into action Tuesday night there was many a poor hoop net wished its day's work was done. Chalking up some fancy scores in the initial contests of the co-ed intramural competition, the fair sex fairly, or unfairly, sizzled the pill through for many tallies.

The Tuggles rubbed up 33 points to vanquish a gallant but too matchable Aberdites quintet (beg pardon, sextet) which trailed along with 26 tallies.

Next on the program, the Centerites had an easier time in defeating the Buckeyes, 44 to 26. A great game, but the Bucks couldn't take it.

Then came the time for the Grey-stone ladies to strut their stuff with the Westminster lassies, but they were not so adept in manipulating the oval through the hoop. Result: Gray Stone 11, Westminster 9.

These were the first three games played in the girls' I-M basketball loop which boasts a roster of 24 teams entered.

LATE RALLY GIVES Z. B. T. QUINTET CLASS A WIN

IN CO-ED SPORTS

By ROWENA EDELSON

INTER-COLLEGE SWIMMING MEET

It won't be long until we find out just what college in the University has the best swimmers. The Swan Club is sponsoring this meet among the Arts, Commerce, Education, and Agriculture College co-eds.

This is a novel event and it will be interesting to see the results. It doesn't matter whether you are an experienced swimmer or not, as contests will be held for beginners, intermediates, and advanced participants. The beginners' meet will be held on February 13, the intermediates February 14, and the advanced girls complete February 15. They will be held at 7:30 p. m. in the Pomerene pool.

Representatives for the four colleges have been appointed to make all arrangements for the contests. If you would like to enter and defend the honor of your college get your privilege card at the office in Pomerene 201, and then go to room 300 and register. Or you may see your college representative; they are Mary Heath, Agriculture; Janet Miller, Education; Millicent Tracy, Arts, and Mary Helen Voltz, Commerce.

Teams will be selected for each college and they will compete with the other colleges in speed, form, stunt, and obstacle events. Entries must be filed by February 10 and practices will be held during the open hour swimming period at 5 o'clock on Monday, Tuesday, Wednesday, and Thursday. Each division meet counts equally for the total score of the college, so if you are just a beginning swimmer your score will help just as much.

BASKETBALL ENTRIES

Twenty-four co-ed basketball teams have tossed their hats into the ring and we are all waiting for the bell tonight when Kappa Kappa Gamma and Mack Hall start after the first scalp.

The teams have been holding practice sessions and tonight we will see the first results of them. Six games are scheduled for this evening and it will give a hint as to the ability of the teams. Oxley Hall and Sigma Delta Tau will be the second groups to battle for honors. Alpha Phi and Kappa Delta meet at 7:30, and then Tri-Delt and Chi Omega start trying for the basket. The last two games will be between Zeta Tau Alpha and Alpha Xi Delta, and Delta Zeta and Pi Beta Phi.

The twenty-four teams have been divided into five groups. Each group will have a sorority and independent winner who will play an elimination tournament to determine the championships.

The games are scheduled for four nights a week up through February 13. The week of February 19 the elimination tournament of the groups will be held to determine the winners in the sorority and independent entries.

We haven't gotten in on any of the practice sessions, but all rumors point to big competition this year. There is an unusual amount of enthusiasm and the elimination will come only after some long hard battles up there in that Pomerene gymnasium.

IN CASE YOU DON'T KNOW

Maybe we have said this before, but we give fair warning to everyone. If you drop around to Pomerene and intend to have a quiet, peaceful evening watching the co-ed play basketball, don't come. The games are far from slow; they're fast, and the excitement won't do you any good if you have a mid-term to look forward to. The rules this year have been changed a great deal and it takes ability and speed to get around that floor. If you like to get excited come up.

THE TELEGRAPHIC MEET

The co-eds here will really have a chance to test their swimming ability when they compete in that intercollegiate telegraphic swimming meet that Illinois is sponsoring. We have received an invitation to compete in the central division of it, and all University women are urged to try out if they are interested in speed swimming.

Entries must be filed by this Friday at the intramural office in Pomerene. Six events are offered, each girl being allowed to enter three of them. Fifteen will be selected for a team following the practice sessions, which will be held during the open hours and special times. Each girl must have at least eight prac-

Phi Sig Court Men Drop I-M Cage Tilt

Zebes Take 19-15 Decision After Trailing 11-1 at Half; Alpha Gamma Rho Five Blanks Phi Beta Delta Quint.

By MANNIE EISNER

Exhibiting a complete reversal of form in the second half, a Zeta Beta Tau quintet overcame the 11-1 advantage held by the Phi Sigma Deltas at the intermission and outscored the Phi Sigs 18-4 in the closing period to win, going away, 19-15.

The grudge battle was the only Class A tilt on Tuesday night's intramural cage card.

Trailing 11-1 at the midway mark the Zebes opened up a belated second half attack led by Benjamin and Benis to upset the Phi Sig charges.

Buckets by Benjamin, Benis and Goldman brought the winners within a brace of points of the leading Phi Sigs before Stern split the meshes with a backhand toss that carried plenty of prayer with it.

Benjamin High

From this stage in the battle it was all Z.B.T. Benjamin with 11 tallies, 10 of which were scored in the big closing period and Benis with a brace of buckets and charity tosses were the big guns in the Zebe attack.

Stern's trio of first half double deckers topped the Phi Sig scoring column.

One of the rare occurrences of I-M basketball, a shutout went on record Tuesday night as the Alpha Gamma Rho outfit blanked the Phi B.D.'s 24-0 in their Class B tussle.

Lead 10-0

The winners held a 10-0 margin at the half and added an additional 14 tallies in the closing stanza to round out the scoring for the fray.

With Eaton scoring all of his team's points, the Omega Tau Sigma five hung up an 8-3 decision at the expense of the Delta Chis.

The aforementioned cager found the hoops for a trio of two-pointers and a brace of markers from the free stripe.

Unable to stop Sucker Low, erstwhile Buckeye cager, the Pi Kappa Alpha B aggregation dropped a 28-9 decision to Tau Kappa Epsilon bucketeers.

Low on Parade

Low, until recently a member of the Ohio State five, hit the meshes for six tosses from the court and an additional pair from the foul line to take individual honors.

Enjoying a 13-0 lead at the half-way mark, the S.A.E.'s coasted through the remainder of their affair with the Alpha Psis to win 18-9.

Fortney with 10 markers led the winners with Elmer looking best for the beaten Alpha Psi quintet.

Hillel Cops

A Student Center five threw a big scare into the Hillel camp in a Church league affair, but the latter quintet managed to weather the storm and emerge with a close 14-13 win.

The Hillel outfit which went to the semi-final round last year was on the short end of a 9-7 count at the close of the initial period, but seven points by Ackerman and Blum in the second half were good enough to produce the victory.

Boling and Miller with six and four markers respectively, were the big guns in the losers' attack.

With Traul and Haubrick pacing the Alpha Kappa Kappa quintet, the A.K.K.'s dropped the Phi Chi five 17-9 in a Medical flight tussle.

Phi D.E.'s Lose, 22-12

The remaining Med battles gave the Theta Kappa Psi a 24-8 win over the Phi D.E.'s and the A.M.P.O. quint a 22-12 decision over the Alpha Psis.

Other results: Sigma Phi Epsilon 20, Kappa Sigma 11; Xi Psi Phi 9, Gamma Alpha 6; Phi Delta Chi 30, Alpha Omega 7; Phi Kappa 15, Sigma Phi Epsilon 8; Northminster 30, St. Stephen 9; Delta Sigma Pi 28, Alpha Gamma Sigma 5.

Forfeits: Alpha Gamma Rho won

tices before she is eligible for the team.

The meet will be held during the first week in March and Ohio State should be able to show some nice scores.

DO YOU LIKE PING-PONG?

Yes, so do we, and we are going to try badminton and deck tennis at the informal tournament February 1 at Pomerene. Imagine your embarrassment if you can't play those games. Everybody's doing it, and you can't learn how through a correspondence course. Your entries can be made for either singles or doubles.

Williams, Gutter Take Wrestling Honors; Boxers Take Rest, Ready for Fite Nite

Officials Gather Wits For Final Spree in Pugilistic Circle.

By JERRY BRONDFIELD

It was boxer's holiday at the Gym Tuesday, and it was up to the tug and hug entries down on the wrestling mat to furnish the fans with their daily excitement—if such condition really exists. The I-M officials decided to go pacifist for 24 hours and give the pugs a chance to gain an extra ounce of wind and take on a little more moral support before entering the quarterfinals, which are now to be in progress.

The I-M officials also found it wise to collect their scattered thoughts, go into a huddle, and come out of it fully prepared to run off the rest of the grand slam tourney without a hitch. For 'twill hardly be a week before the finalists climb into the squared arena for the annual Fite Nite hostilities.

With the big climax scheduled for either January or February, Intraday however to resume the wars.

Now that the tournament has begun to narrow down to the quarterfinals, it will not be necessary to stage fights every day. In fact it should hardly take more than four days to run off the remaining prelims to decide who shall pull on the mitts Fite Nite.

At this writing the heavyweight division is still very, very thinly populated and if there are two entries, one of them is unknown to the writer. Due to the scarcity of num-

bers in this weight, it is permissible for anyone to go down to the Gym, mural Director Wood went over his plans carefully. The pairings for today's bouts have been made, and among those who will do battle will be Dave Stone, last year's 175-pound, Class A champ. Stone will either fight Jim Voglesang or Jim Baird. Either way the scrap should be fast and hard.

Rest Thursday

It was announced also that there will be another truce on Thursday, with the battlers returning the next put on the gloves and come out from his corner fighting.

Familiar Faces

Among the familiar faces who should reach the finals, according to their performances thus far, are Don O'Donnell, scrappy 126-pounder; Dave Stone, at 175 pounds; Tommy Alban, 160-pound mauler, and Bill Brown, 135-pound battler. These men all fought in the final last year. Stone and Alban are defending champs. Brown and O'Donnell were runners-up in their weights but are firm in the belief that they will do better than second best in the present campaign.

So far the fans have been well pleased by the work of Spike Surging, referee, and Roy Hussey and Skipper Hertzberg, the two judges. All three men are well up on their ring lore and are capable officials. Not one decision has been even mildly protested by the spectators, which fact proves their fitness for the jobs.

So an orchid to the officials—another to the I-M department—and a whole bouquet to the battlers in the ring, win, lose, or draw.

Ball Budget Brightens

Bucks Draw More Customers Than 1932-1933 Conference Champions.

The attendance revival that gladdened the hearts of athletic officials, and replenished the sadly depleted coffers of athletic departments this fall is continuing on into the basketball season—at least in the Western Conference.

Figures to date from Big Ten schools reveal that about 25 per cent more people have seen Conference and preliminary games this season than for the same period last year.

Even the Bucks, with a basketball squad that does not measure up to the championship five of 1932-1933 in drawing power, has felt the influence of the revival.

Wesleyan Draws

At the opening game with Ohio Wesleyan last season, 3112 attended the contest at the Coliseum; when the Bucks opened against the Bishops again this year, 5077 spectators were present.

The holiday attraction last year, Notre Dame at the Coliseum drew 3138; this year Princeton drew 3841.

No game was played last year by the Bucks to compare to the Western Ontario fray at which 3896 clicked through the turnstiles.

Averaging the total attendance for the three preliminary games this season, 12,814, it was found that the

average per game was 1000 more than that for the two contests last year.

Attendance figures for Conference games at home this season as compared with those of last year indicate that the Bucks did not draw as well after the season got under way as they did in the preliminary games.

5370 See Hoosiers

At the opening Conference game against Indiana in the 1932-1933 season, 5370 spectators saw the Bucks start the season with a victory. This year 5572 witnessed the Scarlet and Gray squad go down to defeat before Northwestern on the Coliseum floor.

Approximately fourteen hundred more spectators saw Ohio play its second home game last year, as only 4238 saw the Indiana-Ohio game this season, while 5699 clicked through the turnstiles at the Gopher-Ohio game last season.

Despite the drop in attendance at the first two home games, it is thought, as a result of the Bucks' victories over both Indiana and Minnesota, that the turnstiles will click more freely when the Scarlet squad returns from its jaunt to Evanston, and resumes hostilities on its home floor.

Stahl Begins Circuit Worries Already

Although Coach Floyd Stahl will not issue the official call for Varsity baseball material for about five weeks, the midget mentor is going steadily forward with his plans of bettering the poor showing his pupils made last season.

Nightly a corps of battery men have been loosening up the old soubones so they will be ready to cut loose when the Buck sluggers step to the rubber to take their practice swings.

An advance guard of infielders and outfielders, not to let the hurlers get ahead of them, have been regularly practicing their hitting in the batting cage under the Stadium.

Faces Problem

This year Stahl is faced with the two-fold problem of developing a competent pitching staff, the weak spot of the 1933 squad, and replacing Sid Hale and Roger Sharp, who received their sheepskins last June.

Hale was the regular third sacker and the team's leading hitter last year. He also was recipient of the Potter Run Maker's Trophy, awarded each season to the Scarlet baseballer who accounts for the most composite runs. Sharp captained the 1933 team and was a backstop.

Returning veterans in chucking department include Bob Blue, Marve Ulrich, Ansel Estell, and Ken Wil-Rams. These lads all serve them up

from the right side and do their clouting in the orthodox manner. Of the group Williams saw the most service on the mound.

Laybourne May Talk

Bruce Laybourne, a southpaw who worked some at first base last spring, will probably become a twirling candidate this year.

For the catching assignment Stahl will have Hen Larsen and Marty Rubin from last season. Rubin hits right handed, while Larsen is a left-hander.

At first base two veterans will be back. They are Johnny McAfee and Howard Sperry. Of the duo McAfee, a right handed hitter with a left handed throwing arm, is the more experienced. A change in batting style, from right to left, may make Sperry a valuable hand to have around. It is quite likely that he will be shifted to the outer gardens before the season is very old.

Alex Clowson is back for the key-stone job, as is Co-captain Steve Lewis at shortstop. Both men peg with the right flipper, while Clowson clubs from the left side.

Long for Third

A two-year man, Don Long, is making a serious bid to take over the vacated hot corner. Long was on the Varsity for two seasons before dropping out from curricular ills last spring.

Fred Dausch and Elmer Bayer, both right handers, are also in the running for an infield post.

In the fly-chasing division three men who have spent considerable time in that capacity will be vying for the honor of doing so again. At the head of the list is Bobby Colburn, co-captain along with Lewis. Colburn bats and throws normally. Stan Prosenjak, who clouts and pegs a left southpaw, and Marty Vidis, the other two. Vidis, who also has captured the Potter award, was absent from last year's club.

A couple of past season's freshman stars, Red Cook and Len Faurot, can be counted on to make their presence felt.

It is still too early in the season to do any prophesying as to the fortunes of the Scarlet outfit, but Stahl men feel confident that they will desert their second division berth of last year before the season's finale.

Brown Hall Gets Floor

An oak floor is being installed on the first floor of Brown Hall to replace the magnacite one which has been there for eight years.

Wrestlers Go 2 Overtime Periods to Decide Winner Of Classic Match.

By MAURY GOLDSTEIN

Honors for Tuesday's wrestling program go to Bruce Williams, Kappa Phi Kappa, and Marv Gutter, Hiller, who battled each other the full time of eight minutes in their match, and then fought it out overtime for two two-minute periods. Williams took the decision finally, having a time advantage of but a few seconds on Gutter.

The lads seemed to respect each other's ability, for they were very cautious during the first two minutes. At the end of that time, since neither one had any advantage, they were stopped for a short rest, and then were permitted to wrestle for two three-minute periods.

Referee Ernest Renner tossed a coin to decide which man should stay on deck during the first of the two stanzas. Williams won the toss. They put most of their power into it during this frame, but they were fairly even when it ended.

During the second stanza Gutter had a little advantage over Williams but it was hard to designate either one as the winner. The men were then permitted to wrestle overtime, and finally Williams won out. Neither man could stand up when it was all over. They were in 155 B.

John Kleinhans, that scarlet-topped brute from Pi Kappa Alpha, remained in the running for the heavyweight title by eking out a win from Dale Carmine, A. T. O. Kleinhans employed a flying tackle and flying butt, plus plenty of brute strength, to take it.

It didn't look good for Kleinhans during most of the match. In fact it seemed as though he might be pinned any minute. He bridged twice to keep his shoulders off the carpet. But he was too strong, for Carmine, and at 7:15 it was curtains for the lad from Alpha Tau Omega.

That retired Varsity aspirant, Les Collet of the Grappling Collet Brothers, took a tussle in 135 A from Lenny Liff, Phi Sigma Delta. Lenny put up a good scrap, but he was no match for Collet. At 2:30 Collet had Liff helpless against the mat.

The next affair, in Class A at 145 pounds, had George Sting, Phi Epsilon Kappa, and Willard Workman, independent, in the ring. Workman injured his nose and the match was stopped. Since he was unable to continue, and since the match was very close, Workman will be permitted to wrestle Wednesday. Sting was given a bye.

Georgie Steinemann, Theta Kappa Phi, put away Herb Cohen, Phi Sigma Delta, in short order. At the sound of the gong it was 1:53. They tangled at 165 in Class B.

Messrs. Allen, Green, Coun, Jones, Lower, and Auger forfeited to the following gentlemen, respectively: Rae, Colville, Meredith, Hoewischer, Goldstein, and Goldberg. More forgetful wrestlers.

The last paragraph of this is devoted to brethren Torrance and Worstell. The two were paired to wrestle on Tuesday's card, but neither of them showed up. Consequently both were eliminated from the tourney. Just think, brethren, had either one of you appeared, he would have been awarded a win without the necessity of his having wrestled! Whose face is red now?

Michigan Will Hold Indoor Track Meet

ANN ARBOR, Mich., January 24 (Special)—Track fans of Michigan and those who have been only lukewarm toward the sport because they believed it did not provide enough mass competition, will be given a new deal in the 1934 Michigan A.A. U. Indoor Meet, to be put on here Saturday night, February 3.

The program will be pretty largely a relay carnival, 11 mile relays having been arranged by Lloyd W. Olds, chairman of the track and field committee and track coach at Michigan Normal College.

A special relay in which Michigan, Ohio State and Illinois will participate, will be an added feature.

In addition to the relays, eight open events are planned, in which entrants will compete as individuals. These will be the 60-yard dash, 65-yard high and 65-yard low hurdles, mile run, two-mile run, pole vault, high jump and shot put.

Snyder Warns For Michigan

"Four Men Under 52", Runners Are Told; Arnold Works on Odd Distances.

"Michigan has four men under 52"! This is the warning Larry Snyder hurls at his tracksters as they open their fourth week training.

Time trials at Ohio State are over odd distances so comparisons are difficult, but two weeks hence the mile relay team will encounter this quartet of Wolverines.

George Arnold has been doing some hard work in the quarter-mile event. He turned in a 30.9 on the 300-yard route and also ran 1000 yards to prove conclusively that he likes the odd distances.

Bill Bloor, one of the co-captains, is working out regularly and will be counted on to push the best of them. Merlin Willey and Cliff Smith are training together with Willey a bit to the front.

Johnny Moore continues to bid at all distances and is showing well on the 440, although he spent his fall season on four-mile races. Walt Stapf is not working so hard, being hampered by a bad knee, but if all goes well he will be a contender.

Dominic Renda and Wells Wilson are the leading contenders of the soph group, but Snyder's early statement that the team will depend on veterans seems well founded.

Our "Wonsoneeze", as the downtown papers have it, continues to show good form. As a leader Wonso is a pip. He is doing his bit to develop Ohio State a high jumper, and seems to be capable of doing 6 feet when he hits top form.

George Neal is coming to the front in the shot put. Snyder has him trying to nick his ear with the weight as he pushes it away. If George can master the form which will enable him to get his entire 220 pounds behind it, his record of 47 feet 2 inches for the University will be doomed to fall. George is 15 pounds heavier this year.

George expects to get some stiff competition from Joe Schwartz, a stocky sophomore who did 46 feet last season and is approaching that mark at this early date.

Snyder's principle worry is the broad jump. In this event he has no outstanding individual. Don Cook, the sophomore hurdling star, may get a fling at this before the season is over.

WOSU Program

Today

8 p. m.—University Hour: Chimes, Professor Allen McManigal. Admission Requirements, Bland L. Stradley, University examiner, Symphony Orchestra, Professor Eugene J. Weigel, director.

9 p. m.—Heart Diseases, Dr. George I. Nelson, department of medicine.

9:15 p. m.—The Use of Electric Power in Foreign Countries, Professor H. W. Bibber.

9:30 p. m.—Melody Cruise, Dorothy Stevens Humphreys, director.

10 p. m.—Frew Mohr, organist.

10:30 p. m.—Fiddlers' Green.

Thursday

9 a. m.—Morning melodies.

9:30 a. m.—Ohio Emergency Junior Radio College: English, Professor Robert S. Newdick.

10 a. m.—Public Health, Dr. R. W. DeCrow.

10:15 a. m.—University Religious Council, Rev. Charles G. Baird, St. Stevens Episcopal Church.

10:30 a. m.—Ohio Emergency Junior Radio College: French lesson, Professor Robert Fourie.

10:55 a. m.—Livestock market reports.

1 p. m.—Noon livestock market reports.

1:15 p. m.—Ohio Emergency Junior Radio College: Social Science, Professor E. A. Helms.

1:45 p. m.—Frew Mohr, organist.

2 p. m.—Ohio Emergency Junior Radio College: Spanish lesson, Demetrio Cabarga.

2:55 p. m.—Grain, seed, poultry, butter, and egg markets.

The government's effort to obtain overdue income taxes has induced delinquents to turn in about \$50,000,000, it is estimated.

Chorines Think State Would Be "Lots of Fun"

Chi Phi went into the show business Tuesday evening when six chorus girls from the Olsen and Johnson show, "Take A Chance," invaded the chapter house for a brief chat and a dinner with the student inhabitants.

After attempts to secure Olsen and Johnson in person for the past four days, the fraternity telegraphed Ollie Monday night at a downtown theater and asked that he and five of the girls come out for the dinner meal.

Olsen answered that he was too busy with radio and other work, but arranged for the girls to partake of an Ohio State University meal.

"If we came to school here, could we stay at the Chi Phi House," the girls asked their hosts. They received an affirmative answer from all sides. "Gee, we would like to come to school here. You must have lots of fun," they continued.

Last fall when Olsen and Johnson were in Columbus, the Chi Phi lads entertained Olsen with a special box at a football game and a dinner in his honor later at the chapter house.

3 OHIO UNIVERSITIES GIVE AID IN COAST, GEODETIC SURVEY

(Continued from Page One)

skill, wherever possible they are being selected on the basis of their training in surveying so as to help later on the taping of what are called transit traverse lines.

"This involves measuring each line with a standardized steel tape, whose temperature and slope is to be taken for each tape length as applied to the ground with a measured pull varying with the amount of the tape supported. Finally, all distances are to be reduced to sea level," Professor Sherman says.

"An immense amount of computing will ensue if the whole state is covered, because the geographic co-ordinates of all points are to be calculated—that is, the latitude and longitude of each monument is to be figured out to a hundredth of a second. Some five thousand monuments will be set.

"Land-line disputes can be settled all over the state, by reference to those monuments. They will also furnish permanent accurate elevations for all public improvements. The work of the U.S. Coast and Geodetic Survey is the most accurate in the country and is used as basic by all national bureaus, as well as by states and lesser communities wherever the monuments are available. The C. G. S. is the supreme court for surveys in the United States."

SURVEY SHOWS VICE PRESIDENT, 3 PROFESSORS HAVE INTERESTING PASTS

(Continued from Page One)

younger brother as a partner.

"We really had long hours in those days. I always worked 24 hours on Saturdays," mused the professor.

Interested in People

"The people always interested me. I remember one lady, the wife of the wealthiest man in our community. She certainly believed in ordering in small quantities.

"Once she ordered 3 cents worth of boiled ham. At the time boiled ham was selling at 50 cents a pound. Another time she telephoned an order for a nickel's worth of thread. And she wanted it delivered. Can you beat it?

"However, she never failed to pay her bills," he grinned.

Upon the advice of his mother, Professor Denuene left his grocery store to become a teacher.

"I had only three hours of sociology while in college. But I had read widely on the subject, and had become very much interested in it. "I took my graduate work here and have been here ever since," concluded Professor Denuene.

Short, dark, quiet Professor Harold W. Bibber, department of electrical engineering, was graduated from the Massachusetts Institute of Technology in 1920.

Instructor in France

He became an exchange instructor in electrical engineering to be Ecole Centrale des Arts et Manufactures in Paris. Then followed several years in which he did teaching and commercial work.

In 1923 he was in Japan working for the International General Electric Company.

"I never had the trouble that most newcomers to the Orient do," said Professor Bibber. "I was generally accompanied by someone who knew the language, so I had no trouble in getting a ham sandwich if I wanted one, instead of something entirely different."

Professor Bibber says he very soon learned that in Japan a train

OFFICIAL BULLETIN

THE OHIO STATE UNIVERSITY

Vol. XIV WEDNESDAY, JANUARY 24, 1934 No. 70

THIS BULLETIN will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for meetings. In the interest of efficiency and to avoid conflicts the following announcement is made: No meetings or functions of any sort will be permitted or provided for either on the campus or in the University Buildings unless authorized and announced in this Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the President's Office not later than noon for the day following and noon Friday for Monday's Bulletin.

BULLETIN NOTICES

University organizations and others concerned are requested to avoid duplication of notices concerning campus meetings and other events in the Official Daily Bulletin and the Lantern. The Bulletin is designed for official notices and announcements.

The Lantern will carry the news of such events but it cannot repeat notices already published in or appearing simultaneously in the Bulletin.

Notices and news concerning activities sponsored by or occurring at the University will, of course, be given preference in both mediums.

FACULTY RETREAT

Faculty members of the Advisory Board of the University Y. M. C. A. are sponsoring a retreat to be held Saturday, January 27, from 10:30 a. m. to 2:30 p. m. at the Episcopal Parish House at Worthington.

The subject of the discussion will be "Character Building—How Much of It Can the Teacher Do?" Professor H. Dwight Smith will lead the morning discussion and Dr. E. D. Soper of Ohio Wesleyan that of the afternoon.

The sole cost will be the luncheon, which will be 40 cents. Members of the teaching staff are cordially invited to attend and may make reservation through the Y. M. C. A. office or any member of the Advisory Board.

F. C. CALDWELL,
O. G. BRIM,
B. L. STRADLEY,
HARLAN G. METCALF,
J. A. PARK,
Committee.

NOTICE

The following letter from Erdis G. Robinson, chairman, Franklin County chapter, American Red Cross, has been received in the President's office and is being printed as information for anyone who is interested:

To Faculty Members:
We cordially invite you to attend our annual meeting, which will be held January 25 at the Y. W. C. A. at 6 p. m. The dinner will be 50 cents.

An interesting and enjoyable program has been planned, including a "First Aid Demonstration" by Dr. Drew Davies and the Columbus Fire Department. Your membership in our organization has been deeply appreciated, and we should like to have you hear what your support has enabled us to do during the past year.

We shall be happy to have you at our meeting and any guests whom you may wish to bring.

Sincerely yours,
ERDIS G. ROBINSON,
Chairman.

COLLOQUIUM

Karl R. Spangenberg will be the speaker for the electrical engineering colloquium at 4 p. m. Thursday in room 272, Robinson Laboratory. The subject for discussion will be "Some Graphical Methods for the Analysis of Alternating Current Networks." All interested are invited to attend.

PI SIGMA ALPHA

The initiation banquet of Pi Sigma Alpha, honorary fraternity in political science, will be held at 7:30 p. m. Thursday at The Village. State Senator D. J. Gunset of Van Wert will speak on his experiences in the State Legislature.

MODERN BANKING

G. Hill of the University Branch, Ohio National Bank, will address industrial engineering students and others interested on the above subject at 9 a. m. Friday in room 222, Industrial Engineering Building.

ticket is something to keep in one's possession.

Purchasing the ticket for his first unaccompanied train trip, he was required to show it to guards before he could get on the station platform.

"After I had boarded the train, the conductor came around and punched the ticket. Although I thought I was through with it, I put the ticket in one of my pockets.

"It was lucky for me I did, too. For when I left the train I found I was required to show the ticket once more."

Professor Bibber liked his association with the Japanese.

"Some day I hope to return to that country," he says.

WANT ADS

Flat rate per word two cents, 10% discount for three or more consecutive insertions. The Lantern does not carry advertisements of rooms for undergraduates. All room advertisements are for men students unless otherwise stated.

UNiversity 3148 Sta. 522

STUDENTS' LAUNDRY — Work guaranteed. Fa. 4849.

268 W. Woodruff—Room and board for one \$20; for two \$18.

BEXLEY ROOM—Will exchange rent for light car. Fa. 2220.

19 15TH—Double room, twin beds; furnace and gas heat. Reasonable.

TWO LARGE connecting rooms for two boys. 149 E. Frambes.

UNIVERSITY ACTIVITIES

Wednesday, January 24

University Grange, rooms 204 and 206, Horticulture and Forestry Building, 7:30 to 11 p. m.
Strollers, Chapel, Campbell Hall Auditorium, and rooms 107 and 108, Derby Hall, 7 to 10:30 p. m.

Commerce Council lecture, Commerce Auditorium, 7:30 p. m.

University Chorus, Ohio Union, 7 to 9 p. m.

Delta Omicron, Music Building, 5 p. m.

Faculty meeting, University High School, room 210, 7:30 to 9:30 p. m.

Scabbard and Blade, Armory, 5 p. m.

Pershing Rifles, Armory, 7:30 p. m.

Pi Tau Pi Sigma, room 301, Armory, 7:30 p. m.

Commercial teacher training group, room 110, Education Building, 7 to 9 p. m.

Advanced social dancing class, room 309, Pomerene Hall, 8:30 to 9:30 p. m.

Advanced tap dancing class, room 309, Pomerene Hall, 7 to 7:30 p. m.

Beginning social dancing class, room 309, Pomerene Hall, 7:30 to 8:30 p. m.

History group, room 307, Pomerene Hall, 8 to 9:30 p. m.

Vocational Information Conference committee, room 307, Pomerene Hall, 4 to 5 p. m.

W. C. A. Appreciation Hour, room 306, Pomerene Hall, 4 to 5 p. m.

Kappa Kappa Psi, room 101, Derby Hall, 7:30 to 9:30 p. m.

Thursday, January 25

Student Branch, A. S. A. E., Ives Hall, 7:30 p. m.

Faculty Show, rehearsal, Chapel, 7 to 10:30 p. m.

Strollers, rooms 100, 105, 107, and 108, Derby Hall, 7 to 10:30 p. m.

Men's Glee Club, Ohio Union, 4 to 5:30 p. m.

Women's Glee Club, WOSU studio, 4 to 5:30 p. m.

University Chorus (special section), Music Building, 12 to 1 p. m.

Phi Epsilon Phi, room 110, Botany and Zoology Building, 7:30 to 9 p. m.

Physical Education Club, Gymnasium, Pomerene Hall, 7:30 to 10 p. m.

Veterinary College students, minstrel show rehearsal, room 206, Horticulture and Forestry Building, 7 to 10 p. m.

Hillel Players, room 101, Derby Hall, 7 to 10:30 p. m.

Forum, room 309, Pomerene Hall, 7:30 to 9:30 p. m.

Home Economics Club, room 306, Pomerene Hall, 7:30 to 9:30 p. m.

Philosophy Club, room 307, Pomerene Hall, 7:30 to 9:30 p. m.

Pomerene Open House committee, room 307, Pomerene Hall, 4 to 5:15 p. m.

Spanish Club, room 213, Pomerene Hall, 7:30 to 10 p. m.

Y. W. C. A. Sophomore Council, room 306, Pomerene Hall, 4 to 5 p. m.

Friday, January 26

Faculty Show, rehearsal, Chapel, 7 to 10:30 p. m.

Strollers, rooms 100, 105, 107, and 108, Derby Hall, 7 to 10:30 p. m.

Boy Scouts, Gymnasium, University High School, 7 to 9:30 p. m.

Hillel Players, room 101, Derby Hall, 7 to 10:30 p. m.

Graduate Club, rooms 213 and 215, Pomerene Hall, 8:30 to 11:30 p. m.

International Club, room 306, Pomerene Hall, 8 to 10 p. m.

LECTURES SPONSORED BY THE GRADUATE SCHOOL

The Graduate School announces a series of lectures on the general subject of the New Deal. These lectures will be given by distinguished scholars associated with the administration of affairs in Washington.

The first of these will be given Friday, January 26, at 4 p. m. in University Hall Chapel by William Morris Leiserson on the subject "Labor Under the New Deal." Dr. Leiserson is the well known authority on labor problems and at present is chairman of the petroleum labor policy board in Washington. These lectures are open without charge to the members of the faculties and students of the University, as well as to the general public.

EXCUSED FROM CLASS ATTENDANCE

The following members of the S. A. E. Student Branch are excused from classes Monday to Thursday to attend the National S. A. E. meeting at Detroit:

Fletcher G. Bennett, Edward W. Cordell, Howard S. Davies, Denton D. Eyster, Roderick A. Frankenberg, Alan G. Loofbourrow, Charles J. Manney, Kenneth R. Merch, Robert G. Kilgore. J. A. PARK, Dean of Men.

GRADUATE SCHOOL

The Graduate Council has a limited sum of money for the purchase of books and journals of special use to graduate students. Departments wishing to submit requests for purchases from this fund should send the same to the office of the Graduate School at as early a date as possible.

PRE-DENTAL STUDENTS

Changes in the schedule hours have been arranged for the spring quarter whereby conflicts between Anatomy 407 and Physiology 419 are avoided. Students having conflicts on Tuesday and Thursday at 11 o'clock may make up their laboratory work in anatomy on Saturday morning.

CHEMISTRY 402-412

First Midquarter Examination To be held Wednesday, January 24, 5 to 6 p. m., in the following rooms: Chemistry 100, 154, 161, 301, 302; C-A 100, 301; Derby 100, 108; Mendenhall Laboratory 200; Botany and Zoology 100; and Horticulture and Forestry 206.

COMMITTEE ON HONORARY DEGREES

The University committee on honorary degrees will accept from the colleges and from individuals suggestions as to candidates for honorary degrees to be conferred at the June commencement.

COMMERCE COUNCIL LECTURE

Colonel C. O. Sherrill, vice president of the Kroger Grocery and Baking Company, Cincinnati, and former city manager of Cincinnati, will speak in the Commerce Auditorium at 7:30 p. m. Wednesday. Colonel Sherrill has chosen for his subject, "Economic Distribution—The Essentials to Maintain a Balance Between Production and Consumption." This is the second of a series of lectures sponsored by the Commerce Council.

DEAN OF WOMEN'S ANNOUNCEMENT

Women students who wish to attend the President's Birthday Ball on Tuesday, January 30, may count it as a mid-week. They will be expected to return to their homes by 1:30. The head resident should make a note on the sign out sheet of those who have been given this special permission.

NOTICE

In cooperation with the Student Senate, Long's Book Store now cashes checks for students only upon identification by the Official Student Senate IDENTIFICATION CARDS.

Our policy of extra favors will be maintained and our desire to help students cash checks easily will continue, but proper identification and
