

PUBLICITY MEN FROM 7 STATES TO GATHER HERE

College News Bureau Directors Meet in Columbus
Friday, Saturday.

College news bureau directors of seven states will meet in Columbus Friday and Saturday for a district convention of the American College Publicity Association.

The district includes Ohio, Kentucky, Indiana, Illinois, Wisconsin, Michigan, West Virginia, and also a part of Canada. Arrangements for the local meetings have been made by Harold K. Schellenger, director of the News Bureau, who is the association's district director.

The first session in the Deshler-Wallick Friday afternoon will include talks by Joseph Wright, University of Illinois; H. A. McNitt, Cleveland, and Russell Alexander, DePauw University.

Speakers for the Friday night banquet at the Deshler-Wallick are Dr. W. H. Cowley of the Bureau of Educational Research, and T. T. Frankenberg, Columbus. Frankenberg was founder of the national association and its first president.

Saturday sessions will take place in the Faculty Club. Morning speakers are Vice President J. L. Morrill, Robert A. Graham, Westminster College; Frank R. Elliott, Indiana University, and Elmer G. Sulzer, University of Kentucky.

President Rightmire will speak at the noon luncheon. In the afternoon talks will be given by John P. DeCamp, University of Cincinnati; M. M. Carrothers, state editor of the Columbus Dispatch, and James Renick of the Associated Press.

Fraternity Placed Under Quarantine For Scarlet Fever

3 Members in Sigma Nu House.
2 Cases Reported to Student Medical Service.

The Sigma Nu House was placed under a scarlet fever quarantine Saturday.

Only three members of the fraternity were in the house at the time, all other members being away for the week-end. They were advised by medical authorities to remain away from the house until the quarantine is lifted.

Two cases of the disease have been reported to the Student Medical Service during the past week. A total of nine cases has been recorded this quarter.

University physicians feel that there is no cause for alarm. No other fraternity houses are quarantined at the present.

Ceramists Attend Cincinnati Meeting

Faculty members and students from the department of ceramic engineering and the Engineering Experiment Station left this morning to attend the American Ceramic convention at Cincinnati.

The meeting will convene today and continue through Thursday. Papers are to be presented by research workers from all parts of the country.

Professor George A. Bole, George A. Loomis, J. Otis Everhart, Myril C. Shaw, Walter C. Rueckel are attending from the Engineering Experiment Station. Mr. Everhart and Mr. Rueckel are presenting papers to the convention.

H. Dwight Smith Chosen Faculty Club President

Howard Dwight Smith, University architect, was elected president of the Faculty Club at the annual election held on the campus Friday.

Other officers elected were: Harold G. Olsen, assistant athletic director, vice president; Spurgeon Bell, director of the Bureau of Business Research, secretary-treasurer, and Hoyt L. Sherman of the department of fine arts, treasurer.

Sixto E. Ludena, Engineer, Relates Experiences in Canadian Gold Field

Squirming uncomfortably in his straight-backed chair, Sixto E. Ludena, '31 slowly repeated everything he said, painstakingly penned his name so there could be no mistake, smiled patiently at the questions he was asked.

Stocky, dark-eyed, dark-skinned Ludena is an engineer.

He has worked for the Lake Shore Mines in Canada since he was graduated from the University in mine engineering.

To Return to Peru
"I am returning to Peru, my native country, where I will have a better position. I stopped in Columbus to visit my friends at the University."

His white smile gleamed. "Mind

12 Students Fined By Student Court At Friday Session

Absentee-Violator Assessed \$5
As Campaign Against Non-Appearance Begins.

Twelve were fined, two were dismissed, and two were warned in the Friday session of Student Court.

The campaign against violator-absentees was continued when Louis J. Rotman, Engr-3, received an assessment of \$5.

Betty P. Kern, Ag-2, was fined \$3, while Walter C. Speiser, Com-4, Neil S. Statler, Com-1, Kenneth F. Watson, Ed-4, and Clarence A. Woodhouse, Vet-Med-3, were named to pay \$2 each.

Those assessed fines of \$1 each were: Richard A. Bratton, Ag-1; Margaret J. Cashatt, A-2; John B. Lisle, Com-1; William B. McCoy, Com-4; Ernest J. Roush, Ed-2, and LaVerne B. Solsberry, A-2.

The cases of Benjamin F. Corbin, Vet-3, and Virgil M. Fogle, Com-2, were dismissed without fines, and Irving H. Barnett, Dent-3, and Sally J. Sachett, Ed-1, were warned against further violations of traffic regulations.

Honorary Inducts New Members At Fort Hayes Hotel

Professor Dreese Gives Address
At Initiation Banquet of Engineering Society.

Three students, and a professor were initiated into Eta Kappa Nu, electrical engineering society, at Hotel Fort Hayes Saturday evening.

Professor Erwin E. Dreese, department of electrical engineering, became the first honorary member of the Gamma Chapter of Eta Kappa Nu. Arthur J. Wilde, Engr-3, Roger C. Hill, Engr-3, and Clarence M. Foraker, Engr-3, were the student initiates.

Professor Dreese, following the fraternity custom of having the honorary initiate speak at the initiation banquet, discussed the "Engineering Curriculum."

Dean Embury A. Hitchcock, College of Engineering, was toastmaster. About forty-five faculty members of the College of Engineering accepted invitations to the banquet.

Dormitories Hold Annual Reception

The annual faculty reception given by Oxley, Mack, and Neil Hall dormitories was held Saturday evening at Neil Hall.

Several hundred guests were entertained by competitive plays presented by the three halls. Neil Hall won the competition and was presented with a silver cup.

After the plays tea was served by faculty members and the wives of faculty members.

Banker Will Broadcast "A New Bank for Cooperatives"

The subject of an address to be given by L. G. Hobson of the Federal Land Bank, Louisville, Kentucky, on the Farm Night program over WOSU at 8:15 p. m. today.

the cold? You forget I have been in Canada. There it gets real cold. Once it was 52 degrees below zero. One of my ears froze that time." He rubbed his ear. "That was rather unpleasant."

"At first all of my work for the Great Shore Mines, the largest gold producer in the Western Hemisphere, had to do with underground mining operations. I became assistant engineer and assistant geologist."

Steps on Spike
"Accidents? I was fortunate in that respect. I had only one. That time I stepped on a six-inch spike. It went clear through my foot."

"That was rather unpleasant, too," he added as he gazed at his foot. "But it is all right now."

He arose. "I must leave you now. I am going to talk to some of the boys." He strode from the room, seeming a little glad that that was finished.

His talk on methods of operation used by the Lake Shore Mines was given before members of the Prospectors' Club, an organization of mine engineering students, Friday in Lord Hall.

Scholaris Aids Radio Station By Interviews

"Radio stations connected with educational institutions often find it difficult to measure the effectiveness of their broadcasting," says Frederick H. Lumley of the radio division of the Bureau of Educational Research.

WOSU received the help of Scholaris, freshman honorary, in the personal interview method, the survey being begun in December and completed recently. Members of the organization interviewed 119 people in Columbus and recorded the data for a radio bulletin now available in Mr. Lumley's office at the station.

Eighty-eight per cent of the people interviewed by Scholaris members listened to WOSU, 5 per cent did not listen to that station, and 7 per cent did not have radios in their homes.

Listeners were asked to name programs which they had heard and were also shown a list of selected programs and requested to point out additional ones which they remembered hearing.

Statistics were taken on the number of times the listeners heard the station during the week and what were their favorite programs. The football broadcasts received the highest number of votes of the 16 listed programs.

2 Speakers to Address Y. M. Fireside Session

Professor Homer C. Hockett, department of history, and Dean Joseph A. Park, will speak Wednesday at 7:30 p. m., when two fraternities hold Fireside Sessions sponsored by the Y. M. C. A.

Professor Hockett will speak at the Phi Delta Theta House on "The College Man and His Social Outlook." Dean Park will speak on "The Fraternity of the Future" at the Pi Kappa Alpha House.

'Not for Us,' Laugh Collegians, Co-eds When Queried on 'Dime a Date' System

Modern co-eds can supplant the night club hostess' cry of "10 cents a dance" with "10 cents a date" if the proposed plan now under consideration by a Student Senate committee receives favorable action.

But possibility of campus romances blossoming forth under the plan appeared weak today as students of both sexes voiced their opinions against "a commercialization of romance."

"This plunk down your dime and pick out your girl idea doesn't register with me," said John L. Lannan, Engr-4. "I like to see the girl I'm taking out. No pictures for me."

Fee Card Needed
Although it might be a good plan for freshmen with no fraternity or sorority affiliations, I personally be-

lieve the suggestion is rather stupid," said Doris Daenitz, Ed-3.

One student, who confessed absolute ignorance of the proposed date bureau, wanted to know if a fee card would have to be shown at the door of the collegian's prospective love.

His attitude bears out the contention of Josephine (Jo) Gitter, Engr-4. "It would be a good plan for out-of-town freshmen, but the derision of other students would have the effect of scaring even lone-

"HAY FEVER" SCENE

—Courtesy the Columbus Journal-Dispatch.

From left to right: Esther F. Levinson, A-3; Jerome L. Schwartz, A-1, and Goldie Dworkin, A-Ed-3, rehearse for the Hillel Play.

Dress Rehearsals For Hillel Comedy Will Start Today

"Hay Fever" Will Be Presented
in University Chapel Thursday and Saturday.

Dress rehearsals of Noel Coward's comedy, "Hay Fever" start at 7:30 p. m. this evening at University Hall Chapel.

This production will be given by Hillel Players, Thursday and Saturday evenings, in the chapel.

Abraham Blinick, Ed-3, is organizing an orchestra to furnish the music the nights of the play.

Members of the group are: Leonard I. Schiff, Edward Katz, Anne Cadkin, H. Evans, Donald Dietrich, Irving Bursky, Asher Gordon, Wilbert Gordon, Edward Wolfson, Frank Albanese, Selma Mervis, Harry Stull, and Dorothy Garver.

100 Disappointed; Find Graves' Talk Given Last Week

A secretary's mistake. Or were you there?

If you were one of the 100 persons who braved the icy blasts of Friday evening to hear Professor William L. Graves of the department of English, deliver a public lecture in the Commerce Auditorium and discovered it had been propounded the previous week, would you not raise a bit of a kick?

Should the blame be placed on Professor Robert S. Newdick, also of the department of English, or on William A. (Billy) Ireland's secretary.

The cause of the trouble was this: Mr. Ireland's secretary mistook Professor Newdick's "2" for a "9" and the error was published in Mr. Ireland's "Passing Show," in the Sunday Dispatch, February 4.

Sun Dial Sponsors Drawing Contest For March Cover

Ruth Knoderer, Typical Co-ed,
Will Act as Model for Artists—\$10 Prize Offered.

Students enrolled in the department of fine arts have been given an opportunity to win \$10 in art materials as the result of a contest announced by the Sun Dial.

The prize will be awarded for the best illustration for a story, "Typical Co-ed" to be published in the March 8 issue of the magazine.

Ruth Knoderer, Com-1, who won the recent Sun Dial Typical Freshman Co-ed contest will serve as model for the artists in a sketch session arranged for Tuesday afternoon.

Any student taking arts courses is eligible to compete. Drawings may be in any black and white medium. Entries will be judged on suitability for reproduction, artistic merit, and resemblance to Miss Knoderer.

Judges for the contest are Professor James R. Hopkins, and Dudley Fisher of the department of fine arts, and Howard R. Smith, editor of the Sun Dial. All entries must be in by February 21.

County Agents Discuss Corn and Hog Reduction

County agricultural agents met in Campbell Hall Friday to discuss the corn hog reduction program.

This is the fourth meeting of its kind which has been called by Dillon S. Meyer, state agricultural adjustment agent. The purpose of the meeting was to answer questions and to discuss the corn hog reduction program. Similar meetings are being held this week at Bowling Green and at Tiffin.

Trustees Approve Federal Student Aid

The Board of Trustees authorized President Rightmire to seek aid from the Federal Emergency Relief Administration at a meeting this morning. Approval was given by the Board to the administration's request for \$67,950 for student part-time jobs.

The F.E.R.A. student aid administration made up of members of the faculty and the administration met this afternoon to make working plans.

COURSE TO DEAL WITH PHASES OF DAIRY INDUSTRY

5-Day School Will Be Held
in Room 200, Townshend Hall Starting Today.

Phases of the dairy industry will be discussed in a short course in dairy technology starting today on the campus.

The five-day school will be held in room 200, Townshend Hall, with a registration fee of \$3, according to Professor Robert B. Stoltz, chairman of the department of dairy technology. The course is arranged for practical plant men and others interested.

In addition to speakers from the campus, the "faculty" will include 11 other men, most of them from the dairy industries.

In the group are: W. C. Boyer, Meyer Dairy Products Company; W. O. Frohning, S. M. A. Corporation, Cleveland; D. S. Kochheiser, Irvin Krill, Furnas Ice Cream Company; W. E. Krauss and T. S. Sutton, Ohio Experiment Station, Wooster.

L. E. Mindling, Tellings Company; F. L. Shoenberger, Ohio Dairy Products Association; H. M. Sommer, University of Wisconsin; G. M. Trout, Michigan State College, and Leo F. Ey, State Board of Health.

University faculty members participating in the instruction are Emory F. Almy, Louis H. Burgwald, John H. Erb, Charles W. Foulk, Frank V. Lee, Lewis L. Little, John F. Lyman, Ruloff J. May, Charles G. McBride, Perry W. Meridith, Schuyler M. Salisbury, Robert B. Stoltz, Harry H. Weiser, V. R. Wertz, and Paul A. Young.

Decision Awarded To Negative Team In Debate Friday

Mechanical Engineers Uphold
Independent Ownership and Control of Railroads.

"The chief advantage of government ownership can be brought about by consolidation," the mechanical engineers maintained when they defeated the industrial engineers in a debate at the Communication Laboratory Auditorium Friday.

The victors upheld the negative of the question "Resolved, That the Government Own and Control All Railroads."

"Our government would be undertaking too great a financial project in taking over the railroads. Such a venture would greatly complicate the Civil Service by adding to it," the negative held. "Because labor unions can not bargain with the government, the government would not be able to cooperate with labor the way the railroads are now doing."

The industrial engineers, the affirmative, argued that the present ills in the railroad industry could be cured by government ownership. The government could act as a centralized board of control they claimed.

John F. Cunningham, Jr., Engr-3, and Joseph R. Swartz, Engr-4, composed the negative squad. Hiram W. Linton, Engr-3, Lewis H. Mussman, Engr-3, and Elmer White, Engr-3, made up the affirmative team. Robert B. Beetham, Engr-4, was chairman. C. Emory Glander, debating team coach, Edison L. Bowers, and Richardson H. Rowntree, both of the department of economics were the judges.

18 MEN NAMED TO MEMBERSHIP BY TAU BETA PI

National Engineering Honorary Selects 17 Juniors,
One Senior Today.

Seventeen juniors and a senior have been named to Tau Beta Pi, national engineering honorary fraternity, president C. Addison Hempstead, Grad, announced today.

Lawrence A. Bedford, John E. Chubb, John F. Cunningham, Jr., Gordon E. DeHond, Edward P. Gillett, Elmer E. Goehring, Charles C. Griffith, Walter V. Hobbs, Howard M. Jones, Marren E. Jones.

Harold C. Klassen, James A. Lucas, Edward F. Schuster, Linton E. Simerl, Jack C. Smith, William P. Ward, and John W. Wiseman are the junior pledges. Stanley W. Snyder is the senior.

Junior initiates are selected from the upper eighth of their class while the seniors are selected from the upper fourth of their class.

The Gamma Chapter of the "Engineers' Phi Beta Kappa" as Tau Beta Pi is referred to, is one of the leading chapters in the country. Professor Percy W. Ott, department of industrial engineering is the national president.

Professor Franklin W. Marquis, department of mechanical engineering is national vice president, and Professor William T. Magruder, professor emeritus of the department of mechanical engineering, is the national executive councillor.

Initiation will be held March 3 at the Neil House.

Alpha Gamma Rho Wins Ag Student Subscription Cup

Arthur J. Blackwell Named Individual Winner in Magazine Circulation Contest.

Alpha Gamma Rho is the winner of this year's annual circulation campaign contest sponsored by the Agricultural Student magazine after having obtained 48 points.

The fraternity will be presented with a silver loving cup.

Arthur J. Blackwell, Ag-1, secured 42 points and has been named the winning individual contestant. Kenneth L. Eby, Ag-2, was runner-up, with 30 points, taking second prize. They will receive cash prizes of \$8 and \$5, respectively.

The contest was launched January 24 and closed Saturday at 5:30 p. m. It was based on a point system and included yearly subscriptions sold during Farmers' Week.

A silver loving cup and the cash prizes will be presented to the winners at a banquet to be given by the Agricultural Student February 22, stated Russell C. Beatty, Ag-2, business manager of the magazine.

Secretary to Give Talk on Campus

Miss Anne Wiggin, executive secretary of the International Student Committee, will spend today and Tuesday on the campus.

This committee was formerly connected with the Y. W. C. A., and although it is now a separate organization, the two keep in close association.

On Tuesday at 4 p. m. she will speak to the Senior Cabinet of Y. W. C. A. The P.O.L.O. committee has been invited to this meeting. She will be the speaker at the Appreciation Hour on Wednesday at 4 p. m. Besides these meetings much of her time will be taken up with interviewing foreign students in the University.

Miss Callahan to Speak On Farm Night Program

Edna M. Callahan of the School of Home Economics and Harry E. Eswine of the department of agricultural extension will speak tonight from station WOSU on the Farm Night program.

Miss Callahan will conduct "The Homemakers' Question Box" at 9 p. m. Mr. Eswine will talk on "Ohio Lakes and Lake Beds" at 9:35 p. m.

THE OHIO STATE LANTERN

Established in 1881

Associated Collegiate Press

1933 (NATIONAL ASSOCIATION OF STUDENT PRESS) 1934

Member of Western Conference Editorial Association

Published daily except Saturday and Sunday during the regular school year by The Ohio State University, under the direction of the School of Journalism.

Combined with the Official Daily Bulletin.

Editorial and other opinions expressed in The Lantern are those of students unless otherwise indicated.

Entered as second-class matter, January 16, 1907, at the postoffice at Columbus, Ohio, under Act of Congress March 3, 1879.

Acceptance for mailing at special rates of postage provided for in section 1103, Act of October 3, 1917, authorized July 10, 1918.

TERMS OF SUBSCRIPTION

Two dollars and fifty cents for autumn, winter, and spring quarters inclusive, on the campus, in the University district, or by mail outside of Columbus. Three dollars and fifty cents by mail in Columbus.

UGLY MAN

Abraham Lincoln was born 125 years ago today—born to face hardship, defeat, and short-lived victory.

Soon after he raised his calloused hand to take the oath of office, fable tells us, a friend referred to him, jocularly, as the "Ugly President."

Lincoln, some historians tell us, was self-conscious about his angular frame and irregular features. It is said that he grew a beard on someone's suggestion that it would aid his personal appearance.

At any rate, his ugliness didn't keep him from getting the presidency. It did not keep him from wielding the gavel of office as he had wielded the ax in his younger days—truly, courageously, efficiently.

It didn't keep him from administering wisely to a nation sore with civil strife nor did it hinder his great humane acts in breaking the shackles of slavery.

Ugliness didn't keep him from smiling, from being optimistic nor did it weaken him in his will to make the South and the North one nation with one purpose—happiness for its people.

Ugly man? Beautiful, we'd say.

GLEANINGS

Most pre-examination cramming is done for the sake of the difference between a "B" and a "C".

We don't know about other ecological areas, but "just below 'C' level" at Ohio State is darned unhealthy as climates go.

Someone has been "pulling wires" on the campus, if one may judge from the appearance of the Oval fences.

It seems a shame that a man with the advertising ability of Howard Smithhisler should be an editor.

It is said that a member of the athletic department once told a high school football star to come to Ohio State and he'd get his name chiseled on the Stadium. As we understand it, he wouldn't accept the proposition until it was amended to read: "Name, address, and telephone number."

A University student wants to start a dating bureau—charging a 10 cent service charge. His plan was presented to the Ohio Union Board and ultimately came before the Student Senate.

Senator Gushman said: "Let's drop it—it isn't worth a dime."

Senator Park stated: "Realizing Senator Gushman doesn't need the service which the bureau might afford..."

President Mary Ellen Funk appointed a committee to investigate the "dating bureau."

As Senator Joe Park pointed out, this dating bureau idea might not be a bad one. There are many socially suppressed students. If they were provided with dates to take to the Junior Prom, think of the resultant leap in ticket sales.

Did Senator Gushman, old Bucket and Dipper, think of that?

"Laboratory for Leadership," new politician-grooming school you've heard about, wants to know Ohio State's feeling on the benefits that might be derived from education in public life.

A senate committee has been appointed to consider the matter. When one looks about and sees some of the incompetent men who hold public office today, one hardly need "investigate" to see the advisability of subscribing the University's support to the movement.

If it goes into effect, students of outstanding ability will be chosen from universities and colleges all over the nation and given an opportunity to study in Washington for three

months—with equivalent credit granted by his or her school.

If the new school intends to include a course in "Political Grafting," we hope it will be so taught that the students will use some finesse in the art, should they ever be enabled to utilize it.

Grafting wouldn't be so bad if it weren't so obviously forced down our throats.

The creation of a Prom Sinking Fund, acted upon at the last senate meeting, strikes us as being an advisable action. We hope it won't lead to the very possible evil of incurring expenses beyond reason—just to attain "name" bands for the dances.

This athletic council committee of the senate isn't just an ordinary body politic; its members have some ideas and they are enthusiastic in their efforts to promulgate them.

One of the best proposals they have made, we believe, is that anent meeting the new football coach. They hope that the next football mentor will march into Columbus with the music of bands playing and be met by a string of cheering Ohio State students. We're for that idea. It's the only basis upon which to start anew.

Moral: Don't Ask

It would seem that the quickest way to find yourself in the hands of the law is to ask for a raise in pay. That is if we are to believe newspaper reports of the lettuce pickers' strike in the Imperial valley.

News stories from Brawley said that 1500 lettuce pickers were meeting in a hail last Friday night to discuss their strike, which had been called because the growers had refused their demand that they be paid 35 cents an hour instead of the present rate of 22½ cents. A morning paper said that police charged the meeting, using tear gas bombs to break it up, but an afternoon paper said that the strikers produced tear gas bombs from somewhere and charged the police.

It is more reasonable to believe that the police rather than the strikers were in possession of the bombs. Tear gas is hard to obtain, but all police forces have supplies of it. Because the afternoon dispatch gave no reason for the strikers attacking the police, it is highly probable that the morning paper was correct.

But disregarding the contradictions as to details in the newspapers, two facts are apparent. The strikers were evidently acting within their rights in asking 35 cents an hour. Twenty-two and one-half cents is beastly small wages, even for picking lettuce.

The other thing that stands out is that the police were not acting within theirs in breaking up the meeting. The people, assuming the strikers to be people, have a constitutional right to assemble, even though it be for the purpose of asking more wages.

The recent strikes in the food industries have been blamed on the Communists. Doubtless the agitators are responsible, but if the milkers and the lettuce and fruit pickers were receiving fair compensation for their services, all of the exhortations of the Communists would fall on deaf ears.

—The Daily Trojan.

Collegiate Corner

By LEE MATHEWS

Twelve co-eds at Oberlin College were forced to leave their dormitory last week when a fire broke out within the house. Most of the students suspended study for the evening to watch what they thought might be a "real" fire. They were disappointed as the blaze was only a small one.

By a rather round about route we learn that the officials at De Pauw have petitioned the United States government to withdraw the R.O.T.C. unit from their campus at the end of this year.

At a recent Whitewater, Wisconsin, State Teachers College dramatic performance, the leading man, failing to appear on time, rushed down the center aisle long after the opening curtain.

Fire in Spruce Cottage, a dormitory at Antioch College, caused the complete loss of the building valued at \$6500. The dorm was inhabited by 13 co-eds. In telling about the fire The Antiochian carries the following sub-head:

Students Give a Total
Of \$318 to Co-eds
Who Lost Everything.

Here's the lower deck of a headline that appeared in The Daily Tar Heel, student paper of the University of North Carolina: Prosecution Poops Up.

The only complete case of disarmament we've noticed so far in Europe is the Venus de Milo.—The Sou'Wester.

Bicycling is the latest week-end sport for traveling collegians at the Santa Ana, California, Junior College.

WASHINGTON
FROM HEREBy
MARTIN R. MILLER

Henry Ford, the steel industry, and the utilities have a strange ally in their opposition to the NRA.

Sodium lactates, the "fatigue toxins" (as discussed by Donald A. Laird in "Shorter Hours—Bigger Output," New Republic for February 7), seem to be offering at least passive resistance to recovery.

As the name indicates, the "fatigue toxins" make workers tired. For a certain length of time a worker can maintain efficiency. He can produce even more in this time than he could if he worked for a longer time at a slower rate.

The codes limited the workers' hours and their efficiency has increased. The result tends to defeat the re-employment principle of the NRA.

This notion about optimum hours had been preached to employers for years, but they turned deaf ears. Only under compulsion of the NRA have workers' hours been reduced. And now that this has been achieved, the situation is made more difficult rather than simpler.

It is tragic and ironical that the sodium lactates were actually sheep in wolves' clothing from a humanitarian viewpoint in pre-depression days. In fact they still are. But the peculiar emergency features of present economic conditions now make the sodium lactates wolves in sheep's clothing, at least as far as the NRA is concerned.

Paul Y. Anderson, writing in the Nation for February 7, adds something to Senator Nye's run in with General Johnson, which was mentioned here a week or two ago.

Anderson says that Senator Nye has learned since that "attacks on the NRA are bad political medicine, especially when they conflict with all the known facts." Evidence that the Senator took some "bad political medicine" is indicated by the fact that "literally thousands of letters are pouring into Washington from persons stating that they have canceled their subscriptions to the Chicago Tribune because of its scurrilous attacks on the NRA."

Whereas, Senator Nye has come down from his perch and admitted that he was hasty in condemning Johnson, Senator Borah, who denounces the NRA as sheltering monopolies, remains one of the most potent objectors.

The New Republic for February 7 reports that Johnson's brusque treatment of complaining Senators is fostering more opposition in the Senate. And that the Senate, which feels that its vanity is being scoffed at, may eventually force Johnson to resign.

Although opinions vary as to whether business is improving because of or in spite of the government, one thing is certain, the wholesale commodity price index is higher than it has been since May, 1931. This index is considered to be one of the most dependable barometers of business activity.

Anderson predicts the passage of the Tugwell-Copeland Pure Food and Drug Bill. And further that Roosevelt will create the position of Under Secretary of Agriculture for Tugwell to reward him for his work on the bill.

A report by Controller of the Currency O'Connor should do much toward renewing the public's shaken confidence in banks.

A little less than a year ago 1446 national banks, with total deposits of \$2,000,000,000, were not permitted to reopen after the emergency closing of all banks. By January 25 all but 376 of these had been reopened, and 298 of these had plans for reopening approved.

The temporary plan, due to expire July 1, which insures deposits up to \$2500 in member banks of the Federal Reserve System, would be made permanent if the New York State Chamber of Commerce and the American Bankers Association had their way.

They point out that the plan covers 90 per cent of all commercial bank accounts, providing complete insurance for the great mass of small depositors.

They believe that the permanent plan which is to supersede the temporary one might lead to reckless banking, because it would insure in full all deposits up to \$10,000, 75 per cent of those between \$10,000 and \$50,000, and 50 per cent of those over this sum.

Harvard University is already making plans for the celebration of its three hundredth birthday in 1936. Its faculty now numbers 1692, its student body, 8000, and its endowment \$126,000,000.

ARCHITECTS PLAN ANNUAL BEAUX ARTS BALL

The annual Beaux Arts Ball of the Architects Club of the University will be held February 17 at the Brookside Country Club. The prize of \$5 and a ticket to the dance, offered for the best decoration plans, was won by Milton G. Banning, Engr-4.

Curtiss Inscho, Engr-3, general chairman for the ball, will be costumed as Marco Polo, Venetian mariner of the early thirteenth century. David W. Edwards, president of the club, will be dressed in the Oriental garb of Kubla Kahn, close friend and patron of the explorer during his 25-year stay in the East.

Early reservations on the patron list for the ball announced recently are Professors Charles St. John Chubb, Galen F. Oman, H. Dwight Smith, Wilbert C. Ronan, Herbert Baumer, Richard S. Buck, Jr., Joseph N. Bradford, G. Leslie Lynch, Charles R. Sutton, Erwin C. Zepp, Miss Carol Fisher, Felix Payant, Will Rannels, line G. Bradley, E. F. Frey, Ralph Harold Mitts, Ralph C. Kempton, Fanning, Hoyt Sherman, Dudley and C. L. Inscho.

The onslaught of new fashions is making me fairly dizzy and I'm being almost swept off my feet by the new wind-blown fashion details, more of which are discovered every day.

Schiaparelli herself has been swept along by this new trend and to the extent that her early wind-blown creation, "Stormy Weather," a coat with a high up-standing, winged collar, with flares to the front, giving the front fullness and forward feeling, has now developed to the "Typhoon" stage. This is effected by wind-blown drapes both in front and in back, and is conceived for evening in fish and bird outlines.

There is no doubt that you must be smart this spring and one can hardly help oneself with all the fresh and sparkling ornaments that help so much. If you would wear something that would make you particularly smart, look for the collar, cuff, and belt sets of mesh on Morehouse-Martens first floor. They're of gold and silver mesh, all or any of them would, indeed, live and set off an untrimmed frock.

Look too at JANE WOODWARD'S new outfit of bright blue boucle—that material which is ever popular and smart. Hers is two-piece and has a square neck, with small collar trim and two small pockets within the embroidery of the yoke. You'll find the pastel boucles one of melon color and another of soft blue,

particularly, almost make your mouth water. They come with a draw string neck—with tassels at the end of the string as well as at the end of the corded tie belt.

A suit that you won't want to miss is one of shrimp color, whose coat is fashioned like that of a Russian Cossack. Its high collar fits close to the neck and is trimmed in cart-ridge-like pleating. This pleating is found also around the wide bottoms of the sleeves. The waistline is fitted and large wooden buttons fasten the coat at the side front.

No one would be more chic than BARBARA McCAMPBELL, in the smart brimmed chartruse hat found in Morehouse-Martens millinery shop. The only trimming is the stitching of the brim and the edge of the crown, finished off with three small buckles in the front over the eye. When you see them, you'll want one of the fashionable mannish brimmed hats with the creased crowns. One in yellow with a brown ribbon band is very much like any man's hat but is still very feminine.

If you're looking for something new for the Junior Prom, you'll find most desirable two models, one pink, another blue. They're of soft chiffon which Mainboucher in Paris says is the new trend in evening frocks. The neck line is soft in front and low and square in back. The ruching over the shoulders and at the knee around the skirt is not of organdie as it might have been last season, but of taffeta with shaggy edges.

You'll find more and more blue as you look for your spring fashions. Trimming details include ribbons and many day-time frocks are of the combination of printed and monotone crepe. The two-piece dresses are of more and more importance and feathers are trimming both dresses and hats.

More "Notes" on Wednesday.

NEW
HOT
CHOCOLATE

Moore's & Ross New Hot Chocolate, latest addition to the long line of Moore's & Ross dairy products, is finding favor with Ohio State University students, just as with men, women, and children all over Columbus, according to Frank R. Moore, milk sales manager for the company.

"Students are finding this new chocolate drink just the thing to pep them up at night while they're studying," says Moore.

There are many features to this new drink, according to Moore, among which is that it is made of genuine chocolate in Moore's & Ross' own laboratory by Dr. R. J. Carver, director of production, after months of experimentation.

It is totally unlike any other chocolate drink, being creamier and with a fine, firm texture. Another reason why it's so popular is because it comes all prepared. If you like hot chocolate, you simply heat it and serve, while it's equally delicious cold.

It's mighty economical, too, Moore points out, inasmuch as it costs but ten cents a quart and is sufficient to serve six persons.

Moore's & Ross New Hot Chocolate is available from grocers, Moore's & Ross milk men and at soda fountains, where Moore's & Ross products are dispensed.

FRATERNITY ORDERS
OUR SPECIALTYQUALITY COAL
AND COKE

Stew Collins '29, is manager of Columbus' Collins Coal Co., which furnishes fuel to about thirty-five fraternity houses through the Fraternity Managers' Association.

Tom Collins, president of the organization, has been in the coal business for 30 years. During those years of experience, he has gathered valuable knowledge concerning the types and application of bituminous fuels.

He sells Sunday Creek (from number 16 Hocking Seam) to the fraternities, recommending it because of its cleanly qualities and economy.

Ajax Lump, a genuine West Virginia "Dorothy" coal is recommended especially for domestic use—and therefore marketed particularly among the faculty members.

Ajax Lump, is highly volatile and possesses low ash qualities. It has the exceptionally small ash content of 3.86 per cent. Manager Stew Collins points out that Ajax not only burns cleanly, but raises no dust in storing.

Because of its high B.T.U. content, Ajax requires little attention and permits a minimum of attention in keeping the combustion unit cleaned out.

It saves steps, too. Because of its thorough burning qualities, there is no necessity for continual stoking of the furnace or stove. Even after it has burned down considerably, it still affords uniform heat. It leaves no bothersome clinkers to stop up the ash dispensing system.

Mothers' Club Meets

The Pi Beta Phi Mothers' Club met at luncheon today at the home of Mrs. Danforth Ball, 251 South Dawson Avenue. Professor Earl W. Wiley of the English department spoke on "Lincoln."

Assisting hostesses were Mrs. Harry S. Baker, Mrs. E. M. Schoenborn, Mrs. E. F. Fassig, Mrs. L. W. Henderschott, Mrs. Fred Postle, Mrs. F. W. Paddock, and Mrs. George W. LeSar.

Marriage Announced

Mr. and Mrs. Willard E. Davis announce the marriage of their daughter, Gertrude Elizabeth '31, to Chester H. Hersey. The ceremony was read Saturday evening at the home of the bride's parents by Rev. Alton Lowe of the Delaware Methodist Episcopal Church.

Miss Martha Danniell was the bride's only attendant, and Paul

BUCKS LOSE; MEET WISCONSIN TONIGHT

The SPORT PARADE

By MAURY KOBLINTZ

Lantern Sports Editor

THE COMEDY STARTS

With the opening of the major and minor league spring training sessions but three weeks off, the big boys have started their annual comic tactics of holding out for more money.

It appears as if all of the ball players in the big league form an association of some kind or another and refuse to sign contracts tendered them by their bosses.

When Mr. George Herman Ruth, who is the Babe to most of you, signed on the dotted line for a paltry \$35,000 this year, we thought that most of the others would fall into line and sign.

But then, one can never tell what these big leaguers are apt to do.

A COACHLESS SITUATION

Over around Indiana way they are having plenty of trouble with a coachless coaching situation.

Only over the week-end, Billy Hayes resigned as head grid man and that put the Hoosiers in the same class Ohio State.

At both schools similar situations of having a football team (I'll take that back about Indiana) without having a soul to coach it prevails.

There is quite a bit of chatter around old Bloomington way that M. Don Peden, the Ohio University coach, is headed for the lair of the Hoosiers.

Nevertheless, since Mr. Peden's name is prominently mentioned as a probable successor to Hayes, it goes to show that Don is not firm in his convictions that he is entirely satisfied to remain at Ohio U. as some of the gentlemen around the campus who think they are "in the know" would have you believe.

Don't be surprised if another university grabs Don off before Indiana acts. Ohio State is still in the running, wise men.

BAD GUESS

Saturday morning, one of the downtown sheets which has been doing a lot of guessing and telling us Ohio States how to run our business, printed a report that Clark Shaughnessy, Chicago coach, was reported in the city of Columbus.

Well, after a check was made of the situation and various inside sources contacted as to the whereabouts of Shaughnessy, it comes about that Clark wasn't even within 100 miles of our fair city.

Continue to guess, brethren.

SPORTS EDITORS, NOTICE

A rather amusing piece of news comes out from South Bend, the home of Notre Dame.

The bit of astounding news is that Don (Chet) Grant, a sports editor, has been signed to coach the Irish backfield men. Grant is sports editor of the South Bend News-Times and a former Notre Dame quarterback.

Grant played ball for the Irish back in 1916, 1920, and 1921 and made a name for himself. Ever since he has been in the newspaper game.

Now the thing which amuses this writer is the fact that a sports editor has been selected as a genuine football coach who will really tell the boys directly what to do and how to do it.

Grant will not serve in the capacity of a downtown coach who has a bad habit of telling the entire world what is wrong with this or that eleven.

Since Athletic Director St. John has not as yet passed on anyone definite to take over the coaching reigns here, why not select an entire new football staff from the four sports editors in Columbus, Saint?

Think of it, this writer would be wonderful as a cheering leader and score keeper. Ed Peniston could keep the visiting press men amused with his hill billy yarns during Saturdays. During the week Ed could build the morale of the team to a high pitch with the numerous amusing incidents he relates.

Then we come down to the brass tacks of actual coaching. Think of what Lew Bryer and Bob Hooley could do to that team. You think of it, I can't bear the thought.

And the one man cheering section—Grant P. Ward, as first assistant to the sports editors. What a personnel!

6 Who Will Splash for Ohio in '35, We Hope!

—Courtesy Columbus Citizen.

HARRY KALLMAN

A parallel can easily be drawn on the freshman track and swimming teams, both are outstanding for pre-Varsity achievements.

The quartet above, swimming against time recently, splashed the 400-yard freestyle relay, each man swimming 100 yards, in 3 minutes, 38 and 4-10 seconds. The Western Conference record set by Michigan is 3:44.2. The Intercollegiate record for that event, incidentally, is 3:36.6, and was made by Northwestern in 1932. From left to right, Larry Gray, Baker Bryant, Jim Williams, and Roy Kessler.

No better testimony to the diving ability of Harry Kallman, freshman, can be found than his execution of the two and one-half running front somersault from the high board. He does the dive pike style, hands clasping the ankles, knees unbent. Kirbert, freshman breaststroker, is already pushing George Colville, Varsity man, in the 200-yard event.

RUSS KIRBERT

COURT GAMES OFF

All intramural basketball games scheduled for tonight have been postponed because of the Varsity wrestling match.

Shaughnessy, Peden Out As Possibilities

Two football mentors considered possibilities for the coaching post here, Clark Shaughnessy, University of Chicago, and Don Peden, Ohio University, are no longer in the market.

Shaughnessy, in an Associated Press interview, declared he had no intentions of leaving his post as coach of the Maroons, and that he has completed his coaching staff for next year.

Peden is expected to sign a contract today at Indiana University to succeed E. C. Hayes, head coach since 1931. Peden, it is said, will have complete charge of football at the Hoosier school, and plans will be made as soon as he signs, for the reorganization of the coaching staff.

No hitch is expected in the signing up of Peden said Z. G. Clevenger, director of athletics, at Indiana. Peden, it is thought, will be given a trial term of three years in which to install his system.

Hayes will continue as head track coach, and will be available as an assistant, as will William H. Thom, wrestling coach, "Butch" Nowak, former Illini player, and Paul Harrell, Bernard Dickey, and Otis Edmonds, three Hoosier graduates.

Look It Here!

Donald C. (Chet) Grant, South Bend sports editor and former Notre Dame quarterback, was named backfield coach of the Irish, Sunday, by Elmer C. Layden, new head coach.

Wolverines Here Tonight For Mat Men

Buckeye Grapplers Will Attempt to Avenge Last Year's Defeat.

Varsity wrestlers will make their last home appearance this month when they meet the mat men of the University of Michigan tonight.

The Wolverine squad is composed largely of veterans who have already defeated Michigan State and Northwestern. The Wildcat contest was won by a margin of only a few points, while against Michigan State they experienced a much easier task. Ohio State also had little trouble in downing Michigan State, 22 to 8.

Out of four starts the Buckeyes have won three meets. They defeated the wrestlers of the Cleveland Y. M. C. A., Case, and Michigan State, their only loss being against the grapplers of the University of Illinois. This match was pretty evenly balanced until the last bout when Barney Cosneck won over Wilbur Renner.

Last season the Wolverines and the Buckeyes enjoyed a hard tussle which was not decided until the final event. In this conflict Spodon pinned Renner's shoulders and Michigan was awarded the 17 to 12 victory. These heavyweights will meet again Monday evening and Renner has indicated that he intends to reverse the decision this year.

On Saturday night Ohio State will journey to Evanston and meet Northwestern. Indiana will be met February 24, and the next home appearance will be against West Virginia on March 3.

Bucks in Exhibition

Members of the Varsity, freshman, and Columbus Athletic Club swimming teams will exhibit in the Columbus Athletic Club pool tonight. A smoker for club members will follow.

Iowans Hand Purdue First Big Ten Loss

Wisconsin Defeats Minnesota — Illinois Whips Indiana Saturday.

Missing both shots from the charity line given him just before the game ended, Robert Kessler, reserve forward for the Boilermakers, tossed away Purdue's claim to an undefeated season, as the Hawkeyes eked out the 38 to 36 victory at Lafayette, Saturday.

Purdue, opening with a whirlwind, rushing style of play, led Iowa 19 to 11 at one time, but the Hawkeyes awoke, put on a tornado-like spurt, and emerged to lead at the half, 21 to 19.

Iowa managed to lead most of the way during the second half, but the score was tied at 32 all, and then at 36 all. Backo made the winning field goal, and the game would have gone an extra period if Kessler had made the two foul shots awarded him as the gun fired.

In one of the other Conference games played Saturday night, Wisconsin defeated the Minnesota Badgers, 31 to 30 in a nightmare that officials repeatedly stopped because of rough playing.

Nearly 13,000 fans witnessed the game at Minneapolis. Nick Demark, Wisconsin forward, flipped a short shot underneath his basket to give the Badgers the game.

In a fast close contest, Illinois nosed out Indiana 28 to 25 to keep itself in the upper strata of the Conference.

A brilliant rally by Roy Guttschow, who tallied 13 points, gave the Illini a 26 to 17 lead in the middle of the second period. The Hoosiers, playing madly, crept up to within one point of their opponents, but Guttschow made his final goal just before the gun fired and did not score again.

Co-ed Cage Results

Results of co-ed basketball games played last week are as follows: Pi Beta Phi defeated the Buckeyes in a fast game, 42 to 27; Kappa Delta swamped the Greystones, 40 to 4; Kappa Kappa Gamma beat out Kappa Alpha Theta, 31 to 21; and the Aberdies whipped Alpha Xi Delta, 29 to 24.

Rules Changes To Aid Squad On Offensive

Three football rules changes were passed by the national football rules committee, Sunday, in an effort to give more strength to the offensive team.

Changes made were as follows:

1. Removal of the touchback penalty on the first incomplete forward pass thrown over the goal line.

2. Removal of the five-yard penalty inflicted after two successive incomplete forward passes.

3. Rewording of the definition of a punt so as to allow a teammate to hold the ball until the kicker has made contact.

In answer to the charges made last fall that the defense had the better of the play, the committee at its annual meeting passed the three rules in an attempt to make play more open.

Rules change number one does not apply to other attempts following the first, the old rule that the team lost the ball and the opponents received it on the 20-yard line applying there.

For all passes on the field regardless of the number of successive incomplete passes, the new rule applies. Rules change three merely allows a player to hold the ball until his teammate has kicked it, the kicker therefore having a better chance to make the punt.

Cy Rubado Sparkles As Marquette Wins Close Game, 39 to 28

Hilltoppers Forge Far Ahead in Closing Moments of Contest, While Scarlet Five Fails to Keep Up Pace.

Losing to Marquette in a closely contested game, 39 to 28, at Milwaukee, Saturday, the Bucks will return to the Conference war against the University of Wisconsin at Madison, tonight. The Wisconsin game will be the last Big Ten game away from home for the Ohio five this season.

Although Wisconsin has been defeated by Illinois, Iowa, and Purdue, it has chalked up victories over Marquette and

Ohio Runners Lose Opener To Hoosiers

Scarlet Track Men Win Only Three First Places Saturday.

BULLETIN

Jesse Owens, the Ohio State frosh star, tied Percy Williams' world indoor mark for the 60-meter dash with a mark of 6.8 seconds, Saturday, at the West Virginia A.A.U. meet.

Earl Johnson was third in the 35-pound weight throw with a 44 ft. 6 in. effort. Charley Beetham, another frosh, was fourth in the 1000-meter run, a race won by Bill Heintz, former Buckeye star.

Ohio State's Varsity track team went down to defeat in its first indoor start of the season against the indoor track championship Indiana team, 68½ to 35½ at Bloomington, Saturday. The Bucks were only able to win three first places.

Individual performances were responsible for Indiana's wide margin. A sophomore star, Caldemeyer, came out of the meet with three wins to his credit, the high hurdles, low hurdles, and the high jump.

Chuck Hornbostel came through with first in the mile and half mile to help the Indiana team pile up nine first places. He turned in a new mark for the Indiana field house with a 1:54.8 in the half mile which surpassed the mark set up last year by a full second.

Ivan Fuqua in the 440, and the Ohio State relay team in the mile event, set two new marks. Merlin Willey, Bill Bloor, Cliff Smith, and George Arnold ran the race in 3:24.8 to clip 2.8 seconds from the mark set by Indiana last year for the mile relay.

Second places were equally shared while, Ohio State won six third places against Indiana's five.

Walt Stapf won the 60-yard dash for Ohio, and George Neal topped the field in the shot put for Ohio's remaining first places.

Ohio's team entered the meet without the help of Co-captain Whitey Wonsowicz who quit the squad for the season. Several Ohio State men were slowed up because of shin splints.

Summary: 60-yard dash—Stapf (O), first; Willey (O), second; Fuqua (I), third. Time—6.4 seconds.

Mile run—Hornbostel (I), first; Hobbs (I), second; Moore (O), third. Time—4:23.

70-yard high hurdles—Caldemeyer (I), first; Neely (I), second; Cook (O), third. Time—09.3.

440-yard dash—Fuqua (I), first; Bicking (I), second; Harpold (I), third. Time—50.8.

88-yard run—Hornbostel (I), first; Bloor (O), second; Hobbs (I), third. Time—1:54.8.

70-yard low hurdles—Caldemeyer (I), first; Neely (I), second; Cook (O), third. Time 8.1 seconds.

Two-mile run—S. Mullen (I), first; Moore (O), second; Robinson (I), third. Time—9:48.8.

Pole vault—Tobias (I), first; Sites and Stultz (O), tie for second and third. Height—11 ft. 6 in.

Shot put—Neal (O), first; Antonini (I), second; Schwartz (O), third. Distance—46 ft. 4½ in.

High jump—Caldemeyer (I), first; Miller (O), second; Boucher (O), third. Height—5 ft. 10 in.

Broad jump—Wilks (I), first; Peterson (O), second; Tobias (I), third. Distance—20 ft. 2½ in.

Mile Relay—Ohio State (Willey, Madison, Smith, Arnold), first; Indiana, second. Time—3:24.8.

Michigan. The Wolverines clawed the Buckeyes 32 to 28 and this gives some indication of the strong opposition the Ohioans will face. Another measure of the Badgers' strength is shown by the Purdue tilt. In this engagement the score saw-sawed back and forth, and the game was decided in the closing minutes when the Boilermakers sunk a basket and walked from the floor with a two-point margin of victory.

Badgers Well Stocked

The Badger aggregation is well stocked with veterans who are outstanding because of height. A half dozen of the squad's ranking men are better than six feet. The Wisconsin center, Knake, is 6 feet 3 inches; Smith, forward, 6 feet 2 inches; McDonald, guard, 6 feet 2 inches; Hamann, guard, 6 feet 4 inches; Prebski, forward, 6 feet 2 inches, and Stege, utility performer, is 6 feet 3 inches.

Since Captain Blackie Conrad, center, and Ted Rosequist, guard and center, are the possessors of the only noticeable height on the Buckeye squad, Coach Harold G. Olsen hopes that he will be able to offset this Badger quality with speed. For that element he will depend on Warren Whitlinger and Bobby Colburn, forwards, and Bill Beitner, guard.

The Buckeye squad will return home Tuesday and begin preparations for meeting Michigan at the Coliseum Saturday night.

Rubado Stars

Paced by sophomore Cy Rubado, guard, Marquette took advantage of the expulsion on personal fouls of Ted Rosequist, Buck center, in the last few minutes of play to pull far ahead of the Ohio quintet, who, until that time, was neck and neck with its rivals.

Colburn Scores 8

Bob Colburn, flashy Ohio forward, lead his teammates in scoring, as he sunk two floor shots and four charity throws. Red Wilson, playing as a reserve, tallied seven.

Tight defensive play marked the first half, neither team working its way into the enemy territory close enough for set-up shots. Colburn's free throw, and a long shot by Whitlinger started the scoring. Three successive mid-court shots by Rubado placed the Hilltoppers three points ahead of the Bucks.

Score Tied at 12

Prior to the gun at the half, the score was tied at 12 all, but the Hilltoppers went into high and the gun saw them lead 21 to 16, Colburn sinking two more shots for the Bucks before the period ended.

Until Rosequist left the game on personals, the contest was a nip-and-tuck affair, the Hilltoppers barely managing to stay ahead of a whirlwind Ohio quintet that was trying to make up for lost time. The score before Rosequist left was 30 to 28, but when the Big Ohio center was no longer in the way, the Hilltoppers forged ahead, while the Bucks failed to score.

OFFICIAL BULLETIN

THE OHIO STATE UNIVERSITY

Vol. XIV

MONDAY, FEBRUARY 12, 1934

No. 83

THIS BULLETIN will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for meetings. In the interest of efficiency and to avoid conflicts the following announcement is made: No meetings or functions of any sort will be permitted or provided for on the campus or in the University buildings unless authorized and announced in the Daily Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the President's office not later than noon for the day following and noon Friday for Monday's Bulletin.

BIOLOGY CLUB MEETING

The Ohio State Biology Club will meet Tuesday evening, February 13, in room 100, Botany and Zoology Building, at 7:30 o'clock.

Dr. Samuel Renshaw of the department of psychology will give an illustrated lecture on "The Problem of Sleep." This lecture will be a review of several very interesting and recent studies on sleep. Everyone interested is cordially invited.

STATE EMPLOYEES' PARTY

A state employees' Valentine party will be held Tuesday evening, February 13, at the Neil House under auspices of the State Employees' Social Club. All University employees and their friends are invited. Music will be by Paul Decker and his Detroiters. There will be card playing and a night club act. Admission 25 cents. Dancing 9 p. m. to 1 a. m.

APPRECIATION HOUR

Appreciation Hour will have Miss Anne Wiggins, executive secretary for the international student committee of the National Y. W. C. A., as guest speaker Wednesday, February 14. The meeting will be in Pomerene Hall, blue lounge, at 4.

CHEMISTRY COLLOQUIUM

The Chemistry Colloquium will meet at 4 p. m. today (Monday) in room 301 of the Chemistry Building. Dr. Edward Mack, Jr., will discuss "The Characteristics of Oil Films."

CHEMISTRY JOURNAL CLUB

D. R. Jackson will give a paper entitled "Acid-Base Catalysis" at the next meeting. This will be held in room 302 of the Chemistry Building at 4 p. m. Tuesday. All interested are cordially invited.

EXCUSED FROM CLASS ATTENDANCE

The following members of the track team were excused from classes beginning at 4 p. m. Friday and extending through Saturday, February 9-10, because of participation in a meet at Indiana:

George Arnold, William Bloor, Franklin Boucher, Chester Clime, Don Cook, C. W. Cromley, John Dickey, George Gearhart, Robert Huffman, James Madison, John Moore, George V. Neal, Harold H. Peterson, Dominic Renda, Joseph Schwartz, John W. Sites, Clifford Smith, J. W. St. John, Walter Stapf, Richard Stultz, Merlin Park, J. A. PARK, Dean of Men.

DAIRY TECHNOLOGY SHORT COURSE

Tuesday

9 a. m.—"Undulant Fever in Ohio," Leo F. Ey.

10 a. m.—"What the Burk Law Can Do for the Dairy Industry," C. G. McBride.

11 a. m.—"Cooperative Milk Producers' Association, Its Value to the Dairy Industry," Paul Young.

1 p. m.—"Cottage Cheese," L. H. Burgwald.

2 p. m.—"Economic Production of Milk," S. M. Salisbury.

3 p. m.—"Determining the Quality of Milk," W. C. Boyer. "Development of Vitamin Chemistry as Applied to Dairy Products," E. F. Almy.

4 p. m.—"High Temperature Pasteurization," G. M. Trout.

Wednesday

9 a. m.—"Food Value of Butter Fat with Special Reference to Vitamin A," T. S. Sutton.

10 a. m.—"Homogenized Milk," G. M. Trout.

11 a. m.—"Quality Milk Production," W. E. Krauss.

1 p. m.—"Butter Judging," D. S. Kochheiser.

2 p. m.—"Methods for Increased Vitamin D Content of Dairy Products," W. E. Krauss.

3 p. m.—"Carotene and Other Sources of Vitamins," W. O. Frohling.

4 p. m.—"Soft Curd Milk," J. F. Lyman.

UNIVERSITY ACTIVITIES

Monday, February 12

Strollers, rooms 100, 105, and 107, Derby Hall, 7 to 10:30 p. m.

Parents' craft group, room 117, University High School, 7 to 9:30 p. m.

Scabbard and Blade, Armory, 5 p. m.

Veterinary students' minstrel show rehearsal, room 206, Horticulture and Forestry Building, 7 to 10 p. m.

Beals of North Canton acted as best man. The groom is associated with the city engineering department.

Dr. Boothe Speaks

Mrs. Spurgeon Bell, Mrs. John Hallen, and Mrs. John Younger presided at the tea tables after the lecture of Dr. Viva B. Boothe of the Bureau of Business Research at the Faculty Club Sunday afternoon.

Assisting hostesses were: Mrs. Clifford James, Mrs. Clarence D. Laylin, Mrs. Donald C. Power, and Mrs. William Rose. Dr. Boothe spoke on "Progress and the Recovery Act."

Ushers Chosen

Six members of Chi Delta Phi, national honorary literary sorority, will act as ushers at the Archibald MacLeish lecture Monday evening in the chapel of University Hall. Mary Sue LaHeist, A-3, is chairman of seating arrangements for the lecture which is sponsored by the University chapter. Assisting Miss LaHeist will be Jean Reeder, Marcia Simon-ton, Helen Leshner, Mrs. Elizabeth R. De Wees, and Valda Wilkerson.

Monte Carlo Night

The Physical Education Alumnae Association will sponsor a Monte Carlo night in cooperation with the men's department of physical education and the students at the University Thursday in the gymnasium at

Pomerene Hall. Proceeds of the party will be used to publish the annual Alumnae Journal of Physical Education.

Celebrates Anniversary

Phi Upsilon Omicron, honorary home economics sorority, celebrated its twenty-fifth anniversary with a Founders' Day banquet at the Deshler-Wallick Hotel Saturday evening. The following members were initiated: Annette Demorest, Beatrice Hufford, Margaret Youman, Anna Harman, Ruth France, Reba Hummel.

Planned Party

Miss Jean Walters was in charge of arrangements for the Valentine party given Saturday afternoon at the Alpha Phi House. Fifty guests attended the affair.

Art Group to Meet

Professor Caroline Bradley, department of fine arts, will talk on "Interesting and Significant Factors That Have Influenced Costume Design Through the Ages," when Mrs. George W. Eckelberry entertains the art group of the University Women's Club at her home at 2:30 p. m. Tuesday.

Mothers' Club Meets

The Mothers' Club of Sigma Chi Fraternity met at the chapter house, 260 Fifteenth Avenue, for a casserole luncheon at noon today.

Sigma Kappa Dance

Betty A. Finke, Nurs-1, president of the pledge chapter of Sigma Kappa Sorority, is chairman of the Val-

entine dance to be given Friday night at the chapter house in honor of the active chapter.

Spread Postponed

The Columbus Alumnae Association of Kappa Kappa Gamma has postponed its spread from Tuesday until March 13. It will be held at the home of Mrs. Frank Bonnet. Officers will be elected at the meeting.

Will Entertain 20

Members of Phi Mu Sorority will entertain 20 guests at a Valentine party tonight from 7:30 to 9:30 at the chapter house, 1952 Iuka Avenue. Margaret D. Markey, A-3, is general chairman of the affair. She will be assisted by Roberta E. Falkenstein, Ag-2, and Claribel Leukhart, Ag-2.

To Serve Luncheon

The Chi Omega Mothers' Club will serve a casserole luncheon Tuesday at the home of Mrs. Paul Miller, 65 East Lakewood Avenue.

Annual Winter Supper Dance

Mary Ruth Mootz, Com-3, is in charge of arrangements for the annual winter supper dance to be given by Chi Omega Sorority Friday at the Deshler-Wallick Hotel. Dancing will be from 9 to 12 p. m. Chap-erons will be Mr. and Mrs. Dalton Kincaid, Mrs. Dorothy Asman, and G. A. Hollingsworth.

Mothers' Meetings

The Delta Zeta Mothers' Club will entertain with a bridge party Tuesday at the home of Mrs. R. P. Bartholow, 1367 Highland Street. Mrs.

A. G. Bergener, Mrs. C. E. Kramer, and Mrs. G. E. Sargent will assist the hostess.

Mothers' Club to Meet

Theta Xi Mothers Club will meet at the fraternity house Tuesday at 2 p. m.

Honors Mrs. Erb

Mrs. John Hoffman Erb (Mary Jane Tyler) was guest of honor at a tea given Saturday at the Mar-armor by Mrs. Courtland Hall, 1174 Broadview Avenue. Guests were Mrs. H. Schuyler Foster, Mrs. Morton Bobb, Mrs. Dudley Debolt, Mrs. Fred Rost, Misses Virginia Bolin, Kathryn Jaklin, Dorothy Robinson, Margaret Hall, Louise Schmidt, Thelma Hughes, Margaret Blessner, Ann Hall, Virginia Clymer, Jeanette Hayes, and Eleanor Laughlin.

Miss Sherwood Marries

Mr. and Mrs. G. C. Sherwood of Robinson, Ill., announce the marriage of their daughter, Lucille M., to Fred E. Allen, North Hampton, N. H., at Richmond, Ind., August 26, 1933.

Mr. Allen is a graduate of the University of New Hampshire and is at present a student in the College of Veterinary Medicine at the University. Mrs. Allen is a graduate of the Nursing School.

Arthur E. Tronstein, A-3, has withdrawn from the University for the remainder of this quarter. He has returned to his home in Cleveland and expects to return for the spring quarter.

LUCKY STRIKE CIGARETTES

GOOD TASTE—YOU CAN'T MISS IT

Luckies' finer smoother taste comes from the finest Turkish and domestic tobaccos. We use only the center leaves for they are the mildest, most tender leaves. And every Lucky is so round, so firm, so fully packed.

NOT the top leaves—they're under-developed—they are harsh!

The Cream of the Crop
"The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!

Copyright, 1934, The American Tobacco Company

Direct from the Metropolitan Opera House

Saturday at 1:45 P. M., Eastern Standard Time, over Red and Blue Networks of NBC. LUCKY STRIKE will broadcast the Metropolitan Opera Company of New York in the complete Opera, "FAUST."

Always the Finest Tobacco and only the Center Leaves

WHAT DO YOU WANT

in the organization that services your car?

ABILITY?

Every one of our mechanics is an expert, with many years' experience. Tools and equipment are the best obtainable.

STABILITY?

We have been here eight years—management has never changed. Most of our mechanics have been with us from the start. We hold a 99-year lease on our building. Our financial rating is second to none.

RELIABILITY?

Every job is covered by an absolute guarantee. Not the meaningless "guarantee" that is so common, but a real one—based on competent workmanship and first quality materials and backed by financial responsibility.

AVAILABILITY?

We never close. We are as near to you as your telephone. We'll get your car and take it back. In an emergency, no matter where you are, day or night, you can call one of our completely equipped service cars. And, having the largest general service stock of parts and accessories in the city, we offer you practically
