

## Greek Rush List

Fraternity pledge lists are shown on page 7.

## Weather Forecast

The Columbus forecast is partly cloudy today and tonight. The afternoon high is 70.

## Senate To Take Up Ban Again

## Sorority Rushing Plan Causes Different Views

Is improvement also needed in the sorority "rushing" system, as was claimed in a recent LANTERN editorial?

Marilyn Leiberman, Soc-Ad-4, of Phi Sigma Sigma sorority, is among the many who feel that the present system is satisfactory. She said, "I don't approve of the proposed plan to have delayed rushing. It would merely place the prospective members under an additional strain. They would feel that they were being displayed during the entire quarter."

Miss Leiberman added that she believed the new student could find adjustment quicker as a result of her early affiliation with a sorority. A sorority would enable her to meet others with similar problems. Together with them she could be given advice and guidance.

One sorority member (who preferred to be unnamed) said "Large enrollment makes it practically impossible for any other system to operate efficiently. It is true that the hectic period during which decisions must be made places both the member and the prospect under strain. This situation sometimes causes mistakes to be made."

Pam Maddock, A-3, of Zeta Tau Alpha sorority, agrees with the claim that the present system involves too much haste. She prefers a "month" rushing plan to the suggestion that rushing be postponed one full quarter.

"In this way," she said, "the prospective candidate could visit fewer sororities each night and much of the confusion and doubt would be eliminated." The present system requires each prospect to visit all sorority houses in two nights.

All the prospective pledges in-

## Geologists Study Atoll In Pacific

Dr. John Wells, Cornell University, professor of geology and paleontology at Ohio State from 1938 to 1948, spent the summer investigating coral reefs on Arno Atoll.

On his return with thousands of pounds of specimens, his ship ran aground on a reef. Stranded one-half mile from land, Professor Wells waited for his ship and specimens to sink.

But, the ship never sank. The swells and wind which would have pounded the hull to bits, subsided and the boat slipped back into deeper water after four hours.

Professor Wells was one of 13 scientists investigating Arno Atoll in the Marshall Islands. The group worked for the Pacific Science Board of the National Research Council with funds provided by the Office of Naval Research.

## Girls' Names Change Like Their Fashions

CLEVELAND, O. (UP)—A survey taken among girls' colleges around Cleveland showed that female name trends change almost as often as female fashions.

The most frequently repeated names on college registrar lists in 1950, according to the survey, are Jean, Joan, Mary, Sally, Barbara, Irene, Carolyn, Arlene, Shirley, Ruth and Laura.

Registrars said a rare Tessie, Essie and Hortense has showed up in the last few years but 1950 is nothing like the time several decades back when these were commonplace names along with Minnie, Tillie, Ophelia and Kiki.

## C.F.P. Plans To Change Rushing

The first regular meeting of the Council of Fraternity Presidents was held Tuesday night.

The Council appointed a committee to handle future rush procedure. It is believed that the rush week schedule and the 10-day non-pledging period after formal rushing will be more effectively planned. The improved system would minimize illegal rushing during the "grace period" and also the confusion common to the end of rush week.

The Rushing Committee is represented by men from the following fraternities: Beta Theta Pi, Zeta Beta Tau, Phi Gamma Delta, Alpha Tau Omega, Kappa Sigma, and Alpha Phi Delta.

The Council announced the meeting of the Freshman Fraternity Council Wednesday, Oct. 19, at the Sigma Alpha Mu house.

Also announced was the date of Fall initiation as Nov. 18.

## Mistake Pays Off

BOWIE, Md., Oct. 11—(AP)—An unidentified man, obviously in a hurry, rushed up to the \$10 place window a few minutes before the second race yesterday, bought a ticket on No. 3, and waited to see how Rocky Play ran.

He had the right number but the wrong race.

Rocky Play had already finished out of the money in the first race.

He had a \$10 place ticket on Merry Nymph, who was beaten by 18 lengths in her previous start.

But yesterday, Merry Nymph finished second and paid \$371.80 for each \$2 place ticket and \$126 for \$2 to show. Officials said it was a record place and show payoff for Bowie.

By his mistake, the bettor realized a profit of \$1,849.

## Rossellini Sues Senator Johnson

ROME, Oct. 11—(AP)—Roberto Rossellini announced he filed suit in Rome today against U. S. Sen. Edwin C. Johnson, charging the Colorado Democrat made a derogatory remark about him at a cocktail party in Rome last night.

Rossellini said Johnson had called him a scoundrel in the presence of five Italian newspapermen.

## Lawyers Rally To Taft

CLEVELAND, Oct. 11—(AP)—Formation of a Lawyers-For-Taft Committee "To fairly disseminate the truth" about issues in the Ohio senatorial campaign was announced today.

Paul W. Walter, chairman of the Northern Ohio Taft Campaign Committee, said the "Opposition has fallen upon a last-minute strategy of laying down a barrage of untruths tending to becloud the issues."

## New AICHE Officers

Present officers of the student chapter of the American Institute of Chemical Engineers are shown above. They are, left to right: John R. Parkinson, treasurer; Raymond C. Beckett, president; Harry F. Gossard, vice-president; seated, David C. Haring, secretary.

## JAVMA Meets, Welcomes New Students' Wives

Wives of freshmen in the College of Veterinary Medicine were welcomed at this year's first meeting of the junior auxiliary to the Junior American Veterinarian Medicine Association in Pomerene Hall Tuesday night.

The JAVMA, a social organization, meets every second Tuesday of the month and membership is open to any veterinarian student's wife.

Officers are Mrs. Marge Gregory, president; Mrs. Helen Mal-lorie, vice-president; Mrs. June Dresbach, treasurer; and Charlotte Fosnaugh, secretary.

"Plans for the coming year are indefinite but will include parties and guest speakers," stated Mrs. Gregory.

## Prof. Carmack Leads All-Ohio Speech Meeting

Prof. Paul Carmack, department of speech, was chosen as chairman of the third annual Ohio Conference for Speech Education which will be held at the Deshler-Wallick Hotel Saturday.

Four state organizations will co-operate in the program. They are the Ohio Association of Speech and Hearing Therapy, the Ohio Association of Secondary Teachers of Speech, the Ohio Association of College Teachers of Speech, and the Ohio High School Speech League.

The one-day meeting will be divided into sectional meetings on debate, drama and interpretation, speech and hearing therapy, public address, radio and television, creative dramatics, and discussions.

## Dailies To Do Their Own

PITTSBURGH, Oct. 11—(AP)—Newspaper workers idled the last 10 days may publish a paper of their own "for the duration."

## AICHE Elects Delegate To Engineers Council

The student chapter of the American Institute of Chemical Engineers chose Bill Garmus, Engr-5, as their senior representative to the Engineers' Council.

He was selected Tuesday in an election held at the Chemical Engineers' Bulletin Board in the Chemistry Building. The ballots were cast between 9 a. m. and 2 p. m. Tuesday.

## G.I. Village Dads Build Merry-Go-Rounds For Kids

By Joseph Petti

Married veterans in the "G. I. Village" have been busy this Summer building 11 "merry-go-rounds" to the whirling delight of the community's four to five hundred children.

The hand and foot operated carousels were designed by George S. Sanders, Engr-4. Money for the materials used in them came from funds contributed

by the villagers to the Community Council. President of the Council is Daryl G. Johnson, Engr-5.

In previous spare-time projects, the veterans have constructed 20 sets of swings which have been located in the main playground and at other strategic points in the community.

The sturdy scarlet and gray "merry-go-rounds" have steel frames which were welded in the Agricultural Engineering Building on the campus.

The wives of the veterans at the Village are quite pleased with the additions to the playground, and the children are having great fun with them.

"Yeah," was the answer of Dewey Moyer, age two and a half, when he was asked if he liked the "merry-go-rounds." His mother, Mrs. Otto Moyer, said that the equipment was "mobbed" every day.

Mrs. Miles Edwards, whose husband is a graduate student, said simply, "they're swell!" while Mrs. Ralph Downs said, "We all think

(Continued on Page Eight)

## Report Due On Union's Ethics Code

By Roy Garvin

Student senators Thursday night will make another attempt, possibly the last, to settle the much-kicked about issue concerning the AFM ban on Ohio State.

An indication of what action can be expected appeared in a "straw" vote during last week's meeting. At that time only nine votes were cast in favor of the Collegians. As it appeared last week, "big name" bands will be able to appear on the campus before too long.

At the close of the Senate's last meeting, a committee was selected to study a "code of ethics" which the powerful musicians' union wants Ohio State to adopt. That committee is scheduled to meet in the dean of men's office at 2 Thursday afternoon.

The committee will study the code and then make a report to the Senate Thursday night.

The AFM put Ohio State on the "unfair" list last July after the non-union Collegians played for dances during Spring and Summer Quarters.

Actually, this is not the first time the union has flexed its muscles and exerted pressure here at Ohio State. According to Dick Weakly, ex-'48, a similar situation arose in 1945. At that time a band known as the "Vets" was organized with students who were union members.

Failure of the union to obtain jobs for the "Vets" prompted them to hire Weakly as their booker. The union would not recognize Weakly and threatened to take the union cards away from the Vets if they continued to hire him.

Finally, under pressure from the union, the band was broken up. Revived again under a new name, the band again met pressure from the union.

Now the union feels that another student group, the non-union Col-

(Continued on Page Eight)

## Mid-Mirrors To Hold First Party Thursday

Gold mirror name tags will shine on a group of freshman women Thursday as they assemble for the first Mid-Mirrors meeting in the informal lounge of Pomerene Hall.

Anne Pierce, Com-3, chairman of Mirrors, and Katherine Montgomery, A-2, chairman for the first party, announced that the party would begin at 4 p. m.

The affair will include a skit of Mirrors through the ages which will be followed by refreshments. There will also be an election of committees.

All freshman women interested in joining Mirrors are cordially invited to attend.

## Rail Heads Ask Wage Boost

WASHINGTON, Oct. 11—(AP)—Heads of 15 railroad unions with a million members decided today to ask for a 25-cent-an-hour wage increase.

## Hoosier Threat

LOU D'ARCILLE  
Indiana Back

Top single-game performance by a Conference player has been turned in by the Hoosier's sophomore quarterback. Last Saturday the southpaw completed eight of 14 passes for 215 yards and two touchdowns of the young campaign. He also connected with Bob Robertson for a 91-yard touchdown for a new Big Ten record and he also gained nine yards rushing to lead in total offense with 224 yards.

## Touch Football Entries Reach Record High—155

By Chuck Blanchard

Intramural football gets under way next week with a bang! According to Leo G. Staley, director of intramural sports, this year's program has set a new record with a combined total of 155 teams competing for touch football laurels.

As in the past years the teams have been divided into four classifications. The Fraternity Active teams lead the way with 63 entries. Independents are next with 56, followed by the Pledge group with 31. The AC (Active-Pledge) makes the fourth group. The AC group is new, and is to take the place of the old B group. This was formed so that the smaller fraternities on the campus could enter and compete with the larger organizations.

### Play Begins Monday

Tentative league schedules have been drawn and a complete card for the season will be available by Thursday evening. Actual league play starts Monday, and continues until Friday which will end the first round of competition. The I-M department expects about 2,000 students to participate in the program, and is planning to use 17 fields so that each round can be completed as scheduled. The first week of competition will see at least 70 games or more played by Friday evening.

Following regular league play, the individual league champions will enter a play-off tournament to determine the 1950 Touch Football Champion. There will be a new king crowned in the Independent class since the DSAC (Discouraged Students Around Campus) are not entered.

Phi Kappa Psi, fraternity

## Indiana Tickets Still Available

Some seats are still available for the Indiana game Saturday at Bloomington according to Assistant Ticket Director Robert Reis. Ducats will remain on sale as long as they last, but if the present brisk selling continues there may be none left by Friday.

Students are urged to place their orders at once as less than 400 are left. They may be secured at the Athletic Ticket Office in the Southeast tower of the Stadium.

## Cincinnati Reds Sell John Hetki To Toronto

CINCINNATI, Oct. 11—(AP)—John Hetki, Cincinnati Reds' right-handed relief hurler, has been sold for an undisclosed sum to the Toronto Maple Leafs of the International League, officials of the Cincinnati baseball club announced today.

champions last year, are entering two teams this year, and hope to have one or the other bring them the title again. On the basis of past performances, the Oberlin, Alpha, and Phi leagues seem to be loaded with power with Phi Kappa Psi's leading the way.

## ChiSox Pilot To Pick Aides

CHICAGO, Oct. 11—(AP)—Paul Richards' first task as the new Chicago White Sox manager—the fifth in five years—will be selection of a coaching staff.

If Richards reshuffles, one of those who might get the ax is the White Sox perennial, Luke Appling. What to do with Luke, who has been with the organization since 1930, may prove to be Richards' most touchy task in his debut as pilot.

Richards is quite a versatile gent. He was a big league catcher with the Philadelphia Athletics, Detroit Tigers, New York Giants and had a three-game whirl with the Brooklyn Dodgers before making his first managerial attempt at Atlanta. While there, from 1939 to 1942, his Atlanta club won two Southern Association pennants and one post-season playoff.

Richards piloted Buffalo in 1947-1948 and 1949, taking one International League pennant. Last season his Seattle team landed in sixth place in the PCL.

In addition to his baseball chores, Richards finds time in off season to serve as sports editor on a daily newspaper, of which he is part owner, in his home town of Waxahachie, Tex.

# Cross Country Sport Revived; Coach Beetham Seeks Runners

By Thad Gardner  
Lantern Sports Editor

Cross-country is being revived as a varsity sport at the University for the first time since 1945. Last year the Bucks competed on an informal basis but no letters were awarded. They lost both dual meets and finished last in the Conference.

Coach Charles Beetham released a four meet schedule Tuesday which has the Scarlet playing host to Michigan State and Pitt and traveling to Indiana. The season will

## Grid Squad In Rugged Scrimmage

A long rough scrimmage Tuesday found both the offensive and defensive platoons working against the Freshmen for the first time. Big Bill Miller's slight knee injury and Ray Hamilton's hip bruise were the only casualties of the evening's bumping around.

The fullback post remains wide open with Sophomores John Hlay and Dick Koepnick giving incumbent Jack Wagner a battle for the job. Koepnick scrimmaged with the regulars Tuesday and ran like a halfback. His blinding speed assures him of a good chance of seeing action with the Varsity Saturday.

Hlay's presence at the line bucking slot gives the Scarlet that added "boom" for a few yards. Wagner showed well in the SMU game and still is very much in the running. A rib injury handicapped him slightly last week.

Tuesday's activities were run off on the soccer fields south of the main practice areas as the latter was too wet for a solid footing.

A new Conference rule makes it possible to carry 40 players on a trip this year instead of the former 36. The ruling will be a blow to the Jay-Vees as such performers as Bernie Skvarka and Dick Koepnick who played last week against Pitt won't be available for the Saturday night clash at Wittenberg.

Hopes of Ralph Armstrong seeing any action at Indiana were in doubt as the lanky end worked out but did not don pads. At best, he could only be used for spot plays.

Buck scouts will be busy on other fronts Saturday. Ernie Godfrey goes to Iowa City to watch the Hawkeyes against Wisconsin. Trekking to Evanston is Gene Fekete to see the Wildcats tackle Minnesota. Also going with Fekete is Esco Sarkkinen who is spying on the Gophers.

## 6-HOUR

## SPECIAL LAUNDRY SERVICE

In By 11:30 Out At 5:30

*Esquire*

1990 N. HIGH ST.

Leading the list of runners on Ohio State's 1950 Cross-Country squad is the 22-year-old senior from Cleveland. D Arcy holds the school record indoors for the two-mile.

be concluded with the Conference meet at Chicago.

### D'Arcy Liked

Topping the list of candidates is Capt. Frank D'Arcy who finished fifth in the Big Ten last Fall. Juniors Len Truex and John Holloman are expected to be mainstays behind D'Arcy. Truex is considered one of the best distance prospect in the country while Coach Beetham thinks Holloman has tremendous possibilities.

The big difficulty will be to find capable men to round out the squad. Trying for berths are Doug Williams, Dave Titsch, Bill Uber, Aubrey Jenkins, and Dave Youmans. Positions on the squad are still wide open and Beetham invites students interested in running on the varsity team to contact him at once.

Harrier meets are scored on a 1-2-3-4-5 basis with the lowest winning. Each team is allowed seven entries with the best five counting in the score. A perfect mark is 15-50.

### Harriers' Schedule

Oct. 21—Michigan State\*...here  
Oct. 28—Pittsburgh\*.....here  
Nov. 11—Indiana .....there  
Nov. 17—Conference....Chicago

\*Home meets are slated for the University Golf Course at 10 a. m. over a four-mile course.

A freshman team is being organized and men wishing to try out for the yearling squad are asked to see Beetham immediately at the Stadium. Intra-squad meets will be held and numeral sweaters awarded. First year runners will compete in two- and three-mile races while the Varsity races are four miles.

## Upsets Seen By Contest Entrants; Army-Michigan Game Of The Week

By Jim Mee, Contest Editor

The second week of the LANTERN football prediction contest moves into full action with a rather strange twist. Upsets, after last week's results, are being predicted with regularity. Even some loyal Ohio Staters are forecasting that the Hoosiers will upset the Bucks in Saturday's clash in Bloomington.

The two toughest games to predict this week are the Michigan-Army clash in New York and the annual feud between Oklahoma and Texas at Dallas.

Michigan, seemingly on the rebound after losing to Michigan State two weeks ago, is the underdog to Army's Black Knights. The Cadets took over top spot in the AP poll this week replacing defeated Notre Dame.

Army has never lost to the Wolverines, but some of the entrants are looking for the Maize and Blue to avenge last year's 21-7 defeat at the hands of Red Blaik's legions.

Last year's Coach of the Year, Bud Wilkinson, sends his Red and White-clad Sooners against the fa-

vorite of the Southwestern Conference—Texas. Paced by Fullback Jim Owen, the Sooners are out to continue their undefeated streak, but the Longhorns may stop them.

Blair Cherry's Texans have gone down to 20-14 defeats the past two years at the hands of the Sooners, and the famed Texas pride has been more than hurt. If any team is to derail Oklahoma, the Longhorns are the squad that can do it.

Again the contest winner will win a Frank Medico pipe kit with the second and third place winners picking up a carton of Chesterfield cigarettes for their winning efforts.

Remember the deadline for mailed entries is midnight tonight, and entries can be brought to the LANTERN newsroom as late noon Friday. Winners of this week's contest will be announced in Monday's LANTERN.

About 53 per cent of Japan's adult workers are currently engaged in fishing, forestry, farming or mining.

## Bucks Hold 10-Game Edge In Hoosier Series

When the Bucks go on the field Saturday at Bloomington, Indiana, they will be seeking their 20th win in 32 meetings with the Hoosiers. Two of the frays ended in ties. Highest score in the series was last year and 1916, as the Scarlet rolled to 46-7 wins. Lowest total was a scoreless tie in 1929.

1901	Ohio State 6; Indiana 18
1902	Ohio State 6; Indiana 6
1903	Ohio State 16; Indiana 16

1904	Ohio State 0; Indiana 8
1905	Ohio State 0; Indiana 11
1913	Ohio State 6; Indiana 7
1914	Ohio State 13; Indiana 3
1915	Ohio State 10; Indiana 9
1916	Ohio State 46; Indiana 7

1917	Ohio State 26; Indiana 3
1924	Ohio State 7; Indiana 12
1925	Ohio State 7; Indiana 0
1928	Ohio State 13; Indiana 0
1929	Ohio State 0; Indiana 0
1930	Ohio State 23; Indiana 0
1931	Ohio State 13; Indiana 6
1932	Ohio State 7; Indiana 7
1933	Ohio State 21; Indiana 0

### Prof. Laurie To Address Plant Institute Meeting

Prof. Alex Laurie, head of the floriculture division in the department of horticulture and forestry at Ohio State, will address a meeting of the Plant Institute at 4 p. m. Monday in Room 112, Horticulture and Forestry Building, on the campus. He will speak on recent developments in floriculture.

Professor Laurie has served on the staff of the department of horticulture since 1929 and has been head of the floriculture division during the same period.

### 'Careful Of Holes' -Completion Near On Union Heating

It won't be long until students can stop dreaming about falling into holes on the Oval.

A necessity for the heating system of the new Student Union, the holes have been dug to install expansion pipes for the main steam pipe line crossing the center of the Oval.

The special expansion pipes will hold an additional 200 pounds pressure over the normal capacities of the main line, and may expand as much as 24 inches.

Plans call for the completion of the project in less than three weeks.

There are more than 3,200 fasteners, including nuts, bolts, screws and rivets, in a typical passenger automobile.

When you want QUICK RESULTS why not try a LANTERN Classified Ad. UN-3148, Ext. 747.

## Campus Interviews on Cigarette Tests

### Number 3...THE FLICKER

Don't think our neat-pleated friend with the drape-shape doesn't know the score! He's plenty hep to all those tricky cigarette tests! If you're in the groove, they're not fooling you, either. You know, from your own smoking experience, that just one puff of this brand ... then one puff of that brand isn't going to give you the answer you want. What can you possibly tell by a quick inhale and exhale, a whiff or a sniff?

**The sensible test** — the one that gives you the proper answer — is a day after day, pack-after-pack tryout for 30 days. It's the Camel 30-Day Mildness Test! You judge Camels for 30 days in your own "T-Zone" (T for Throat, T for Taste) — the real proving ground for a cigarette. Once you've tested Camels as a steady smoke, you'll know why ...

**More People Smoke Camels than any other cigarette!**

## Will Michigan State disrupt the Big Ten?

How will the newcomers from East Lansing affect the pigskin picture? Will they drain talent away from present Big Ten giants? Already this year they've whipped mighty Michigan. Will the Spartans be even tougher when they play their first conference schedule in '53? In the Oct. 14 Saturday Evening Post you'll get the inside facts and expert Stanley Frank's pointers on what to expect. Be sure to read...

Offices: Journalism Building. Phone: UN-3148, Extension 745.

## Marching Forward

Sometime soon the Democrats will hold a political meeting on campus—fully sanctioned by the University. The Republicans will reportedly also hold a rally here in the near future.

So after many months, and much consideration—the doors of the Ohio State campus are being thrown open to political speakers. The highly-controversial "Speakers' Rule" has been relaxed.

The University makes it clear that it is endorsing neither party, and remains entirely neutral on the question of politics.

The administration feels, and rightly so, we believe, that students should be given a chance to hear members of both parties discuss the merits of the program offered by each party.

We feel that this is a very progressive step. In this current post-war world, students who are the deciding generation of the future should be given every opportunity to debate and to listen to arguments from all sides.

Then with forthright conviction they should cast their ballot for the side they feel to be the best.

For too many years we were limited by the ban on political speakers on campus. We could see the University's point of view,

and now we wish to commend the administration for its very wise decision to make the University a forum whereby both sides of the political story can be told.

This is one of the fundamental principles upon which the democratic system of government is founded; and as long as we keep it that way, so long will this nation remain great.

## City Of Smoke

Lately we've been hearing several gripes from students about Columbus—City of Smoke. It seems that in some parts of the University district, the air is so befouled with smoke that cars, clothes, and lungs are continually dirty.

We think this is a fairly legitimate gripe, particularly in the fraternity and sorority districts around Indianola and Iuka, and down to 15th, where the houses are closely packed.

We know the city has taken steps through the Division of Smoke Regulation and Inspection to control smoke, as so many leading municipalities do. But it would seem to us that a new survey of the University district should be made by the city.

After all, the University goes to great lengths to insure our health and well being, via pre-entrance physicals, and maintenance of the Health Service in Baker Hall.

All its efforts would be to no avail if we are to be continually exposed to such air.

So we call on the city of Columbus, in cooperation with University officials, to make a study of the situation, and come up with some definite recommendations and improvements.

## No Real Purpose

With the Pacific war now having been over for nearly five years, and with our State Department attempting to solidify and strengthen our relations with the Asiatics, we don't think that it's a very good idea for money-hungry movie-makers, ready to go to any lengths to make a profit, to reissue old movies made during the height of the war.

Too often these pictures, characterizing the Japanese as bestial, half-animal creatures, tend only to reopen old wounds, and inflame soothed minds.

We're particularly thinking of such epics as "Beasts of the East," and "Back to Bataan."

We feel that at the present time such pictures do considerably more harm than good, and reissuance should be halted.

## Young American Officer Returns Safely After 69 Days Behind Enemy Lines

By Hal Boyle

KOREA—(AP)—A young American officer has returned safely after spending 69 incredible days alone behind Red lines.

With no weapon but his courage, Second Lt. Joseph E. Hicks, a 25-year-old platoon leader from Coden, Ill., stoically endured every hardship rather than surrender.

"I would rather have starved," he said grimly.

And perhaps he would have starved but for a loyal young South Korean who brought him food and saved his life by moving him from one mountain hideaway to another whenever danger of capture grew near.

For security reasons this native patriot cannot be identified now. But he risked the lives of himself and his wife and six small children to help the American.

"He is the only reason I am alive today," said Hicks gratefully. "I had to depend on his thinking and initiative rather than my own. And we could talk to each other only by gestures and by drawing pictures on the ground with sticks."

Hicks, who served with the Marines in the last war, looked like a storybook hermit when he came down out of the hills after nearly 10 weeks. His black hair fell to his shoulders. He had a thick matted beard. And only thin tatters of his fatigue uniform still clung to his 6-foot 1-inch frame.

The first six days of his ordeal he had nothing at all to eat. The rest of the time he had lived al-

most entirely on rice. But he made a rueful discovery:

"Why, I've gained weight!"

But Hicks was far below his normal 175 pounds when his adventurous saga began. For more than three weeks he and his men had been fighting desperate delaying withdrawal actions with the rest of the remnants of the shattered American 24th Infantry Division.

In the early hours of July 29 Lieutenant Hicks and his platoon were in a pitifully small force assigned the impossible task of outposting Kochang, a city 50 miles southwest of Taegu, the provincial capital.

The vanguard of several Red divisions rushing south trying to seize the vital port at Pusan simply flowed around them, encircled the city and blew up the river bridge behind them on the escape route to Taegu.

Hicks fell back to the river, divided his men into squads and waited until his own squad was almost over to the far bank before starting across the stream himself. On the other side they were caught in a rice paddy by Red machinegun fire and all were killed, wounded or captured except Hicks.

"I escaped by crawling into a small road culvert," he said. "It was almost filled with water and there was only about four inches between the water and the ceiling of the culvert. I stayed there until dark with just my face out of the water so I could breathe."

He finally emerged when heavy

enemy traffic slowed and there was no full moon to keep him from traveling at night. He was so weak he fell while trying to cross the road. He crawled to a stream and drank the first water he had had since his canteen went dry four days before.

That revived him. He got a meal of rice from a peasant hut, then walked for two nights across the mountains. But enemy troops grew more numerous as he approached the Naktong River. He couldn't get through.

It was then he met the young South Korean. On his advice Hicks hid out in the hills. The Korean brought him rice every few days and kept him posted on war developments by drawing maps on the ground. Twice he found the lieutenant fresh hiding places when searching Red patrols probed near.

Hicks donned a white robe and a peasant straw hat. He marched for several miles with his friend past retreating enemy stragglers. Then he met some South Korean police who took him to an American command post.

A U. S. intelligence major took down his story and then said:

"Gee, you're lucky—we're going to have a swell meal tonight."

"What is it?" asked Hicks, hungrily munching some canned rations.

"Rice," said the major. "It's the first we've had in a long time."

## Spain Guards Pyrenees Against Red Invasion

By Haynes Thompson, UP Staff Correspondent

MADRID (UP) — Modern warfare has detracted little from the defensive value of the Pyrenees Mountains, Spain's historic line of defense to the north, military observers here say.

The scene of both north and south-bound invasions through centuries of history, the towering, rugged colossus is as much an obstacle today as it was to Romans, they believe.

They add that nothing so far observed in the fighting in Korea indicates the contrary.

With the outbreak of the Korean war, however, and with it renewed fears of a Soviet sweep through western Europe, Spain's defenses in the Pyrenees are getting fresh attention from military planners.

Many observers believe the mountains are the only obstacle in western Europe capable of halting, even temporarily, a Russian sweep west.

### Secret Guarded

Just what Spain has in the Pyrenees is a closely guarded secret. However, a look at the mountains alone indicates the barrier they offer against invasion from the north.

Stretching almost entirely across the Spanish-French border, the Pyrenees cover 34,375 square miles of ground, two-thirds of which lie in Spain.

As the crow flies they are 279 miles long, but actually cover 375 miles between the Atlantic Ocean and the Mediterranean Sea.

They vary in width from 39 miles between Pamplona, Spain, and St. Jean de Luz, France, to 81 mile wide in the region of Andorra.

Within 30 miles of the Mediterranean they rise to 9,137 feet. From there to the peak of Anie, 54 miles from the Atlantic, there isn't a pass under 5,249 feet.

### Weak on Flanks

In between lie towering, inaccessible peaks with virtually no means of lateral communications between them. The tallest, Maledeta, goes up 11,168 feet.

From a military point of view, however, the Pyrenees are weak in two places the Atlantic and Mediterranean flanks. Both have been traditional invasion routes for south and north-bound armies.

Through the narrow corridor, only 16 miles wide between the foot of the Pyrenees and the Mediterranean, Hannibal crossed into Spain in 218 B.C.

In 718 A.D. the Saracens, then masters of Spain, invaded France over the same route until they were stopped by Charles Martel.

The Atlantic side is similarly weak, but it also has been a traditional route for invaders.

### Used by Napoleon

Napoleon's generals used Roncesvalles pass on the Atlantic side to

join the Battle of Sorauren in 1813.

Should Russia attempt an invasion of Spain today, many observers believe she might follow both Napoleon and Hannibal and attempt both flanks simultaneously.

How long such a double thrust could be held by Spain, no one here seems willing to predict.

Most observers are agreed, however, that without outside support or more up-to-date armaments, Spain's best efforts in repelling a Russian attack would amount at the most to only a delaying action.

After a recent inspection of Spain's defenses in the Pyrenees by American military attaches here, the Spanish army reportedly strengthened several passes with reinforcements from Zaragoza.

All are believed well covered by a network of hidden defenses which don't meet the eye on a casual drive through the area.

## Cities Unite To Chase Away Smoke

CHICAGO — (UP) — Cities are tightening up on smoke control in an effort to chase smog, the American Municipal Association reports.

More than 200 municipalities now have smoke control ordinances, the association said. Most of them prohibit emission of dense smoke for more than a few minutes at a time.

St. Louis and Pittsburgh, however, prohibit the use of smoke-producing fuels or require the use of burners that will consume high volatile coal without producing smoke.

Pittsburgh's fight against smoke recently was extended to all of Allegheny County. One and two-family homes are excused under the Allegheny County law for the time being, but will come under its provisions in 1953.

Steel mills in the area were given four years to finish their research on how to cut out smoke.

In Wisconsin, Milwaukee County set up 70 air pollution test points to determine where the worst contamination exists, what the sources of pollution are, and how the conditions are affected by topography, air currents and atmospheric conditions.

## Ovalhead

By Smiddy

It's times like this when I wish rushing was over!!

## Korean Girl Joins Marines

Captain W. F. Lloyd, recruiting officer for the United States marines in Washington, D. C., swears in Verna Kim, a 21-year-old South Korean girl, as a member of the corps. Miss Kim's family came from the Seoul area, now recaptured from the Red forces by U.N. invasion forces. Miss Kim's father, who died in 1944, was a sergeant in the American army. Miss Kim is following a family tradition.

## Fall Weddings Continue To Fill Social Calendar

Mr. and Mrs. Donald H. Mayhew, of Salem, announce the marriage Sept. 29 of their daughter, Esther Jean, to Allan M. Lackey, son of Mr. and Mrs. Glenn M. Lackey, of Delaware.

Both will be graduated from the College of Agriculture in December. She is a member of \* Mortar Board and Phi Upsilon Omicron, and is majoring in home economics education. Lackey is affiliated with Alpha Gamma Sigma fraternity.

### Berg-Lancia

Gloria Berg, daughter of Mr. and Mrs. Leslie Berg, of Uhrichsville, became the bride of Remus John Lancia, son of Mrs. Marguerite Lancia, of Columbus, on Aug. 12.

She is employed by the Ohio State Bureau of Public Relations, and he graduated from Ohio State, and is associated with the F. & R. Lazarus Co.

### Wetzel-Duvall

Barbara Ann Wetzel, daughter of Mrs. Elizabeth L. Wetzel, of Santo, Tex., was married to Bill Duvall, son of Mr. and Mrs. W. J. Duvall, of Bellaire, on June 3.

He is majoring in commercial art.

### Gohlke-Brown

August 26 was the wedding date of Jean Ann Gohlke, daughter of

Mr. and Mrs. Harold G. Gohlke, of Columbus, and Walter Thomas Brown, son of Mr. and Mrs. Harvey M. Brown, of Columbus.

The bride, who graduated from the College of Education of Capital University, is a teacher in the Columbus schools. Brown, who is a member of Alpha Tau Omega, was graduated from the College of Engineering. He is now a field engineer with the Gates Rubber Co.

## Truman To See Sister Installed As Lodge Head

WASHINGTON, Oct. 11—(AP)—Quiet, friendly Miss Mary Jane Truman will be installed tonight as Missouri's Grand Matron of the Order of Eastern Star, a Masonic auxiliary.

And her big brother, Harry, a 33rd degree Mason and a former Grand Master of the Missouri Lodge, will be on hand in St. Louis to help oversee the ceremony.

The President's plan to fly out for the ceremony was disclosed by the White House Monday.

Mr. Truman left for St. Louis at 3:30 (EST) today for the two hour and 45 minute flight.

## On Tip Of His Tongue

MEMPHIS, Tenn.—(UP)—Bob Trundle's girl friend can't say he isn't always thinking of her. Her name is constantly on the tip of his tongue. It's tattooed there.

## Chalk Covers Up Lipstick On Hollywood Shirts

By Patricia Clary, UP Staff Correspondent

HOLLYWOOD (UP)—A movie wardrobe man has come up with something new to make clothes look better and last longer. He uses colored chalk crayons to cover up lipstick on the collar or egg on the vest.

When a movie queen accidentally smears the hero's white dinner jacket with lipstick, he\* doesn't have to run off to change if Edward Wynigear is around. Wynigear simply hauls out some white chalk and presently things are good as new.

Wynigear, men's costumer for 20th Century-Fox's technicolor comedy, "Half Angel," has had 10 years of experience in caring for the duds of such well-groomed stars as Tyrone Power, Victor Mature, Dan Dailey, Clifton Webb, Jimmy Stewart and Cornel Wilde. He learned some pointers applicable to anyone.

### Some Suggestions

His first suggestion is to brush and clean clothes before hanging them in the closet. Ordinary non-combustible carbon tetrachloride will clean most grease spots. Use a felt pad and rub hard over an area larger than the spot, to avoid mottling. If that doesn't work, try plain water.

If that fails, go to the cleaners. Second, he says, moth-proof clos-

ets and keep them dry and well ventilated.

Brush, air and sun clothes periodically.

"If you remove spots when the clothes are hung up," Wynigear explained, "they are easier to clean later and won't need cleaning so often. Consequently, they'll last longer."

## Through the Looking Glass

With Anita Mendelson

This year's fashion silhouette for the Ohio State coed features longer hair, shorter skirts, and lots of color—plus the "slim look"!

Authentic tartan plaids are big news, as is velvet, and "fake" fur. Blackboard gray, a new dusky shade, is enlivened by touches of "hot orange."

### Plaids Are Popular

No girl who considers herself up to the minute in fashion will be without an array of colorful plaids this Fall. Skirts, suits, coats, weskits—even shoulder bags, belts, and matching shoes are featured in a variety of tartans.

Perennially popular fabrics, such as jersey and corduroy, are still "the thing" in sport suits, casual dresses, and skirts. Jumpers, too, are an essential part of "Miss 1950's" wardrobe.

Even the traditional skirts 'n' sweaters have a newly-feminine look. Skirts are pleated or slim, often in velvet or fur. Tiny collars and three-quarter length sleeves are shown on the Fall collection of sweaters.

Dashing across the Oval on those cold, windy days requires something special in the line of warmth. A bright fleece coat with a zip-in lining is guaranteed to produce sheer comfort—and it's attractive and practical as well! Another favorite of college girls everywhere is the belted storm coat, fleece-lined with a mouton collar.

### Luxury For Evening

Now that we're all set for classes, how about something special for that big date? Rich fabrics add new interest to "separates"—brocade, velvet, and fur skirts, with bare camisole tops are both smart and economical. And for pure luxury, don't neglect the cashmere sweaters, elaborately embroidered or beaded for evening wear!

"Jewel tones"—Ruby red and sapphire blue—are the latest news from Paris, so why not set the pace, and adopt these colors?

Tweed has done a "quick-change" from the rough sport suits of the past to this season's slim, dressy suits, to be worn with black velvet accessories. This is the perfect costume for a dinner date, or for an evening at the Hartman.

### "Two-in-One" Dresses

The designers seem intent on saving us money this year, so most economical and fashion-wise females should give an enthusiastic welcome to the "two-in-one" dresses. A holdover from last season, but still good, is the bare dress

with a "cover-up" jacket—truly a dual-purpose costume.

Another offering that's easy on the eyes and the pocketbook is a slim sheath (perhaps of black wool jersey) with a matching plaid taffeta apron skirt. This is really two outfits in one, and will double as a sophisticated and simple dress (with a rhinestone clip for glitter) or as the gayest of dance frocks.

### "Twinkle-Toes"

Now that skirts are shorter, shoes are receiving more emphasis, and appear in elaborate satins, brocades, and velvets, studded with rhinestones or beads—and in really startling colors! Here's good news for you gals who have saved your bronze shoes that were the rage several years ago—they're now back in style with a bang!

Evening gowns are extremely feminine and romantic, so look for lots of tulle, chiffon, lace, and something new—gold moire. The "long vs. short" gowns controversy is still on, so take your choice of lengths!

### That Extra Touch

Some odds 'n' ends for those extra touches . . . Tiny fur scarves, buttons and belts are seen on the most tailored suits and dresses . . . Bronze jewelry is gaining ground in popularity—and have you seen the rhinestone earrings that are practically shoulder-length? . . . Local coeds are thronging to the stores for gold and enamel pendants to be worn on neck chains, or as pins.

If you are the exotic type, note the Spanish effect, as seen in "toreador pants"—similar to very snug pedal pushers, worn with braided-trimmed boleros . . . For leisure wear, the short, pleated kilts—complete with fringe and big safe-

ty pin—are becoming popular with New Yorkers.

### Cosmetic Jewelry

We can't resist adding a note on "cosmetic jewelry," as the fashion magazines are referring to the powdered coloring or tints for the hair. Now you can have hair in shades of blue, violet, silver, gold, or a shaded effect—to be washed out the next day, or really dyed. For those enthusiastic individualists who yearn to be "different"—we promise that this will do the trick!

## Bored With Life? Become Mother Of Five Kids

LaPORTE, Ind.—(UP)—A LaPorte mother claims "there's never a dull moment when you have children." In a four-week period:

Daughter Sally blew into a strange dog's face and it knocked one of her front teeth out.

Son Bobby came running home minus his pants, saying someone stole them.

Daughter Dottie helped break an expensive sun-parlor window.

Daughter Sue cut her foot on glass.

The baby of the family broke out with chicken-pox.

Her husband's boss and wife dropped in unexpectedly.

## Dean Fordham To Speak

Dean Jefferson Barnes Fordham, of the College of Law, will address the Ohio State Pre-Law Club at 7:30 p. m. Thursday in Page Hall.

His topic will be "The Study of Law." Anyone interested is invited to attend.

## MADemoiselle

the quality magazine for smart young women

Everything from shopping hints to job advice, from bibelots to ballet. October's typical, with:

- a well-known psychiatrist's wise, witty article on male and female roles in present society
- Paris fashions for college budgets
- what the class of '40 thinks, ten years out of college, about the men they married
- a short story by a brilliant young author
- "Memo from the Editor"—behind-the-scenes info on a Paris editing jaunt

October MADemoiselle

is on your newsstand today

## YM-YW Sponsor Annual Campus Dance Saturday

The third all-campus dance of the quarter will be held Saturday night from 9 to 12 in the Men's Gym.

It is the traditional Icebreaker Dance sponsored by the campus YMCA and YWCA. Tommy Dale's orchestra will provide the music.

Joe Marino, Ed-3, popular ukulelist, will present a song-and-uke routine at intermission.

Co-chairmen for the dance are Bette Gragon and William Judy. Assisting Blanche Lukin, chairman of decorations, are Alice Hill and Beverly Klunk. Jean Evans is in charge of publicity.

Mr. and Mrs. Otto Schlaak and Mr. and Mrs. Hardean K. Naeseth will be chaperons.

## Phi Delta Chi Opens Rush

Phi Delta Chi, professional fraternity of the College of Pharmacy, will hold an open rush party for pharmacy students at 8 p. m. Thursday at the chapter house, 176 E. 15th Ave.

You'll never be out of tune with Judy Bond blouses!

They lend grace notes to your suits, skirts, jumpers, slacks and they're price-scaled for budget harmony!

# OFFICIAL BULLETIN

THE OHIO STATE UNIVERSITY

THIS BULLETIN will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for meetings. In the interest of efficiency and to avoid conflicts the following announcement is made: No meetings or functions of any sort will be permitted or provided for either on the campus or in the University Buildings unless authorized and announced in the Daily Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the President's office not later than noon for the day following.

VOL. XXX WEDNESDAY, OCTOBER 11, 1950 No. 17

## University Activities

### Wednesday, October 11:

University Grange, Room 206, Horticulture and Forestry Building, 7 to 10:30 p. m.

Strollers Tryouts, Chapel, 7 p. m.

University Grange, Plumb Hall Arena, 7:30 to 10 p. m.

Boot and Saddle, Room 205, Townshend Hall, 7:30 to 9 p. m.

School of Music, Room 111, Hughes Hall, 7 to 9 p. m.

University School Meeting, Rooms 117, 118, University School, 6 to 11:30 p. m.

College of Veterinary Medicine, Hagerty Auditorium, 8 p. m.

Engineers' Council, Room 233, Lord Hall, 5 to 6:30 p. m.

Council of Men's Organization, Room 100, Page Hall, 7:15 to 9 p. m.

O.S.U. Masonic Club, Ives Auditorium, 7 to 10 p. m.

Wheaton Club, Room 110, Botany and Zoology Building, 7:30 to 10:30 p. m.

Huio Hawaii Meeting, Room 210, University School, 7 to 11 p. m.

VIC, Room 309, Pomerene Hall, 4 to 5 p. m.

AAUW, Room 309, Pomerene Hall, 6 to 8 p. m.

Panhellenic, Room 306, Pomerene Hall, 8 a. m. to 3:30 p. m.

AAUW, Room 306, Pomerene Hall, 4 to 6 p. m.

Pleiades, Lyra, Room 306, Pomerene Hall, 6:30 to 8 p. m.

Mothers' Club, Room 213, Pomerene Hall, 1 to 4 p. m.

Bridge Lessons, Room 213, Pomerene Hall, 6:30 to 10 p. m.

518 Class, Room 307, Pomerene Hall, 9 to 10 a. m.

Pleiades, Room 307, Pomerene Hall, 1 to 2 p. m.

YWCA-YMCA, Room 307, Pomerene Hall, 2 to 3 p. m.

Pomerene Council, Room 307, Pomerene Hall, 4 to 5 p. m.

VIC, Room 307, Pomerene Hall, 5 to 6 p. m.

WSGA Board, Room 307, Pomerene Hall, 7 to 10 p. m.

YWCA Party Planning, Room 212, Pomerene Hall, 5 to 6 p. m.

YWCA Circle, Room 212, Pomerene Hall, 4 to 5 p. m.

Tau Omega, Engineering Annex B, 7:30 to 9:30 p. m.

Thursday, October 12:

Sigma Xi, Chapel, 8 p. m.

Football Movies, Hagerty Auditorium, 7:30 p. m.

Society for Advancement of Management, Social Administration Auditorium, 7 p. m.

Floriculture Seminar, Room 109, Horticulture and Forestry Building, 7 to 8 p. m.

Student Senate, Room 100, Page Hall, 7:15 to 10 p. m.

American Dairy Science Association, Ives Auditorium, 7:30 to 9 p. m.

Flying Farmers, Room 200, Townshend Hall, 7 to 8:30 p. m.

Homecraft Club, Room 302, Chemistry Building, 8 to 10 p. m.

Mexicohio Society, Recreation Room, University School, 7:30 to 10 p. m.

Pre-Law Club, Room 101, Page Hall, 7:30 p. m.

Physical Education Club, Field House, 6 to 7:30 p. m.

Mid-Mirrors, Room 309, Pomerene Hall, 4 to 5 p. m.

Chemme Femme, Room 309, Pomerene Hall, 7:30 to 10 p. m.

Franklin County Alumnae, Room 306, Pomerene Hall, 1:30 to 3:30 p. m.

Omega Epsilon Phi, Room 306, Pomerene Hall, 7 to 9 p. m.

Links Mass Meeting, Room 213, Pomerene Hall, 4 to 5 p. m.

Forensic Society, Room 213, Pomerene Hall, 7 to 9 p. m.

518 Class, Room 307, Pomerene Hall, 3 to 4 p. m.

Mirrors, Room 307, Pomerene Hall, 5 to 6 p. m.

Association for Childhood Education, Room 307, Pomerene Hall, 7:30 to 8:30 p. m.

Excused from Classes

The following students may be excused from class attendance for the hours specified on Oct. 9 to attend student nurse observation at Neighborhood: Audree Mayer, 12 to 4 p. m.; Marjorie Brautigam, 2 to 5 p. m.

The following students may be excused from class attendance for the hours specified on Oct. 10, to attend student nurse observation at Neighborhood House: Patricia McCarthy from 12 to 3 p. m.; Nancy Pancaw, from 2 to 5 p. m.

Christine Y. Conaway, Dean of Women

Excused from Class Attendance

The following students may be excused from classes Tuesday, Oct. 10, to make a visit to the Armco Steel Corporation in Middletown, Ohio:

Edward J. Miller, Gerald E. Starkey, Albert B. Albrecht, Carl J. Muser, Vearl M. Loader, N. D. Bhalerao, Charles R. Benson, Paul W. Fritz, Robert A. Burney, David K. Priest, Stephen Zenczak, Robert D. Leggett, R. S. Heestand, John Oswald.

Sam Manos, Richard A. Speer, Paul Lockwood, John J. McCarthy, Norbert N. Peters, Richard Rhoney, S. K. Sheth, David A. Sanders, John Sedor, Anthony Straquadine, Herbert L. Leonard, Nick Mak-

## Arctic Expert Speaks Thursday

Capt. George J. Dufek, USN, a veteran of four expeditions into the polar regions, will speak at 8 p. m. Thursday, in University Hall Chapel.

His address, "Our Navy Explores Antarctica," will be illustrated by sound movies and will be open to the public under sponsorship of the University's chapter of Sigma Xi, scientific honor society.

Captain Dufek at present is a member of the Joint Logistics Plans Group, Joint Staff, at the Pentagon, Washington, D. C. He served as navigator of the U.S.S. Bear during Admiral Byrd's 1939-41 Antarctic Expedition and did exploratory flying over the South Polar continent at that time.

He was commander of the Eastern Task Group under Admiral Byrd in 1946 and served during the U. S. Antarctic Development Project in 1946-47. Captain Dufek also commanded Task Force 80, which was assigned in 1948 to establish weather stations in the high latitudes of the Arctic.

## Scientists To Study Effects Of A-Bomb

The story of the effects of an atom bomb attack will be the subject of scientists from Ohio colleges when they attend a four-day radiological defense institute here.

The institute will make available to the scientists valuable information which they can pass on the public.

Dr. A. B. Garrett, department of chemistry, is in charge of the institute.

rides, Richard Pugh, John Wade.

The following students may be excused from classes October 3, 4 and 5 to participate in the National Collegiate Judging Contest at Waterloo, Iowa:

Herman Rickard, Carl Young, William E. Davis, Jr., John Moore.

Paul Pulse II and Wendell Earl Anderson may be excused from classes the week of Oct. 9 through Oct. 13 to attend the National Future Farmers of America Convention at Kansas City.

JOSEPH A. PARK, Dean of Men

## South American Prof. Teaches Math Classes

Our South American neighbors have made an addition to the faculty of Ohio State in the person of Dr. Alberto P. Calderon, mathematics department.

The dismissal bell ringing on the first day of classes confused him at first. He couldn't decide whether to run for the nearest exit or close the class. However, helpful students explained the system to him.

Dr. Calderon is a native of Buenos Aires, Argentina. He attended school at the University of Buenos Aires and received the Rockefeller Scholarship to the University of Chicago.

He plans on staying here for a year, after which he will return to Buenos Aires.

## Grad's Essay Wins Prize In 1950 Award Contest

Hugh Lineberger, a Summer Quarter graduate, claimed second honors in the 1950 Roberts Award Contest, with his essay entry, "Liquor, Death of a Party." This annual contest awards prizes for themes relating to alcoholic issues.

Lineberger, a resident of Westerville, became interested in the U. S.'s alcoholic problem a few years ago. He devoted time and effort to the American Issue magazine, which is also concerned with the dry issue. Lineberger's winning theme also brought him a \$50 monetary reward.

Ohio State's Summer grad is now associated with the Schaeffer Pen and Pencil Co., Portland, Ia.

## Commie Defined

S A L E M, Ore.—(UP)—George Neuner, state attorney general, declined to give a legal definition of a Communist. Instead he offered his own definition: "Lowest type of humanity; an insect you can't spray against."

## Mexicohio Group Meets Thursday

Members of the Mexicohio Society at Ohio State will hear an illustrated talk by Prof. Harold O. Davidson of the department of industrial engineering on his recent trip to Mexico at their initial Autumn meeting at 7:30 p. m. Thursday in the recreation room at the University School. Professor Davidson spent the past Summer in Mexico and brought back a number of colored slides, which he will use in his talk.

The Mexicohio Society is composed of students who have studied in Mexico in connection with the University's Winter Quarter program at Mexico City College. Plans for the coming Winter Quarter in that country will be explained at the meeting Thursday night. Students interested in participating are invited to attend.

## Byrnes Named Editor

The appointment of Francis C. Byrnes as editor of the Agricultural Extension Service and the Ohio Agricultural Experiment Station was announced by University officials Monday.

Dean H. Mayberry, formerly with the Illinois Agricultural Extension Service, was appointed assistant editor.

# Rye Bread Proposed As Diet For Moon Flight

By Tom Roberts

Plans are nearly complete at the University of Akron for a rocket flight to the moon.

Yes—that's right—to the moon! Seems that the university's daily, The Buchtelite, proposed the flight some time ago and the faculty has decided to go along with the gag.

The flight now has a fuel technician from the ROTC staff, an amateur astronomer who is usually busy being the dean of the College of Liberal Arts, and the head of the department of English as its flight captain.

The English department head should be able to cope with the problems that have already arisen since he has extensive background in Wisconsin—the land of the big cheese. He has already warned crew members that because of weight restrictions no food except rye bread would be taken.

## Small Fry

West Virginia University's chapter of Tau Kappa Epsilon has formally pledged seven-month-old George M. Barrick, III. Young George, future member of the class of '73, has been granted initiation fees and a waiver of dues for his first year of attendance, 1968-69.

There's good reason for this premature fraternization. You see, George's father, Lt. George M. Barrick, Jr., former president of Tau Kappa Epsilon, has been missing in action in Korea since July 12.

## No TV Wiggles

The University of Michigan claims that television, which has "replaced comic books," has had no effect on the grades and study habits of its students.

A check among fraternity and sorority houses from both the top and bottom rungs of the grade ladder showed no correlation between the grade levels of the various houses and the fact that they were with or without TV.

## Shrewd Idea

The nightmare of cramming for finals may be over for the students at Ohio University. The university has set aside a two-day reading and reviewing period immediately preceding first semester finals. The

time may also be used to prepare second semester schedules in conference with counselors and advisers. Students are now waiting and wishing for similar words in regard to second semester exams.

## Plugging Course

Here's a plug for General Studies 520 — "Factors in Successful Marriage." A professor of sociology at the University of North Carolina says there are fewer divorces among couples who took courses in marriage and family problems while in college than among graduates who did not.

He states that between 600 and 700 colleges and universities now offer courses dealing with marriage and family problems. This number is ever increasing as these studies lose the "hush-hush atmosphere" that has surrounded them for the last 25 years.

Didn't they used to say, "You can't learn that in school?"

## Mrs. "Voice"

While on the subject of divorce, we may as well pass on the word that Nancy Sinatra recently matriculated at the University of California. She won a separate maintenance suit from crooner-husband Frankie two weeks ago.

Mrs. Sinatra says she is sincere about getting a college education and can see no reason for so much publicity. Her reason for going to college, she said, is to learn more about the fine things in life and be able to talk more intelligently to her children when they grow up.

## Turnabout

How's this for table-turning — six freshmen were recently charged with hazing upperclassmen at the University of Wisconsin. Three pledges of Pi Lambda Phi paid disorderly conduct fines of \$10 in municipal court after taking a car from an upperclassman, picking up two other upperclassmen, driving them out of the city and stranding them beside the road minus their billfolds.

## Free Advice

With all this advice to freshmen forthcoming I would like to contribute my bit with this formula clipped from Long Island University's Seawanhaka:

I don't talk with the prof after class.

I don't recite in class until called upon.

I don't ask questions in class.

I don't speak to the profs in the halls.

I don't write a book when I can answer a quiz in four sentences.

I don't laugh at the prof's jokes unless they are funny.

I'm on probation.

# NSRB Executive To Visit Campus

Brig. Gen. Robert J. Smith, vice-chairman of the National Security Resources Board, Washington, D. C., will speak at Ohio State's Sales Managers Conference Thursday, Oct. 26, it was announced today by Dr. H. H. Maynard, conference chairman.

As principal assistant to Mr. W. Stuart Symington, General Smith is second in command in the NSRB, coordinating agency for all U. S. mobilization plans.

The key Washington official, now on leave from the presidency of Pioneer Airlines, Dallas, Tex., commanded the 443rd Troop Carrier Wing of the U. S. Air Force during the war. He is at present also president of the National Air Council, an organization which includes some of the nation's most prominent business and civic leaders.

## What, No Sharpeners?

LEXINGTON, Ky.—(UP)—When they opened the new fine arts building on the campus of the University of Kentucky, housing classrooms, auditoriums, workshops and laboratories, students found one matter had been forgotten—there were no pencil sharpeners.

# Frat Pledge Lists Given For Quarter

Editor's Note: The following list is given alphabetically by fraternities. More lists will follow in later editions.

Ohio State fraternities pledged 802 men Sunday, Oct. 1, after which the pledges attended the Pledge Convocation ceremonies held in University Hall at 7:30 that evening.

The following list includes the names of some of the pledges:

ACACIA — Jack W. Cheetham, Charles R. Cowdry, James E. Craney, Robert M. Evans, Robert E. Frost, James L. Halterman, Steve Jones, Dean R. Keller, Duane D. Mehlman, Lemoin T. Walton, Duane L. Wear.

ALPHA EPSILON PI — Jack M. Adelman, Bartley E. Antine, Nathaniel Bauer, Marshall L. Berkowitz, Gabriel Bialy, Leonard M. Biersky, Jerry Delman, Normand M. Diamond, Howard J. Drechsler, Kenneth P. Eisenbach, Charles H. Epstein, Jerome S. Epstein, Sheldon Farber, Walter Feldman, Melvin P. Gilbert, Donald B. Glaser, Richard J. Goldstein, Robert A. Goodman, Stanley D. Gottsegen, Robert I. Grue.

Morton L. Harshman, Lewis M. Horwitz, Jerome C. Imber, Marvin A. Katz, Jareo B. Klein, Myron N. Koven, Jerry E. Krakoff, Leonard J. Levenson, Alan S. Loden, Marvin Okin, Gerald M. Ozaw, Karl P. Perlman, Alan B. Peters, Irving Rubinstein, Sandor Schaeffer, Julius Scher, Malcolm Schwartz.

Leon H. Schwartz, Otto D. Schwartz, Malcolm R. Shake, Howard Shmerler, Clarence Shorr, Burton Silver, Robert M. Silverberg, Lewis A. Silverman, Peter K. Studner, Leroy Timen, Howard C. Trau, Leon Wall, Howard A. Wechsler, Gerald B. Weiner, Richard H. Weise, Edwin B. Wiener, Martin D. Young.

ALPHA GAMMA RHO — Wendell E. Anderson, Guy R. Beretich, Deshler B. Cameron, Henry S. Drevet, Ned L. Emig, Daniel A. Farwick, Fred R. Freshley, William D. Fulton, David I. Gooding, John O. Haley, Robert M. Huddle, Thos. B. Kyle Jr., Dean H. Lewis, William L. Lovell.

Charles V. Moore, Roderick L. Morange, Paul D. Parsons, William J. Richards, Harold R. Rittenhouse, Robert R. Russell, James R. Sackett, Thomas L. Showalter, L. Andre Swiger, Robert M. Timmons, James E. Wagner.

ALPHA PHI DELTA — Vincent S. Benedetta.

ALPHA SIGMA PHI — Thomas M. Carter, John Croushore, Robert D. Hyatt, Richard E. Jacobs, John W. Uttley Sr.

ALPHA TAU OMEGA — Edward P. Ballinger, Herbert W. Barclay, James E. Bodman, James R. Burley, Jay A. Gingery, David S. Gordon, Kenneth A. Hamman, Raymond H. Hohenberger, William W. Johnson, Theodore M. Katula, Bernard R. Kaupio, Charles W. Martin, David M. McBride, Richard L. McCombs, Bernard J. Murdock, Pader R. Powell, David G. Roof, Raymond T. Secor, Rodger F. Thomas, Robert F. Thornton, Thomas E. Waddle, Roland G. Watson, Jack F. Zahner.

BETA THETA PI — John D. Ball, George H. Beaver Jr., Clarkson B. Bitzer, Don T. Cherry, Robert R. Clark, Larry P. Coyle, Harry N. Deeks, James R. Dieter, David C. Dietz, James B. Findley, David J.

# More Rally Publicity Is Needed, Students Say

"Well, why weren't we told about it?"

That's the answer many students gave when they heard that Wes Fesler termed them "fair weather friends." Fesler made this remark Tuesday to account for the poor turnout at last Friday's football rally.

Several students stated that they didn't know there was to be a rally. They maintained there was insufficient advance publicity.

Suggestions for better publicity included distribution of posters and use of loud speakers at 15th and High during noon hours each Friday.

Several fraternities and sororities were asked why they didn't turn out in a body. Some replied, "We usually do, but we just didn't have time last Friday."

Others said the rallies don't have

enough variety—that they're always the "same old thing."

They all felt that students should be asked to take a more active part in the proceedings. A standard comment was, "We just go down there and stand."

Students suggested a remedy for this, too. They said each fraternity and sorority might give its own original cheer or fight song.

# Chinchillas Hold Key To Future

WINNIPEG, Man.—(UP)—Charles Addison, an insurance man, keeps his future in his basement and hopes some day it will yield good profits.

Addison raises expensive chinchillas as a hobby. He started with one pair worth \$1,650 and now has a dozen pairs in wire cages in his basement. He hopes to enlarge the "ranch" this Fall and eventually devote his full time to the chinchilla fur industry.

Chinchilla coats retail for about \$25,000.

"With a herd of 100 pair of breeders producing 200 pelts a year, a rancher could make himself a nice little profit of around \$5,000 a year," Addison said.

Addison already has sold one pair of his animals at a profit that allowed him to buy a car.

The Air Force veteran admitted that the \$1,650 he paid for his first pair of chinchillas was "quite a big chunk of dough to put out for a couple of little animals."

"Until they produced their first litter the wife and I kept our fingers crossed, hoping nothing would happen to them," he said.

Eileen, his wife, is enthusiastic about the hobby with money-making possibilities. She said she liked to look after the animals. "They're so clean and affectionate," she said.

The chinchillas are herbivorous animals which sleep during the day and awake in the evening. They mate for life in most cases and average two litters a year with one to four in a litter.

## Senate Elections Committee Will Ask For Changes

(Continued from Page One)

legians, has "gone too far." The Collegians viewpoint, as expressed by one of their members, is that every student who enters Ohio State receives the right to join any organization, and should in no way be restricted by an outside union with "monopolistic ideas" or by its restraints. The same member felt that organizations should be allowed to hire bands which they can afford.

But if a number of senators change their minds, it would mean that no more "big-name" bands will appear at the University for all-campus dances. Those "Big-name" bands have been big drawing cards for the dances.

Also to come up before Senate in the near future is a report of the elections committee which met at the Ohio Union yesterday.

If the senate accepts recommendations of the committee, students will be voting in their respective college offices during future elections. The new plan will require voters to sign a register and have their schedule cards punched. Besides schedule cards, other identification may be required, such as drivers' license.

The student would then get a new type ballot which has a stub attached. A registration number would be placed on the stubs, which must be signed. The stubs could then be detached, preventing anyone from know for whom the student voted.

## Housewife Ordered To Church For One Year

PORTSMOUTH, Oct. 11—(AP)—A municipal court judge has ordered a Portsmouth housewife to attend church every Sunday for a year—or spend 30 days in jail and pay a fine of \$10 and costs.

The unusual sentence was imposed on Mrs. Violet Copley, 36, after being convicted on an assault and battery charge before Judge Kenneth Cranston.

A neighbor had charged that Mrs. Copley struck her with a toy ball bat.

Mrs. Copley elected to attend church for the next year.

## Allies Ask Early Vote On Police Plan

LAKE SUCCESS, Oct. 11—(AP)—Undeterred by Russian opposition, the United States and her allies redoubled their efforts today to give the United Nations General Assembly military power to repel aggression whenever the Security Council is deadlocked by Soviet veto.

Although disappointed that Soviet Foreign Minister Andrei Y. Vishinsky's promised "Partial support" turned out to be almost complete opposition, they planned strategy for an early vote. The expected adoption would mean the UN could never be caught short again by an emergency like the Korean war.

They wrote off Soviet obstruction as no more than they had expected. U. S. delegate John Foster Dulles, who is guiding the resolution through the UN said:

"The important thing is to have armed units in readiness to act promptly to repel aggression. That Vishinsky rejects. This will disappoint all people who want positive action to strengthen the United Nations for peace."

Vishinsky based his objection to this point—and to most of the rest of the resolution—on the claim that it would undermine the authority of the Security Council, which he called "The foundation stone of the United Nations."

Only the Security Council, he said in the course of a 92-minute speech, has the power under the UN Charter to control armed forces.

Almost half of the speech was devoted to a ringing defense of the Soviet use of the veto in the council.

Maintaining that the council was controlled by "an Anglo-American bloc," he declared the veto "Is a method of self-defense against a 'Diktat' which other states, considering themselves all powerful and glorious, attempt to foist on others."

Diplomats said since experience has proved the UN had been stymied in the past by the Soviet veto, it must find a way around that difficulty in order not to turn into a mere debating society.

## Villages Swept By Wave

BELLOWS FALLS, Vt.—(UP)—The first person to make a recorded trip over the Fellows Falls of the Connecticut River was a squaw whose canoe became caught in the current while she was taking a bottle of rum to her brave. Early records say she drank the rum, lay down in the bottom of the canoe and was pulled from the river below the falls, safe but drunk.

## Sky Hiker Hitches Ride, Lands In Jail

TORREON, Mexico, Oct. 11—(AP)—The lad who hitched an airplane ride by clinging to an airliner's tail was happy tonight, though in jail.

"I have realized the dream of my life," Cliserio Reyes Guerrero, 19, told police. "I am satisfied."

Police said the farm boy apparently did not understand he endangered a Lamsa (United) Airlines plane and its 24 occupants on the Monday midnight flight to Mexico City.

"I always wanted to fly and never had the money," he said. "This was the only way." He told police how he had hung around the Torreon Airport for a week looking for a plane ride. "There was no way to do it by day so I finally decided to try it by night," he explained.

Both Lamsa and the government are expected to bring charges today. They want to discourage any further such aerial hitchhiking.

Reyes Guerrero told police he climbed aboard the plane's tail when it wheeled around at the end of the Torreon runway and tested engines before taking off. "I was only frightened at the first blast of air from the propellers. I got over that when I realized there was nothing else to do but hang on."

The lad's clothing was ripped to bits as the twin motored plane roared off at 160 miles an hour, then climbed 12,000 feet. His back was cut and bleeding from the lashing shreds of his shirt. The temperature was near freezing. His head was protected by a cheap leather helmet and goggles.

For 61 minutes the youngster held on, braced against the tail. Then the pilot, who had felt something wrong in the controls, put the plane back down at Torreon.

Officials spotted him as he clambered, near naked, from his perilous perch.

Reyes Guerrero said he loves airplanes, and wants to become a pilot.

## Charged With Arson

ANN ARBOR, Mich., Oct. 11—(AP)—Prosecutor Douglas K. Reading today issued an arson warrant charging 30-year-old Robert H. Stacy, a University of Michigan Teaching Fellow, with setting fire that destroyed the university's Haven Hall last June 6.

## 'Dirty Rushing' Still Practiced, Greeks Claim

(Continued from Page One)

interviewed admitted that the present system causes at least some confusion and bewilderment. They claim that the selection of one sorority in such a short time took much guesswork on their part.

In spite of these drawbacks, the prospective pledges agreed that the "rush" parties were enjoyable and felt that the individual should try to choose the sorority for its members rather than the name.

### Fraternity Viewpoint

From the fraternity viewpoint, Robert Brewster, Ed-4, of Kappa Delta Rho, agrees that "rushing" is often done too hastily. He favors adoption of a plan to delay rushing one full quarter. This would permit the freshman to get settled and look around before being rushed.

Brewster points out, however, that many of these decisions are based on more than just a guess. Information about a new student may be supplied by a present member from the prospect's hometown.

Robert Rittenhouse, Ed-3, a pledge of Kappa Delta Rho fraternity, said, "I entered school, was rushed and pledged before I know what it was all about."

### Dirty Rushing

All sorority members contacted admitted that "dirty rushing" is being done. "This is especially true, they said, in cases where a prospect of proven ability is sought."

Some members felt that dirty rushing was practiced only in isolated cases. Others claimed that it was being done in more cases than would ever be admitted. They pointed out, however, that Panhellenic imposes penalties for proven cases of dirty rushing; attempting to eliminate this unfair practice.

## G.I.'s Build Merry-Go-Round In Spare Time

(Continued from Page One)

they're wonderful." Village Council President Johnson pointed out that there were a number of projects that would be started in the future. One of the most important of these is the traffic problem in the Village.

Johnson said that there was very little police protection at the Village and that many cars were speeding through the area. He added that a committee had been appointed to study the problem.

"We know that a lot of the speeders are people living here," Johnson said.

Trash disposal is another problem which faces the Council. Johnson noted that while trash cans were provided, many of the residents were lax about keeping lids on.

The Council president also pointed out that more clotheslines would be put up as soon as the Council and the management could get together.

A total of 352 families occupy the apartment units provided by the University housing project. Manager is Milton W. Overholt.

## Village Swept By Wave

JAKARTA, Indonesia, Oct. 11—(AP)—Radio Amboina said today the tidal wave caused by Sunday's earthquakes swept away two villages with estimated damage of \$1,000,000. No casualty figures were given.

It said the coastal villages of Galala, two and a half miles from the capital, Amboina, and Hutumuri, on the southeast coast, vanished when tidal waves crashed 200 meters (656 feet) inland. Galala has a population of 1,000 and Hutumuri, 2,000.
