

Alumni Fund Drive to Begin During Spring

National Committee Formed for Project

Harry Drackett, Cincinnati industrialist, president of the newly organized University development fund, which has been established to encourage support for the University, announced that a nation-wide appeal to alumni will be launched early this spring, seeking funds for special needs of the University not usually covered by legislative appropriations.

A national committee is being built, composed of the University's most distinguished graduates, to aid in the program. Samuel Summer, Columbus, is vice chairman of the fund. Other well-known alumni on the committee are Mrs. Therese Erb Poston, Columbus; James F. Lincoln, Cleveland; William Kiplinger, Washington, D. C.

Ex-Officio Aides

Julius F. Stone, Columbus; Dr. C. J. Altmaier, Madison, and three University officials acting in an ex-officio capacity—acting president William McPherson, vice president J. L. Morrill and Carl E. Steeb, bursar.

Former students and University alumni will be asked to make gifts of property, works of art, historical papers and documents, museum specimens having educational, artistic or historical value.

The first appeal made by the fund will be based on a report from a preliminary survey of the most urgent needs in all of the University's 70 departments.

Assist Students

One of the projects to be sponsored by the fund is giving financial assistance to students in the form of loans, scholarships and fellowships. Equipment and apparatus for research is another aim of the fund. "This will not be a replacement," Drackett said, "but every piece of equipment which is requested will be new."

Drackett also pointed to the fact that the library is also in need of assistance.

Kappas Schedule Pledging Service

The pledging service for Kappa Phi Kappa, educational fraternity, is scheduled for 7 p. m. Tuesday at the Indianola Student Center. A planned program meeting in which only members of the fraternity participate will follow the service.

Following the initiation February 7, Kappa Phi Kappa plans to hold its annual initiation banquet and dance at the University Club Friday, February 10.

Ernie McKay's orchestra has been selected for the dance. The guest banquet speaker will be Mrs. Donald Tippet, wife of the minister at Bexley Methodist Episcopal Church.

Photography Head Says 'New' Film Old Stuff

By MARCIA COOPER

"Infra-red photography is the newest fad with the picture magazines, but it isn't really new at all," said F. W. Davis, head of the department of photography, Saturday. "Why, we've been using infra-red film for eight or nine years right here."

"Aside from the obvious spectacular appeal of black skies and white grass, infra-red has only two advantages: it is excellent for scientific work, and for long-distance photography."

One of the annual problems of the more advanced photography classes, he said, is taking pictures of the University district from the AIU building, first with regular film, then with infra-red film. Regular film will show just a blue, and sometimes not even that, while the infra-red film will penetrate any haze and make it possible to detect the Stadium and the University buildings clearly, even at that distance, he explained.

"Although infra-red photography has been in limited use for years, it

Co-Eds Weep, Files Closed

Examination time from now on will find all the girls on the campus struggling along without help from the Ohio Union exam files. Says Edward S. Drake, manager of the Union, "Last quarter so many girls came in to use the exams in the files that there weren't any left over for the boys, and we had to remedy the situation. Maybe Pomerene Hall can establish an exam file."

The Ohio Union files, maintained under the direction of the Student Activities office, contain more than 125 different exams. The Union's fiction library conducted by the Student Activities office will also be closed to girls in the future, officials said.

Housing Committee To Meet Tuesday

Group to Discuss Recent Enforcement of New City Fraternity House Rules

J. Frederick Stecker, assistant dean of men and secretary of the Fraternity Advisers' Committee, today announced a meeting of the housing committee for noon Tuesday at the Faculty Club.

The meeting will be for the purpose of discussing the results of recent enforcement of City Housing legislation in regard to fraternity houses. Harvey Walker, department of political science, chairman of the committee, has invited J. L. Morrill, vice president of the University, to attend the meeting.

Other men who will be present at the meeting are: Professor L. L. Quill, department of chemistry; Howard L. Hamilton, secretary of the College of Arts and Sciences; Lowell A. Wrigley, director of men's housing bureau; Troy Feibel, attorney-at-law, and I. R. Lynch, executive of the Moores & Ross Co.

Panhellenic Aims To Limit 'Queens'

Decision to continue their investigation into the possibilities of reducing the number of "queens" elected on the campus each year was made Saturday afternoon by a committee of the Panhellenic Association.

The committee, headed by Elizabeth Reiter, Ag-4, will meet again January 30 to make further plans and conclusions at a Panhellenic tea in Pomerene Hall at 4 o'clock.

"We believe the once honored custom of electing a queen has become commercialized. Not only that but it takes too much of the girls' time," stated Miss Reiter.

Miss Reiter, who brought up the question before the association, says the idea was suggested at a meeting of national sororities last summer.

Results of the committee's investigation will be brought before the Student Senate in an effort to determine a more satisfactory way of handling the situation.

Paris Beckons to Students; New Plan Makes It Possible

Students will be able to spend their junior year in study at the University of Paris without losing any time from their four-year course at the University under a plan worked out by Dr. Donald Lowrie, director of the United States House at the University of Paris and Dr. William Westhafer, dean of the College of Wooster.

Dr. D. Luther Evans, junior dean of the College of Arts and Sciences, has complete charge of the plan at Ohio State, which is one of nine educational institutions in the Middle West which now offer students an opportunity to do their junior year's study in France.

The object of this unique plan is to give college students the maximum value obtainable from a year's residence and study abroad. Tuition, board, room and transportation will cost approximately \$1100, Dr. Evans reported, and will include frequent sight-seeing excursions.

Dr. Lowrie will come to the campus in a few weeks to have personal interviews with students who may be interested in attending the University of Paris under this arrangement. Detailed information on the

Sir Ronald Storrs To Speak Tonight

Drawing on his own exciting background as a high British official and governor of Jerusalem, Sir Ronald Storrs will speak on "The Problem of Palestine and the Eastern Mediterranean" in University Hall Chapel tonight.

The internationally known diplomat who at one time was governor and commander-in-chief of northern Rhodesia and Cyprus will begin his lecture at 8:30 p. m.

Sir Ronald scouts the rumor that "Lawrence of Arabia is still alive and carrying on his mysterious diplomatic activities in the Near East. Sir Ronald spent two hours beside Lawrence's bier after the latter's death."

The fame of the diplomat became widespread following the publication of Lawrence's "Seven Pillars of Wisdom" and "Storrs' own 'Memoirs.'"

APSA President Appoints Walker

Dr. Harvey Walker, department of political science, has been named program chairman for the 1938 meeting of the American Political Science Association, December 28-30, at the Wardman-Park Hotel in Washington, D. C.

Themes of the program, according to Dr. Walker, will be "An Appraisal of the New Deal" and "A Preview of the 1940 Campaign."

Dr. Walker's appointment was announced by Dr. Charles Grove Haines of the University of California at Los Angeles, national president. Walker was local arrangements chairman for the 1938 convention held in Columbus.

Cook to Give Alliance Attitude Questionnaire

A questionnaire dealing with student attitudes on racial questions, formulated by Professor Lloyd A. Cook, department of sociology, will be presented to members of the American Student Alliance at a meeting Thursday, January 26, for the purpose of obtaining a consensus of student opinion on racial attitudes.

A member of the Ohio House of Representatives, as yet unnamed, will address the meeting, according to A. Lynn Altenbernd, Ed-4, president of the organization.

Seven Confined to Hospital

Seven students have been confined to the hospital over the week end. They are as follows: Audrey E. Laney, Jeanne E. Truex, Donald E. Jones, Lillian L. Flickinger, Helen Deber, Vivian L. Harris, six-hour nurse, and James Welch.

"Wooster-Junior Year in France" program may be secured from the office of the College of Arts and Sciences. Applications for admission should be made to the College of Wooster.

Courtesy Project Dates Announced

February 23, 24 Set by Links as Days for Rule of Curtseys and 'Thank You's'

Curtseys and "thank you's" will be the rule when Links of WSGA sponsors Courtesy Days on February 23 and 24.

In connection with this project Betty Fairfax, a Columbus columnist, will speak to Links members in their regular meeting on Thursday, February 23. Rosemary Southard, Ed-4, is general chairman of courtesy days.

The publicity group of Links will have a buffet supper on January 26 at the Delta Zeta house. Catherine L. Meranda, Ag-3, and Carrie D. Schettler, Ed-3, are co-chairmen of the supper.

This group will carry out one of its projects of the quarter by entertaining 30 children at the Hare Orphanage on March 2. The party is under the chairmanship of Janice M. Hunt, A-Ed-4.

The membership committee is conducting a membership drive to be climaxed with a banquet on February 9 at Pomerene Hall.

Faculty Show Set For February 10

Set around the showboat, "Buckeye Belle," the annual Faculty Club production will be staged in the Natatorium at 8:30 p. m., February 10. Arrangements now being made for the show are in charge of Lyman E. Jackson, junior dean of the College of Agriculture.

Dr. Eugene H. Bahn, department of speech, is in charge of rehearsals for the dramatic part of the program. Professor Louis H. Diercks, department of music, is in charge of the vocal groups, and Mrs. Ann Charles, musical director of WOSU, has charge of orchestral arrangements. Michael Peppe, swimming coach, is arranging the portion of the program to take place in the Natatorium.

Preceding the show, a dinner will be held in the Faculty Club, and following the show, there will be a dance in the gymnasium adjoining the Natatorium. The conclusion of the grand march, the new president of the Faculty Club will be presented to the group. Elections will be held that day. The party will be formal and limited to members of the Faculty Club.

Spring Fair Planned By Industrial Club

"Production Control" will be the subject of the talk to be given at the meeting of the Industrial Management Club at 7 p. m. Thursday in room 11 of the Ohio Union. The speaker has not been decided upon as yet.

Plans for the Spring Exposition Fair to be held for the students of the College of Commerce sometime in May will be discussed, Robert Van Harlingen, Com-4, president of the club, said. Various materials used in the business world will be displayed at the exposition.

Journalism Group Will Initiate Fifteen

Sigma Delta Chi, professional journalism fraternity, will initiate 15 men with its usual ceremony in the Journalism Library, at 5 p. m. Tuesday.

The initiates are Henry B. Bachrach, James O. Burke, James W. Danner, Earl R. Gordon, Charles D. Graber, Aron E. Gross.

Vernon L. Havener, Willard K. Hirsch, Paul E. Jacobs, Irving M. Lichtenstein, Tom J. McFadden, John T. Norman, George P. Sattler, Manny N. Schor, Donald Wiseman.

Ashtabula Club to Meet

The Ashtabula County Club will meet at 7:30 Tuesday in room 108, Derby Hall. Plans for a dinner dance on February 4 will be discussed.

Mystery Girl To Give Away Dance Ducats

Miss Newmanite, the Newman Club's "Mystery Girl," will give away free tickets to the organization's semiformal dance at the Neil House Friday. Miss Newmanite will present the two tickets to the first two persons identifying her as she walks about the campus on Tuesday and Thursday.

On Tuesday she will be 5 feet 5 inches tall, weigh 114 pounds, have brown hair and blue eyes. She will wear a blue suit, blue hat, brown fur coat, and carry a copy of the LANTERN.

On Thursday her measurements will be somewhat different. She will be 5 feet 2 inches tall, weigh 105 pounds, have brown hair and gray eyes. She will be wearing a brown reversible skirt, a brown and white sweater, and a green and brown jacket.

Tuesday's girl will walk from the Chemistry Building, past Derby Hall, to the Armory, up the Long Walk to University Hall. On Thursday she will walk from the Main Library, down the Long Walk up the south side of the Oval and back to the Library. Winners will be announced in Friday's LANTERN.

Clear Ground for New Faculty Club

Ground clearing for the new \$160,000 Faculty Club Building is now under way directly behind the Bureau of Health Laboratories on the south side of the Oval. According to H. Dwight Smith, University architect, excavation for the new building will be started as soon as the location is ready. At the present time, only the contract for the excavation has been let.

Plans for the new three-story club building are nearing completion, and final drawings and specifications will be ready to go before the Board of Trustees in the near future for approval. As soon as the plans are approved, the other contracts will be let for the completion of the building.

Dimensions of the new building will be 75 by 150 feet. The design, materials and arrangement of the interior have not been approved by the Board and cannot be announced.

Hillel to Cast Roles For Winter Drama

Preliminary tryouts for roles in "Counselor-at-Law," Hillel Players' winter quarter production, will be staged at 7:30 tonight and Tuesday, at Hillel Foundation, under the supervision of Stuart Allen, Grad, play director.

Tonight's tryouts are for those who have never participated in a major Hillel production, while the tryouts on Tuesday night are for those who have already appeared in a Hillel production.

Aspirants, who pass successfully tryouts on these two nights will go on to the final test which is to be given at 7:30 p. m., Wednesday. From the survivors, Paul Lipson, Com-3, Dr. Eugene Bahn, department of speech, and Allen will pick the cast for the play which will be presented March 2 and 4 at University Hall Chapel.

YM-YW to Make Tour Of Settlement Houses

A tour of the settlement houses and the slum areas of Columbus was announced for some time this quarter at the meeting of the economic justice committee of the YMCA and the community service committee of the YWCA Friday in the Ohio Union.

The economic justice committee is planning a tour of the coal mines of southeastern Ohio. It will interview mine officials and spend time in miners' homes as well as in the mines.

Music Sorority Holds Tea

Sunday afternoon from 4 to 6 Delta Omicron, professional music sorority, had a rushing tea for the freshman co-eds in music at the home of Martha H. Sayers, Ed-4, at 1937 Stanford Road. Women instructors, wives of the music professors and patrons of the sorority were also invited.

Five Schools Form Council of Ohio's State Universities

Religion-in-Life Sessions Close

Dr. H. H. Crane Delivers Concluding Sermon on 'Religion and Democracy'

"When we go to war to defend democracy we are killing it because democracy does not need to be defended," asserted Dr. Henry Hitt Crane, pastor of the Central Methodist Church of Detroit, in the concluding Religion-in-Life-Week talk given before a large audience Friday evening in University Chapel. The topic of Dr. Crane's speech was "Religion and Democracy."

The speaker defined democracy as the force of feeling and opinion operating within the people and enabling the majority of them to get what they want by means of organization. What the people obtain is then made secure by law. It is only by making its own mistakes that a nation can grow.

Dr. Crane enlarged on this explanation by saying, "Democracy is a force. It is a way of life. If you are the type of person interested in the welfare of others, willing to do your part toward someone's betterment, then you have a living force of democracy within you. True democracy may be illustrated by the statement: you are as good as I am."

"Growth of democracy is essential. Everyone must be permitted and guaranteed an opportunity. Democracy gives everyone a chance at the 'cream of life.' Whether it will develop into 'skimmed milk' is for the individual to decide."

"Isms" Explained
Commenting on other forms of government, Dr. Crane declared that Communism guarantees economic security and Fascism assures the power of the state, but democracy gives one the freedom to secure these guarantees according to his own ability, not as the state desires. "Freedom of speech and press must continue; it must never be suppressed," he added.

"Air is the best antiseptic for any disease, Dr. Crane concluded. "Let all the people speak and we will never be bothered by any outside force."

Late News Flashes

by
United Press

Japanese Navy Prepared to Defend Nation

TOKYO.—Japan's navy is prepared to defend the country in any contingency, Admiral Mitsumasa Yonai, navy minister, told the House of Peers today in answer to questions regarding Britain's Singapore navy base and American plans to fortify Guam and other islands.

New Oil Catalytic Cracking Process Developed

CHICAGO.—Dr. Gustav Egloff, noted oil research chemist, announced today the development of a catalytic cracking process which he believes soon may revolutionize the oil and automobile industries and make it possible for the United States alone to supply enough airplane and automobile gasoline for the world.

He said the process assures a plentiful supply of gasoline of 100 octone rating—the measure of a gasoline's anti-knock value—which is a necessity for the efficient operation of airplane motors.

Roosevelt Proposes National Health Program

WASHINGTON.—President Roosevelt today asked Congress to consider carefully a proposed national health program calling for ultimate medical aid expenditures of \$850,000,000 annually after 10 years.

The President submitted to Congress the report of an interdepartmental committee that drafted a coordinated program which would place health activities on a national basis. He did not ask outright adoption of the proposed program.

Senator Pittman Assails Totalitarian Nations

WASHINGTON.—Chairman Key Pittman (D.), Nevada, of the Senate Foreign Relations Committee, outspoken critic of totalitarianism, charged today that the hunger of dictators for land threatens Latin America and ultimately may menace the United States.

Speaking on a Radio Forum with Senator Robert A. Taft (R.), Ohio, critic of administration foreign policies, Pittman assailed Fascist states and leaders by name and said America "must be prepared to repulse with armed force" and advances on "our country or our neighbors."

Americans Urged to Evacuate Barcelona

HENDAYE, French-Spanish Frontier.—The United States consulate at Barcelona urged Americans today to evacuate the city at once as the Nationalists armies pounded their way to within sight of the Loyalist capital.

The cruiser Omaha and the destroyers Badger and Jacob Jones were nearby in the Mediterranean with steam up, ready to come to the aid of the Americans.

Extra! The Senate Debates

The Student Senate arched its back, raised its tail and went p-f-f-t for a few moments last week. This unprecedented action came toward the end of a session during most of which everything had been purring along nicely, with the Senators unanimously accepting report after report after report.

The controversy arose when John J. Morett, the YMCA representative, made a motion that the Senate donate \$10 to the Religion-in-Life fund.

Morett didn't know whether or not the fund needed money and no formal request for a donation had been made to the Senate, but since the Senate had made a similar donation last year, Morett seemed to think it would be a fitting gesture for the Senate to shell out again this year.

The usual procedure in cases like this one is for the motion to be made, seconded, and to have the president ask for discussion. Then one or two Senators usually get up and speak very, very briefly in favor of the motion. A few moments later the motion passes by a unanimous vote.

But this time a few of the Senators wondered if it wouldn't be a good idea to postpone the ten-dollar donation until someone found out whether or not the Religion-in-Life fund really needed the money.

Much discussion ensued, and when the motion finally came to a vote, and a roll call vote at that, it was defeated.

We want to compliment the Senate for doing a little debating for a change and for actually defeating a motion. When this particular controversy is finally settled, probably at this week's meeting, we feel sure that the Senate's action on it will prove that the Senators aren't a bunch of atheists or radicals or something. That's beside the point.

The Senators have finally actually debated on a question, unimportant as it is. If the Senators would debate a good deal longer, and much more often, we think the Senate would do a better job of sustaining the illusion that it is the truly representative body that the Senate claims to be, but really isn't.

Remember the Class Officers?

Speaking of the Senate, reminds us of the class officers who have reached their usual winter quarter low on the campus. In fact they've reached such a low that we probably never would have thought of them again if it hadn't been that we were thinking about the Senate.

(Do you remember? The class officers are the people whom the Senators refused to give a seat last quarter. We had suggested that that might be a way of finding something for the sophomore and junior class officers to do, but the Senators didn't think so. Instead they appointed a committee to help find something for the officers to do. Nothing has been heard from it for a long time either.)

The quarter is now more than three weeks old and nothing has been heard from the sophomore and junior presidents. They haven't even made any promises so far this quarter. Richard T. Baker, senior president, has promised an announcement sometime soon about the senior class, but we are not much concerned with him.

Our impression has always been that the senior president does have certain rather important duties to perform, but that the presidents of the sophomore and junior classes do nothing but get elected. We have been keeping records on the latter carefully all year, and here they are once more:

Sophomore Class—a cabinet appointed and approved, an expressed desire to inaugurate a policy of action, but NOTHING DONE.

Junior Class—a cabinet appointed and approved, vague suggested plans for a class "Who's Who," a "Class Week," and cooperation with the seniors in a class memorial, but NOTHING DONE.

We can see no use in waiting any longer. We are convinced that the present system of class officerships in this University is ineffective. We think a change is needed.

Right Turn . . .

When Did the Spanish Civil War Start? . . .

By JAMES O'BOYLE BURKE

We think that Channing Pollock made the two most pertinent remarks heard on last Thursday's Town Meeting of the Air.

Mr. Pollock in discussing the menace of foreign propaganda to the United States asked why those who love Fascism or Communism spend enormous sums for propaganda here, when it would be much easier for all of them to attain their Communist or Fascist utopia by using the propaganda money to buy steamer tickets back to the land of Hitler, Mussolini or Stalin.

The other remark, in answer to Browder's plea that we remove the Spanish Embargo, suggested that the embargo was not put into effect until three years after the start of the Spanish Civil War.

It is here that Pollock really hits the nail on the head. The Loyalist government in Spain is no more a "democracy" than is Russia. The liberties of free speech, free press, freedom of religion and assemblage, etc., that we in America look upon as the attributes of a "democracy" were absent in Spain before the revolution and are still absent.

The press of a great civil war may justify the curtailing of some of these liberties by both sides now, but before the advent of Franco's revolution religion was persecuted, opposition presses smashed, and the art of political murder reached a new high—all this mind you in a "democracy." Communism started the civil war in Spain years before Franco led his counter revolution.

Much is made of the aid given to the Rebels by Germany and Italy yet while Russia supports the Loyalist cause to the extent of its ability why isn't it logical to put the Communist tag on the Barcelona government if the Rebels are called Fascist?

This column has no brief for either Communism or Fascism as anyone who reads this column knows. They are both detestable and are but competing forms of totalitarianism. Both degrade the individual and exalt the state. The point we want to make is that the struggle in Spain is not between "Democracy" and Fascism but between Communism and a counter-revolution that is the inevitable result of Communist ascendancy in any country.

Left Turn . . .

Says Let's Rewrite the Script . . .

By IRVING M. LICHTENSTEIN

After glancing at the reports from Hendaye, France, concerning the progress of the Fascist troops in Spain, the impartial observer cannot help but place General Franco in the position of Grandpa Sycamore, the leading character in the comedy "You Can't Take it with You."

Grandpa Sycamore always said before dining, "Well God, here we are again." And Franco, not being in the ethical position to talk with God, wires his backer, "Well, Mussolini, here we are again."

However, the similarity between Grandpa Sycamore and General Franco ends at this point. In the play the curtain dropped after the punch line and everybody left feeling in the mood for a trip to the moon. Not so with Franco. Despite the cables wired collect to Il Duce, the Loyalists knuckled down a little harder and the General is still waiting for the house lights to go off.

Every theater-goer knows that the prerequisites for a flop revolve around bad casting, a misplaced climax and above all a finale that leaves everyone with a bad taste in his mouth.

In our opinion, the Rebel forces of Spain harbor all of the above characteristics. The discredited elements together with their blood brothers in Italy; carried out in such a way that a real climax was never reached; and is progressing so jerkily that a satisfactory finale will never result as long as the Fascists are on the offensive.

Now, most dramatic flops can be doctored up and made successes if rewritten and revised in time. This is usually done through collaboration with a new author and discovering a financial angel.

The war in Spain is far from being over. The destruction and misery that have been imposed on the Spanish people can still be righted. Leaders who can undertake this task are there and the democratic nations can easily become the angels through lifting false neutrality acts and opening their borders for the transport of arms and ammunition to the Loyalists.

In this way the blackest page of the Twentieth Century script can be revised into good theater and more important—into the slugging of Fascist aggression.

Jack O'Lantern

By Jack Jonas

Tsk! Tsk!

"Do you say your prayers at night, little boy?"

"Yes, sir."

"And you always say them in the morning, too?"

"Naw. I ain't scared in the daytime."

Doke Hokey opines that all wallflowers are the same color—blue.

Note to a Future Archaeologist

Perhaps ruins-sniffers of 3009, Scrapping their way through a geological strata

That was New York,

Will pause to smile at this odd age of substitution

And ponder the perversity of time To waste itself on such miscarriages.

They may even crack a Scientific joke—"These people took their culture from the can."

When they met truth they found a screen to hide her,

Hunched down and watched her shadow.

Their emotional release came from strips of celluloid

And boxes shuttling through synthetic curves

At Coney Island.

They killed for wads of paper tinted green,

Then locked the paper in a vault.

Did they want knowledge? They fled to academic shops

Where weary clerks laid out a stock of homespun adages!"

Just you wait, ruins-sniffers! Your ears will burn in 9009.

—Marie C. Davis.

Reality

Grime,

Dirt,

Ache, pain,

And agony . . .

Words,

Words!

Describing what?

In mad,

Discordant

Clamor . . .

Cease,

Cease!

My eyes . . .

They close

To shut out

Reality.

But mirrored,

Ever clear

Within the mind—

The mute appeal

Continues

Hammering;

For what?

An understanding

Heart!

—Krummy.

Portraits of Women

I

It was for love alone, she said,
That she renounced a deathless fame.
How wistfully she signed because
The stage would never know her name.

(She knew darned well she'd never be

A Cornell, Bernhardt, or Fontanne.)

Her art, however, did not die

When she took to herself a mate,
Her husband wished the stage had kept

This prototype of Shakespeare's Kate.

II

Tomorrow does not cloud her thoughts

She goes her merry way and free

And like the lilies of the field

Is cared for most exquisitely.

III

Her mind's a little filing case,

The proper thoughts she thinks each day

Are dusted off and put away

Each in its special drawer or tray.

The thoughts that are too big and stark

For her small mind to grasp outright,

Which tend to make her toss at night

Are quickly locked up close and tight.

The proper thoughts are taken out

And used as sage philosophy,

She serves them to her friends as we

Would offer toast and cakes and tea.

—Grace O. Schaffner.

Dark Interval

This darkness surely cannot be

The end of light;

It is but night

Which falls to let us rest, and see

The stars, and dream our cares away,

Our eyes to close

In soft repose

That we may more enjoy the day.

Nor does this other darkness seal

Love's final doom:

It is but gloom

Which stays awhile to make us feel

Club Lists Talent For Dance Show

Original Song by Newman-ite to Be Featured Over WCOL at Semiformal

Mary Ann Crawford of the Radio City Rockettes, the Scarlet Mask "beef trust chorus," magician Reeder Hutchinson, and the introduction of the Newman Club's new song, written by Alyce E. Kolp, Ed-2, and arranged by Charlie Bennett, will comprise the floor show portion of the club's annual campus-wide semiformal dance at the Neil House on January 27. Arrangements have been completed toward broadcasting Charlie Bennett's music on radio station WCOL from 11 to 11:30 p. m.

Representatives of the universities of Western Reserve, Cincinnati, Miami, Akron, Kent State, Case School of Applied Science, and Pittsburgh, and the Ohio Valley Province of Newman Clubs have accepted invitations to attend the dance.

Al J. Bast, Jr., Com-2, chairman of the dance, has announced the following committee heads: patron committee, Thomas P. Caito, Mary M. Manney; tickets, Walter N. Kotwice; contact committee, Winifred M. Selvey, Ivan L. Kovacicsek, Agnes M. Ondrak and Sigfrid G. Kinkopf; program committee, Miss Kolp; date bureau, Betty J. Kelbley and John J. Petruska; and entertainment committee, Miss Kolp, Miss Crawford and Hutchinson.

Receipts from this dance will be used toward securing nationally known lecturers, whose discussions will center around marriage, divorce, and birth control, as well as current world events, according to Bast.

Club Presents 'Hobby' Program

A sort of "Hobby-Lobby" program to introduce the professors in the department of fine arts is the unique feature the Pen and Brush Club has scheduled for its meeting at 7:30 p. m. Tuesday in Hayes Hall.

A four-line jingle giving one of his characteristics will introduce each professor in the department of fine arts. Each of the faculty members will then give a short talk on his hobby and interests to help the student get better acquainted with him.

Members of the Pen and Brush Club are busy making plans for their trip to New York during spring vacation. While in New York they expect to visit the various art galleries and other places of interest.

As the club has a standing contract with the Greyhound Company, members going on the New York trip will probably travel by bus. The Barbizon Plaza Hotel has been suggested as their stopping place during their visit.

Preparations for the annual exhibit of the department of fine arts to be held spring quarter in the Southern Hotel are going rapidly forward.

WOSU Program

Arts Club to Hear Lecture by Ronan

"Oriental Rugs and Their Identification," an illustrated lecture by Professor Wilbert C. Ronan, will be given before the Industrial Arts Club February 3, in the Chemistry Building Auditorium at 7:30 p. m.

Paul Doelker, Ed-4, president of the group, has invited the public to this meeting.

Literary Club to Initiate

An initiation party of the Philomathean Club at the home of Elsie V. Ireland, Ed-4, at 7 p. m. Tuesday will see three new members entered into the club. The three initiates are Jean E. Jackson, Ed-4; Eleanore Burt, A-3; Marguerite L. Kunsman, A-2.

The chill of sorrow and to know
The breath of pain,
The more again
That we may prize love's warming glow.

Glee Clubs Convene For Formal Dance

Newman Club to Hold Semiformal Friday; Identify Miss Newmanite to Win Tickets

By MARTHA ANN HINKLE
Society Editor

Those musical sounds you heard issuing from the Armory Friday night were caused by the Glee Club Formal. And if that's confusing, here's the rest of it. It seems that the Men's Glee Club, the Women's Glee Club, the Symphonic Choir and the Junior Men's Glee Club got together for the affair, which has

*open only to the members of the above and their dates. Jimmie Franck and his orchestra provided the dancing music.

State Schools Form Council

(Continued from Page One)

Toward this end the council has instructed Carlton S. Dargusch, Ohio State trustee, to draft proposed legislation which would permit the state universities to issue bonds for the construction of new buildings and to pledge certain student fees and other resources for the retirement and interest payments on such bonds.

Membership in the Council will include one trustee, the president, and the business manager of each of the five universities. Dr. J. L. Morrill, vice president of the University, has been named non-member secretary.

Presidents who are ex-officio members include Dr. McPherson, Dr. Upham of Miami, Dr. Herman G. James of Ohio University, Dr. Karl C. Leebrecht of Kent, and Dr. H. B. Williams of Bowling Green.

Carl E. Steeb

Business manager members include George C. Parks of Ohio University, W. P. Roubush of Miami, Carl E. Steeb of Ohio State, B. F. Renkert of Kent, and Ervin J. Kreischer of Bowling Green.

Trustee members have not yet been named, awaiting action by the various boards.

Trustees who attended the first meeting on January 7 were: from Ohio State—Mr. Dargusch, Columbus, and Lockwood Thompson, Cleveland; from Ohio University—E. C. Shively, Columbus, and E. C. Eikenberry, Camden; from Miami—Lyle S. Evans, Chillicothe. Joseph B. Hanan, Akron, and Charles H. Lake, Cleveland, represented Kent University.

Club will Hear McPherson

Acting President William McPherson has been chosen to address members of the Chemistry Club at a smoker to be held in the Ohio Union February 2. The topic will be announced later. The schedule of the club for the rest of this year will be released at the smoker.

Letters on Sing Sent To Ohio College Deans

Letters have been sent to the deans of men of a group of Ohio colleges by the Council of Fraternity Presidents in preparation for the Interfraternity Sing which will probably be held sometime during Traditions Week, George Parker, A-3, chairman of the committee in charge of the Sing, said.

The council has already procured the large 40-inch trophy, which will be presented to the winning team. It has not been decided where the trophy will be displayed.

Judges will be chosen sometime in the near future from men not connected with any of the universities participating in the contest. Any social undergraduate fraternity may participate.

Fourteen Faculty Men Honored for Research

The research achievements of 14 members of the University faculty have been recognized by a "starred" rating in the sixth edition of "American Men of Science." This rating is the equivalent of an all-American rating in football.

This book is a biographical list of approximately 7000 men and women on the science faculties of various universities in the country who have contributed in some way toward the advancement of the exact sciences.

The "starred" rating is given to those whose work is deemed most outstanding.

Those listed from the University include Dr. Alpheus W. Smith, chairman of the department of physics; Drs. Frederic C. Blake, Alfred Lande and Llewellyn H. Thomas of the same department; Drs. Edgar N. Transeau and John H. Schaffner of the department of botany.

Drs. James R. Withrow, William L. Evans, William McPherson and Herriek L. Johnston of the department of chemistry; Dr. Raymond C. Osburn, chairman of the department of zoology and entomology; Dr. Herbert Osborn, professor emeritus of the department of zoology and entomology; Dr. Laurence H. Snyder, department of zoology and entomology, and Frank A. Hartman, department of physiology.

Besides listing men whose major work has been in the exact sciences, the editors have "attempted to list those persons who are supposed to have advanced science by teaching, by administrative work or by the preparation of textbooks and compilations." Some scientists whose work has been chiefly in engineering, medicine or other applied sciences are given notice also.

Agrees with Mike Peppe in Criticizing Judges Who Handled Swimming Meet at Ann Arbor Enabling Wolves to Eke Out a Tie with the Bucks

Lantern Sports Editor

If Mike Peppe curses the Michigan-chosen judges and referee who gave the poorest exhibition of officiating that we have ever seen in the Michigan-Buck swim meet of last Friday at Ann Arbor, we believe that he is entirely within his rights and would like to lend him an added voice to protest such action.

The crowning point of the whole evening came about in the decision of the referee, Clarence Pinkston of the Detroit A. C., which gave the Wolves a victory in the 400-yard free style relay and an ultimate tie in total points with the Scarlet for the evening.

In a dual swimming meet, there are three judges used to pick the first, second and third place finishers in each event. In this particular race, the first place judge picked Michigan's quartet as the winner, but the other two judges declared the race a tie. Naturally, in a case like this where the judges are in complete discord as to the outcome of the race, the referee is supposed to decide what's what according to the rules.

Our friend Pinky, however, even though he himself said that the race had ended in a dead heat, refused to overrule the one judge who had declared Michigan the winner, because as he put it, he didn't have the power.

The barest technicality in the rules made it possible for Pinky to get away with his decision, but that does not justify it in any way. He claimed that he didn't have the power to overrule the one judge who picked Michigan because this judge was the designated first-place picker. Peppe's argument, and the logical one as we see it, is that there can't be any so-called first or second place judges in a relay race where there are but two teams entered. The rules which call for first, second and third place judges in a race do not specify anything for the relays so Michigan and Pinky were able to get away with his decision.

Bucks Get Another Bad Break . . .

This decision in the 400-yard relay was bad enough, but the one which deprived Bob Johnson of a tie for second place in the 100-free style cost the Bucks victory also. Bill Quayle won this race easily but Tom Haynie of Michigan and Johnson apparently finished in a dead heat for the runnerup spot, and the officials even announced the results that way. But a few minutes later, one judge changed his mind and decided that Haynie had beaten Johnson to the finish and the results were changed accordingly.

Both decisions which were as close as they could possibly be went to Michigan. If disputes like these were ever handed to the Bucks at their pool, Matt Mann, fiery Michigan mentor, would cry, "We wuz robbed."

Mann Has a Trained Audience . . .

We must give Mr. Mann credit for one thing anyway. He surely has the spectators who watch the meets in the Michigan pool trained to obey his every wish. This was especially evident during the diving competition between Patnik and Clark of Ohio and Feistenfeld and Benham of Michigan.

Neither of the two Wolf divers could ever beat Patnik or Clark with a prayer, but outwardly Matt evidently didn't believe this. Whenever Benham, the best of the two Wolf men, made a dive, Matt would come through with his cry, "Great," and the trained spectators would almost tear the roof down with their thunderous applause. This despite the caliber of the dive. The judges couldn't help but being influenced by such actions, as witness the apparent close margin by which Clark beat Benham.

Yet when Patnik and Clark came through with some of their greatest dives, a faint ripple of applause was barely noticeable. And both Buck divers really showed the Wolves how it is done.

Grapplers Beat Ohio U. For Second Straight Win

By BILL FORD

Ohio University's wrestlers put up a tough battle before going down at the hands of the Buck grapplers 17 to 11 at Athens last Saturday. The Bucks scored one pin and four decisions to their opponents one pin and two decisions. The win gave Ohio State its second straight of the season.

In the opening 122-pound bout, George Beshara lost to Bobcat Garner on a decision. Beshara now has a record of two losses in as many starts.

Martin wrestling in the 128-pound class managed to decision his Ohio U. opponent, Povtak, after a close battle.

The next match on the card brought together Don MacIntyre, tricky Buckeye, and Deturk, one-time city champion of Cleveland in the 136-pound class. After going the full nine-minute route it was up to the judges to decide the winner. Deturk won by the slightest margin and thus Coach Spike Mooney's men lost their first match of the day.

Montonaro Wins . . . Ohio State's flashy 145-pound sophomore Tony Montonaro continued his winning ways by pinning Byjak in 4:16. The Ohio University boy was also at one time a champion of Cleveland. Last week Montonaro took his first opponent into camp by pinning his shoulders in only 1:19.

The Scarlet took another match when Rudolph Beyer, 155 pounds, decisioned Septan. Meyer continually worked himself into point gathering positions.

Captain Peltier continued to set a good example and gained the decision over Bobcat Baks. This is the second straight win in the 165-pound division for Peltier.

Wrestling in the 175-pound class Buckeye Glenn Griffith took a beat-

ing when Clauggus pinned him. Griffith is a 155-pound man and couldn't afford to give his opponent a 20-pound advantage. He put up a real fight as it took 7:35 to pin him.

Downes Clinches Match . . .

With the score 14 to 11 in Ohio State's favor, and the last event on the program coming up, it was necessary for heavyweight George Downes to trim Chet Adams, Bobcat football star. A pin for Adams would give the meet to Ohio U. If he registered a decision then the meet would end in a tie. Adams beat Downes last season and things looked bad for the Buckeyes.

Downes, in much better condition than Adams, won the decision and meet for Ohio State. He wore Adams down and went on to take more points and the decision.

Badgers Shoot Plenty

The Wisconsin basketball team is described as the "shootingest" team on Big Ten floors. The Badgers are likely to take from 70 to 80 shots in any game, which is considerably above the average Big Ten bombardment figure.

Haak Receives Award

The Balfour award in football, one of the highest athletic honors at Indiana University, will go to Robert Haak, regular tackle for the past three seasons, Athletic Director Z. G. Clevenger has announced.

Disputed Relay Verdict Gives Wolves Tie with Buck Swimmers

By PAUL WARREN
Lantern Sports Editor

Michael Peppe and his National A. A. U. champion swimming team will settle down to work again this afternoon in the Natatorium in preparation for their coming exhibition at the Toledo A. C., Saturday night, but I doubt if they will quickly forget their little experience at Ann Arbor, Mich., this past Friday, night when they tied the Wolverine tankers in the opening meet of the season by a 42-42 count.

At least the official score will go down as a 42 all tie in the record books, but in the minds of every Buckeye present including yours truly, Ohio State was the winner by a score of 44-40.

The little difference in opinion between the Bucks and Wolves all came about as a result of the greatest relay race probably ever seen in the Michigan pool—the 400-yard relay which was the concluding and deciding event of one of the most thrilling sports spectacles it has ever been my pleasure to witness.

Judges Disagree . . .

When anchor man Ed Hutchens of Michigan supposedly beat Bill Quayle of Ohio to the finish in a photo finish, the Wolverines gained an official tie for the evening's entertainment. But when two judges and the referee said that the relay ended in a tie, yet awarded it to Michigan on this same referee's refusal to overrule the one judge who thought Michigan won, then it is another matter altogether.

Despite the final outcome, the meet was really a thriller from the opening 300-yard medley relay to the

Illini, Gophers To Battle for Big Ten Lead

What should prove to be one of the most crucial contests of the Big Ten court campaign will take place tonight when the Illinois eagles tackle Minnesota at Minneapolis.

The Indians grabbed undisputed possession of the Conference lead Saturday when they nosed out Wisconsin 37-34. This puts them one notch higher than the Gophers, who have three wins and one loss to the Illini's four and one.

Although the Norsemen had the advantage of a layoff Saturday while Illinois was working hard on the Badgers, it will be a battle between two teams as evenly matched as any in the Conference. Both possess speed on the offense, but the Gophers may have a slight margin on offense.

Michigan's quintet capitalized on the absence of Ben Stephens from the Iowa lineup to beat the Hawkeyes Saturday. Tonight against the Bucks they will be in another situation, however.

final event of the evening, this same disputed free style relay race.

Several records were broken by the tankers throughout the evening. Curly Stanhope, Johnny Higgins and Bill Quayle, composing the medley, broke the Michigan pool mark by two full seconds as they swam the distance in 2:57.4.

This same Stanhope fellow, making his first start in intercollegiate competition, came through again in

For an explanation about the referee's ruling in the disputed Michigan-Ohio State swim meet, see Paul Warren's column appearing elsewhere on this page.

The 150-yard backstroke to beat the pool mark of 1:39.7 as he negotiated it in the speedy time of 1:33.3, to easily whip Charley Barker and Bill Beebe of Michigan.

Higgins Cracks Record . . .

Higgins concluded the onslaught on the Wolverine pool records when he topped Jack Kasley's mark of 2:26 in the 200 breast stroke with a time of 2:23.1.

Quayle and Al Patnik registered

the other Buck first places in the 100-yard free style and the diving without any trouble at all. Captain Tom Haynie of Michigan was awarded second place in the free style race over Captain Bob Johnson of Ohio, after another argument between the judges. The first decision by the judges decided that the second place contestants were tied, but after it was announced to the crowd, one judge changed his mind and decided to pick Haynie over Johnson, by which the Bucks were deprived of a point which would have decided the meet in their favor.

Patnik's performance in the diving was brilliant and his teammate, Earl Clark, easily beat out Hal Benham for the second spot despite the closeness of their respective point totals.

The Wolverines took four firsts, two of them by James Welsh in the 220 and 440. Barker's easy victory in the 50-yard free style and the free style relay. Welsh created a mild surprise in the 440 by nosing out the favored Haynie, Big Ten champ in this event.

The two teams will meet again in a dual meet at the Buck Natatorium later in the season.

I-M GRAB BAG

BY

CHUCK GRABER

Any further necessary evidence to the effect that basketball has the widest number of sporting devotees may be had any day not in the current I-M basketball campaign that got under way last Monday.

Saturday we wandered down to the gym to indulge in a little "hard-courting" only to find every court practice sessions by the different fraternity and independent units. The net game seems to have got the imagination of almost every Joe Dokes on the campus who probably up to now has been denied the privilege of actual competition due to some physical shortcoming. The intramural department is the great leveler. The round-robin system of play assures every outfit of sticking around long enough for the individual to feel that maybe his team will eventually wake up and get going.

Especially admirable is the floor guard system used on Saturdays under the personal supervision of George Russ which makes it possible for the team to practice as any Varsity outfit in preparing for the week's tilt.

Without going out on any sort of limb, we can look forward to probably the greatest stretch drive in I-M basketball history. We would like to list our selections for the various championships from compiled data and the dope of our reporters. The fraternity championship should have for its semi-finalists the outfits as represented by the Betas, the Tekes, the Du's, last year's champions, and the Phi Deltas. Featuring increased height in the persons of Frank Clair and Esco Sarkinen, footballers, the Betas should win.

A strong Harrison House five, the

Hefty Cheers Need Lifting

This information comes a little late for football fans but those of warmer climates probably will find it useful.

There is a right way and a wrong way of cheering, according to William G. Hoffman, professor of public speaking at Boston University's College of Business Administration.

Imparting a pearl of wisdom to grid followers, Professor Hoffman says: "Persons who cheer from their throats, strain their vocal muscles and cause their voices to have a rasping tone. It is also much harder to hear a shrilling, sharp and biting cheer than one which is lifted from the diaphragm with plenty of swing. The latter is much more pleasant and has a greater volume, and, above all, you won't have an irritated throat."

Michigan Wolverine Won't Find Buckeye Cagers Soft Touch

By MANNY SCHOR

It's a lean year for the Wolverines, nevertheless—The Buckeye cagers won't be throwing any choice morsels to the victory-hungry Michigan quintet when it ambles into the Coliseum tonight.

The hunger strike begins at 8 p. m.

Although they defeated Iowa Saturday night and drubbed Northwestern earlier in the season, the Wolverines have been unable to hit a winning stride in Big Ten competition. They have been trounced by Illinois, Minnesota and Wisconsin.

Ohio State basketball scouts report that Michigan is potentially a great team, but the Wolverine record doesn't support that contention. Michigan defeated Northwestern at a time when Arthur Lonborg, the Wildcat coach, didn't have five players who could form a winning combination.

The Iowa quintet which the Wolverines thrashed Saturday night 47 to 32 was playing without the aid of Captain Ben Stephens, key man in the Hawkeye scoring attack. Individual scoring leader in the Big Ten till Saturday night, Blazing Ben was home in bed nursing an attack of influenza.

However, the real blow to Michigan's basketball hopes came last week with the announcement that Jim Rae, the Wolverines' only outstanding player when the season opened, would be on the sidelines for at least a month with the recurrence of an old back injury.

But all these woes have not broken the Michigan spirit, because out of his cuff Coach Benny Oosterbaan has pulled a sophomore forward who threatens to eclipse many of the Big Ten's more experienced players before the season is finished. He is Tom Harmon of gridiron fame. Starting at forward against Iowa, he paced the Wolverine attack with 17 points.

Summary of Saturday's game:

Riflemen Practice Hard For Heavy Schedule

Facing tough competition in their schedule for the season, the Varsity rifle team coached by Captain Harold A. Kurstet, department of military science and tactics, has begun practice in earnest. Last week it dropped a close decision to Washington University of St. Louis by the score of 1364 to 1377.

Every afternoon from 2 till 7* the squad, composed of Captain Allan W. Rodeheffer, Frank Balcar, Burdette F. Berry, Robert C. Bohannan, Alfred P. Cannon, Kenneth F. Hodson, Roger G. Hughes, Glen G. McConnell, Ronald F. Glazier, Harold W. Reithmiller and Rose.

Last year the four teams selected from the membership of the Rifle Club—Varsity, ROTC, Pershing Rifles and the club team—won 25 out of 37 matches, giving them a percentage of .714. At the Big Ten and National Collegiate meet in Chicago the Varsity brought back numerous medals indicating that they had placed high in the meet.

The ROTC team, Fifth Corps Area champions last year, which suffered two losses last week to UCLA and Iowa State, comprises the following: Captain Clayton S. Rumsay, Bur-

Art Makes Clubs 'Homey'

Courtesy Columbus Citizen.

When Mrs. Franklin D. Roosevelt visited the cooperative clubs of the University, she hinted that they might be made more attractive by hanging pictures on the walls. Her suggestion was followed, and several paintings purchased from the Federal Art Project. Five will go to the Tower Club, four to the Stadium Club and four to the Buckeye Club.

Student Court Collects \$4700 in Four Years

By H. M. McFARLAND, Jr.

Fines totaling \$4700 have been paid to the Student Court by students guilty of traffic violations in the period from November, 1934, to December, 1938.

This was made public today in a report by Robert E. Elsas, A-3, secretary of the court. The report summarized the financial operations of the court since 1934.

The wrongdoing of the traffic violators is turned to a good end by the Student Court since it loans most of the money to worthy juniors and seniors. Four thousand five hundred and fifty-five dollars of the total \$4700 has been loaned to students.

In a typical quarter, 558 students were summoned to court and 215 were fined for a total of \$528.

The recent session of the court held Friday the thirteenth of this month proved to be bad luck for 50 students. Fines amounting to \$145 were assessed, Elsas said.

The number of persons fined is usually greater at the beginning of the quarter because of holdovers from the previous quarter and unfamiliarity with the parking regulations by the new students.

The recent bad weather has increased the total, believes Elsas. He thinks it caused more undergraduates to drive and chance parking illegally.

Mathematics Club To Hear Fraley; Elect

"Field Work in Mathematics" is the subject of a talk to be delivered Wednesday night by James Fraley, Ed-4, at an open meeting of the Undergraduate Mathematics Club.

The meeting will be held in room 310, University Hall, at 7:15 p. m. There will be election of officers and a discussion of proposed amendments to the constitution.

Notice
Through the courtesy of R. F. Stillwell, mining engineer of the class of 1923, we have been able to obtain three reels of moving pictures with sound attachment, showing the production, preparation and utilization of coal, including the various mining processes and processing. These movies will be shown at 7:30 p. m. Friday, January 20, in room 208, Lord Hall.

All interested are cordially invited to attend.
H. E. NOLD,
Department of Mine Engineering.

Chemistry Colloquium
A Chemistry Colloquium will be held at 4 p. m. Tuesday, January 24, in room 402, Chemistry Building. Dr. Frank Verhock will be the speaker, and the topic is "Vapor Pressures and Accommodation Coefficients of Certain Plasticizers."

Suggested Amendments to Report on Urgent Needs
In order that the Faculty Committee of Six appointed to receive and correlate suggested changes in the report of the President's Committee of Twenty-five on "Urgent Needs of the University" may proceed with its work, it is necessary that a final date be set for the receipt of letters containing suggested changes and additions. February 7 has been named by the committee as the final date. Communications from any members of the University faculty will be considered by the committee, whether they relate to their department or field of specialization, to other specific areas, or to the University in its more general aspects. Letters should be sent to the undersigned, department of electrical engineering, Robinson Laboratory.

H. W. BIBBER,
Chairman.

Department of English Library
The department of English Library will be open evenings, Monday through Thursday, from 7 to 10 o'clock, beginning Monday, January 23.

Organic Chemistry Colloquium
The next meeting of the Organic Chemistry Colloquium will be held at 7:30 p. m. Tuesday, January 24, in room 302, Chemistry Building. The following topics will be discussed: "Synthesis of Dill and Parsley Apol," by Moses Konigsberg, and "Cumulenes," by Professor M. L. Wolfson.

Dean of Women's Announcement
There will be a mass meeting of Dormitory, University House and Sorority House Assemblies in the grand lounge, Pomerene Hall, at 4 p. m. Tuesday, January 24. Head residents of the different houses are invited to attend the meeting.

Excused from Class Attendance
The following members of the Varsity swimming team are excused from classes from noon Thursday, January 19, through Saturday, January 21, in order to participate in a meet with Michigan at Ann Arbor: Earl S. Clark, Gaylord Cleveland, Earl R. Gordon, Albert Patnik.

The following members of the swimming team are excused from classes Friday, January 20, through Saturday, January 21, for participation in the same meet: John Hartlein, Dwight Howard, William B. Howell, Robert Johnson, Edmund Pencavage, William M. Quayle, Robert C. Reneker, Harold Sargis, Harold Stanhope, Elwood Woodling.

J. A. PARK,
Dean of Men.

Official Bulletin
The Ohio State University

Vol. XVIII MONDAY, JANUARY 23, 1939 No. 65

THIS BULLETIN will be the official medium for all authorized announcements. Faculty and students—especially officials of all organizations—are requested to look to the Bulletin for information. University officials and executives will be guided by the Bulletin in preparing for the interest of efficiency and to avoid conflicts the following announcement is made: No meetings or functions of any sort will be permitted or provided for either on the campus or in the University Buildings unless authorized and announced in the Daily Bulletin. The University assumes no responsibility for unauthorized or unannounced meetings. Notices should be at the President's Office not later than noon for the day following and noon Friday for Monday's Bulletin.

The RIGHT COMBINATION is Chesterfield

when you're bidding for More Smoking Pleasure

By combining (blending together) the right kinds of mild, ripe American and aromatic Turkish tobaccos, Chesterfield brings out all their fine smoking qualities and gives you a cigarette that's outstanding for mildness . . . for aroma . . . for taste.

When you try them you will know why
Chesterfields give millions of men and
women more smoking pleasure . . .
why THEY SATISFY

Chesterfield

...the blend that can't be copied
...the RIGHT COMBINATION of the
world's best cigarette tobaccos

The colorful P. HAL SIMS,
master bridge authority and
player says, "It's the right
combination of keen bid-
ding and skillful play of the
hands that takes the tricks".
