There’s been a lot of changes in SEL!

Come visit us and see recent changes to SEL…

- The Music & Dance Library’s collections and employees are now in SEL. You may visit them on the 2nd floor.
- You’ll notice new carpet throughout the building.
- The Science/Engineering collection has been shifted. Call numbers A-QA and current journals are on the 4th floor and Call numbers QB-Z and Reference are in the basement (no more year cutoff).
- E-Reserves is now on the 3rd floor, along with the Knowledge Bank staff.

New Science/Engineering Ebooks Spotlight

- The mathematics of knots: theory and application
- Loving + hating mathematics: challenging the myths of mathematical life
- Numerical methods of statistics
- Statistics demystified
- Intelligent control and computer engineering
- Formwork for concrete structures

WorldCat@OSU is the new tool for you to find books, articles, and more worldwide on any topic. It searches articles from over 40,000 journals, as well as books, audiovisual materials, and more worldwide.

- Search WorldCat@OSU

RefWorks

RefWorks is an online research management, writing and collaboration tool you can use to collect, store, share and organize citations for multiple research papers and projects. You can use your RefWorks account to create bibliographies and manuscripts.

Access, organize, collaborate, and disseminate with RefWorks 2.0, the updated version of the Classic RefWorks interface. New features include the ability to upload pdfs and other files to each citation entry; share and collaboratively build reference lists with colleagues located anywhere in the world; manage RSS feeds; and more.

RefWorks is available for free to all OSU students, faculty and staff, compliments of University Libraries.

Did You Know?
Journal Backfiles

The OSU Libraries, sometimes in cooperation with OhioLINK, has purchased electronic journal backfiles over the past several years - in many cases, we have the entire run of the journal available electronically.

Examples of publishers from which we have backfiles:

- Springer (includes Birkhauser and some Kluwer titles)
- Elsevier (includes Academic Press titles)
- Taylor & Francis
- Oxford
- Wiley (includes Blackwell titles)
- SIAM

Publishers for which a good deal of older content is available due to current subscription:

- IEEE
- IEE/IET
- ACM
- ASCE
- ASME

In addition, content to hundreds of journals' older volumes are available through JSTOR.

What's the easiest way to see if there is online access? You may visit our Online Journals List and browse by subject/title or search for a title.
