Dear Niece

I wrote you a letter Wednesday May 26. 1909 also sent you a Package by Wells Fargo Express which you will get tomorrow May 29. 1909. in my letter I forgot to have you to find out John Harrow also Henry Harrow address in Chicago. I'll so that if I should make up my mind to go back that far with you that we could go and see them but don't put yourself out for I have the address in my book unless they have moved since that time and if they have we can easy find out in the ^{city} Directory. Now we expect to leave about June. 26 or perhaps about the 15. But there is no particular time set only that a Mr. Patterson is going on the 26 and his Wife and Niece are going along so it would be more of a crowd that we know I spoke of you getting something for Mrs. Little and the Boys now don't put yourself out about that for they don't expect anything for I have never mentioned that you might bring anything. for we will get them something up there at Seattle. you can find out when you come about what they would like us to get them out there but don't tell Mrs. Little that I told you to find out. well I will close for this time you will get this about the same time that I will get yours about whether you've got the Package. come with love to you all.
