Tom Taylor Homages 231 - 240

231

We mark this term throughout,
the same, and how we see

each other, eye to eye, and now
begun to speak, yr story has

a kernel in it already, I would
lay it in your body, this spear

of long urgencies has some heat
formed along the terms are

full to speak, the firm is opened
into your body to heare some

telling out to out, and then
peal a day to speak, you

and you, my own heat
has these marks removed, &

any honest setting forth is
in this being clear about the

term, spoke to spoke, and painted.

I imagine, then, the pleasures of

evening. The old car leans on in

is made and set. These ropes

of sense, and seen inside your

a fleshy transmission in the

air, and scientific, out thrown
sperm of pleasure's air, a

pool of light begins the heart's
way of sending, and roofed, at

rain and song betimes this new
unhesitating thrust, claim to claim,

and you are, of course, imagining

Canada goose, television becomes

there, lighted from within, and
made this charge resound upward.

Termed to loop, again, the land
landed, corn to your eye, and

bread, insertion and maze, told:
foreplay of the heart's mind, in

some multiplied relations, where
there is no confusion with the one,

or loop regained, rewind to spool a
thorn, you pick them up and

shuffle, foot to foot, she gave me
the chicken-foot & I told my name

story. But, squat, you might abide
in pleasure, if that is who you are,

and in these imaginings are there
overt acts, moved to prose, even,

on a day like this, or mixed, the
lines and times. Spurt these juices

daily, twice, and drink me, seed
yr tubes with light and

get your finer in, ringed, a
solitary muscle, one eye winked.

238

Moved, then, upward to tones remind.
you are, then, and holding-to

these dragons are permissive a
goal of warm terms. And embrace

them, sisters, all is worn around
the eyes, and love's gates are

warm, too, today, at cloud &
sink, who we are between

allowances, and driven skillfully
about, a delicate matter, you

two, and how to hold her
both ways again, both lose

and children scattered to
their posts and dreams. Well,

she might ride these waves
along the highway and roof

the moon, even, it is a break
-out of light, a truck low

rumbling toward love's name,
the room, and won, there,

the house decides to speak
and does, standing at the edge.

239

At the edge, again; she swims.
but swim around, even

into seeming porches, often
received, pooled, spent to

term. Swift or new, your
heat submits, sides new

airs resembled and thorough.
pooled, then, as light's

own signifying, line to line,
that there is a place, to

root & rest, revive the life
I made among my lessons.

dream, then, and roam
this highway home, at

fire & child returned along
and met, these types of

persons, masked by the day
or covered into being by

anything, and new, too,
begun or foamed. Line and

cone, the book is opened, a
learning of the marks & loops.

240

And I see, at dawn, that you
spread open, and play it up &

on, something to laugh at, this.
and here, alone, the way means

here & this, and no others,
they are they, and flown, I

saw them go along, reading a
personal dominion. Do your

daily duty. Hop this light plat
-form & slide your ropes aside.

no, nothing admits to pressure,
and the hot edge of spring

has slipped me by, at last;
no touch to images, images

do not touch, but slip away,
termed privately, at least,

and written for myself, a
meditative retirement, but

with crossed purposes, how can
I dig your ass, driving, the

way I am, downhill. Dream-
ing, anyway, that it might work.
