

## Kano, Nigeria - Second Orbit

01 57 36	2.7	CC	Friendship 7, this is Kano Cap Com, standing by.
01 57 40	2.3	P	Hello, Kano. Roger. Hear you loud and clear.
01 57 48	6.3	CC	Ah, Friendship 7, this is Kano. Any time you're ready, we'd like your status report. We hear you loud and clear, also.
01 57 55	9.6	P	Ah, Roger Kano. This is Friendship 7. Ah, I am presently, ah, returning to orbit attitude from 180° yaw check. Over.
01 58 06	9.5	CC	Roger, Friendship 7. We marked that your part of the transmission, ah, pretty clearly over ATS, and understand you like the old attitude.
01 58 16	4.5	P	Negative, I like the forward-facing attitude much better. Like, ---.
01 58 22	5.0	CC	But, how is your status, and your station report.
01 58 27	12.2	P	This is Friendship 7. My status is good. Control fuel is 76-100; oxygen, 68-100; amps, 25. Over.
01 58 42	10.8	CC	Roger, Friendship 7. We are monitoring your inverters. Your 150 volts inverter reads 200°, your 250, -- 180°, 180°.
01 58 55	1.1	P	Roger. Friendship 7.
01 59 08	9.8	CC	Friendship 7, we have telemetry solid and check all your systems out okay. Ah, we will remind you to start pre-darkside checklist as soon as you lose contact with us.
01 59 18	1.0	P	Roger. Friendship 7.
01 59 21	2.1	P	This is Friendship 7, back in orbit attitude. Over.
01 59 24	2.3	CC	Roger, understand back in orbit attitude.
01 59 27	1.3	P	This is Friendship 7. That's affirm.
01 59 30	8.9	P	This is Friendship 7. I now have, ah, control in low thrust to the left. I do not have control in low right thrust. Over.
01 59 40	6.5	CC	Roger. Confirm you have control in low thrust to the left, but no control in low thrust to right.
01 59 47	1.6	P	That is affirmative. Friendship 7.
01 59 49	3.9	CC	We will inform MCC. Have you any other comments or queries?
01 59 53	5.4	P	Negative. Friendship 7. I'm in orbit attitude. I'll try and go back on ASCS and see if it works. Over.
02 00 00	1.3	CC	Roger. Will stand by.
02 00 01	0.4	P	Roger.
02 00 26	2.6	P	This is Friendship 7. The capsule appears ---.
02 00 36	2.5	CC	Friendship 7, your last transmission was interrupted.
02 00 39	7.9	P	This is Friendship 7. The capsule appears to be holding in ASCS okay, but I believe we are off in yaw. Do you confirm? Over.
02 00 48	0.6	CC	Standby.

02 00 52	3.7	CC	Our signal shows you are sitting at zero in yaw.
02 01 01	16.2	P	This is Friendship 7. I'm going to, ah, depart from flight plan for a moment and try and work this out a little better here, ah, we are drifting in yaw. I am cutting automatic yaw off. And, ah, and will control manually in yaw temporarily. Over.
02 01 18	5.0	CC	Roger, we still confirm you are holding in yaw, at, as last TM check.
02 02 26	4.6	CC	Friendship 7, this is Kano Cap Com. I do not think I can read you, handing over to Zanzibar.
02 02 35	1.5	P	Ah, Roger. This is Friendship 7.
