February 26, 1992

Raymond Goerler, Ph.D.
University Archivist
The Ohio State University Archives
2121 Tuttle Park Place
Columbus, Ohio 43210

Dear Dr. Goerler:

During my representation of the University in the lawsuit filed by the young lady injured in Mirror Lake, I obtained the enclosed microfilm records from the National Archives. The microfilm roll contains project records for several different construction projects on the campus of the University in the 1940 time frame. I no longer have any use for these documents, and thought the University Archives might have some use for them. Enclosed is the complete copy of reel number 744B, and a certification from the National Archives regarding the microfilm reel.

Sincerely,

LEE FISHER
Attorney General of Ohio

MICHAEL W. GLEESPEN
Assistant Attorney General
