CAMPUS OF THE OHIO A and M COLLEGE 1876
May 23, 1980

Mr. Kenneth E. Wheeler
623 Flagler Blvd.
Lake Park, Florida 33403

Dear Mr. Wheeler:

I am currently annotating some 675 old OSU campus maps for placement in the University Archives. Among these are four maps bearing the initials "KEW."

All of these maps appear in the history of the physical plant prepared by William McCracken in the 1940's.

Acting on the assumption that McCracken employed a student to prepare these maps for him, I have searched the Directory for the years in question, and you are the only person listed with these initials. The fact that you were in Engineering suggests that you would be the type of student whose assistance would be sought for such an assignment.

Are you by any chance the "KEW" who drew these four maps? A self-addressed, stamped envelope is enclosed for your reply.

Thanks for your assistance.

Yours truly,

John H. Herrick
Executive Director Emeritus
Campus Planning

John Herrick
Campus Planning

Dear Sir:

You are quite correct - the "KEN" you find on the OSU campus maps does belong to me. I am amazed at your detail in determining who drew the maps. As you are, and honored - really.

It happened around 1940-41 when I was working part time for OSU Engineering in the Plant Engineering office. I believe Mr. McCracken was a retired plant engineer at the time and was putting together a book or records on history of OSU. I did the mapwork from information he had available.

If I can be of any assistance in the future, please let me know - I do appreciate you writing to me.

Thank you, "KEN"

K.E. Wheeler

General Session, 9 a.m., Chapel University Hall

Luncheon, 12 m., Gymnasium
(The faculty of the University invites all members of the various associations)

School Examiners, 1:30 p.m., Room B, Page Hall

Township Superintendents, 1:30 p.m., Room A, Page Hall

Federation, 1:30 p.m., Chemical Lecture Room, Townsend Hall

College Association, 1:30 p.m., The W. F. Hunter Law Society, Page Hall

Elocutionists, 1:30 p.m., Room G, Page Hall

Drawing and Manual Training, 1:30 p.m., Room 31, Brown Hall

Elementary Teachers, 1:30 p.m., Room 7, University Hall

Institute Instructors, 1:30 p.m., Room 1, Hayes Hall

Secondary Teachers, 1:30 p.m., Lecture Room, Biological Hall

The Building marked "Engineering Building" is Brown Hall.
The Physics Building is not shown on this map; but it is between Page Hall and Biological Hall.
The Chemical Building was destroyed by fire about a year ago.

ASSOCIATION OF AMERICAN UNIVERSITIES

INFORMATION TO THE DELEGATES

The meetings of the Association will be held in the Ohio State University Library (see map on reverse side of this card).

For the convenience of delegates, automobiles will leave the Broad Street entrance of the Hotel Deshler half an hour before each of the meetings scheduled.

Those who may desire to reach the University by street car should take northbound cars on High Street marked either High or Neil. The latter are apt to be less crowded and this line ends at the University campus.

All delegates are invited to the luncheons and dinners mentioned on the program of the Association. Because of the difficulty of reaching all the delegates, individual invitations have not been sent.

The Columbus Club and the Athletic Club have extended the privileges of their houses to delegates during their stay. These clubs are both situated on East Broad Street about two blocks from the Hotel Deshler. Cards of admission for each delegate have been left with the hotel clerk, and may be secured from him.
An Eye-Opener for Oldtimers

Portion of grounds
The Ohio State University

The little map at the left, reconstructed by Professor Joseph N. Bradford, '87, University Architect, shows the campus in 1878, five years after its opening. Note the wheat fields at the north and south. The only buildings of any size are the "Old Main Building" and the North and South dorms.

Above is the campus of 1925, revealing the tremendous growth of less than half a century—with four to six new buildings arising every year.

HOMECOMERS who have been away for years may fail to recognize the campus as it used to be. For their convenience this map, drawn by Miss Gladys Palmer of the Department of Physical Education for Women, is reproduced. It shows every building on the campus and gives a comprehensive idea of the present size of Ohio State University. The new Natatorium and the Men's Gymnasium are now under construction near the spot marked "Recreation Fields," immediately south of the Stadium, while the new University High School is taking shape on old Ohio Field to the north of the Education Building.

These maps, measuring 33 by 35 inches are available in colors through the Alumni Office and dealers near the University district.

Mr. William G. Wilcox, Manager
Publications and Printing
University Relations
108 Administration Building
Campus

Dear Bill:

As nearly as I can tell the attached maps date back approximately to 1930. They show the Pharmacy and Bacteriology Building which our records show was constructed in 1930 and they do not show University School, the Natatorium, and the Home Management House which were constructed in 1931.

Ruth Jones in Photo-History probably has copies of these maps and could perhaps date them more precisely.

Cardially yours,

John H. Herrick

Used Books Serve as well as New . . . . . . and the cost is much LESS

Every Quarter a complete price list of all needed books is published by Long's. This list shows the lowest prices on both new and used books. It is reliable. Always get one.
OSU and Columbus

Welcome to the Columbus Campus of The Ohio State University. We hope you will enjoy your visit with us. Ohio State has developed many excellent programs in teaching, research, and community service during the more than 100 years the University has served the people of this state.

Public parking

Visitors may park in the following pay areas: (map on reverse side) Mershon Garage (No. 119 at Z11), the Ohio Union Ramp (No. 122 at Z14), and the Northwest Ramp (No. 121 at T8), open weekdays from 7 a.m. to 11 p.m. and Saturdays from 7 a.m. to 1 p.m. In the Medical Center area, meter parking and the Medical Area Ramp (No. 118 at O18) are available 24 hours a day, seven days a week. The 11th Avenue Parking Ramp (No. 117 at V18), also in the Medical Center area, is open from 7 a.m. to 11 p.m. weekdays. In addition, several meter parking areas for visitors' use are located on the West Campus.

To create a pedestrian-oriented campus, public parking is prohibited in the central portion of the campus, and a permit is required to drive there. For more information, inquire at the parking ramps or call 422-9341.

Admission information

Prospective students may obtain admissions information at the Admission Office, Lincoln Tower—Third Floor (No. 78 at O13), 1800 Cannon Drive, Columbus, Ohio 43210. Telephone 614-422-3980.

First aid emergency assistance

In case of personal injury or illness requiring emergency treatment while on the campus, telephone the University police at 422-2525, stop any police patrol car, or use one of 22 outdoor telephone call boxes which provide a direct line to the University police. For nonemergency police assistance, call 422-2121. In the interest of maintaining the orderly process of University business, individuals entering OSU campuses agree to abide by all University rules and regulations.

Tornado safety instructions

In the event of a tornado, the warning to take cover will be a three-minute siren followed by several minutes of silence and then a repeat of the three-minute siren. Take cover by going to the basement of the nearest campus building on a lower floor, where possible. Stay away from outer walls and windows. Avoid taking shelter in areas with large unsupported roof structures, such as auditoriums. Remain in the building until all is clear. This will be indicated by a period of 20 minutes without the siren sounding.
