Joseph D. Duffey
Chairman
The National Endowment for the Humanities

Presentation of Awards
Alumni Awards for Distinguished Teaching
Distinguished Research Awards
Joseph Sullivant Medal
Speaker

Joseph D. Duffey

Joseph D. Duffey has been chairman of the National Endowment for the Humanities since 1977, the year in which he served also in an appointment as assistant secretary for cultural affairs, U.S. Department of State.

He earned his first degree at Marshall University in Huntington, W. Va., his birthplace, then took three more degrees in theology: the Bachelor of Divinity from Andover Newton Theological School, Master of Sacred Theology from Yale, and the Ph.D. from Hartford Seminary Foundation. After ordination to the ministry in the Congregationalist Church, he held a pastorate for three years in Danvers, Mass.

Dr. Duffey taught at Hartford (Conn.) Seminary during the early 1960s and for five years was director of the Center for Urban Studies. He has held Rockefeller and Kennedy School of Government Fellowships.

Active in the political arena, he has been national chairman, Americans for Democratic Action, member, National Democratic Policy Council, and in 1970 was a candidate for the U.S. Senate.

Joseph Sullivant Medal

The Joseph Sullivant Medal was established in 1920 by Thomas C. Mendenhall, an Ohio State University faculty member. The medal honors Joseph Sullivant, one of the University's first Trustees. The purpose of the award is to offer recognition for truly notable achievements in some field of the arts or sciences by a University graduate or faculty member. Nominations from the colleges and schools of the University are considered by a committee of the Graduate Council, then submitted to an outside board of award appointed by the president. One medallion is awarded every five years.

Medal Recipient

Robert H. Bremner

Robert H. Bremner began teaching history at Ohio State in 1946. A specialist in modern American society and thought, he is widely known as the author of several outstanding books that have become classics in their fields.

More recently, an edited three-volume collection published by the Harvard University Press, *Children and Youth in America: A Documentary History*, 1970-74, has served to establish the history of families and children as an academic study area.

He was for three years a member of the President's Science Advisory Committee Panel on Youth and is currently on the National Academy of Science Panel on Federal Programs for Youth.

His honors have included the Award of Merit of the Ohio Academy of History, NATO, Social Science Research Council, and Charles Warren Center fellowships and a senior fellowship of the National Endowment for the Humanities as well as Ohio State's Alumni Award for Distinguished Teaching.
Alumni Awards
for Distinguished Teaching

The Alumni Awards for Distinguished Teaching were established jointly by The Ohio State University Alumni Association and the Development Fund in 1960. The purpose of the awards is to recognize and give evidence of the importance placed on superior teaching in the University and to provide encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprised of alumni, students, and faculty members who have received the award in past years. Eight cash awards are given annually.

Award Recipients

Kevin L. Alexander

Kevin L. Alexander is an assistant professor in the College of Optometry and a licensed optometrist in the states of Ohio and Michigan. He did undergraduate work at the University of Toledo and Ohio University before taking his professional and graduate studies at Ohio State. He has the Bachelor of Science degree, received in 1974; Doctor of Optometry, 1976; Master of Science, 1977; and he earned the Ph.D. last year. He has held membership in the American Optometric Association since 1973 and in the Ohio Optometric Association since 1976.

Donald R. Bateman

Donald R. Bateman, professor of education, received his doctorate at Ohio State in education and linguistics and did post-doctoral study in linguistics and folklore. His 29-year teaching career includes nine years at Ohio State’s former University School. Throughout the 1960s he served as an instructor for in-service seminars held in eight Ohio public school systems. This instruction was concerned with development of new content for English programs based on linguistics, literary criticism, and philosophy of art.

Daryle H. Busch

Daryle H. Busch, a professor in the field of inorganic chemistry, has taught at Ohio State since 1954. He specializes in transition metal chemistry including the new area of bioinorganic chemistry. He earned his bachelor’s degree from Southern Illinois University in 1951 and both master’s and Ph.D. degrees from the University of Illinois in 1952 and 1954, respectively. Author of numerous articles in his field, he has served on several editorial boards and as consultant to the Surgeon General, National Science Foundation, Chemical Abstracts Service, and several industries.
George P. Ecker

George P. Ecker came to Ohio State in 1974 after completing postdoctoral work at Stanford University. The assistant professor of educational administration earned a Ph.D. at Stanford and received master's and bachelor's degrees from Cornell University. Ecker is particularly interested in the administration of higher education, organizational theory and behavior, and the sociology of education. He is the coauthor of the book, Policy Making and Effective Leadership (1978), and has written numerous articles and monographs.

Gary L. Floyd

Gary L. Floyd, an associate professor of botany who has taught at Ohio State since 1975, is a specialist in the study of green algae. He has shown evidence in one species of muscle-like structures, which he suggests might be important to an understanding of early evolution. A 1962 graduate of the State College of Iowa, he received his master's degree in 1966 from the University of Oklahoma and his Ph.D. in 1971 from Miami University. He has taught at both Miami and Rutgers universities and is author or coauthor of more than two dozen technical publications.

Derek Horton

Derek Horton, a professor of chemistry, is widely recognized for his contributions in the field of carbohydrate chemistry and was the 1972 winner of the American Chemical Society's Claude S. Hudson Award. His current research is concerned principally with the synthesis, structure, and reactivity of carbohydrates and other natural products. He earned his bachelor's degree in 1954 and Ph.D. in 1957, both from the University of Birmingham, England. He came to Ohio State on an exchange with Birmingham in 1959, joining the chemistry faculty three years later.

Terry F. Pettijohn

Terry F. Pettijohn became an assistant professor of psychology at Ohio State in 1974. He received the Ph.D. and master's degrees from Bowling Green State University and a bachelor's from Michigan State University. A faculty member at the Marion Campus, Pettijohn's teaching interests include comparative psychology (animal behavior), aggression, behavior genetics, social psychology, and psychobiology. His numerous publications have resulted from research on animal behavior.

Joseph E. Scott

Joseph E. Scott is an associate professor in the Department of Sociology. His research field is criminology and the penal system, and he has been the primary investigator on a number of research projects dealing with juveniles, shock parole, and international crime trends. Scott joined the Ohio State faculty in 1972. He had served previously in several research posts at Indiana University and as an assistant professor at Hanover College. He received his bachelor's degree from the University of Utah and his master's and Ph.D. degrees from Indiana. He has published two books and a number of papers.
Distinguished Research Awards

The Distinguished Research Awards program was announced in 1978 by President Harold L. Enarson. Its purpose is to recognize exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research activity, as well as accomplishment by younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and are chosen by a committee comprised of senior faculty members, including several previous recipients of the award. Six cash awards, which include honoraria and unrestricted research funds, are presented annually to three senior and three junior faculty members.

1979 Award Recipients

Richard Altick

Richard Altick, professor of English, is considered one of the world's chief authorities on the Victorian Age. Several years ago, he won a Guggenheim fellowship to complete a book on *The Shows of London* which concerns the popular culture of England from 1700 to 1860. The book has won high critical praise. Altick is also the author of three of the most influential textbooks on the study of English literature. He obtained his bachelor's degree in 1936 from Franklin and Marshall College and his Ph.D. in 1941 from the University of Pennsylvania. Altick came to Ohio State in 1945 and won a full professorship in 1950. He was one of 12 OSU professors chosen in the mid-1960s to be a Regents professor.

Eiichi Bannai

Eiichi Bannai, associate professor of mathematics, works in a branch of mathematics so pure that even he is hard-pressed to explain it to laymen. Bannai has already won an international reputation for his work in algebraic combinatorics—the study of the ways in which mathematical objects can be arranged. His peers are unanimous in their praise of his work and of his brilliance as a researcher. Bannai first came from Japan to this country and to the University six years ago. He received his bachelor's, master's, and Ph.D. degrees from the University of Tokyo in 1968, 1970, and 1974 respectively.

Simon Dinitz

Simon Dinitz, professor of sociology, is considered one of the foremost criminologists in the world today. Dinitz' peers have honored him repeatedly for his influential research in mental illness, crime, juvenile delinquency, and violent behavior. Once named by the Chicago Tribune as one of the "Big Ten's 10 Most Exciting Teachers," Dinitz last spring became the first OSU professor to have won both the University's Alumni Award for Distinguished Teaching and its new Distinguished Research Award. He joined Ohio State's faculty in 1951 after earning a bachelor's degree from Vanderbilt University in 1947 and master's and Ph.D. degrees in, respectively, 1949 and 1951, from the University of Wisconsin.
John Hirth

The work of John Hirth, professor of metallurgical engineering, concerns theoretical studies of the fundamental properties of metals — how and why they fracture. Recently his work contributed to improvements in high temperature alloys such as those used in jet engines. Hirth's international stature as a scientist won him membership, in 1974, in the U.S. National Academy of Engineers. He advises various federal agencies and laboratories, including the Department of Defense. Hirth did both undergraduate and graduate work at OSU before obtaining a doctorate, in 1958, from Carnegie Institute of Technology. He was named Mershon associate professor at OSU in 1961 and became a full professor in 1964.

Ta-Yung Ling

Ta-Yung Ling, associate professor of physics, was selected recently by the U.S. Department of Energy as one of the 10 most outstanding young high-energy physicists in the country. Ling and his colleagues found the first experimental evidence to support an earlier theory which attempts to give a unified explanation for some of the forces operating between elementary particles. That theory won its authors the 1979 Nobel Prize for physics. Ling earned his bachelor's degree from Tunghai University in 1964, a master's degree from the University of Waterloo in 1966, and his Ph.D from the University of Wisconsin in 1971. He came to Ohio State in 1976.

Michael Perry

Michael Perry, associate professor of law, is described by his elders as one of the outstanding young Constitutional scholars in the country today. He has published six lengthy articles in major law review journals over the last several years on the Constitutional aspects of such issues as abortion, racial discrimination, equal protection, and due process. Now he is writing a book on the current "activist" role played by the Supreme Court. Perry earned his bachelor's degree in 1968 from Georgetown University and his law degree from Columbia University in 1973. He spent the 1978-79 academic year as a visiting professor at Yale Law School.

1980 Award Recipients

Michael Les Benedict

Michael Les Benedict, associate professor of history, has in the 10 years since earning his Ph.D. at Rice University published three major works, one a text on Reconstruction. His monographs, The Impeachment and Trial of Andrew Johnson and A Compromise of Principle, both are standard sources today, with the second rated by historians as "the single most important book on Congressional Reconstruction." At Ohio State since 1970, his numerous awards include a 1978 Guggenheim Fellowship, fellowships to study at the Woodrow Wilson International Center and at Princeton, and a Younger Humanist Award of the National Endowment for the Humanities.
Ilse Lehiste

Ilse Lehiste, professor and former chairman of linguistics, holds doctorates from the universities of Hamburg (Germany) and Michigan and an honorary doctorate from the University of Essex, England. The author of nine monographs and 90 articles, she has held two Guggenheim Fellowships and multiple grants from the National Science Foundation, National Endowment for the Humanities, National Institutes of Health, and the American Council of Learned Societies. She has been visiting professor at Vienna, Cologne, and UCLA. She currently is board of trustees vice chairman of the Center for Applied Linguistics in Washington, D.C.

Philip D. Magnus

Philip D. Magnus, an associate professor of chemistry, has been a member of Ohio State's faculty since 1975. An organic chemist, he has been developing new methods for constructing large, biologically important molecules. He is author of more than 80 scientific papers. A native of England, he received his B.Sc. in 1965 and Ph.D. in 1968, both from Imperial College, London. He was awarded the Edmund White prize for organic chemistry in 1965.

Leo A. Paquette

Leo A. Paquette, professor and member of Ohio State's chemistry faculty since 1963, is an organic chemist specializing in the synthesis and reactivity of unusual molecules. He was named a fellow of the Alfred P. Sloan Foundation in 1965 and received the Morley Medal of the American Chemical Society's Clevland Section in 1971. Holder of numerous patents, he is author of more than 400 scientific papers and of a book, Principles of Modern Heterocyclic Chemistry. A 1956 graduate of Holy Cross College, he received his Ph.D. in 1959 from Massachusetts Institute of Technology.

Philip Stewart Perlman

Philip Stewart Perlman, associate professor in the Department of Genetics, has focused his research since 1975 on the precise function of mitochondrial genes. After joining the Ohio State faculty in 1971, he was instrumental in designing advanced genetics courses and assisting with several others. Perlman received the research award of the Ohio State Chapter of Sigma Xi in 1979. After receiving his Ph.D. from Indiana University, Perlman continued postdoctoral work at that university. His bachelor's degree was earned at Johns Hopkins University.

Delos D. Wickens

Delos D. Wickens, professor of psychology, has been honored for excellence in research, writing, and teaching. In 1973, he earned the Howard Crosby Warren Medal of the Society of Experimental Psychologists. Wickens has numerous publications to his credit and in 1957-58 and from 1966 to 1973 served as associate editor of the Journal of Experimental Psychology. In 1979, he received the American Psychology Foundation Distinguished Teaching Award. The Delos D. Wickens Endowed Lectureship in psychology, funded by former students and colleagues, was established at Ohio State in 1979.
Board of Trustees

(The expiration date for each Trustee’s term is indicated in parentheses.)

Patricia D. James [Mrs.]
  Chairman [1981]
  Chickster Devenow,
  Vice Chairman [1982]

Speaker

James E. Ebert

James E. Ebert, president of the Carnegie Institution of Washington, D.C., since 1978, is internationally recognized as an experimental embryologist. He was for two decades head of the Carnegie Institution's Department of Embryology, from 1956 to 1976, and held joint appointments at Johns Hopkins as professor of biology and of embryology in the School of Medicine. For six of those years, he was concurrently president and director of the Marine Biological Laboratory at Woods Hole, positions he held from 1970 to 1978.

Dr. Ebert holds honorary degrees from Yale and Indiana Universities and Moravian College, as well as from his alma mater, Washington and Jefferson College. He earned his graduate degrees at Johns Hopkins. His 175 publications include three books.

Although he has been a visiting professor and lecturer in dozens of universities around the world, Dr. Ebert is especially concerned with promoting scientific interactions with Japan and, more recently, China. He is an Eminent Scientist of the Japan Society for the Promotion of Science and has delivered the Yamagiwa and Tamaki Memorial Lectures and the Mitsubishi-Kasei Public Lecture. He also is a Visiting Scholar of the Chinese Academy of Sciences and the Tung Memorial Lecturer.

A member of the American Philosophical Society, the American Academy of Arts and Sciences and the Institute of Medicine, Dr. Ebert has served as first chairman of the Assembly of Life Sciences of the National Research Council and was recently elected vice president of the National Academy of Science.
Alumni Awards
for Distinguished Teaching

The Alumni Awards for Distinguished Teaching were established jointly by the Ohio State University Alumni Association and the Development Fund in 1960. The purpose of the awards is to recognize and give evidence of the importance placed on superior teaching in the University and to provide encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprised of alumni, students, and faculty members who have received the award in past years. Eight cash awards are given annually.

Award Recipients

Goodwin F. Berquist

Goodwin F. Berquist, professor of communication and journalism since 1969, has received three previous teaching honors—the Kiekhofer Award of the University of Wisconsin and distinguished teaching awards from the Speech Communication Association of Ohio and the Central States Speech Association. He also has been active as a parliamentarian, both for on-campus groups such as Faculty Council and University Senate, and for off-campus associations. He earned his B.A. at Ohio Wesleyan and M.A. and Ph.D. at Pennsylvania State University, the latter in 1958. He has been a Peace Corps lecturer in communication since 1962 and is the author, co-author, or editor of five books, plus numerous articles on speech, debate, rhetoric, and rhetorical criticism.

Rodica Botoman

Rodica Botoman, instructor in Slavic and East European Languages and Literatures, began teaching one class in Romanian in 1974 in addition to teaching French. She now teaches Romanian full-time in a 20-credit-hour sequence that gives Ohio State the largest Romanian program in the United States. She also founded and advises the 130-member Romanian Club and the Haiducii folkdance troupe. Her degrees include an M.A. from the University of Bucharest and another from Ohio State, earned in 1973. She received her doctorate last year from the Sorbonne. A high school teacher and principal in Romania, where she won the national teaching award in 1969, she also is a past recipient of the Colleges of the Arts and Sciences outstanding teacher award.
David Citino

David Citino, associate professor of English, has taught at OSU Marion since 1974, after receiving his M.A. and Ph.D. at Ohio State. His bachelor's degree is from Ohio University. He is faculty adviser to the campus student newspaper, editor of the Marion faculty-staff bulletin, and editor of the literary journal Cornfield Review, published at Marion since 1975. His poetry has been published widely in anthologies and more than 100 literary journals across the nation, and he is active in presenting readings and workshops around the state. His book, Last Rites and Other Poems, was published last year by the Ohio State University Press. Besides poetry, he also teaches composition, fiction, creative writing, and American literature at Marion.

Lawrence Herman

Lawrence Herman, the Presidents Club Professor of Law, has been a faculty member since 1961 and has twice received his college's outstanding teacher award. He is adviser to the award-winning Moot Court program and is author or editor of three books, one a collection of his Law Forum series lectures. His A.B. and LL.B. are from the University of Cincinnati, where he graduated first in his law school class in 1953. He is active as a consultant to both legal firms and government, and his law review articles have several times been cited by the U.S. Supreme Court, including the court's 1966 Miranda decision. He serves on the national board of directors and is one of three general counsel to the American Civil Liberties Union.

Edward J. Kane

Edward J. Kane, the Everett D. Reese Professor of Banking and Monetary Economics since 1972, has a joint appointment in economics and finance. He earned his B.S., cum laude, from Georgetown University, and his Ph.D. from the Massachusetts Institute of Technology in 1960. He has wide experience as a consultant to business and government, including to the U.S. Congress Joint Economic Committee, and served for three years on National Science Foundation review panels. A past president of the American Finance Association and a former Guggenheim Fellow, he is on the board of trustees of the Teachers Insurance and Annuity Association and a member of their finance committee. His books include a text on economic statistics and econometrics.
Charles Massey Jr.

Charles Massey Jr., associate professor of art, has been a faculty member since 1974. After receiving his B.S. degree from Middle Tennessee State University, he studied art for a summer in Italy and earned his M.F.A. at the University of Georgia, where he also completed post-graduate studies. Courses he teaches include printmaking, lithography, and photomechanical printmaking. His own work has been widely exhibited internationally, from England to Poland, and he is represented in the Smithsonian Traveling Exhibition touring the United States. His work has earned close to 100 awards and honors, including the Grand Award in last year's Korean International Print Exhibition. His work is part of museum, private, and corporate art collections around the world.

Gerald M. Reagan

Gerald M. Reagan, professor of education, has been a member of the Academic Faculty of Educational Foundations and Research since 1969. A specialist in philosophy of education, his most recent work has been in the area of ethics in education. He is a co-author of the 1969 book, Teaching for Thinking, and has written chapters in several other books, in addition to numerous journal articles. He also has served on editorial boards or acted as guest editor for a number of education journals. His background includes three years as a social studies and history teacher at the secondary level between earning his B.A. at the University of Nebraska and M.A. at Western Michigan. He received his Ph.D. from Michigan State University in 1964.

John W. Vaughn

John W. Vaughn, associate professor of classics and a faculty member since 1974, specializes in Hellenistic poetry and scholarship, Cicero and ancient rhetoric, Greek paleography and textual criticism. He has developed and taught a new course on Roman law and teaches a variety of language courses, from individualized elementary Latin to advanced Greek and Latin composition. In summer 1976, he led a study tour to Italy and Sicily. A summa cum laude graduate of St. Peter's College, he earned his Ph.D. from Johns Hopkins University in 1973 and was awarded a Rome Prize Fellowship for a year of post-doctoral study at the American Academy in Rome. He has been a member of the Honors Committee of the Colleges of the Arts and Sciences since 1973.
Distinguished Research Awards

The Distinguished Research Awards program was announced in 1978 by President Harold L. Enarson. Its purpose is to recognize exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research activity, as well as accomplishment by younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and are chosen by a committee comprised of senior faculty members, including several previous recipients of the award. Six cash awards, which include honoraria and unrestricted research funds, are presented annually to three senior and three junior faculty members.

Award Recipients

Richard N. Boyd

Richard N. Boyd, associate professor of physics since 1978, investigates nuclear structure and reaction mechanisms, particle physics, and astrophysics. He is developing a radioactive beam facility at the Van de Graaff Laboratory which will provide a unique device for determining reaction rates appropriate to hot stellar nucleosynthesis, as well as other astrophysical and nuclear studies. Over the past several years he has directed three quark searches and a number of other studies of nuclear structure at low and medium energies. A visiting staff member at Los Alamos Scientific Laboratory since 1977, he earned his B.S.E. in physics and mathematics at the University of Michigan and Ph.D. at the University of Minnesota in 1967.

Daryle H. Busch

Daryle H. Busch, professor of chemistry, has been a faculty member since receiving his Ph.D. from the University of Illinois in 1954. He specializes in transition metal and bio-inorganic chemistry and has recently done groundbreaking work in synthetic iron chemistry. Last year, he was honored as an outstanding teacher with the Alumni Award for Distinguished Teaching. His many research awards include the 1978 Dwyer Medal of the Chemical Society of New South Wales, Australia, and he is one of only two people to receive both the American Chemical Society's awards in inorganic chemistry. He was elected a fellow of the American Association for the Advancement of Science in 1980 and currently serves on the editorial boards of several chemistry journals.
Jack G. Calvert

Jack G. Calvert, the Kimberly Professor of Chemistry, has been a faculty member since 1950, a year after receiving his Ph.D. from the University of California at Los Angeles. His numerous honors for research and teaching include a 1962 Alumni Award for Distinguished Teaching. A specialist in atmospheric chemistry, his work has been applied to studies of acid rain and smog formation and his 1966 book, *Photochemistry*, is still considered a critical scientific reference. He has served on editorial boards of several chemistry journals and is regularly named to national and international committees on pollution and regulation, from U.S. Environmental Protection Agency advisory groups to the U.S.-U.S.S.R. Joint Committee on Atmospheric Modeling and Aerosols.

John C. Huntington

John C. Huntington, associate professor of history of art, has been a faculty member since 1970. He earned his degrees, through the doctorate, at the University of California at Los Angeles. His recent research involves photographic documentation and analysis of unrecorded Buddhist temple art, as a part of his broader interest in establishing Buddhist temple art and iconography as a valid document in the development of the religion. His work spans several countries and 1,500 years and includes studies of ancient texts, which he translates himself from Tibetan, Sanskrit, and Chinese. His combined studies of the art works with religious writing have pioneered a new approach to research in both Buddhist studies and the history of art.

Paul Nevai

Paul Nevai, associate professor of mathematics, has been a faculty member since 1977. He has his M.Sc. from Leningrad State University, U.S.S.R., and Ph.D. from the University of Szeged, Hungary. His research was recognized earlier with three awards in Hungary, including the 1974 prize of the Academy of Sciences. He is widely recognized for his ability to discover important new results in areas already investigated by many other mathematicians, as shown in his book on orthogonal polynomials, published in 1979 by the American Mathematical Society. His theorems have been successfully applied to problems in approximation, special functions, scattering theory, and nuclear physics. He is associate editor of the *Journal of Approximation Theory*.

Hans J. Zassenhaus

Hans J. Zassenhaus has been a research professor of mathematics at Ohio State since 1964. He was educated at Humburg University, Germany, receiving his doctorate at age 22, and has since been honored around the world for his research in pure and applied mathematics. He is a fellow of the Royal Society of Canada and has received honorary degrees from McGill University, the University of Ottawa, and the University of Glasgow, Scotland. The Alexander von Humboldt Foundation, West Germany, has twice selected him for its Distinguished American Scientist Award. He also is editor-in-chief of the *Journal of Number Theory* and the author or co-author of more than 100 papers and six books. His 1937 work on group theory remains an indispensable reference for mathematicians.

**Presentation of Awards**
Alumni Award for Distinguished Teaching
Distinguished Research Award
Speaker
Howard Nemerov

Howard Nemerov is the Edward Mallinckrodt Distinguished University Professor of English at Washington University in St. Louis. He has published books of verse, fiction, and essays on poetry. His book, *Collected Poems*, won both the National Book Award and the Pulitzer Prize for Poetry in 1978. A graduate of Harvard University in 1941, Professor Nemerov has taught at a number of colleges and universities. He was associate editor of *Furioso* magazine from 1946 to 1951 and was consultant in poetry to the Library of Congress from 1963 to 1964. He has won many notable literary awards, including the Levinson Prize from *Poetry* magazine and the fellowship of the Academy of American Poets in 1971. He was formally inducted into the American Academy and Institute of Arts and Letters in 1977.
The Alumni Award
for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established jointly by The Ohio State University Alumni Association and the Development Fund in 1960. The purpose of the award is to recognize and give evidence of the importance placed on superior teaching in the University and to provide encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprising alumni, students, and faculty members who have received the award in the past. Eight cash awards are given annually and are made possible by contributions from the Amoco Foundation, the corporate foundation of Standard Oil of Indiana, alumni, and other friends of the University.

Award Recipients

Nancy E. Betz

Nancy E. Betz, associate professor of psychology, came to Ohio State in 1976 as an assistant professor of psychology. Her teaching and research specialties are vocational psychology and career development, particularly career development of women. She is the author of numerous articles and chapters on career development of women. Active in many University organizations, Professor Betz served as chairperson of the Ohio Faculty Senate from 1979 to 1981 and is currently the director of the Counseling Psychology Graduate Training Program. She is a member of the editorial board of the Journal of Vocational Behavior and a reviewer for four other professional journals. She received her bachelor's degree and Ph.D. in psychology from the University of Minnesota in 1971 and 1976, respectively.

Frederick C. Dahlstrand

Frederick C. "Ted" Dahlstrand, assistant professor of history at the Mansfield campus, came to Ohio State in 1977. He specializes in U.S. cultural and intellectual history, particularly American transcendentalism and American reform movements. Currently he is studying the general impact of technology on American thought in the 19th century. He received the 1979-80 Outstanding Teaching Award on the Mansfield campus. He is the author of several publications and serves on many University committees. He was an assistant instructor at the University of Kansas from 1973 to 1974 and in 1976. He received his B.A. from Thiel College in 1967, and his master's degree in 1976 and his Ph.D. in 1977, both from the University of Kansas. From 1968 to 1972 he served with the U.S. Air Force.
Robert L. Hamlin

Robert L. Hamlin, the Stanton Youngberg Professor of Veterinary Medicine in the Department of Veterinary Physiology and Pharmacology, joined the Ohio State faculty in 1960. He specializes in comparative cardiology, the study of heart functions in a variety of animal species. He has received a research fellowship and a career development award from the National Institutes of Health and research fellowships from both the Cleveland and Central Ohio chapters of the American Heart Association. Professor Hamlin is president of the Heart Association's Central Ohio Chapter and is past president of the American College of Veterinary Internal Medicine. He earned four degrees from Ohio State: his bachelor's in 1956, his doctor of veterinary medicine in 1958, his master's in 1960, and his Ph.D. in 1962.

Craig J. Kirchhoff

Craig J. Kirchhoff, associate professor of music and director of university bands, conducts the University Wind Ensemble and the University Concert Band. He coordinates the graduate program in wind ensemble and band conducting, and he guides all aspects of the band program. Prior to his appointment to the Ohio State faculty in 1979, he served in a similar capacity at Washington State University and as associate director of bands at the University of Wisconsin-Madison. Editor of the College Band Directors National Association Journal, he has been a guest conductor, lecturer, and clinician throughout the United States. He earned his bachelor's degree from the University of Wisconsin-Milwaukee in 1971 and his master of music degree in conducting at the University of Wisconsin-Madison in 1976.

Judith S. Mayne

Judith Mayne, associate professor of French, joined Ohio State's Department of Comparative Literature in 1976 and has been a member of the Department of Romance Languages and Literatures since 1977. She teaches French literature and cinema, comparative literature and cinema, and women's studies courses. In 1972-73 she was a lecturer at the Institut d'Anglais de Charles V, Université de Paris VII, and an instructor at the Institut Catholique, Paris. While at the University of Wisconsin-Milwaukee from 1974 to 1976, she held a post-doctoral fellowship and was a lecturer in the departments of French and Italian and comparative literature. She received her B.A. from Indiana University of Pennsylvania in 1970 and her M.A. in 1972 and Ph.D. in 1975 from the State University of New York at Buffalo.
Allan R. Millett
Allan R. Millett, professor of history and director of the Program in International Security and Military Affairs of the Mershon Center, has been on the Ohio State faculty since 1969. A military historian, Professor Millett has written three books, including a history of the U.S. Marine Corps, and numerous articles. A colonel in the Marine Corps Reserves, he served on active duty from 1959 to 1962 and currently is assigned to an advanced amphibious study group. He was an assistant professor at the University of Missouri-Columbia before coming to Ohio State. He received his B.A. from DePauw University in 1959 and his M.A. in 1963 and his Ph.D. in 1966, both from Ohio State. He has been a Woodrow Wilson Fellow, a University Fellow, Mershon Fellow in National Security Affairs, and a Woodrow Wilson Dissertation Fellow.

Ardine K. Nelson
Ardine K. Nelson, associate professor of photography and cinema, works with photography in a fine arts direction and exhibits her photographs extensively. She is interested in both normal and unusual uses of photographic materials. She supervises the instruction for her department's basic photography course and teaches advanced courses. In addition, she is codirector of the department's Silver Image Gallery, the department's curriculum officer, chairperson of the department's undergraduate committee, and a member of the graduate committee. An Ohio State faculty member since 1974, she earned her bachelor's and master's degrees from Northern Illinois University in 1970 and 1972, respectively, and her master of fine arts degree from the University of Iowa in 1972.

Susan J. Sears
Susan J. Sears, assistant professor of human services education in the College of Education, joined the Ohio State faculty in 1978. She teaches counseling, career development, and human relations. Sears is president-elect of the Ohio Association of Counselor Educators. She has published seven scholarly articles and two monographs and has conducted more than 100 workshops. Professor Sears has served as assistant director of student services at Ohio University's Lancaster branch and as a teacher and counselor in several school systems, including the Department of Defense Schools in West Germany. She received her bachelor's degree in 1963 and her Ph.D. in guidance and counseling in 1972, both from Ohio State, and her master's degree in 1968 from the University of Toledo.
Distinguished Research Award

The Distinguished Research Award was established in 1978 and is supported by The Ohio State University Development Fund. Its purpose is to recognize exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research activity, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprising senior faculty members, including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented annually to the recipients.

Award Recipients

Lee B. Becker
Lee B. Becker, associate professor of journalism and communication, joined the faculty in 1977. He studies what people learn about politics from the media, the uses of cable television and other media, and professionalism in journalism. He recently was appointed editor of Journalism Monographs. Professor Becker is the coauthor of Using Mass Communications Theory and is the author or coauthor of nine book chapters and 26 scholarly articles. He received a grant to study coverage of the United States in the Yugoslav press and served as a Fulbright Scholar in West Germany. He received his bachelor's and master's degrees from the University of Kentucky in 1969 and 1971, respectively, and his Ph.D. from the University of Wisconsin in 1974.

Robert S. Brodkey
Robert S. Brodkey, professor of chemical engineering, has been an Ohio State faculty member since 1957. A specialist in the flow of fluids, he has conducted a dozen research projects funded by various government and private agencies and industries. He is author or coauthor of numerous technical papers and three books, including a graduate-level text on fluid dynamics. He also holds or jointly holds 10 patents for various processes and preparations. He has presented more than 60 invited lectures and seminars at institutions around the United States and in a dozen foreign nations. Professor Brodkey received his bachelor of chemistry degree and master of science in chemical engineering degree, both in 1950, from the University of California, Berkeley, and his Ph.D. from the University of Wisconsin in 1952.

Bunny C. Clark
Bunny C. Clark, assistant professor of physics, is an authority on theoretical nuclear physics. Her recent work is an attempt to understand the role that the theory of special relativity plays in the description of nuclei. After earning her bachelor's degree in 1958 from Kansas State University, she was a physicist with Hanford Laboratories of the General Electric Company for three years and an associate senior research physicist with the General Motors Corporation Research Laboratories for eight years. She was named a research associate at Ohio State in 1969. She later served as senior research associate and senior research scientist before being named to the faculty in 1981. She earned her master's degree in 1963 from Kansas State and her Ph.D. from Wayne State University in 1973.
Charles A. Csuri

Charles A. Csuri, professor of art education and computer and information science, has been director since 1971 of the University's Computer Graphics Research Group. A pioneer in the field of computer animation and graphics, he was the first artist to provide significant demonstrations of the potential of computer technology for the visual arts. He has directed basic research in computer graphics for the past 14 years, and the results have been applied to flight simulators, anatomy, computer-aided design, science education, education for the deaf, architecture, and special effects for television commercials and films. He earned his bachelor's degree in 1947 and his master of fine arts degree in 1948, both from Ohio State. He joined the University as an instructor in 1947.

Leon M. Dorfman

Leon M. Dorfman came to Ohio State as professor of chemistry in 1964 and served as department chairperson from 1968 until 1977, except for the 1971-72 academic year when he was a Guggenheim Fellow at the Royal Institution of Great Britain. In 1966-67 he was professor of chemistry at the University of Toronto. A specialist in radiation chemistry and fast reaction research, he has served on editorial boards of three professional journals and as a research consultant. A native of Winnipeg, Manitoba, Professor Dorfman received his B.Sc. in 1944 from the University of Manitoba and his M.A. and Ph.D. from the University of Toronto in 1945 and 1947, respectively. He was research associate for seven years at General Electric Company, and from 1957 until 1964 was senior chemist and group leader at Argonne National Laboratories.

Liang-Shih Fan

Liang-Shih Fan, an associate professor of chemical engineering, has been a member of Ohio State's faculty since 1978. A specialist in fluidization engineering and mathematical modeling, he has served as principal or coprincipal investigator for 16 sponsored research projects, including studies of flue gas desulfurization. He is author or coauthor of several book chapters and journal reviews and of 70 technical articles. A native of Taiwan, he received his B.S. in chemical engineering at the National Taiwan University in 1970; his M.S. and Ph.D. degrees in chemical engineering from West Virginia University in 1973 and 1975, respectively, and an M.S. in statistics from Kansas State University in 1978. He has served as consultant to several industries and research laboratories.

Dwijendra K. Ray-Chaudhuri

Dwijendra (Dijen) K. Ray-Chaudhuri has been professor of mathematics at Ohio State since 1966 and served as department chairperson from 1979 to 1982. He has worked on a broad range of problems of combinatorial mathematics and is widely known for his contributions to coding theory and combinatorial designs. In 1968 he and a colleague jointly solved the general case of the century-old "Kirkman's School Girl Problem." A naturalized U.S. citizen from India, he received two degrees from Calcutta University and a Ph.D. from the University of North Carolina in 1959. He recently was named for the 1984 U.S. Senior Scientist Award by the Alexander Humboldt Foundation of West Germany for accomplishments in research and teaching. In 1970 he was an invited speaker for the International Congress of Mathematicians.

The Alumni Award
for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established jointly by The Ohio State University Alumni Association and the Development Fund in 1960. The purpose of the award is to recognize and give evidence of the importance placed on superior teaching in the University and to provide encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprising alumni, students, and faculty members who have received the award in the past. Eight cash awards are given annually and are made possible by contributions from the Amoco Foundation, the corporate foundation of Standard Oil of Indiana, and alumni and other friends of the University.

Award Recipients

Jack M. Balcer

Jack M. Balcer, professor of history, has been on the faculty since 1971. He specializes in the history of ancient Greece and the ancient Near East, particularly the conflict between the Athenian and Persian empires. Honored previously for his teaching abilities, he received the Arts and Sciences Student Council Award for Outstanding Teaching in 1983. While on the faculty of Indiana University in 1968, he received the Weatherly Award for Distinguished Teaching. He earned a Trustees’ Fellowship to the Center for Hellenic Studies at Harvard University in 1969-70. He has published two books and a third is forthcoming. A graduate of Montclair College, he earned his master’s and Ph.D. degrees from the University of Michigan.

Micheline Besnard-Coursodon

Micheline Besnard-Coursodon, associate professor of Romance languages and literatures, specializes in 19th century French literature, theory of the narrative, and literature and society. She is considered an expert on the “decadent” literature of the late 19th and early 20th centuries. Besnard-Coursodon came to Ohio State in 1977 as a visiting professor. She teaches at all levels of the French program from introductory to graduate, and she is credited with rejuvenating student interest in the French study tour course. Several published articles earned her the George R. Havens Memorial Award from her department in 1979 and 1981. While in Paris, she received a French baccalaureate in 1957 and completed graduate studies in 1958. Besnard-Coursodon earned a Ph.D degree from Columbia University in 1970.
John O. Cooper

John O. Cooper, professor and assistant chairperson of the Department of Human Services Education in the College of Education, joined the Ohio State faculty in 1970. He specializes in applied behavioral analysis, the study of using behavior modification techniques in teaching. He has published three education textbooks and numerous articles, including ones on handwriting instruction. He has improved the College of Education’s program to prepare teachers of the mentally retarded in the 12 years he has directed it. He represents the College of Education to the Higher Education Coalition for Special Education. Cooper received a bachelor of music degree from Florida State University and a master’s and a doctoral degree from Kansas University.

Joan E. Gritzmacher

Joan E. Gritzmacher, professor of home economics education, is senior member in her department with 11 years experience. Recognized nationally for teaching entrepreneurship, she is considered an expert in research methodology and design. Gritzmacher is on the National Task Force on Research in Home Economics Education. She wrote a chapter in the 1981 American Home Economics Association Teacher Education Yearbook, a basis for many graduate home economics education programs. Her current research projects include a national follow-up study of vocational consumer and homemaking students and a comparison between female entrepreneurs and managers. She earned her bachelor’s degree at Douglass College, Rutgers University, and her master’s and Ph.D. degrees at Cornell University.

John K. Judy

John K. Judy, professor of animal science, has served the College of Agriculture’s largest department for 32 years. Judy specializes in sheep production and management. Under his supervision, the sheep flock at Ohio State has gained a national reputation for productivity and showing experience. He has judged sheep shows at 20 state fairs and several national and international expositions. He has been the Ohio State Fair’s assistant superintendent of sheep breeding since 1962. Judy also holds an appointment at OARDC, Wooster, and has had 28 manuscripts published. Judy was presented the 1976 Distinguished Service Award by the Ohio Sheep Improvement Association and had the 1984 Little International Show dedicated to him. Judy earned his bachelor’s, master’s, and Ph.D. degrees at Ohio State.
Grinor Rojo

Grinor Rojo, associate professor of Romance languages and literatures, teaches Latin American literature, literature and society, and literary theory. He has published extensively in Latin America, the United States, and Europe on Latin American theatre and literature. A native of Chile, he joined the Ohio State faculty in 1975. He has a degree from the University of Chile, where he studied philosophy, and a Ph.D. in Spanish and Spanish-American literature from the University of Iowa. He began his academic career on the faculty of the University of Chile, then subsequently served on the faculties of the University of Iowa and the University of Southern Chile. He was a visiting professor at the University of California at San Diego and at Santa Cruz in 1974 and 1975.

Leila Rupp

Leila Rupp, associate professor of history and women’s studies, is a noted authority on women’s roles in modern European and American history. She is the author of the book Mobilizing Women for War: German and American Propaganda and is the coeditor of Nazi Ideology Before 1933: A Documentation. Rupp currently is co-writing a publication with Verta Taylor detailing the women’s movement in the United States from 1945 to the 1960s. She came to Ohio State in 1977. Among her varied teaching assignments is a popular introductory history course focusing on women in the United States. She earned a bachelor’s degree from Bryn Mawr College in 1972. Rupp started her graduate studies at the University of North Carolina at Chapel Hill in 1972 and received her Ph.D. degree from Bryn Mawr in 1976.

Richard K. Russell

Richard K. Russell, associate professor of psychology, has been on the faculty since 1975. His major interest is training graduate students in counseling psychology. He also coordinates various field experiences for students studying counseling. He has published many articles on supervising counselors and is coauthor of a chapter in a new book, A Handbook of Counseling Psychology. Russell also advises the Ohio State diving team on recognizing physical cues that can enable team members to improve their performance. He is on the board of the Franklin County Mental Health Board and is past president of the Central Ohio Psychological Association. He received his bachelor’s degree from the University of Illinois at Chicago and his master’s and doctoral degrees from the University of Illinois at Urbana.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by The Ohio State University Development Fund. Its purpose is to recognize exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research activity, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprising senior faculty members, including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented annually to the recipients.

Award Recipients

Lawrence A. Brown

Lawrence A. Brown, professor of geography, joined the Ohio State faculty in 1968. Most recently he has studied human migration, urbanization, and development of Third World areas, particularly in Latin America. He has written extensively on innovation diffusion, and in 1981 he wrote the book Innovation Diffusion: A New Perspective. He was previously presented the Honors Award of the Association of American Geographers. He received his B.S. degree from the University of Pennsylvania in 1958, his M.A. degree from Northwestern University in 1963, and his Ph.D. degree from Northwestern University in 1966. He is currently a member of the University Senate’s Faculty Compensation and Benefits Committee. He is a licensed C.P.A. in both Pennsylvania and Ohio.

David O. Edwards

David O. Edwards, professor of physics, has been a member of the Ohio State faculty since 1960 and for the previous seven years had been a visiting assistant professor. A specialist in the study of the liquid and solid states of helium and their surfaces, he won the Sir Francis Simon Prize for distinguished work in low temperature physics from the British Physical Society in 1983. He recently devised a technique for examining the surface of liquid helium by looking at the reflection of a beam of helium atoms on it. A fellow of the American Physical Society, he received the National Science Foundation Special Creativity Award in 1981. He is a 1953 graduate of Oxford University, where he also received his doctorate in 1957.
C. William McCurdy Jr.

C. William McCurdy Jr., associate professor of chemistry, joined Ohio State's faculty in 1978 after completing a postdoctoral fellowship at the University of California. He was also a postdoctoral fellow at Cambridge University in 1975. He is a specialist in scattering theory, studying collisions of molecules, and he has developed theories of chemical reaction dynamics. His theories of collisions between electrons and molecules could lead to a better understanding of energy exchanges in the earth's atmosphere and of laser energy transfer. In 1981, he was named a Sloan Fellow and currently is a Camille and Henry Dreyfus Teacher-Scholar. McCurdy is a 1971 graduate of Tulane University and received his Ph.D. in chemistry from the California Institute of Technology in 1975.

Ivan I. Mueller

Ivan I. Mueller, professor of geodetic science and surveying, joined Ohio State's faculty as an instructor in 1959, one year before receiving his Ph.D. degree from the University. He will become chairperson of his department later this year. He is a leading authority on satellite geodesy—the surveying and mapping of the earth by satellite observations—a technology he has applied in a number of research programs sponsored by the National Aeronautics and Space Administration. He is author of five books, including Earth Rotation, Theory and Observation, scheduled for publication in 1984, and a 1964 textbook translated into three languages. A native of Hungary, he is a 1952 graduate of the Technical University of Budapest.

Gifford Weary

Gifford Weary, associate professor of psychology, joined the Ohio State faculty in 1978. Her main area of research deals with the way in which people perceive the causes of their and others' behavior. She has written on the treatment of abnormal behavior, depression, and how society and individual personalities relate. She is also a clinical psychologist and most recently has studied the role of self-esteem motivation in causal inference processes. She is the associate editor of the Journal of Social and Clinical Psychology and the associate editor of the Personality and Social Psychology Bulletin. She received her bachelor's degree from the University of Kansas in 1973, her master's degree from Vanderbilt University in 1975, and her Ph.D. degree from Vanderbilt University in 1977.

The Alumni Award
for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established jointly by The Ohio State University Alumni Association and the Development Fund in 1960. The award recognizes and gives evidence of the importance placed on superior teaching in the University and provides encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprising alumni, students, and previous recipients. Eight cash awards are given annually and are made possible by contributions from the Amoco Foundation, the corporate foundation of Standard Oil of Indiana, and alumni and other friends of The Ohio State University.

Award Recipients

Neil J. Andrew

Neil J. Andrew is an assistant professor of parks and recreation administration. He joined the faculty in 1972. Andrew teaches principles of park and recreation management, wilderness policy and management, and outdoor recreation and tourism by the private sector. His research includes search and rescue operations in wilderness areas and management preferences for wilderness uses. This is the second time he has received the Alumni Distinguished Teaching Award, having won in 1974. He also received the College of Agriculture and Home Economics Outstanding Service to Students Award in 1982. He earned B.S. and M.S. degrees from Utah State University and a Ph.D. from Michigan State University.

Keith Brooks

Keith Brooks joined the faculty in 1955. A professor in the Department of Communication, he served as chair of the department from 1968 to 1975 and as director of the department’s communication area from 1964 to 1968. A specialist in organizational communication, he is coauthor of five books and has written numerous professional articles. He is a lecturer and consultant to management groups. This is his 20th year as an external consultant to Procter & Gamble. Before coming to Ohio State, he was director of forensics at Eastern Kentucky State University. A native of Wisconsin, he received both his B.S. and M.S. degrees from the University of Wisconsin in 1949 and a Ph.D. from Ohio State in 1955.
William R. Brown

William R. Brown, professor of communication, specializes in the relation of communication to social change and to culture. He also writes media criticism. He joined the faculty in 1970 and served as chair of the department from 1983 to 1984. He wrote the book Imagemaker: Will Rogers and the American Dream, a book chapter, “Speech Communication in the Twentieth Century,” as well as other articles, books, and book chapters. In 1978, Brown won the Speech Communication Association’s Golden Anniversary Prize Fund Award for outstanding scholarship for his article, “Ideology as Communication Process.” He has received degrees from Phillips University, Oklahoma State University, and the University of Oklahoma.

Bradley Chapin

Bradley Chapin, professor of history, specializes in the United States Constitution and America’s legal history. In his research, he studies early American law and how the newly formed United States adapted the British judicial system in making its own. Chapin has just had a book published on criminal justice in Colonial America. He’s writing a second volume on the same subject. Chapin came to the University in 1966 as a professor of history. He received his bachelor’s and master’s degrees from the University of Buffalo in 1948 and 1950 and a doctorate from Cornell University in 1951. Before coming to Ohio State, he held several positions at the University of Buffalo and State University of New York at Buffalo.

Larry E. Miller

Larry E. Miller, professor of agricultural education, joined the faculty in 1979. He teaches research methods and adult education in agriculture. He edited the Agricultural Education Magazine from 1983 to 1985 and the Journal of the American Association of Teacher Educators in Agriculture from 1974 to 1977. He received teaching excellence awards from the University of Missouri and Virginia Polytechnic Institute and State University. An honorary state farmer of the Future Farmers of America in three states, he earned a B.S. degree in agricultural education at the University of Missouri-Columbia, a M.S. degree in education at Northwest Missouri State University, and a Ph.D. in agricultural education at Purdue University.
Terry F. Pettijohn

Terry F. Pettijohn, associate professor of psychology, Marion, joined Ohio State's faculty in 1974. His interests include the psychology of learning, memory, and motivation and the use of computer-assisted instruction in psychology. His major research interest is the study of animal social behavior. Pettijohn has won the Alumni Award for Distinguished Teaching before in 1980. He also won the American Psychological Association Division 2 Teaching Recognition in 1981, and his teaching efforts were recognized by the Ohio State Colleges of Arts and Sciences in both 1984 and 1985. He earned his bachelor's degree from Michigan State University and his master's and doctoral degrees from Bowling Green State University.

Mary L. Hough Schultz

Mary L. Hough Schultz has been an instructor in the College of Nursing's Department of Family and Community since 1983. She teaches nursing practice in maternity and neonatal areas. Her particular interest is in helping nursing students apply theory to clinical practice. Her research interest is parent-infant interaction and evaluation of student performance in the clinical area. She's a member of the Clinical Practice Committee at University Hospitals and serves on the College of Nursing Student Affairs Committee as well as the Registered Nurse Facilitation Committee. She is the faculty adviser to the Torch Club. Her professional memberships include Sigma Theta Tau and the American Nurses Association.

William J. Tyznik

William J. Tyznik, professor of animal science and veterinary preventive medicine, joined the faculty in 1951 and won the Alumni Award for Distinguished Teaching once before in 1970. He was named Professor of the Year in the College of Agriculture in 1954 and won the Outstanding Educators of America Award in 1975. He teaches principles of animal nutrition, nutrition and feeding of ruminant animals, equine nutrition, and a graduate seminar. He has advised several graduate students and student organizations. His research includes equine nutrition, zoo animals, sheep, and cattle. He received a B.S. degree in dairy husbandry, a M.S. degree in biochemistry, and a Ph.D. in nutrition, all from the University of Wisconsin.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by The Ohio State University Development Fund. It recognizes exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprising senior faculty members including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented annually to the recipients.

Award Recipients

Erika Bourguignon

Erika Bourguignon, professor of anthropology, joined Ohio State's faculty in 1949. Her research centers on psychological anthropology, particularly the anthropology of women, altered states of consciousness in a religious context, and women's careers and career choices. She served as chair of the Department of Anthropology from 1972 to 1976 and was elected honorary chapter member of Phi Beta Kappa in 1984. She has written and edited 11 books, including *Religion, Altered States of Consciousness, and Social Change*. She has also written dozens of book chapters, journal articles, and book reviews. She received a B.A. degree from Queens College and her Ph.D. from Northwestern University.

Edward P.J. Corbett

Edward P.J. Corbett, professor of English at Ohio State since 1966, dedicated one of his 13 books to his students, “whose written prose sometimes mystified me, often enlightened me, and invariably beguiled me.” Most of his books are for beginning writers and discuss the process of how to write using rhetoric, the art of effective communication. Corbett received a master's degree in 1948 from the University of Chicago and a Ph.D. in 1956 from Loyola University. From 1966 to 1970 at Ohio State, he directed the freshman English program and was vice chair of the English department. In addition to his many current professional memberships and six editorial positions, Corbett edited the *College Composition and Communication* journal for six years.
Nathan S. Fechheimer

Nathan S. Fechheimer, professor of dairy science, poultry science, and genetics, joined Ohio State’s faculty in 1952. His research has included genetics of pelage pigmentation of cattle, genetic aspects of intrauterine and premature death of animals, sex differentiation and development, consequences of structural rearrangements of chromosomes in regard to reproductive functions of animals, and source and effect of chromosomal polymorphisms on cattle. He teaches animal breeding and genetics, cytogenetics, and research principles and methods. He has received the Louis Nemzer Award from the University chapter of the American Association of University Professors.

David J. Hart

David J. Hart, associate professor of chemistry, joined Ohio State’s faculty in 1978. His research efforts have focused on organic synthesis and the development of chemical reactions for use in the synthesis of natural products such as alkaloids, terpenoids, and beta-lactams. He held a National Institutes of Health Postdoctoral Fellowship from 1976 to 1978. He was an Eli Lilly Fellow from 1982 to 1984 and has been an Alfred P. Sloan Foundation Fellow since 1983. Hart was recently awarded the 1986 Stuart Pharmaceuticals Award for Excellence in Chemical Research. He earned a bachelor’s degree from the University of Michigan in 1972 and his doctoral degree from the University of California at Berkeley in 1976.

K. Narahari Rao

K. Narahari Rao, professor of physics, came to Ohio State in 1954. His research centers on establishing standards in infrared spectroscopy and on examining the molecular properties of substances by their spectra. Since 1973, he has been a consultant to the National Earth Satellite Service in the U.S. Department of Commerce. In 1982, he was awarded the Indian National Science Academy Endowment Lecture in Spectroscopy. He was awarded the Marcus Marci Medal of the Czechoslovak Spectroscopy Society in 1985. Rao has written several books and more than 150 professional articles. He earned his bachelor’s and master’s degrees from Andhra University in India and his doctoral degree from the University of Chicago.

Richard H. Rapp

Richard H. Rapp, a professor of geodetic science, joined the faculty in 1964. A specialist on the earth’s gravitational field and earth measurement, he is author of numerous technical papers. He has held office in several professional societies and was president of the Geodesy Section of the American Geophysical Union from 1982 to 1984 and of Section V of the International Association of Geodesy from 1978 to 1983. Active on numerous special committees, he is chair of the Committee on Geodesy, National Academy of Sciences. A native of Danbury, Connecticut, he graduated in 1959 from Rensselaer Polytechnic Institute and received his M.S. and Ph.D. degrees in geodetic science from Ohio State in 1961 and 1964, respectively.

Presentation of Awards
Alumni Awards for Distinguished Teaching
Distinguished Scholar Awards
The Alumni Award
for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established jointly by The Ohio State University Alumni Association and the Development Fund in 1960. The award recognizes and gives evidence of the importance placed on superior teaching in the University and provides encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprising alumni, students, and previous recipients. Eight cash awards are given annually and are made possible by contributions from the Amoco Foundation, the corporate foundation of Standard Oil of Indiana, and alumni and friends of The Ohio State University. In addition, the Office of Academic Affairs awards an increase in salary on a permanent basis.

Award Recipients

Terry M. Barrett

Terry Barrett is a quiet critic. An assistant professor of art education, his specialty is art criticism and aesthetic education—how people respond to and appreciate art forms. Barrett, 42, is described as "a relatively reserved man." His style of teaching—interactive with a lot of class discussion—has made his art criticism and photographic media courses among the most popular in the Department of Art Education.

Barrett says his strongest assets are his being highly organized and direct and honest with his students. "I think my respect for students comes across in my classes," he says. "My students know I take their opinions seriously."

Along with teaching, Barrett also pays attention to his craft. He has published many articles on art criticism and photography theory and criticism. He edits Columbus Art, a regional journal featuring art reviews and stories on local artists and art exhibitions, and he co-edits Arts Education Review of Books, a international journal that reviews books on art, drama, music, and dance education.

Barrett's own education began at two seminaries in Illinois. He spent two years studying in a monastery in Ireland and a summer at the Art Institute of Chicago before earning his bachelor's degree in 1967 at Webster College in St. Louis. He spent five years working with young people in inner-city arts programs before coming to Ohio State in 1972. Barrett earned his master's degree in 1974 and doctorate in 1983 at Ohio State.
Peter W. Gano

Music is a serious subject to Peter Gano, an associate professor in the School of Music. But Gano does not want his students to confuse serious with boring. "I have fun when I teach, and I try to cajole my students into having fun, too," he said. "I want students to learn about music, but also enjoy it."

Gano, 49, came to Ohio State in 1968 as an instructor in the music history division of the School of Music. He was promoted to assistant professor in 1975 and associate professor in 1985. He is currently chair of the school's Music History and Literature Division. Gano's talent for teaching was recognized by the School of Music's Student Concerns Committee in 1985 when it awarded Gano its Distinguished Teaching Award.

But teaching is not the only place where Gano has distinguished himself. He played double bass for the Seventh U.S. Army Symphony Orchestra in Germany from 1960 to 1962 and for the Columbus Symphony Orchestra from 1971 to 1978. He has written a variety of scholarly papers, including an article on the Columbus Symphony that appears in The Encyclopedia of the American Symphony. He has worked as a consultant to several publishers of music textbooks, has served on a number of University and college committees, and has given lectures, short courses, and presentations to community groups.

Gano received his B.S. and M.A. degrees from Pennsylvania State University and his Ph.D. from the University of California, Santa Barbara.

James A. Knight Jr.

James A. Knight Jr., 40, associate professor of agricultural education, is described by a colleague as "without a doubt, the most effective member of the department's faculty in motivating students."

His students attest to that regularly and have demonstrated their support for Knight, selecting him for the Towers Faculty Award and the Outstanding Service to Students Award in the College of Agriculture. Knight also has won Ohio State's Alfred J. Wright Award. He is an honorary member of Bucket and Dipper and the Agricultural Education Society. Knight is known for his personal interest in his students, his ability to motivate them, and his knowledge and enthusiasm for his field. In demand as a student adviser, he is nationally known among school teachers, administrators, and agricultural educators.

Knight has taught at Ohio State since 1975 except for one year at the University of Minnesota. He earned his bachelor of science and master of education degrees from Colorado State University and his doctorate from Ohio State.

He has spoken on such topics as sex equity and school climate to educators and others in 32 states and the District of Columbia. In the past year, he taught nine different courses, including Methods in Teaching Vocational Agriculture and Youth Organizations. He has conducted nationally recognized research in sex equity, worked in the area of youth organizations, and developed a workshop on developing a positive school climate.
John A. Lott

For pathology Professor John A. Lott, 1986–87 has been a "banner year." His second textbook was published in October, and he recently won the 1987 award for Outstanding Contributions in Education in Clinical Chemistry from the American Association for Clinical Chemistry. Says Lott: "Winning the distinguished teaching award just tops it off. It's an uplifting honor, and I'm delighted to be recognized by the students."

Lott, 50, who joined Ohio State's faculty in 1968, teaches graduate courses in pathology and undergraduate courses in medical technology. While he wears many hats—those of teacher, researcher and administrator—it's the "interaction with the students" that he enjoys the most. "I'm student-oriented," he says. "It's rewarding to see them learn and develop socially and academically." To that end, he's adviser to several master's and doctoral degree candidates, and since 1969 he has been the graduate studies chair for the Department of Pathology. He also is both the director of Ohio State's Outpatient Clinic Laboratory and associate director of University Hospitals' Clinical Chemistry Laboratory.

In addition to winning various research awards, he was president of the National Academy of Clinical Biochemistry from 1981 to 1982. He later served on its Board of Directors and won Presidential Recognition from the academy in 1983. He earned his bachelor's, master's, and doctoral degrees from Rutgers University in 1959, 1967, and 1965, respectively.

Emil E. Miller Jr.

Emil E. Miller Jr. is coordinator of technical mathematics programs and teaches math and statistics at the Agricultural Technical Institute (ATI) in Wooster, where he has been a faculty member since 1976.

Miller, 34, remembers what he liked and didn't like about his own teachers and patterns his teaching accordingly. "I like to put myself in the student's position and draw on my past experience as a student." He says he accepts wherever students are in their knowledge of math and tries to take them a little further. "Some of my best feelings are about poor students who I pulled up to a 'D'."

Student response to his approach has been enthusiastic, with comments such as "the best math teacher I ever had," "always available for extra help," and "explains problems very clearly." Dan D. Garrison, associate dean of agriculture and ATI director, says, "Mr. Miller's immense amount of dedicated leadership in mathematics is a major factor in the outstanding success of graduates from the Agricultural Technical Institute."

He says Miller has revised and expanded the currently used mathematics text, *Mathematics for Agricultural Technicians*, and has developed a color-code technique for instructional materials to emphasize new material, definitions, or the importance of a concept. Miller is a 1975 graduate of the University of Akron, where he went on to earn a master's degree in mathematics. In 1975–76 he taught eighth-grade mathematics in Steubenville.
Terrell A. Morgan

Terrell A. Morgan, an assistant professor of Romance languages who joined Ohio State's faculty in 1984, has a special approach to teaching Spanish courses. "I use music to teach Spanish phonetics and phonology, as well as the areas of morphology and applied linguistics," he says.

He describes his students as having a wide range of experience—some with an advanced background and some with no background. "It's a challenge to teach advanced students without intimidating those who don't have the background, but I like to think I'm getting results," he says. Because his courses also are of interest to area high school teachers, he volunteered to offer certain classes in the evening.

Morgan has been active on his department's undergraduate committee, for which he prepared a report on possible uses of technology in the department's intermediate and advanced undergraduate courses. In collaboration with another faculty member, he initiated a Romance language linguistics symposium to be held in 1989.

Before coming to Ohio State, Morgan taught Spanish at Triangle International Language Center, Durham, North Carolina, and English at the Berlitz School, Valencia, Spain. Morgan is a 1979 graduate of the College of William and Mary in Virginia. He earned a master's degree in 1983 from the University of North Carolina at Chapel Hill and a Ph.D. in 1984 from the University of Texas at Austin.

Williamson Murray

Williamson Murray, an associate professor of history, has a dedication to his students that goes beyond the ordinary. One example is the assistance he gave one of his advisees, Michael Lanese, in his successful quest for a Rhodes Scholarship last year. Even though Murray was on leave from Ohio State and teaching at the U.S. Naval War College in Newport, Rhode Island, last fall, he kept in close contact with Lanese and helped him prepare for his Rhodes Scholarship interview.

"I enjoy working with students because I am enthusiastic about my subject and I'm enthusiastic about teaching," Murray said.

Murray came to Ohio State in 1977 as an assistant professor of European military history. He was promoted to associate professor in 1983. Murray has written three published books: Strategy for Defeat, The Luftwaffe, 1933–1945, The Change in the European Balance of Power, 1938–1939, and Luftwaffe, 1933–1944. Two other books have been accepted for publication. Murray also has published numerous articles, including ones on the U.S. war colleges and on the German army's Polish campaign in World War II. He was a finalist for the Colleges of the Arts and Sciences Outstanding Teaching Award in 1979–80 and 1980–81.

Murray is currently a major in the U.S. Air Force Reserve. He was on active duty with the Air Force from 1964 to 1969. Murray earned his B.A., M.A., and Ph.D. degrees from Yale University.
James D. Utzinger

James D. Utzinger is professor and assistant chair of the Department of Horticulture. The extension horticulturist also is director of the Ohio Home Horticulture Center.

Utzinger, 55, teaches Introduction to Horticulture, a course he developed for new horticulture students. "Our enrollments are declining, and we wanted to put our best teacher in contact with beginning students," says a colleague. "Jim is exactly the right person for this job."

Utzinger helped develop a series of five one-credit-hour mini-courses in vegetables to encourage students in other areas of horticulture to take a course in a different area. The concept may be extended for extension use with growers and to other areas in the college. Utzinger is coordinating adviser for undergraduate students.

He leads the annual training program in home horticulture for state, district, and county extension faculty; helps orient new extension workers; and coordinates new and revised Home, Yard and Garden fact sheets and other publications about fruit and vegetable gardens. He and fellow award recipient James A. Knight coordinate the agricultural education-horticulture dual major program. Utzinger chaired a committee that recently examined and revised the department curriculum.

A faculty member since 1967, Utzinger earned bachelor of science degrees in agriculture and education, a master of science degree in agriculture, and a doctorate in agricultural education and horticulture from Ohio State.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by The Ohio State University Development Fund. It recognizes exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprising senior faculty members including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented annually to the recipients.

Award Recipients

Hans-Erich Keller

Hans-Erich Keller, professor of Romance languages and literatures, joined the faculty in 1969, coming from the State University of Utrecht in the Netherlands. He previously had taught at the University of Michigan and the University of Innsbruck, Austria. Keller specializes in Romance linguistics and dialects, medieval French and Occitan literature, and the history of the French, Occitan, and Italian languages. Occitan is one of five minority languages of France. A native of Switzerland, Keller studied at the University of Lausanne and the University of Basel. He earned his doctorate at Basel in 1953 in two separate areas, Romance philology and literature and German philology and literature. In 1958, he earned a “state doctorate” or certification as a university teacher. In Switzerland he was involved for 19 years with research and editing of a major 25-volume etymological dictionary of the French language. He is the author of seven books and numerous articles and scholarly papers. Affiliated with many professional associations, he has served as a founding member and officer of an international society studying Romanic epics, as vice president of the Association Internationale d’Etudes Occitanes, and as an officer in the International Courtly Literature Society, the Modern Language Association of America, and an international committee evaluating “the treasure of the French language” of Quebec.
Henry A. Nasrallah

When Henry Nasrallah first arrived at Ohio State nearly two years ago, he wasted little time in establishing a state-of-the-art research program to study the human brain. Today, the University’s Brain Imaging Laboratory helps scientists peer into the inner recesses of the mind.

Nasrallah is professor and chair of the Department of Psychiatry. As a researcher, he strives to understand the brain and its relation to disorders such as schizophrenia and manic depression. While he’s personally proud to receive the Distinguished Scholar Award, he sees it as “a symbol of the importance of my discipline. “We’re making tremendous advances in understanding the brain and mental illness, but there’s still a stigma attached to the mentally ill. We hope we are taking some of the mystery and fear out of these behavioral problems.”

After two years as a research associate at the National Institute of Mental Health, Nasrallah in 1977 was named an assistant professor of psychiatry at the University of California, San Diego. He was appointed associate professor at the University of Iowa in 1979. He left as a full professor in 1985.

He has written several books and more than 100 professional articles, and recently was named editor-in-chief of a new journal, Schizophrenia Research. He earned both his bachelor’s degree in 1967 and medical degree in 1971 from the American University of Beirut.

Matthew S. Platz

Matthew S. Platz, an associate professor of chemistry, has taught at Ohio State since 1978. He received his bachelor’s degree in chemistry and mathematics from the State University of New York at Albany in 1973. He earned his Ph.D. in chemistry from Yale University in 1977.

Platz currently is conducting research with grants from the National Science Foundation, the National Institutes of Health, and the Petroleum Research Fund. His research centers on how organic compounds interact with radiation. He uses tools such as lasers to conduct this research.

He has had articles printed in such professional publications as the Journal of the American Chemical Society, the Journal of Organic Chemistry, and the Journal of Physical Chemistry.

Platz, 36, received the University’s 1986 Ashland Award for Outstanding Junior Faculty. He also has received an Alfred P. Sloan Foundation Research Fellowship and was named a Camille and Henry Dreyfuss Teaching Scholar, both national honors. While at Yale University he received the Richard Wolfgang Memorial Prize for distinguished graduate work in chemistry.

After attending Yale, Platz did postdoctoral research at the University of Chicago. He was named assistant professor at Ohio State in 1978 and was promoted to associate professor in 1983.

Platz has given numerous lectures, including talks at the Argonne National Laboratory and the California Institute of Technology.
Karl C. Rubin

Karl Rubin, assistant professor of mathematics, came to Ohio State in 1984. He graduated from Princeton University in 1976 and received both his master of arts degree in 1977 and his Ph.D. in 1981 from Harvard University.

His specialty is algebraic number theory. Much of his work has dealt with elliptic curves. “These are reasonably simple equations,” he said. “But the equation arises in connection with other problems. There was one aspect of the whole theory where some mysterious things were going on, but no one could show it. I was able to demonstrate some of these things.”

Rubin has received several research grants from the National Science Foundation and was an NSF Postdoctoral Fellow. He also has received an Alfred P. Sloan Foundation research fellowship and was a Putnam Fellow. He is a member of Phi Beta Kappa and Sigma Xi. While at Harvard University, he was a fellow in the Graduate School of Arts and Sciences.

Rubin’s career has taken him across the continent and overseas. During 1983, he attended the Institute for Advanced Study at Princeton University. He spent the spring of 1986 at the French Institut des Hautes Etudes Scientifiques. This year he is doing work at the Mathematical Sciences Research Institute in Berkeley, California.

Arnold M. Zwicky

Arnold M. Zwicky, professor of linguistics, has been on the faculty since 1969 and has been a visiting professor at eight universities in the United States, England, Scotland, and China. He held a fellowship in Stanford University’s Center for Advanced Study in the Behavioral Sciences from 1981 to 1982. Since 1985, he has been a visiting professor at Stanford during winter quarters.

He couples his scholarly interest in language with an interest in mathematics and psychology. “Linguistics combines empirical science with language study,” he says. “On one hand there is the extraordinary variety in the ways people communicate by speech. On the other side, there are limitations—generalizations that seem to cover all languages.”

His research centers on the relation between sentence structures and pronunciation in language.

A Pennsylvania native, he graduated magna cum laude from Princeton University in 1962 with a degree in mathematics. His Ph.D. in linguistics is from the Massachusetts Institute of Technology.

Zwicky has received many honors, grants, and fellowships including a Guggenheim fellowship, an Alfred P. Sloan Foundation grant, a Fulbright fellowship, and grants from the National Endowment for the Humanities and the National Science Foundation. He is active in the Linguistic Society of America and is currently on its executive committee. He has published about 90 articles and contributed to or edited five books.

Presentation of Awards
Alumni Awards for Distinguished Teaching
Distinguished Scholar Awards
The Alumni Award for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established by The Ohio State University Alumni Association and Development Fund in 1960. The award recognizes superior teaching in the University and provides encouragement and incentive for teaching achievement. Recipients are nominated by their students and colleagues and are chosen by a committee comprising alumni, students, and previous recipients. Eight cash awards are given annually and are made possible by contributions from alumni and friends of The Ohio State University. In addition, the Office of Academic Affairs awards an increase in salary on a permanent basis.

Award Recipients

James W. Altschuld

James W. Altschuld, associate professor of education, has been a faculty member since 1978. He was a senior staff member at the National Center for Research in Vocational Education from 1972 to 1978. This school year he won the Outstanding Service Award bestowed by the University’s Council of Graduate Students. Altschuld teaches educational evaluation and research methods to graduate students in the College of Education, and he has served since 1986 as a mentor for the University’s Indonesian Visiting Scholar Program. Altschuld earned his bachelor’s degree at Case Western Reserve University and his master’s at Ohio State, both in chemistry. His doctorate from Ohio State is in educational research.

R. Kirby Barrick

R. Kirby Barrick is an associate professor of agricultural education. He teaches data interpretation and analysis, supervision of vocational instruction, and an advanced course in teaching methods. In addition, he administers two state projects to prepare vocational agriculture teachers. Currently a member of the University Senate and Council on Student Affairs, he has received numerous awards for teaching, achievement, and service. Barrick also has served in editorial capacities on a number of professional publications and has written materials useful for students. A faculty member since 1980, Barrick earned his bachelor’s, master’s, and doctoral degrees in agricultural education from Ohio State.
Roger D. Blackwell

Roger D. Blackwell, professor of marketing, teaches several "mega sections" of introductory marketing, lecturing to over 1,000 students each quarter. He also teaches a master of business administration course on consumer behavior, which gives students experience with local and national organizations, and a graduate course on health-care marketing. Blackwell spends a great deal of time working individually with students and speaking to student groups. The coauthor of Consumer Behavior, one of the standard marketing textbooks, Blackwell has been on the Ohio State faculty since 1965. He holds bachelor's and master's degrees from the University of Missouri and a doctorate from Northwestern University.

Josaphat B. Kubayanda

Josaphat B. Kubayanda is an assistant professor of romance languages and assistant director of elementary Spanish programs. He teaches and studies Spanish language and culture, with an emphasis on Latin American, Caribbean, and African Diaspora literatures. His enthusiasm for teaching extends to both the undergraduate and graduate levels. On the Ohio State faculty since 1982, Kubayanda earned a bachelor's degree in French from the University of Ghana, bachelor's and master's degrees in Spanish from the University of London, and a doctorate in Spanish from Washington University. He also has studied French at the University of Bordeaux and has studied Spanish at the University of Madrid.

L. Alayne Parson

L. Alayne Parson, associate professor of mathematics, is an expert in complex variables and analytic number theory. She teaches regular and honors classes in accelerated calculus and classes in real and complex analysis. In addition to her assigned work as an adviser to seven students, she is an unofficial adviser and mentor to numerous female mathematics students. She also chaired her department's honors committee from 1984 to 1986, and is part of a team investigating the mentoring process at Ohio State. A faculty member since 1975, Parson holds a bachelor's degree from Radcliffe College, and master's and doctoral degrees from the University of Illinois at Chicago Circle.
Helen C. Swank

Helen C. Swank, professor of music, is section head of the voice area of the School of Music. Swank teaches voice to undergraduate and graduate students and supervises all undergraduate singing classes. She also teaches the graduate-level course in vocal pedagogy. Several of her recent students have placed well in national and district opera competitions. Although her basic duties lie in studio teaching and performance, she also has published research and is highly regarded as a clinician and consultant because of her expertise in the structure and function of vocal mechanisms. Swank, who holds bachelor’s and master’s degrees from Ohio State, joined the faculty in 1965.

Verta A. Taylor

Verta A. Taylor, associate professor of sociology, is a nationally recognized authority on gender studies. Her teaching areas include sociology of gender, social movements and collective behavior, qualitative research methods, and large-lecture and honors sections of introductory sociology. Also noteworthy are her studies of the women’s movement and the social aspects of natural disasters and post-partum depression. She is coauthor of two books: *Feminist Frontiers: Rethinking Sex, Gender, and Society* and *Survival in the Doldrums: The American Women’s Rights Movement, 1945 to the 1960’s*, among other works. A member of the Ohio State faculty since 1976, she received her department’s graduate teaching award. She earned a bachelor’s degree in social work from Indiana State University and master’s and doctoral degrees in sociology from Ohio State.

Beverly G. Toomey

Beverly G. Toomey, associate professor of social work, teaches courses in social work policy, planning, and research, as well as human behavior and the social environment. She is known for her expertise in evaluating mental-health programs. Among her recent research topics are the problems of the mentally ill homeless population. She also has worked in treatment, community education, and a call-in radio program on family issues. After she got her psychology degree at Miami University, Toomey earned her master’s and doctoral degrees in social work at Ohio State. She has been on the faculty since 1976 and has received teaching awards within the College of Social Work.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by The Ohio State University Development Fund. It recognizes exceptional scholarly accomplishment by senior professors who have compiled a substantial body of outstanding research, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprising senior faculty members including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented annually to the recipients.

Award Recipients

Elizabeth B. Bernhardt

Elizabeth B. Bernhardt, associate professor of educational studies, is an expert on foreign language education. Her research has focused on reading in a second language. The graduate courses she has taught also have covered foreign language curriculum and testing and second-language acquisition. A faculty member since 1984, Bernhardt heads the humanities education section of the Department of Educational Studies. She earned a bachelor’s degree in German from the College of Wooster, a master’s degree in German from the University of Pittsburgh, and a doctorate in second language and cultures from the University of Minnesota, where she wrote an award-winning dissertation.

B. Chandrasekaran

B. Chandrasekaran, professor of computer and information science, has been on the faculty since 1969. Very active in research of artificial intelligence, he has published widely and has been an invited speaker at most of the major research centers and international conferences in the field. Among his honors are the College of Engineering’s 1983 and 1988 Senior Research Awards. Since 1973, he has been associate editor of artificial intelligence for IEEE Transactions on Systems, Man & Cybernetics. He is also on the editorial boards of six other international journals. Chandrasekaran holds a bachelor’s degree from Madras University in India and a doctorate from the University of Pennsylvania, both in electrical engineering.
Alan G. Marshall

Alan G. Marshall, professor of chemistry and biochemistry, is director of the University’s Chemical Instrument Center. An expert on mass spectrometry, Marshall has published over 100 refereed papers and presented 169 papers at scientific meetings. More than 80 Fourier transform mass spectrometers, based on his original design, are in use worldwide. He has conducted over 120 seminars at Ohio State and other universities and laboratories. One of his two books, Biophysical Chemistry, is in its second printing and has been translated into Russian. A graduate of Northwestern University, he holds a doctorate from Stanford University in physical chemistry. Marshall has been on the faculty since 1980.

Sheldon G. Shore

Sheldon G. Shore, professor of chemistry, conducts research on transition metal clusters and boron hydrides. His work has applications in the petroleum and rocket and aircraft industries. He has published over 140 papers, holds patents for chemical syntheses, and has given invited talks at international symposia. He has received the National Science Foundation Grant Award for Creativity in his field of research. In addition to teaching, Shore serves on the editorial boards for Organometallics and Inorganic Chemistry and has been on a number of national and international committees, including the advisory board of the Petroleum Research Foundation and the National Research Council Committee on Basic Army Research. A faculty member since 1957, Shore earned his bachelor’s degree at the University of Illinois and his master’s and doctoral degrees at the University of Michigan.

George R. St. Pierre

George R. St. Pierre, chairperson and professor of metallurgical engineering, is active in a number of research societies, including the technical steering committee of the Edison Materials Technology Center and the board of directors of the Materials Society of the AIME. St. Pierre teaches principles of materials processing and high-temperature materials. His research has covered a wide range of applications of thermodynamics and kinetics. Among his many awards are the Alumni Award for Distinguished Teaching in 1978 and the 1987 Gold Medal of the American Society for Metals. He earned his bachelor’s and doctoral degrees in metallurgy at the Massachusetts Institute of Technology and has been on the faculty since 1957. He cochaired the University’s 1987 United Way campaign.
Kenneth J. Waldron

Kenneth J. Waldron, professor of mechanical engineering, is a principal investigator of the Adaptive Suspension Vehicle (the "Walker"). Waldron is director of the University's Robotic Mechanisms Laboratory and has been on the faculty since 1979. His research and teaching activities center on mechanism design, interactive computer graphics, vehicle dynamics, and robotics. In addition to his vast experience in writing journal articles, conference papers and other reports, he also has been an invited lecturer several dozen times. Waldron earned his bachelor's and master's degrees from the University of Sydney in Australia and his doctorate from Stanford University.

Alumni Award
for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established by The Ohio State University to provide encouragement and incentive for teaching achievements. Recipients are nominated by their students and colleagues and are chosen by a committee comprised of alumni, students, and faculty. Recipients are recognized with cash awards made possible by contributions from alumni and friends of The Ohio State University. In addition, the Office of Academic Affairs awards an increase in salary on a permanent basis.

The University gratefully acknowledges gifts made in support of these awards, including those by Mrs. Thelma Price and the Amoco Foundation, Inc.

Mrs. Price’s contribution is in memory of her husband, Sanford, recognizing that excellent teaching is an essential part of an excellent university. In making the gift she said, “I hope the establishment of this gift will lead other people who have enjoyed the experience of having an expert teacher to recognize that excellence.”

The Amoco Foundation, Inc. stated, “We recognize the importance of strong undergraduate teaching and hope these awards can be used to emphasize the important contributions of outstanding teachers.”

Award Recipients

Robert W. Backoff
Professor of Public Policy and Management

Professor Backoff specializes in and teaches strategic management, strategic leadership, and public organization theory. He takes a student-centered approach in the classroom and gives his students experiential learning opportunities to help them bring out their capabilities and competencies.

An Ohio State faculty member since 1973, Dr. Backoff holds a bachelor’s degree in political science from the University of Illinois, a master’s degree in international relations from Johns Hopkins University, and a doctorate in political science from Indiana University.

Lawrence A. Brown
Professor of Geography

Professor Brown teaches world regional geography, geography of development, and various seminars. He personalizes his classes by learning each student’s name and setting up student-to-student tutoring programs to help those having difficulty with the material. He says he is motivated to help marginal students because he was considered one himself as a youth.

A former recipient of the Distinguished Scholar Award, Dr. Brown has been an Ohio State faculty member for 25 years. He holds doctoral and master’s degrees from Northwestern University and a bachelor’s degree from the University of Pennsylvania (Wharton School).
Philip T.K. Daniel  
*Associate Professor of Educational Policy and Leadership*  
*Adjunct Professor of Law*

Professor Daniel teaches legal research in education; courses in the legal aspects of higher education administration, school administration, and special education; and a seminar in the law and education. He uses a reflective, or critical, thinking method to teach students who are preparing to become educational administrators, lawyers, or both.

A faculty member at Ohio State since 1990, Dr. Daniel formerly taught at Northern Illinois and Kent State universities. He holds a bachelor's degree in history from Cheyney State University, master's and doctoral degrees in education from the University of Illinois, and a law degree from Northern Illinois University.

Thomas W. Foster  
*Assistant Professor of Sociology*  
*Mansfield Campus*

Professor Foster teaches introductory sociology, criminal justice, criminology, sociology of law, and social deviance. He shares with students his experiences from past work and his research in criminal justice and among the Amish, augmenting his lectures with guest speakers, field trips, story telling, tapes, articles, and informative handouts.

Dr. Foster has been on the Ohio State faculty since 1978. His bachelor's degree in psychology was earned at the University of Illinois, and he holds two degrees in sociology/criminology—a master's from Bowling Green State University, and a doctorate from Ohio State.

Patricia A. Lather  
*Associate Professor of Education*

Professor Lather teaches a three-course sequence in qualitative research and education to mostly doctoral students in education. She immerses students in the competing discourses that constitute inquiry in the human sciences, and assigns journal readings to encourage her students to question, challenge positions, and pose arguments.

Dr. Lather, who holds a bachelor's degree in English from South Dakota State University, earned her master's degree in American studies from Purdue University and her doctorate in curriculum and instruction from Indiana University. She has been a faculty member at Ohio State for five years.

Valerie B. Lee  
*Associate Professor of English*  
*Associate Professor of Women’s Studies*

Professor Lee teaches courses on women writers of the Harlem Renaissance, female neo-slave narratives, Black women’s theory, folklore and Black literature, and African-American women writers. Students give her high marks for enthusiasm, for encouraging shy pupils and for putting students of different races and cultures at ease while discussing sensitive issues.

Dr. Lee joined Ohio State in 1991 after teaching at Denison University for 15 years. She has a bachelor's degree from Atlantic Union College, a master's degree from Andrews University, and a doctorate in English from Ohio State.
Emmalou Van Tilburg Norland  
Associate Professor of Agricultural Education  

Professor Norland instructs graduate students in instrumentation and procedures for data collection, methods of teaching agriculture, and continuing education in agriculture. She also conducts a research seminar. Her clarity of instruction, creativity, and diversity of teaching methods have drawn students from more than 30 departments to her classes.

Dr. Norland, a faculty member since 1985, has also worked for Ohio State University Extension. She has an associate's degree in recreation and wildlife from Hocking Technical College, a bachelor's degree in public affairs and community service from the University of Toledo, and master's and doctoral degrees in extension education from Ohio State.

Frank E. Poirier  
Professor of Anthropology  

Professor Poirier, who also chairs the Department of Anthropology, initiated the present course of study in physical anthropology at the University. He teaches introductory physical anthropology, human evolution, and primate behavior. He enriches his classes with slides, fossil casts, and films made during his own extensive fieldwork, and he also employs humor and encourages questions from students.

Author of three textbooks and an Ohio State faculty member since 1968, Dr. Poirier holds a bachelor's degree in social sciences and biology from Paterson State College, and master's and doctoral degrees in anthropology from the University of Oregon.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by the Office of Research with honoraria provided by The Ohio State University Development Fund. It recognizes exceptional scholarly accomplishments by senior professors who have compiled a substantial body of outstanding research, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprised of senior faculty members including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented to the recipients.

Award Recipients

Laszlo Adler
Taine McDougald Professor of Welding Engineering and Engineering Mechanics

Professor Adler is among the world's leading authorities on non-destructive testing of materials. He uses methods such as ultrasound and electromagnets to analyze metals, ceramics, composites and other solid materials, including bones, in order to detect flaws and areas of weakness.

Dr. Adler teaches courses in fundamental ultrasonics, electromagnetic methods of nondestructive evaluation, and linear acoustics. He is director of Ohio State's doctoral program in nondestructive evaluation. A faculty member at Ohio State since 1980, he earned his bachelor's degree in physics and mathematics at Eotvos Lorand University in Budapest, his master's degree in physics at Michigan State University, and his doctorate in physics at the University of Tennessee.

John C. Burnham
Professor of History

Professor Burnham is a renowned scholar in the field of medical history. His book Psychoanalysis and American Medicine, 1894-1918: Medicine, Science and Culture, is considered the definitive work on the subject. Others of his books have explored the popularization of science and health, changes in sexual behavior and other social and medical issues, and the history of sin. Currently, he is working on a book about the impact of Sigmund Freud on the Western world.

An Ohio State faculty member since 1961, Dr. Burnham has taught at other universities in the United States and Australia. He holds three degrees in history: bachelor's and doctoral from Stanford University and master's from the University of Wisconsin.
Charles C. Capen  
Professor of Veterinary Pathobiology  
Professor of Internal Medicine

Professor Capen, an expert in endocrine pathology, studies the mechanism of disease and applications for prevention or treatment in both animals and humans. His research has included prevention of disturbances of blood calcium levels associated with lactation during pregnancy in cows, and investigating mechanisms by which drugs, food additives, and environmental pollutants affect thyroid function and induce tumors in laboratory animals.

Dr. Capen has chaired the Department of Veterinary Pathobiology for the past 12 years and teaches a course on the endocrine system to veterinary medical students. He earned his D.V.M. at Washington State University and master's and doctoral degrees in veterinary pathobiology at Ohio State.

Matthew D. Foreman  
Professor of Mathematics

Professor Foreman is credited with making important contributions that have changed the face of set theory. As one example, he shattered the generally accepted view on the probable relationships between large cardinal axioms and determinacy hypotheses. He and a colleague recently solved a mathematical problem, posed more than 60 years ago, on the paradoxical decomposition of the sphere.

Dr. Foreman has been an Ohio State faculty member since 1986 and teaches a variety of courses ranging from freshman pre-calculus to advanced graduate calculus. He holds a bachelor's degree from the University of Colorado and a doctorate from the University of California at Berkeley.

Richard F. Hamilton  
Professor of Sociology  
Professor of Political Science

Professor Hamilton has found weaknesses in many traditional sociological theories and has challenged many myths through collection and analysis of empirical data. For instance, he uncovered evidence that discredited the thesis that the lower middle class was Hitler's strongest support group. He also recently found that, contrary to popular thought, university professors became more conservative between 1969 and 1984.

At Ohio State since 1986, Dr. Hamilton teaches courses on sociology of elites, contemporary American society, historical sociology, and structural sociology. He has a bachelor's degree from the University of Chicago, and master's and doctoral degrees in sociology from Columbia University.
Janice K. Kiecolt-Glaser  
Professor of Psychiatry  
Professor of Psychology

Professor Kiecolt-Glaser is considered a world leader in the newly emerging field of psychoneuroimmunology, the study of the influence of the central nervous system on the human body’s protective immune and endocrine systems. She looks at how stress may alter health through the immune function and has conducted pioneering work in the field, frequently in collaboration with her husband Ron Glaser, a virologist. Last year, she received a MERIT award from the National Institute of Mental Health, given only to premier researchers.

Dr. Kiecolt-Glaser, who has been a member of the Ohio State faculty since 1978, teaches post-doctoral students in psychoneuroimmunology. She holds a bachelor’s degree in psychology from the University of Oklahoma and a doctorate in clinical psychology from the University of Miami.

Alumni Award for Distinguished Teaching

The Alumni Award for Distinguished Teaching was established by The Ohio State University to provide encouragement and incentive for teaching achievements. Recipients are nominated by their students and colleagues and are chosen by a committee comprised of alumni, students, and faculty. Recipients are recognized with cash awards made possible by contributions from alumni and friends of The Ohio State University. In addition, the Office of Academic Affairs awards an increase in salary on a permanent basis.

The University gratefully acknowledges gifts made in support of these awards, including those by Mrs. Thelma Price and past gifts from the Amoco Foundation, Inc.

Mrs. Price's contribution is in memory of her husband, Sanford, recognizing that excellent teaching is an essential part of an excellent university. In making the gift she said, "I hope the establishment of this gift will lead other people who have enjoyed the experience of having an expert teacher to recognize that excellence."

The Amoco Foundation, Inc. stated, "We recognize the importance of strong undergraduate teaching and hope these awards can be used to emphasize the important contributions of outstanding teachers."

Award Recipients

John P. Bruno
Associate Professor of Psychology
Associate Professor of Psychiatry

Dr. Bruno, who is widely recognized as a leading scholar in the field of psychobiology, has consistently been cited as one of the best teachers in the Department of Psychology. He has been nominated for the Alumni Award for Distinguished Teaching four times and was last year's Teacher of the Year in the department. A faculty member here since 1986, he teaches developmental psychology, physiological psychology, individual studies in biopsychology, and seminars in experimental psychology. He is a member of the department's undergraduate curriculum committee and is helping to revamp the undergraduate degree program in psychology. His students praise both the immediacy and depth of his knowledge and his personable approach to teaching.

Josina M. Makau
Associate Professor of Communication

Dr. Makau, a specialist in rhetoric and argumentation, takes her scholarly expertise into the classroom. Her students are enriched by her ability to help them see connections between theory and practice, especially links across disciplines. They also admire the way she presents controversial ideas in a non-threatening manner and her ability to elicit class participation. In addition to supervising the graduate teaching assistants in rhetoric, Dr. Makau teaches introduction to rhetorical analysis, argumentation and debate, ethics of communication, and legal reasoning. A member of Ohio State's faculty since 1979, she is a national leader in developing a new model of argumentation which moves away from traditional confrontation styles to a broader conception of the process.
Frederick D. Meyers
Associate Professor of Engineering Graphics
Professor Meyers, who worked for nearly 30 years as an engineer for Owens Corning Fiberglass Corp. before joining the Ohio State faculty in 1982, brings a wealth of experience to his classes in entry level engineering graphics. His students appreciate his “real world” approach, as well as his generous attention to their individual needs. As the 1993 winner of the College of Engineering’s best teacher award, Professor Meyers has done much to improve the undergraduate engineering program, including writing textbook material, surveying alumni and their employers, and going back to industry to collect data. As faculty adviser to Tau Beta Pi, he has helped revive the engineering honorary into a tightly knit group which serves the college and community.

Antoinette Miranda
Assistant Professor of Educational Services and Research
A former practicing school psychologist, Dr. Miranda came to Ohio State in 1988. She teaches graduate level courses in school psychology and has major responsibility for the year-long internship program, a departmental cultural diversity course, and a seminar series in pre-school psychology. She has received a four-year, $100,000 annual grant from the U.S. Department of Education to train school psychologists to work with preschool age children in Project Head Start. Her students cite her contagious energy, innovation, and accessibility, in addition to her ability to clearly relate theory to practice.

Barry L. Nelson
Associate Professor of Industrial and Systems Engineering
Associate Professor of Statistics
Dr. Nelson designed and teaches a required undergraduate course in computer simulation as well as graduate level courses in modeling systems and advanced simulation design. An internationally known expert in the field of statistical methods and analysis for computer simulation, especially in variance reduction, he recently completed the manuscript for a textbook which takes a fresh approach to teaching engineering methods. Despite the difficulty of the course material he presents, Dr. Nelson, an Ohio State faculty member since 1984, is highly regarded by his students. In 1992 he was named best teacher in the College of Engineering, and his nominators for this award were nearly unanimous in praising the exceptional clarity and organization of his class presentations.

Joy H. Reilly
Associate Professor of Theatre
Since 1986, Dr. Reilly has been introducing hundreds of Ohio State students to the theatre each year. As a lecturer in the large GEC course Theatre 100 she has shown them by word and example the power of a good performance. The student nominators noted her ability to make a class of 600 or more students seem intimate and to encourage discussion and participation within such a large group. Many credit her with giving them an appreciation for theatre and the other arts that continues to enrich their lives years later. In addition, Dr. Reilly teaches a variety of other theatre courses and is active as an actress and director in university and community theatre.
Deborah L. Tannehill
Associate Professor of Health, Physical Education and Recreation
Dr. Tannehill is a role model for the future teachers in her physical education classes, demonstrating effective teaching techniques both directly and indirectly. An Ohio State faculty member since 1987, she teaches an introductory class in teaching and classroom management, track and field skills, skill analysis, and instructional design. She also is the coordinator of student teaching in physical education. Dr. Tannehill is particularly interested in the use of interactive video disc technology in physical education. Her students praise her for setting high standards, demonstrating enthusiasm, giving timely and valuable feedback, and providing personal encouragement.

Joseph T. Zeidan
Assistant Professor of Judaic, Near Eastern and Hellenic Languages and Literatures
Dr. Zeidan has been at Ohio State since 1986. His areas of specialization are classical and modern Arabic, modern Hebrew literature, and intellectual movements in the modern Arab world. He teaches a wide range of courses dealing with Arabic literature, grammar, conversation, and composition. His students comment on his dedication and enthusiasm, his genuine interest in helping them learn, and his very supportive and cooperative approach to teaching. He has developed and recently upgraded an honors version of Arabic 273: Modern Arabic Literature in Translation which has attracted a growing number of students.
Distinguished Scholar Award

The Distinguished Scholar Award was established in 1978 and is supported by the Office of Research with honoraria provided by The Ohio State University Development Fund. It recognizes exceptional scholarly accomplishments by senior professors who have compiled a substantial body of outstanding research, as well as the work of younger faculty members who have demonstrated great scholarly potential. Recipients are nominated by their departments and chosen by a committee comprised of senior faculty members, including several previous recipients of the award. Cash awards, which include honoraria and unrestricted research funds, are presented to the recipients.

Award Recipients

Clark L. Anderson
Professor of Internal Medicine
Professor of Medical Genetics
Professor of Medical Biochemistry

Dr. Anderson, immunologist and medical scientist, has for the past 15 years been a leader in the study of how antibodies exert their biological effects in humans. He has pioneered the discovery and exploration of the structure and function of Fc receptors, contributing widely to our understanding of their biology. His contributions have been seminal and have created new avenues of exploration at the most basic level that have resulted in practical application in the care of patients. As a professor, Dr. Anderson has had significant influence on the maturation of young scientists at all levels, and he has created and maintained a rigorously scholarly and intellectual environment for his associates and trainees, not only in the classroom but also in his laboratory and clinic. An Ohio State faculty member since 1986, he has been an international leader in his field, serving as speaker, editor, reviewer, and consultant.

Gregory A. Caldeira
Professor of Political Science

Dr. Caldeira, who came to Ohio State in 1986, is a specialist in judicial politics. He has made major contributions to the field through his studies of such issues as public opinion and the courts, selection of cases by the U.S. Supreme Court, and communication among supreme courts. He has also done important research on interest groups, legislatures, and the behavior of voters. Few scholars of his age have as impressive a record of publications in the major journals of political science. The quality of his research is reflected in a series of major grants from the National Science Foundation and other agencies, and his status as a scholar has been recognized with several leadership positions in the American Political Science Association.
Daniel J. Crawford  
Professor of Plant Biology

Dr. Crawford came to Ohio State in 1977 and quickly rose through the faculty ranks as his research on the evolutionary relationships of plants in the sunflower and grass families gained him international recognition. In particular, he has been a pioneer in the use of protein chemistry, enzyme structure and, more recently, molecular biology of DNA in reconstructing evolutionary histories of plant families and clarifying evolutionary relationships among diverse plant groups. He has also been a key part of a research team which continues to study the unique flora of the Robinson Crusoe Islands off the coast of Chile, where entire plant families found nowhere else in the world are on the brink of extinction. Dr. Crawford has published almost 100 articles in major journals, and he has been funded by more than two dozen National Science Foundation grants. He also has served as the president of the American Society of Plant Taxonomists and as chairperson of the Department of Plant Biology at Ohio State.

Rattan Lal  
Professor of Agronomy  
Professor, OARDC

Dr. Lal, who earned his Ph.D. at Ohio State in 1968, spent 17 years in West Africa, a year in Australia, and two years in India before returning here in 1987 as a faculty member. He is an eminent specialist in soil science, specializing in soil processes and greenhouse effect, soil wetness and anaerobiosis sustainable management of soil and water resources, restoration of degraded lands, soil and water conservation, water quality, land drainage, tropical ecosystems, international agronomy and agroforestry. He has written two books and edited 17 others, and authored about 300 articles. Dr. Lal is a former president of the International Soil Tillage Research Organization of the World Association of Soil and Water Conservation. He is a fellow of the Soil Science Society of America, the American Society of Agronomy, and the Third World Academy of Sciences. He is a recipient of the International Soil Science Award and the Applied Soil Research Award, both presented by the Soil Science Society of America.

Vassilios Lambropoulos  
Professor of Near Eastern, Judaic and Hellenic Languages and Literatures

Dr. Lambropoulos is a scholar whose excellence in research has been demonstrated in three areas: modern Greek, critical theory, and cultural studies. In each, he has contributed books, collections, anthologies, and papers which examine major literary, cultural, and humanistic issues. A member of the Ohio State faculty since 1981, he has raised crucial questions of taste, education, ideology, national identity, and ethics. Relocating artistic creativity and reception in the public domain, he has been consistently concerned with the role of the intellectual and the university, as well as the Hellenic ideal in the modern world. The originality of his approach is further strengthened by an emphasis on neglected writers, works, and periods; a comparatist's perspective which brings several cultures together; and an interdisciplinary focus which promotes the shared values and responsibilities of the humanities.
Allan R. Millett
Professor of History
Professor Mershon Center Education

Since 1969 when he returned to Ohio State, his graduate alma mater, Dr. Millett has virtually single-handedly made its military history graduate program the preeminent program in the United States and perhaps the world. A pioneer spokesman and practitioner of the “new military history,” he examines in his five books and many articles such long-neglected topics as the social history of the armed forces. Dr. Millett has been influential in redirecting the research efforts of military historians everywhere. He has supervised some 30 doctoral dissertations in this innovative vein, and many of his students hold posts of influence in the defense and educational establishments of the United States and other countries. Having been elected to the major offices in both the American and international professional organizations of his discipline, he is recognized worldwide as one of its paramount figures.
Board of Trustees
(The expiration date of each
trustee’s term is given in
parentheses.)
Deborah E. Casto, Chair (1994)
John W. Kessler (1995)
Milton A. Wolf (1996)
Leslie H. Wexner (1997)

Closing Remarks
Provost Ray
The Alumni Award for Distinguished Teaching honors faculty members for superior teaching. Recipients are nominated by present and former students and colleagues and are chosen by a committee of alumni, students and faculty. They receive a cash award of $3,000, made possible by contributions from the Alumni Association, graduates, former students and friends of Ohio State. They also receive a $1,200 increase in their base salaries from the Office of Academic Affairs. The recipients will be inducted into the university’s Academy of Teaching, which provides leadership for the improvement of teaching at Ohio State.

**Awards Recipients**

- **William V. Ackerman**
  Assistant Professor of Geography
  *The Ohio State University, Lima*

  Professor Ackerman is the geography department at the Lima campus. Praised by students and colleagues as an exceptional teacher, he also has developed research projects that benefit the Lima community, including studies on crime in small cities. An Ohio State faculty member since 1993, Professor Ackerman teaches three geography courses and offers night sections to accommodate working adult students. He also has established a student internship program with regional planners. Colleagues note his work to incorporate technology into his teaching; for example, he has installed an electronic weather station in the hallway outside his office.

- **Scott L. DeWitt**
  Associate Professor of English
  *The Ohio State University, Marion*

  Praised by students as an innovative and inspiring teacher, Professor DeWitt similarly is recognized by colleagues as one of the finest teachers on campus. A faculty member since 1992, he teaches a range of courses from freshman English composition to advanced writing courses. Professor DeWitt is a leader in bringing technology to the classroom. His students use computers exclusively to compose their papers, use the Internet as a research tool, and use Web sites for interaction and additional learning. He also offers classes to faculty and community members on using the Internet as a teaching tool.
Cynthia B. Dillard  
*Assistant Professor of Educational Theory and Practice*  
*College of Education*

Professor Dillard has made her mark on the College of Education faculty since coming to Ohio State in 1994. Regarded as a gifted teacher at all levels, she also receives high praise for her work as assistant dean for diversity and outreach, a post she has held since 1995. In that capacity, she is credited with creating programming to support students and engaging faculty and students in forums dealing with diversity issues. Professor Dillard teaches graduate courses in multicultural education, and elementary curriculum and supervision. She also works with professional development initiatives in the Columbus public schools.

Christopher Mark Grimsley  
*Associate Professor of History*  
*College of Humanities*

An Ohio State faculty member since 1992, Professor Grimsley wrote the award-winning *The Hard Hand of War: Union Military Policy Toward Southern Civilians, 1861-1865* (1995). Also the author of numerous chapters and articles as an expert in American military history and the Civil War, Professor Grimsley teaches both undergraduate history survey courses and graduate seminars in military history. Lauded by students for his lively lectures and by colleagues for excelling at teaching both large lecture classes and small upper-division courses, Professor Grimsley received the 1997 Ben M. Jones III Award for Distinguished Undergraduate Teaching in the College of Humanities.

Michelle R. Herman  
*Associate Professor of English*  
*College of Humanities*

Professor Herman joined Ohio State’s English faculty in 1988 after earning an M.F.A. and serving as an instructor in the renowned Iowa Writer’s Workshop at the University of Iowa. An author of numerous essays and stories, her publications include *A New and Glorious Life* (1998), a collection of novellas, and the award-winning novel *Missing* (1990). Professor Herman directs the Creative Writing Program and was instrumental in its planning. Widely commended for her commitment of time to students, Professor Herman also receives praise from colleagues for her success at teaching at every level of the curriculum.

Todd L. Lowary  
*Assistant Professor of Chemistry*  
*College of Mathematical and Physical Sciences*

An Ohio State faculty member since 1996, Professor Lowary maintains personal connections with his students while enhancing his teaching with technology. He developed the Organic Chemistry Resource Page, the first World Wide Web page for an organic chemistry course at the university. Its impact extends beyond Ohio State; students from other universities write to thank the department for the service. Professor Lowary has built an extensive research group of graduate and undergraduate students. His former students have published research in leading journals, and have obtained positions in medical schools, top graduate schools and the pharmaceutical industry.
Terrell A. Morgan
Associate Professor of Spanish Linguistics
College of Humanities

A faculty member since 1984, Professor Morgan is the author of numerous papers in print or press and two books in progress, and has delivered more than three dozen presentations and lectures. Professor Morgan teaches upper-level Spanish classes and leads seminars abroad to introduce students to Hispanic culture. His main areas of interest are Spanish pronunciation and phonology, and Spanish and Hispanic culture. Students repeatedly call him the best teacher they've ever had and say his enthusiasm and innovative teaching techniques motivate them to study with rigor. Colleagues say he is completely natural as a successful and effective teacher.

Diane M. Sainato
Associate Professor of Special Education
School of Physical Activity and Educational Services
College of Education

In both her teaching and research, Professor Sainato has shown dedication to improving the quality of life for young children with severe disabilities. She is responsible for teaching part of the core of the undergraduate special education pre-licensure program. She also initiated the master's program for teachers of young children with disabilities and began the teacher certification program in this area when she arrived at Ohio State in 1989. A co-editor of a book on Behavior Analysis in Education, Professor Sainato also jointly teaches a World Wide Web course on teaching special education students in the inclusive classroom.

Robert J. Scherrer
Professor of Physics
College of Mathematical and Physical Sciences

A highly respected researcher in the field of cosmology, Professor Scherrer is equally well regarded for his teaching ability. He has earned enthusiastic reviews from students in all levels of the physics curriculum and is lauded by colleagues for the breadth and depth of his teaching, spanning courses from the 100 to 999 levels. He also has a reputation within the department as the person to turn to when a course needs revitalization. Professor Scherrer joined the Ohio State faculty in 1989 and received the Physics Teacher of the Year Award the following year.

John C. Thrasher
Assistant Professor of Art
The Ohio State University, Mansfield

Professor Thrasher won the Mansfield Campus Outstanding Teacher Award in 1995, his first year as a faculty member. In addition to praising his teaching, many students acknowledge his obvious devotion to art. As coordinator and instructor of all visual arts curricula on the campus, Professor Thrasher teaches drawing, painting, visual studies, and concepts and issues in art. An Ohio State M.F.A. graduate, he also taught life drawing and ceramic hand-building classes as a graduate teaching associate, instructor and lecturer on the Columbus campus from 1992 to 1995. His works have been exhibited throughout Ohio and Kentucky, and in Denver, Pittsburgh and Manama, Bahrain.
1999 DISTINGUISHED SCHOLAR AWARD

The Distinguished Scholar Award, established in 1978, recognizes exceptional scholarly accomplishments by senior professors who have compiled a substantial body of research, as well as the work of younger faculty members who have demonstrated great scholarly potential. The award is supported by the Office of Research with honoraria provided by The Ohio State University Development Fund. Recipients are nominated by their departments and chosen by a committee of senior faculty, including several past recipients of the award. Distinguished Scholars receive a $3,000 honorarium and a research grant of $20,000 to be used over the next three years.

AWARD RECIPIENTS

Frank C. De Lucia
Professor of Physics
College of Mathematical and Physical Sciences

Professor De Lucia is a leading figure in the field of molecular spectroscopy. He has pioneered the development of the submillimeter region of the electromagnetic spectrum and its application to scientific problems in physics, chemistry and astrophysics. His interests include the spectroscopic study of small, fundamental molecules, molecular collisions at the low temperatures characteristic of the interstellar medium, and quantum electronics. During Professor De Lucia’s two terms as chair of Ohio State’s Department of Physics, from 1990 to 1998, the department grew significantly in national stature and received the university’s Selective Investment Award. Professor De Lucia also is known as an excellent teacher and mentor.

Margarita L. Mazo
Professor of Music
College of the Arts

Professor Mazo is an internationally renowned specialist on both the folk and art music of Russia. Considered the world’s authority on the lament in the Russian folk wedding ritual, she also has introduced a new method of research — real-time sound-spectrum analysis — into the field of ethnomusicology. She is vitally concerned with music and its role in society and acts upon that concern as a scholar, performer and teacher. Educated at the Leningrad State Conservatory in the former Soviet Union and a former faculty member there, Professor Mazo joined the Ohio State faculty in 1984.
Lowell R. Nault  
*Professor of Entomology*  
*Ohio Agricultural Research and Development Center, Wooster*

An Ohio State faculty member since 1966, Professor Nault is considered a world leader in research on insect transmission of plant viruses. Corn growers laud his work in developing plants resistant to several economically devastating diseases. The author of more than 100 research articles and a dozen book chapters, Professor Nault has attracted top researchers to the university. Colleagues praise his success at combining research, teaching and administrative responsibilities; he currently is interim director of OARDC. Professor Nault has been elected a fellow of four professional societies, including the Entomological Society of America.

Umit S. Ozkan  
*Professor of Chemical Engineering*  
*College of Engineering*

Since joining Ohio State in 1985, Professor Ozkan has become an international leader in heterogeneous catalysis — the modification of chemical reactions between gases, liquids, or both at the surface of a material that acts as a catalyst. She has garnered government and commercial funding to build a state-of-the-art laboratory that supports one of the strongest heterogeneous catalysis programs in the nation. Her work affects many societal and economic issues, in particular energy, the environment and the economics of chemical processes. Among her numerous awards, she has received the National Science Foundation Woman Faculty Award for Excellence in Teaching and Research.

Yasuko Rikihisa  
*Professor of Veterinary Biosciences*  
*College of Veterinary Medicine*

A member of the Ohio State faculty since 1986, Professor Rikihisa studies infectious disease organisms. She focuses primarily on *Ehrlichia* — bacteria that can cause debilitating illness or death in domestic animals and in humans. Praised as a pioneer in research on emerging chorial diseases, she won the 1997 Pfizer Animal Health Award for Research Excellence and the 1992 Smith Kline Beecham Award for Research Excellence. The author of more than 160 research papers on infectious diseases, Professor Rikihisa’s work led to the discovery of the agent that causes Potomac horse fever.

Martin F. Sarter  
*Professor of Psychology, Psychiatry and Cell Biology, Neurobiology, and Anatomy*  
*Colleges of Social and Behavioral Sciences and Medicine and Public Health*

Professor Sarter is an internationally renowned scientist in the areas of biological psychology, biological psychiatry and neuroscience. His research has helped illuminate the complex brain mechanisms that are involved in cognitive functions and the development of disorders such as Alzheimer’s disease and schizophrenia. His work played a major role in the establishment of a new research field — geriatric neuropharmacology. As a result of his research, several prototype compounds have reached the level of clinical testing in patients suffering from age-associated cognitive impairments such as Alzheimer’s. He has been an Ohio State faculty member since 1988.
The Faculty Award for Distinguished University Service honors faculty members whose contributions to the development and implementation of university policies and programs through non-administrative roles have been extensive and have made documentable impact on the quality of the university. The recipients also have continued to provide effective teaching and have maintained an active program of research, scholarship or creative work. Recipients are nominated by members of the university community and selected by a committee of faculty, administrators and previous recipients. They receive both a cash award of $3,000 and an increase of $1,200 to their base salaries from the Office of Academic Affairs.

AWARD RECIPIENTS

Dale F. Bertsch
Professor of City and Regional Planning and Public Policy and Management
Colleges of Engineering and Social and Behavioral Sciences

Since joining the faculty in 1979, Professor Bertsch has served on and chaired dozens of groups whose jobs range from university governance and planning to national policy advice. Handling delicate and difficult tasks with fairness and energy, he serves on roughly 20 committees, including ad hoc panels on budget restructuring and responsibility-centered management, the Student Evaluation of Teaching Committee and the Campus Collaborative. He also has brought honor to Ohio State by serving in many advisory positions at the city, state and national level. The author of dozens of publications, Professor Bertsch has been awarded many professional honors.

Susan M. Hartmann
Professor of History and Women’s Studies
College of Humanities

Professor Hartmann’s record at Ohio State is diverse: In addition to maintaining an illustrious academic career, including authoring award-winning scholarly books, she directed women’s studies during the program’s formative years, serves on the University Promotion and Tenure Committee and recently was reappointed as faculty athletics representative. Professor Hartmann is credited with ensuring that the restructured General Education Curriculum reflected gender as a category in its social diversity requirement, and is a dedicated faculty adviser to the Mortar Board senior honorary society. A faculty member since 1986, Professor Hartmann is a noted scholar in U.S. and women’s history.

Alan J. Randall
Professor and Chair of Agricultural, Environmental, and Development Economics
College of Food, Agricultural, and Environmental Sciences

Professor Randall has held what one colleague regarded as the five most prestigious faculty appointments in the university: membership on the Research Commission, the University’s Promotion and Tenure Committee, and the most recent presidential search committee, as well as chairing the Council on Academic Affairs (CAA) and Faculty Council. Among the issues facilitated with his guidance are the Student Evaluation of Instruction and the transportation and parking plan. Since joining Ohio State in 1985, Professor Randall has held numerous committee posts while maintaining a renowned research program and sustaining a reputation as an outstanding teacher.
